"Star Life Assurance Company,"
OF LONDON.

THE AGENCY of this Company has been established in this Province about three years, and has made some progress, and up to the present time, without a claim being made upon it. The Directors have recently instructed the Agent to allow persons insuring for the whole term of Life, to pay one half the premium for the first five years, and give a note bearing Interest, for the remaining half, upon the same condition as the National Loan Fund Association. As the proportion of profits divided among the Policy holders, with participations, is greater in this than any other Company—being 90 per cent.—it therefore recommends itself to the favourable consideration of all persons intending to insure, the rates being as low as in any other Company. If persons would give the subject of Life Assurance their serious consideration, they would be convinced that it is the very best investment to be found for a moderate annual sum of money, for the benefit of their families after they are taken from them. The attention of heads of families in this Province generally, and those of *Wesleyans* in particular, is earnestly invited to this subject, and while the blessing of Health is enjoyed, to call upon the Agent of the "STAR" Association for admission into the Society; who will furnish all necessary blanks and give every information requisite at his office in Jerusalem Warehouse, Hollis Street.

LATER INTELLIGENCE.

UNITED STATES.

FROM WASHINGTON.—The mail last evening brought us dates from Washington to the 13th inst. No speaker had been elected, and from present appearances, the boasted American Union is fast crumbling to pieces. A disgraceful scene has occurred in the House of Representatives, and such epithets been lied among the members as could scarcely find a parallel in any civilized country.

In the course of a debate on the slavery question, Duer, of New York, accused Meade, of Virginia, of being a disunionist. Meade said it was false, whereupon Duer called him a liar!

Mr. Toombs said that the south would no longer be disturbed by the North. He was for the union rather than the present state of things should be continued. And in this state the House adjourned.

Dr. Webster has been found guilty of the murder of Dr. Parkman, by a Coroner's jury, at Boston.—*N. Bkr. 18th.*

BY THE R. M. STEAMER.

The R. M. Steamer *Europa* arrived yesterday forenoon at this port from Boston. We give the following items of news.

CONGRESS.—At the time of our going to press the news is, that the House remains unorganized. Much undignified agitation prevails in its sessions.—*Zion's Herald, 19th.*

In Florida, the tone of the Seminole chiefs is decidedly against the removal of the brave remnant from the graves of their fathers; and another Florida war may be the result of any attempt to coerce the Indians into a measure which the white inhabitants of that fertile peninsula deem so indispensable to their interests.—Along the Rio Grande, in the vicinity of Brownsville and Matamoras, pretty serious disturbances were threatened, also, arising primarily, in all probility, from the lawless efforts of smugglers on the American side, and the stringent, and possibly not always judicious efforts to suppress the contrabaud trade, on the other side. Further South in the neighbourhood of Honduras, the old contention, arising from the claims of the British Government in that vicinity, are stirring up warlike demonstrations on the part of the native Governments, and threatening to involve our Government in the contest, for the sovereignty of important points.—*Ib.*

DOMESTIC.

Johnston, jr., Esqrs. Treasurer—Archibald Harshaw, Esq.
