145 DUNDAS STREET,

—NEAR MARKET LANE

THE CENSUS—AN EXPLANATION.

Montreal, Nov. 30.—Gustave Drolet, commissioner of manufacturing census for the Province of Quebec, has made a statement in view of the criticism which has been evoked by the publication of comparative figures, compiled by different agencies, which show a wide discrepancy with the latest official census. Mr. Drolet states that the figures published by him are not complete, but bring the census only to the end of October. There are yet, it is estimated, some 450 manufactories to be added to the figures for Montreal and 100 outside of the city.

GOOD HEALTH IS IMPOSSIBLE without regular action of the bowels. Laxa-Liver Pills regulate the bowels, cure constipation, dyspepsia, biliousness and sick headache. s

THE WABASH DEATH LIST

Continues To Be a Matter of Dispute.

Another Disaster on the Same Road Narrowly Averted by a Brakeman.

Detroit, Dec. 1.—The only development yesterday in the matter of the big wreck on the Wabash at Seneca Wednesday evening was a statement sent out by the Associated Press from President Ramsey, of the Wabash, in which that official insists that the reports giving the number of dead and injured are exaggerated. There are several discrepancies, however, in the facts as he quotes them in the statement, besides which he throws absolutely no light on the question of what has become of the numerous Italians who, according to the railroad officials' claims, made their escape after the crash. The Associated Press report of President Ramsey's statement is as follows:

PRESIDENT RAMSEY'S STATEMENT.

St. Louis, Nov. 30. — President Joseph Ramsey, jun., of the Wabash, still insists that the reports giving the number of dead and injured in the wreck near Seneca, Mich., are exaggerated. His latest reports from Supt. Burns places the number of dead at twenty-one and the severely injured at twelve. He also stated that many of those reported wounded are only bruised and scratched, and the most of these were yesterday on their way home.

"A message from Supt. Burns stated that eight bodies had been taken out of the wreck and identified, and that there were charred fragments of bodies representing, by undertakers' estimates, twelve or thirteen adults and one infant. This report also stated that Fireman Doud was still missing.

"President Ramsey gave out this list of identified dead: James Brown, Buffalo; Dominico Crebara, destination unknown; E. N. Deuell, Detroit; Ida Dunhart, Tupperville, Ont.; Girolono Trino, destination unknown; Carlo Trino, destination unknown; Job Witchell, destination unknown; George W. Youman, Kansas City."

DISCREPANCIES IN THE STATEMENT.

Mr. Ramsey says that eight bodies have been identified, and gives the names of the eight. The list does not include that of Mrs. Ann Upton. The body of an aged woman taken from the wreck was identified as Mrs. Upton, and the identification apparently admitted as correct by the railroad officials, as they allowed the remains to be shipped to Texas Friday afternoon. That makes nine identified dead.

Mr. Ramsey's statement says that Fireman Doud is still missing. Fireman Doud's body was identified on Friday and shipped to relatives at Peru, Ind., for burial. That makes ten identified dead.

Though Job Witchell, of Detroit, was one of the first victims identified, this statement, issued over 48 hours after the wreck, follows his name in the list of dead, with the description, "destination unknown."

Supt. Burns, of the Wabash, had nothing further to give out about the accident, and other officials of the road had settled down to routine work.

DOCTOR THINKS 100 WERE KILLED.

Detroit, Nov. 30.—Dr. S. E. Bryant, of the Emergency Hospital staff of this city, who was one of the corps of physicians who hurried to the scene of the Wabash wreck, Wednesday night, says it is his opinion that over one hundred persons were killed in the wreck.

ANOTHER DISASTER AVERTED.

Peru, Ind., Nov. 30. — Earl McClain, aged 21, brakeman on the Peru-Montpelier accommodation of the Wabash Railway, proved himself a hero tonight by saving lives of passengers besides preventing a serious wreck. The accommodation, due at Peru at 7 p.m., was pulling out of Chili, about eight miles north of here, running for a hill, when McClain heard fast freight 97 coming at full speed around the curve, also making for the hill. He realized the danger, as the freight did not slacken up at Chili, and grabbing a red light, ran to the rear of the train and began swinging the light until it attracted the attention of the engineer on No. 97 as he came around the curve. McClain stayed at his post until the engine of No. 97 was about to strike the rear coach of the accommodation, when he jumped, landing on a cinder pile, and received severe scratches and bruises. The engine of No. 97 lifted the rear coach up about twelve feet, and the end landed squarely on top of the stack. The damage is slight. There were twelve passengers, and all were scattered about the coach, but none injured.

DISASTROUS COLLISION AT SAN FRANCISCO

Two Ferry Boats Clash Together.

First Reports Indicate That 30 Persons Were Drowned.

Two Young Skaters Lose Their Lives—Two Girls Burned to Death—Other Casualties.

San Francisco, Nov. 30.—The ferry boats Sausalito and San Rafael collided tonight in a dense fog, and the San Rafael sank in between ten and fifteen minutes. It is thought that not more than 30 passengers were drowned, although the San Rafael carried between 150 and 200 passengers. The Sausalito was not seriously injured.

The San Rafael left San Francisco at 6:15 with between 150 and 200 passengers. There was a dense fog on the bay. Capt McKenzie, of the San Rafael sent his boat along under a slow bell. He was somewhere near Alcatraz Island, when the Sausalito, coming from Sausalito to San Francisco, crashed into her. There were but few passengers on the Sausalito, but they were badly frightened, and for a few minutes it looked as if both ships were going down. When it was seen that the Sausalito was not badly injured she stood by the San Rafael, and officers, crew and passengers engaged in the rescue of the unfortunate passengers of the sinking vessel.

ONLY THREE MISSING.

The number of lives lost in last night's collision on the bay between the ferry boats San Rafael and Sausalito is still a matter of conjecture, and probably will never be accurately determined. So far as learned late this afternoon only three persons are actually known to be missing. They are W. G. Crandall, secretary of a syrup refining works in this city, and a resident of Sausalito; George Treadway, a waiter on the San Rafael, and the 3-year-old son of Mrs. Waller, of Ross alley. The officers of the sunken vessel strongly maintain that nearly all were saved. About 30 people were injured. The only body recovered so far is one supposed to be that of Crandall. It was washed ashore.

The night was so dark it was almost impossible to see a boat's length. The steam schooner Arctic ran down the French bark Edmond Rostand in the early morning hours, while the Encinal and Albatross came together in the fog.

The Oakland and San Rafael came very near colliding when they reached this city at 5 o'clock in the morning.

TWO YOUNG SKATERS DROWNED

Flint, Mich., Dec. 2.—A sad accident happened here Saturday by which Roy and Willie Bingham, aged 11 and 16 years respectively, lost their lives in the icy waters of Thread pond, while skating. They were drawing little Clara Mende, aged 13 years, on a handsled and ventured on treacherous ice. The older brother and girl, playmates, were precipitated into the pond and struggled to escape death, when the younger brother sacrificed his life to save his brother in attempting a rescue.

The girl was rescued by C. Johnson, a colored lad, who was skating in the vicinity, and showed much bravery in his heroic efforts. The two lads were the sons of Mr. and Mrs. Don Bingham. All had been forbidden to venture upon the pond.

TWO GIRLS BURNED TO DEATH.

Philadelphia, Dec. 2.—Nellie Kelly, aged 5 years, and her 10-months-old sister Ella, were burned to death as the result of playing with matches while Mrs. James Kelly, their mother, is in the hospital, severely burned. The children were amusing themselves with the matches, when their clothing ignited. Mrs. Kelly's clothing caught fire while she was trying to save her children.

IMPALED ON A BOARD.

Brockville, Dec. 2.—Ena Heasley, a 13-year-old girl, of Brockville, has received injuries which may prove fatal. In company with some other children she was playing on the street, and jumped on a board projecting from the end of a passing sleigh. Her weight on the board caused it to pull out. Another team driven by a man named Darling was immediately behind, and the driver, not noticing the predicament the girl was in, drove right on to her, and in such a way as to force the end of the board into her body, inflicting such serious injuries that she had to be taken to the hospital. The body was badly lacerated, and an operation had to be performed. It is doubtful if she will recover.

WALKED ON THE TRACK.

Simcoe, Ont., Dec. 2.—Mrs. John Maher, about 40 years of age, was run over and killed by a northbound train on the G. T. R., near here, Saturday afternoon. Mrs. Maher lived near Nixon. The walking being bad on the road, she took the track and had got about a mile on her way, when the train came along. The engineer, on seeing her, blew his whistle, and the woman left the track, but she stepped on again as the train neared. She was struck and instantly killed. The remains were brought to the station here.

TWO WOMEN FOUND DEAD.

Harrisburg, Pa., Nov. 30.—Mrs. Annie Baer, aged 59 years, and Kate Solfeit, aged 59 years, were found dead Friday night at their home in this city. The women lived together, and physicians say they were dead 48 hours when found. Mrs. Solfelt died of an over-dose of morphine, and her companion from heart disease.

A FAMILY CREMATED.

Altoona, Pa., Dec. 1.—Shortly after 2 o'clock this morning, five persons—a mother and her four children—were burned to death at Gwyn Station, on the Wopsononock Railroad, three miles north of this city. The husband escaped with severe injuries. The dead are: Mrs. Mary C. Burk, 42 years old; Adam G. Burk, 16; Mary E. Burk, 13; Joana Burk, 11; Joseph Victor Burk, 8 years. Carl W. Burk, the husband, is seriously burned about the back. Mrs. Burk and the children, save Adam, retired at the usual hour last night. Mr. Burk, who was in Altoona, did not get home until late. The lamp was burning in the kitchen for him. Before he went upstairs he turned it low. A lunch was left on the kitchen table for Adam, who is a stage hand at the Altoona Opera House. It is not known what time Adam came home. About 1:30 o'clock Mrs. Burk was awakened by a dense smoke in her room. She awoke her husband. He dressed hurriedly and hastened downstairs. Opening the kitchen door he found the kitchen ablaze. The draft caused by the opening of the kitchen door accentuated the fire, and with a roar the flames swept through the house. Burk's clothing ignited, and he sprang outside and rolled in the snow. He then summoned the assistance of neighbors. There was no hope of saving the house when they arrived, and to rescue the inmates was impossible. For one brief second Mrs. Burk appeared at an upstair window. In her arms she carried a child. Then the flames arose about her, and she sank back and was seen no more. Burk was sent to a hospital crazed with grief.

WHAT GOES UP

Must Come Down.

Nothing is more certain than that the use of so-called tonics, stimulants and medicines, which depend upon alcohol for their effect, is injurious to health in the long run.

What goes up must come down, and the elevation of spirits, the temporary exhilaration resulting from a dose of medicine containing alcohol, will certainly be followed in a few hours by a corresponding depression to relieve which another dose must be taken.

In other words, many liquid patent medicines derive their effect entirely from the alcohol they contain.

Alcohol, and medicines containing it, are temporary stimulants and not in any sense a true tonic. In fact it is doubtful if any medicine or drug is a real tonic.

A true tonic is something which will renew, replenish, build up the exhausted nervous system and wasted tissues of the body, something that will enrich the blood and endow it with the proper proportions of red and white corpuscles, which prevent or destroy disease germs. This is what a real tonic should do, and no drug or alcoholic stimulant will do it.

The only true tonic in nature is wholesome food, thoroughly digested. Every particle of nervous energy, every minute muscle, fibre and drop of blood is created daily from the food we digest.

The mere eating of food has little to do with the repair of waste tissue, but the perfect digestion of the food eaten has everything to do with it.

The reason so few people have perfect digestion is because from wrong habits of living the stomach has gradually lost the power to secrete the gastric juice, peptones and acids in sufficient quantity.

To cure indigestion and stomach troubles it is necessary to take after meals some harmless preparation which will supply the natural peptone and diastase which every weak stomach lacks, and probably the best preparation of this character is Stuart's Dyspepsia Tablets, which may be found in every drug store, and which contain in pleasant palatable form the wholesome peptone and diastase which nature requires for prompt digestion.

One or two of these excellent tablets taken after meals will prevent souring, fermentation and acidity, and insure complete digestion and assimilation.

Stuart's Dyspepsia Tablets are equally valuable for little children as for adults, as they contain nothing harmful or stimulating but only the natural digestives.

One of Stuart's Dyspepsia Tablets will digest 1,800 grains of meat, eggs or other wholesome food, and they are in every sense a genuine tonic because they bring about in the only natural way a restorative of nerve power, a building up of lost tissue and appetite, in the only way it can be done by the digestion and assimilation of wholesome food.

Hard Colds.

People whose blood is pure are not nearly so likely to take hard colds as are others.

Physiology goes into the reason.

Hood's Sarsaparilla makes the blood pure, causing healthy action of the mucous membrane and giving strength and tone to all the organs and functions.

This great medicine recovers the system after a cold, as no other does. g

An ordinance has been passed in the city of St. Louis, Mo., whereby the street car companies must place clocks in their cars.

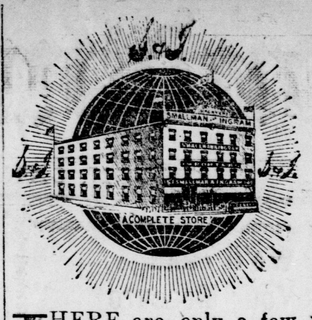
SWEET CAPORAL CIGARETTES.

It is expected that the railway now being built to connect Valparaiso with the Rio de la Plata will be completed in five or six years.

A CURE FOR FEVER AND AGUE.—Parmelee's Vegetable Pills are compounded for use in any climate, and they will be found to preserve their powers in any latitude. In fever and ague they act upon the secretions and neutralize the poison which has found its way into the blood. They correct the impurities which find entrance into the system through drinking water or food, and if used as a preventive fevers are avoided.

The city of Spokane, Wash., has paid in recent years thousands of dollars for damage suits resulting in injuries received on defective sidewalks.

THE WEATHER TODAY—Cloudy; rain or snow; cooler at night.



CHRISTMAS LINENS

THERE are only a few people who haven't a fondness for Fine Linen. Away back twenty centuries "purple and fine linen" gave the people the right to rank in society. Right along since people have stuck to linen, and the finer it is the better they like it. Linens are most desirable goods for gift-giving. We are able to supply you with all that's good and dainty from the "Land of the Shamrock," where we buy our Linens. In this list you will doubtless find something that will save you much worry over the Xmas present question which is now before the country.

Handsome Hand Embroidered Tray Cloths Only 90c

We have others up to $1 50 each; dainty Hemstitched Doilies at 30c and up to 85c each, which will be found much better than you have been in the habit of seeing at so low a price.
Tray Cloths of pure linen damask, good patterns, special value at 25c, 30c and 40c each.

ELEGANT DESIGNS IN TEA CLOTHS AT $1.50 TO $4.75.

Choice Damask Tea Cloths, pure linen, as low as 50c each up; two specials in 45-inch size at $1 75 and $3 50 each.

DAINTY DOILIES, FOR PRESENTS BY MAIL, 40c EACH.

Fine Net Doilies, with linen centers, just the thing for sending by mail (and a gift sure to be appreciated by a lady), from 40c each up.

TABLE NAPKINS AND HEMSTITCHED TABLE CLOTHS.

Table Napkins, in choice designs for holiday gifts and rare values at, per dozen, $1 50, $1 75, $2 00 and $2 50
Hemstitched Table Cloths in handsome patterns at prices that will appeal to you. For presents they are superb.
Table Cloths, with Napkins to match (1 dozen Napkins and 1 Cloth), per set $3 50

Hand Loom Sets, Cloth and One Dozen Napkins, Only $10 Set.

These are neatly boxed and are the best the world produces. Made in Belfast, Ireland, on hand looms. See them if you want to give a handsome gift, or if you yourself need some fine tabling at moderate prices. A few of the styles to select from:

1 SET—Cloth 2x2½, Napkins ⅝x⅝, streptocarpus, rose and passion flower design; border all around; beautiful center piece. The set $10 00

1 SET—Cloth 2x3, Napkins ¾x¾; Renaissance design; very handsome. The set $16 00
1 SET—Cloth 2x3½, Napkins ¾x¾; streptocarpus, rose and passion flower design; two center-pieces in cloth. The set $16 50

New and Handsome Tablings By the Yard.

We have some decidedly new and handsome patterns in Table Linens by the yard, in most cases with Napkins to match. You can make up sets of these to suit yourself in respect to length of cloth and price.

FINE QUALITIES BLEACHED TABLING AT 75c, $1 and $1.25 YARD.

Every thread Pure Linen. Several choice patterns to choose from. We have other prices, but these are special values for the money.

NOTE—We don't remember seeing so many doing their Xmas shopping so early as this season. If you have not started take the hint and buy while stocks are unbroken. You'll profit by an early selection.

. . . SEE OUR WINDOW DISPLAY . . .

SMALLMAN & INGRAM

149, 151 and 153 DUNDAS STREET.

Self-expanding.

Your foot spreads when you stand upon it.

Therefore a new shoe which fits it neatly when lifted, must pinch when you bear upon it.

Your foot narrows again, at the ball, when lifted.

Therefore when wear has stretched the leather across the ball of the foot, so that it is comfortable to stand on—the shoe is then too loose when lifted.

This is why it wrinkles, and over runs on the sides.

Now the Resilia Soled Slater Shoe expands when your foot does, and contracts when lifted, making it easy as an old shoe, the first time you wear it.

Goodyear Welted—$5.00 grade.
