THE MOST IMPORTANT BASEBALL MEETINGS

National and American Rules and Schedule, and Conference With Minors.

New York, Jan. 23.—On his return from the west today John Heydler, president of the National League, announced that the baseball meetings to be held in Chicago next month will be among the most important sessions ever held in the history of the sport.

A meeting of the joint rules committee has been called for Feb. 9. On Feb. 10, the National and American Leagues will hold their respective schedule meetings. On Feb. 11, the National and American League will hold their joint meetings, and Feb. 12 the Major Leagues will confer with the minor league committee, which hopes to enter into a new working agreement with the majors.

Heydler said he believed a new commission chairman will be named at the joint major league conference on Feb. 11. He said the commission situation now was in the hands of the committee appointed to select a new chairman, and that he believed that this committee soon would hold a meeting.

O. A. C. ALUMNI HOLD REUNION

Form New Body Called "Canadian Society of Technical Agriculturists."

Post students and professors of the Ontario Agricultural College, to the number of nearly one hundred, had a dinner and an organization meeting at the Walker House last night.

Professor Gamble, who was in the chair, explained that it was proposed to organize a society in the interests of Canadian agriculturists, and to promote the welfare and efficiency of the technical teaching of official managerial men and women of the industry. The new society is to be called The Canadian Society of Technical Agriculturists.

The Hon. Manning Doherty, minister of agriculture, was the principal speaker of the evening. He is an old O.A.C. man himself, and as such he issued a warning to those about to form the new organization, altho he favored it. He advised them to bar from membership the minister of agriculture and the head of the college at Guelph. By adopting that course, they would not have their hands tied when they wanted to criticize without restraint. Mr. Doherty said that so long as he occupied his present position he would see that the college received every help and encouragement to turn out successful farmers, and he would place in the hands of the head of the college every possible means to turn out professional agriculturists. In doing that he would want to assure himself that the man so turned out was thoroly trained and could go to any part of the world and get a job on the strength of being an O.A.C. trained man.

In Touch With Farmers.

He proposed also that the head of the college kept in touch with the farmers of the province, as he thought the problems of the farmers should be brought to practical men to solve. In referring to the teaching staff Mr. Doherty said no man could go on lecturing year after year unless he became familiar with the ideas and problems of the day. He proposed to so coordinate the teaching that the professors would be kept in close touch with the farmers. Agriculture, Mr. Doherty thought, was greatly in the minds of politicians and financiers at the present time. He claimed agriculture saved the world from starvation when the war had lasted two years. Unless, he contended, agriculture was given a first place in the present development, the world at large could not make much headway. He was not a pessimist, he declared, but an optimist and he was strongly of the opinion that if agriculturists put their shoulders together they would make Ontario the greatest province in the Dominion and help greatly towards reducing the great debt of the Dominion.

Lieut.-Col. Brown, Profs. Zavitz and George Putman were amongst the other speakers.

Amongst those present beside the minister of agriculture were J. J. Fee, G. F. Brown, R. S. Duncan, R. M. Tippet, F. C. Hart, W. P. Gamble, C. A. Zavitz, A. Leitch, R. W. Wade, Geo. A. Putman and W. G. Brown.

The following officers were elected: Hon. president, Hon. E. C. Drury; president, C. T. Bailey, Toronto; first vice-president, G. E. Day, Guelph; second vice-president, J. N. Allen, Dunnville; secretary, Justin Miller, Toronto; treasurer, J. J. Sleighthoim, Toronto; publicist, W. Dawson, Toronto; auditors, C. A. Zavitz, J. Lee, Guelph.

Do We Believe Jesus?

ELDER JENSEN SAYS: Is there any prophecy in the Bible of the coming of the Book of Mormon?" queried a Protestant divine. "There certainly is," I responded, and quoted John: "I saw another angel flying through the midst of heaven having the everlasting Gospel to preach to them that dwell on the earth." (Rev. 14:6) "There is no proof that this angel came to Joseph Smith," replied the preacher. I held up the Book of Mormon and said, "Here is the proof."

The Book of Mormon was translated from gold plates which were delivered by an angel to the Prophet Joseph Smith in 1827. These plates contained the "everlasting gospel" as Jesus had taught it to the "other sheep" (John 10) on the American continent. A half million Latter Day Saints now believe this book to be the gospel brought to the earth by an angel. Moreover, they are preaching its message to "every nation, kindred tongue and people." (Rev. 14:6). Is not this a marvelous fulfilment of a prophecy?

The Church of Jesus Christ of Latter Day Saints offers this book to a doubting age as a new witness for Jesus Christ. It comes as the voice of Ancient America to unite with the voice of the Bible of the Eastern world, in the proclamation of the divine Sonship of the Christ.

Elder Jensen speaks in His Majesty's Theatre, 141 Yonge Street, Sunday, January 25th, at 7 p.m. Seats Free. For free literature write to No. 36 Ferndale Ave., Toronto.
