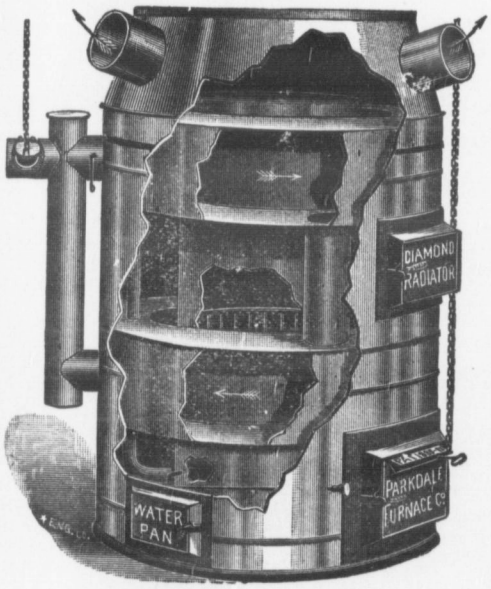
STANDA ASSURA



DIAMOND FURNACE
With Double Radiation and Ribbed Fire Pot.
PATENTED 1886 AND 1888

3 REASONS WHY
THE
Diamond Furnace
Gives the Best Satisfaction

1st.—Because the Castings are heavy and durable.

2nd.—Because having two entire circle RADIATIONS, they stow more heat, and for a greater length of time than any other Furnace.

3rd.—Because having more Radiation than any other Furnace, the heat is retained inside the Jacket and thereby caused to flow through the Registers, instead of being wasted by passing up the Chimney.
