The Price Current (Cincinnati) reports that all crops are making satisfactory progress. Winter wheat improved during the past week, and conditions in some localities are much better than expected. Spring wheat reports are favorable. Corn conditions have improved somewhat during the past few days, owing to the clear and warmer weather. The outlook for oats is very discouraging and the crop is progressing rapidly towards maturity.

Chicago Gossip.

J. P. Bickell & Co say at the close of the market:

Wheat—Higher. Firm cables and renewed complaints from spring wheat belt, owing to dry weather, kept a dull market firm, closing ½c to ⅝c higher. Cash demand fair and spring wheat needing moisture. On all declines we advise purchases.

Erickson Perkins & Co. had the following at the close:

Wheat—The market opened firm and has ruled so thruout the session. The character of the northwestern news to-day held in check the raiding operations, which have been in evidence for some time past. Wheat is gaining friends and buyers appear on weak spots and take the offerings with much more confidence. A 90c level seems to appeal to not a few people as, at least, somewhere near a readjustment basis, especially considering the fact that one wheat crop has yet to get much of its growth and the other which is nearing maturity has yet to be safely harvested.

Corn—The weather was certainly good corn weather, but some talk is heard of its being too dry in sections of the belt. Considering the strength in wheat and oats, the corn market cannot be said to have had anything more than a steady tone. It is largely a weather proposition at the moment.

Oats—Market ruled strong and higher early, easing some towards the end of the session.

SECOND WILL HOLDS GOOD

Action Brought by Brother Against Sister Dismissed With Costs.

Justice Sutherland dismissed with costs the action brought by Geo. Henry Graham, photo engraver, in the non-jury court, to set aside the will of his father, the late John Graham, and to declare a previous will valid. The defendants were Mary Ann Graham, his sister, and Timothy Barker, executrix and executor of the last will.

In the first will the estate, valued at $12,000, was to be divided equally between the son and the defendant, Mary Ann Graham, but this was set aside and the whole of the estate was to go to the daughter with the exception that in the event of the daughter's marriage, Henry was to get half. The defendant never married.

The father died in January, 1910, and the plaintiff claimed that he was of unsound mind when the second will was made and that undue influence had been brought to bear upon him.

"My sister and I were never as brother and sister should be," said the plaintiff. "She was older than I and she always bossed me and domineered over me. I submitted and there never was any open rupture."

A letter written by Miss Graham to her brother on Nov. 19 of 1908, in which she said that he had been "a little out of his mind," was read.

Miss Graham asserted that the will was altered at the father's own suggestion.

One of the chief witnesses for the plaintiff was Mrs. Matthias, who lived in the Graham house from the spring of 1908 until after John Graham's death, and in giving judgment his lordship remarked on her attitude towards the defendant.

"Had it not been," he said, "that this witness had manifested such vindictiveness, I would have been able to rely more on her evidence."

His lordship decided from the evidence that deceased was competent to make the second will in October, 1908. The first was dated Oct., 1904.

103 CARS AT CITY YARDS QUALITY GENERALLY GOOD

Trade Fair and Prices Easier, Especially for Best Cattle—Sheep, Lambs, Calves, Hogs Steady.

Receipts of live stock at the City Yards for Wednesday and Thursday were reported by the railways to be 103 car loads, consisting of 1750 cattle, 2180 hogs, 1144 sheep and 414 calves. The bulk of the cattle on sale were of medium to good quality, altho there was quite a number of grassers that were slow of sale, as many of them should have been kept still longer on the grass.

There was a good trade for the best stall-fed cattle, and those that had been fed meal while on the grass. Prices for these were a little easier and slow, but the common grassers were hard to sell, as few of the dealers seemed to want this class and prices for them were easier and likely to go still lower.

Exporters.

George Rowntree bought export steers at $7.25 to $7.55, but only 4 at the latter figure, and some export bulls at $5.40 to $6.40.

Butchers.

George Rowntree bought for the Harris Abattoir Co. 400 cattle, all told. Butchers' steers and heifers, at $6 to $7.10; cows, $3 to $6.15.

Stockers and Feeders.

H. Murby reports a light trade in stockers and feeders, but expects trade to pick up in the near future, as light grass stockers were easier on the market today.

Mr. Murby handled about 150 at following quotations: Steers, 800 to 1000 lbs., $5 to $5.75; steers, 600 to 800 lbs., $4.25 to $4.75; stockers, $3.50 to $4.50.

Milkers and Springers.

Receipts were large for the two days. The demand has fallen off from what it was a few weeks ago, in fact, from last week. The outlet was not good, except for the best. Choice backward springers sold about as well as any of the cows on sale. Dealers all agreed that prices were from $5 to $8 per head lower than last week. Some good cows sold from $60 to $65, with the medium grades at $35 to $45, and common down to $30.

Veal Calves.

Moderate deliveries met a steady market, prices being unchanged from $3 to $6.50 per cwt., or an average of about $5.75 per cwt.

Sheep and Lambs.

There was little change in sheep prices, but lambs were fully a cent per pound cheaper. Ewes of light weight sold at $4.50 to $5.25; heavy fat ewes, $4 to $4.50; rams, at $3.50 to $4 per cwt.; spring lambs, 8c to 8¾c per lb., alive.

Hogs.

Mr. Harris reported the market steady for hogs, at $9.85 for selects, fed and watered, at the market, and $9, f.o.b., cars, at country points. There were some sales made at $9.40, fed and watered, and $9.15, f.o.b., cars, country points.

PORT ARTHUR VOTES ON THIRTEEN BYLAWS

Several Fail to Get Necessar Two-thirds Vote—Company Will Go Ahead.

PORT ARTHUR, June 16.—(Special.)—A light vote was recorded on the thirteen bylaws, and the whole vote in most cases was largely in favor. Some were lost because the necessary two-thirds was not recorded. The chief one to suffer in this way was an agreement to give a site to the enamel works, organized by Robert Greig, to employ 200 hands. It is likely, however, that the large vote in favor will encourage the company to go ahead, in confidence that a sufficient number will be recorded at the municipal election.

The bylaws carried were: Sewer and light extension, $8000; to West Algoma Agricultural Society, $6000; to Y. M. C. A. waterworks extension, telephone extension. Failed for insufficient vote: Agreement with enamel works; giving site to Hawkins & Williams' chain works; parade ground for armory; exemption from tax of Finnish Labor Temple, and aid to McMurchy Institute. Defeated: $3000 for paving at Current River Park.

INQUEST ON DOCTOR'S WIFE

Probably Took Poison in Mistake for Saltpetre Tablets.

NORWICH, June 16.—(Special.)—At the inquest to-day on the body of Mrs. (Dr.) Riddell, who was found dead on the dining-room floor by her husband, ten witnesses were examined by Coroner Ellis. All testified that Dr. Riddell and his wife had always lived happily together, also that Mrs. Riddell was in good spirits 30 minutes before her decease.

Dr. Riddell established clearly the fact that he had been away all day, from 10 a.m. until 9 p.m.

His wife, he said, had been afflicted with stomach trouble, for which she had been taking tablets of saltpetre and potassium bromide. He thought that perhaps she had tried to get some of these and had in mistake taken something else from his laboratory.

The inquest was adjourned till Thursday to await the report of the analysis of the stomach, which had been sent to Toronto.

Sixteen loaves were seized, and each was found to be short of the required weight of 10 ounces by one and a half to two ounces.
