Sarsaparilla Sense.

Any sarsaparilla is sarsaparilla. True. So any tea is tea. So any flour is flour. But grades differ. *You want the best.* It's so with sarsaparilla. There are grades. You want the best. If you understood sarsaparilla as well as you do tea and flour it would be easy to determine. But you don't. How should you? When you are going to buy a commodity whose value you don't know, you pick out an old established house to trade with, and trust their experience and reputation. Do so when buying sarsaparilla.

Ayer's Sarsaparilla has been on the market 50 years. Your grandfather used Ayer's. It is a reputable medicine. *There are many Sarsaparillas—but only one Ayer's.* It cures.

Umpire Phelps Quits the Canadian League

BECAUSE OF THE FALSE ACCUSATIONS OF ROBERTS.

He Should Have Taken Satisfaction out of Guelph's Trouble-Maker.

BASEBALL.

Some of the Leaf management have been waiting on Bradford to get him back again.

President Stroud has signed Catcher Bill Baker, who went with the Hams to Guelph yesterday. Baker will strengthen the team in batting.

PHELPS QUITS THE GAME.

Umpire Phelps, the first official who has given perfect satisfaction in the Canadian League, has quit the game, after one week's good work. In a letter tendering his resignation Phelps says that while a game was in progress he was publicly accused by one Roberts, of Guelph, of "boozing." After the game, Roberts, Phelps says, repeated the accusation. Phelps is in a position where he does not have to umpire, and he will not work where he cannot get along without having trouble with the players. Roberts is the sort of man who seems to thrive on making trouble. He refused to retract what he had said to Phelps, and that gentleman went back to Buffalo this morning. Phelps' action is perhaps hasty. He may be a little "thin-skinned," but the baseball patrons who have seen his work and who know Roberts will have a good deal of sympathy for him.—Hamilton Times.

Toronto, July 31.

Small scores were in order yesterday in the Eastern League, and the three losing teams only scored one run. That was Scranton's tally against Toronto on the Island diamond, while the Irwinites could only send around a couple.

It was a perfectly clean fielding game, that resolved itself into a battle between the pitchers. Both Norton and Harper were in fine form, and base hits were hard to get.

INTERNATIONAL RACES AT GLASGOW.

Glasgow, July 30—Fully 15,000 persons gathered at Celtic Park to-day to witness the international bicycle races scheduled to take place there. The weather was all that could be desired. In some of the races the riding at the start was slow, but most of the contests were finished at a terrific speed. The ten kilometres amateur team race, in which four riders from each country took part, was won by England, who captured the trophy with nine points. France and Denmark tied for second place with 11 points; Scotland and Ireland tied for third place, with 17, and Holland was next with 19. The one mile championship was won by Arend, of Germany, with Barder, of England, second, and Nossam, of France, third.

Arend's time was 3 min. 11 3-5 sec. He won by a length.

NOVA SCOTIA CROPS.

The Weather During July Has Put Everything in Good Condition.

Halifax, July 30.—B. W. Chipman, Secretary of Agriculture, in a review of the crop prospects in Nova Scotia, issued to-day, says that the fine weather of the present month has promoted vegetation in a most remarkable manner and justifies the hope that the crops of this year, with the exception of the larger and more important fruits, will come up to the standard. The hay crop, which is of prime importance, is an exceptionally large one, and is being harvested in splendid condition. The fruit crop will be the smallest for many years. The apple crop will probably not be more than half what it was last year. Pasturage, taking the province in general, has been excellent, and live stock is in a capital condition.

REVERSED THE DECISION

Of the Supreme Court of Canada—The Charlebois Case.

Ottawa, July 31.—The end of the famous suit between the Great Northern Central Railway Company and its contractor, Alpanese Charlebois, came with the decision of the Privy Council, particulars of which reached the city yesterday. The judgment of the Privy Council reverses that of the Supreme Court of Canada, and declares that the consent judgment for $622 000 to Charlebois is invalid.

The consent judgment was secured by Charlebois, presumably for work done on the road, for which he was the contractor, and of which he had been one of the directors. After the contract was undertaken, the affairs of the road became complicated, and the English shareholders attacked the contractor's consent judgment.

The effect of the judgment will be that the work on the road will be proceeded with by the present company. Some complicated questions remain, upon which the court reserves judgment, intimating that it would be desirable that a settlement be arrived at in the meantime.

St Thomas Markets,

Saturday, July 31.

The market was well attended this morning by both buyers and sellers, with but little change in prices, except in butter, which was very plentiful at 20c per pound; eggs were somewhat lower, being offered at 8c per dozen: red raspberries were offered at 5c per box, or 6 boxes for 25c.

Hog buyers report the market as being very steady just now; $5 15 was the price paid during the past week.

Wheat has raised, 70c being paid for old wheat, and 63c for new, which was a rather poor sample.

TORONTO MARKETS.

On the Five stock market yesterday there arrived 55 car loads of stock, composed of 1050 cattle, 500 sheep and lambs, 75 calves and 1200 hogs. This is not counting the 14 cars reported on Thursday or any part of them. The general tone of the market was a little more likely, but we cannot say that there was any advance in prices whatever. Some of the dealers had space engaged on the boats that had to be filled, and this made some difference in the export trade. The market was a little stronger, and the bulk of exporters were sold at $4.25 to $4.50 per cwt.

Messrs. Yapp and Hanley of Brantford sold two cars of exporters to Mr. Ironsides, 40 cattle in all, averaging 1230 lbs., at a trifle over $4.40 per cwt. D. O. Leary sold to James Eakins one load of export heifers, weighing 1200 lbs. each, for $4.35 per cwt.

Good butcher cattle sold from $3.50 to $3.75, and they had to be choice. Common butchers ranged from $2.50 to $3.00 per cwt. William Levack bought a large number of butchers ranging from $2.75 to $4.25.

W. H. Stacey, Chatham, sold 28 head butchers' cattle, 4 cows and 24 heifers, to William McLennan for $3.40 per cwt. A. W. Maybee, 23 butchers, averaging 1000 lbs. each, at $3.35 each. S. Halligan bought six car loads butchers for Montreal, ranging from $3.00 to $3.40 per cwt. Charles Rose of Essex sold his butcher cattle, 9 cows, heifers and steers, weighing 1000 lbs. each, at $3.40 per cwt.

A good business was done stockers and light feeders and the demand seems to be increasing. A. W. Maybee was buying light feeders for points in Western Ontario; for 22 of these, weighing 900 lbs. each, he paid $3.00 per cwt.

George Robinson, Orangeville, sold to A. Buck one car load of young steers (light feeders), weighing 700 lbs. each., at $3.00 per cwt.

Mr. Crealock bought 30 stockers for the Chicago market, weighing 600 lbs each, paying from $2.75 to $2.85 per cwt. T. Holden, York County, sold one car of stockers, weighing 647 lbs. each, to Mr. Lunness at $2.95 per cwt. J. McDonald sold 9 light feeders, weighing 900 lbs. each, to P. Campbell, for $3.00 per cwt.

Bulls were scarce and quotations remain the same. Milk cows—The market remains about the same; 15 were offered for sale and brought from $20 to $35 each.

Of sheep there was a fair supply and all were sold at $3 per cwt. for export ewes and $2.50 per cwt. for bucks.

Calves were more plentiful and sold at $3 each for common, to $6 for good; and one extra good brought $8.

Hog market remains firm at $6 for the best. Some more of the Essex corn-fed hogs were on the market, but this kind is reported a good deal lower than those fed on peas and barley.
