WEDNESDAY, AUGUST 3, 1898.

Progress of the War.

SINCE our last issue little or no fighting seems to have taken place between the forces of Spain and the United States. There are some reports of skirmishes in the vicinities where American troops were landed and of the capture of one small place or two; but these reports are not confirmed. Although but little actual fighting seems to have been going on the preparation for the advancement of troops and everything incident to hostilities appear to be advancing. In the meantime peace negotiations are on foot. On Tuesday of last week, the 26th ult, the French ambassador at Washington waited on the President of the United States and on behalf of Spain made overtures of peace. The proposition of the French ambassador was taken into consideration by the President and by him submitted to his Cabinet. The matter engaged the attention of the President and Cabinet till Saturday, when a reply embracing terms of peace was given to the Ambassador of France, for submission to the Spanish Government at Madrid. Following are said to be the terms submitted by the United States: Cuba to be free, Porto Rico to be ceded to the United States, one of the Ladrones (probably Guam) to be ceded to the United States as a coaling station, all Spanish forces to be withdrawn from Indies and the appointment of a commission to settle the details of the government of the Philippines. Advices from Madrid, dated the 2nd inst., say that when the council met for the purpose of discussing the terms, a despatch was sent to Washington for further explanation of some difficult points. A Madrid despatch of the same date says that some modifications of the original terms have been obtained from Washington. Meagre as the information is on this point it is sufficient to show that peace negotiations are going forward. From the outline above given, it will be seen that one of the conditions is that Cuba is to be free. That would seem to mean that the country is to be handed over to the Cubans to establish a government of their own. That is, indeed, the ostensible object of the war on the part of the United States. But it is now evident to the United States authorities themselves, that the Cubans are not fit to be trusted with the government of a civilized country. The latest advices from Santiago emphasize this fact in a striking manner. The Cubans, with their troops, are clamoring for entrance into the city, while on the other hand, the Spanish merchants and foreign residents dread such a possibility. We feel sure that the handing over of Cuba to the insurgents will be most disagreeable to Spain; but poor Spain is conquered and has no friends, therefore she must submit to might. "It may be that "Free Cuba" may simply be a blind on the part of the United States. It will probably retain a protectorate over the Island and after a time, on the pretext that the government is not properly conducted, rise in its might and kill off the Cubans and gobble up the whole country. Whatever shall be the final terms of peace, the United States is likely to have things about as she wants; for the great powers of Europe seem to be looking coolly on, and letting might have full sway.

A FEW days ago the satisfactory announcement was going the rounds of the press that Mr. John Charlton was not to be one of the Canadian representatives at the forthcoming Conference at Quebec. But according to Ottawa intelligence published elsewhere in this issue, Mr. Charlton is to be there as one of Sir Wilfrid's colleagues. How is it that this man who never loses an opportunity to strike a blow at Canada, when the United States is in question, is permitted to be a judge when Canada's most vital interests are concerned? Can Sir Wilfrid do nothing above suspicion?

THE present Liberal Government at Ottawa has an unenviable record for failure and broken promises, not the least of which is the scheme for fast atlantic service. For fifteen months members of the Government boasted of the superiority of the bargain made in this matter, over that which had been entered into by the Conservative administration. They were never done telling us of the saving that was to be effected by the Peterson-Tate contract. But while all this boasting was indulged in the matter was not assuming material shape. Last session an extension of time was asked for and granted. Now, after all that has been said and done in favor of Peterson and Tate, comes the news that they are unable to go ahead and have thrown up the contract. This is admitted by the officials at Ottawa. Thus, after causing two years delay in the very important matter of a fast atlantic service, the Government are obliged to confess disappointment. Had the scheme adopted by the Conservative Government been allowed to stand we would probably now have some of the fast ships crossing the Atlantic. Great is humbug, and Sir Wilfrid Laurier is its promoter.

ON Friday afternoon last, a meeting of the Liberal members of the Provincial Legislature took place in the Assembly building, for the purpose of receiving the resignation of Mr. Warburton as Leader of the party, and choosing some one else to succeed to the Leadership. Hon. Mr. Warburton presided. It is said the meeting was quite an animated one. Two names only, we are informed, were presented to the meeting; those of Hons. Donald Farquharson, and Hector C. McDonald, Attorney-General. After the merits of both candidates for the Leadership had been dwelt upon a vote was taken. All voted except Mr. Wise, and Mr. Farquharson was declared elected by a majority of one. It is said that Mr. Wise, in the event of voting, would have cast his ballot for Mr. McDonald. This would have made a tie and thrown the responsibility of the casting vote upon Mr. Warburton. This it appears was not desired. The choice of Mr. Farquharson was afterwards made unanimous. Mr. Warburton tendered his resignation of the Premiership, to his Honor, the Lieut. Governor on Monday and recommended Mr. Farquharson as his successor. Mr. Farquharson has been in the Legislature for 22 years and was for a time, a member of the Executive in the Davies Government. He was also a member of the Peters Government. He is an ardent partizan, and is credited with economical views. He certainly succeeds to a condition of things that will afford him ample scope for the exercise of this quality. His Liberal predecessors in the Premiership have sunk the Province so deep into debt that it will tax the ingenuity of Mr. Farquharson or any one else to improve matters. We have not heard whether or not Mr. Farquharson has formed a Government, or what the personnel of the Government is.

ON Thursday evening last a special meeting of the Board of Trade was held for the purpose of hearing an address from Sir Louis Davies on public questions of importance to the Province. Sir Louis, of course, took credit to himself and his political friends for having voted $180,000 for a new winter steamer. He incidentally remarked that a contract had been given to Mr. John White, of O'Leary, to supply a boat for the use of the Department of Marine and Fisheries in Island waters. Perhaps Mr. White, who has hitherto been an ardent partizan, had of late been disposed to kick, and it was all at once discovered that a boat was wanted for the marine department. On the matter of cold storage, Sir Louis confessed that, regarding the $5,000 vote, the tenders received were not satisfactory, but a later arrangement, it was thought, would come nearer the desired end. Regarding dissatisfaction in the matter of telegraphic service, he said the whole matter had been forwarded to the headquarters of the company in London. Finally he referred to the Southern Railway, and the grant that had been made for the survey. The question of a bridge across the Hillsborough was put forward as the greatest difficulty. Whether such would be simply a railway bridge or a combined railway and traffic bridge was the crucial point. The Dominion Government, he said, would not contribute towards the building of a traffic bridge, whatever it might do regarding a railway bridge. If a combined bridge were to be built, the Provincial Governmrnt, he said, should bear the cost of the traffic portion of it. Now it is well known that the Provincial Government cannot, or should not in the present deplorable condition of its finances, contribute towards the cost of any great public work. It seems evident from all this that it will be some time before this railway business materializes.

Diamond Jubilee of St. Augustine's Church, Rustico.

St. Augustine's Parish, Rustico, was on the 26th July the scene of a grand celebration. The occasion was the Diamond Jubilee of the erection of the present church. An immense congregation gathered together to take part in the celebration. There was a very large representation from Hope River, as this parish till recently formed part of Rustico parish. Many were present from Charlottetown and other adjoining parishes.

The church, under the direction of the good ladies of the Convent, was decorated with great taste for the occasion. The immense collection of beautiful and rare natural flowers that adorned the altars and statues attracted much admiration. No one seeing the church in its festive garb, would imagine that it had been built 60 years ago. Strangers could not help to admire the well preserved appearance of the church, as well as the neatness of all the church buildings and surroundings.

At 9.30, the altar boys and clergy, followed by his Lordship, Bishop McDonald and his Grace, Archbishop O'Brien of Halifax, marched forth in procession from the sacristy to the joyful strains of the Jubilee March, played by the parish band. The ceremonies of the Pontifical Mass were carried out with more than usual completeness and precision. The celebrant of the Mass was his Grace, the Archbishop of Halifax, who is a native of the parish; and he was assisted by the following priests, nearly all of whom are natives of the parish, viz: Arch-Priest, Rev. F. X. Gallant; Deacon of Honor, Rev. D. B. Reid; Sub-Deacon of Honor, Rev. J. McNally; Deacon of Office, Rev. P. C. Gauthier; Sub-Deacon of Office, Rev. P. D. McGuigan; Master of Ceremonies, Rev. L. B. A. McDonald; Assistant-Master of Ceremonies, Rev. J. J. McDonald.

His Lordship, Bishop McDonald, sat on his throne assisted by Dr. Murphy, V. G., of Halifax, and Mgr. Gillis.

Besides the Pastor, Rev. R. B. McDonald, there were also present in the sanctuary, the Revs. Jas. E. McDonald and D. J. Gregory McDonald. The past pastors of the parish still living were expected to be present, but were unavoidably absent.

A sermon was given in French by Rev. F. X. Gallant after the Gospel, and one in English by Rev. P. D. McGuigan after the Communion. These sermons were master-pieces of composition and eloquence and will be long remembered by those who had the good fortune to hear them.

The choir directed by Mr. Jos. Doucette sang the second tone Mass in parts in a most creditable manner. Dr. Gallant sang Milliard's *Ave Maria* in his usual masterly manner. Mr. Blanchard, organist of the Cathedral, and a native of Rustico parish, presided at the organ. The organ was accompanied by several of the instruments of the band.

After Mass, the Bishops and clergy were entertained at dinner by the pastor, Father Ronald. The people enjoyed themselves during the afternoon at a picnic on the church grounds. There were the usual amusements on such occasions and all returned to their homes delighted with the successful celebration of the Diamond Jubilee of their church.

COM.

NEWS OF THE WEEK.

The Irish Local Bill passed its third reading in the House of Lords with some unimportant amendments.

The Montreal Factory of the Mergenthaler Linotype Co., was badly damaged by fire on Friday last. The loss is estimated at $100,000.

The Berlin Reichsanzeiger announces that the Emperor has conferred the Order of the Black Eagle, set with brilliants, upon the Emperor of China.

A gentleman from Truro is about to make an effort to raise $25,000, wherewith to re-open the Pictou boot and shoe factory.—Pictou Advocate.

It has been decided to issue long service medals to non-commissioned officers of the Canadian Militia who have served for a period of 25 years.

The Liberal papers ridicule the idea of a general election this year. But all the same a good many Liberal parliamentarians are getting into places where a general election cannot hurt them.

A letter to the Bangor News from Berlin Falls, N. H., tells of the tragic death in that place of Daniel Jack and John Neady, lumbermen. The men drank chloroform, which they thought to be alcohol, and were found dead in their beds.

The crop reports from all parts west are unanimous in asserting bountiful returns from Manitoba and the Northwest this season. The showers recently made great improvement. Harvesting will begin the second week in August.

For one man to have erected during his lifetime the large number of 120 sawmills and 53 grist mills is certainly quite a record in this line, but this is said to be the number of such undertakings completed by William Chisholm, who recently died at Marydale, Antigonish Co.—New Glasgow Bulletin.

Mr. William Hurlburt, of Kempt-ville, died at his home quite suddenly on Saturday evening. He had been in the hay field during the day, and after taking his tea, laid down on the sofa for a nap and almost instantly expired. He was a man of robust health, and was highly esteemed in the community.—Yarmouth Herald.

Revised returns of the recent general elections in Germany show that the Socialists polled 2,120,000 votes as compared with 1,786,000 in 1893. This was considerably more than any other party. The nearest approach to it was the vote of the Centre, or Clerical Party, which amounted to 1,333,000 as compared with 1,468,000 at the preceding election.

A little boy met death at Ritcey's Cove on Monday 25th, under very sad circumstances. Bertie, the 10-year-old son of Stephen Ritcey, was playing with a bicycle and twirling one of the wheels, when his hand got caught between the wheel and sprocket and was badly crushed. A doctor who was summoned to attend the injured hand administered chloroform to the boy, who died while under the anasthetic. The little fellow was of very delicate constitution.—Hx. Herald.

Dubois Casino, a full blooded Sioux Indian, stopped at Noblesville, Ind., while on his way home to North Dakota from a visit east. While at the place named he imbibed too freely and suddenly began to cheer for Spain and the Spaniards. A few patriotic palefaces quieted him in vigorous fashion, and some time must elapse before the doctor will allow the warrior to resume his homeward journey.

It may be interesting to many persons in Charlottetown and elsewhere throughout the Province to know that Dawson City is to have closer mail connections. The Canadian mails are to be taken from the Canadian customs posts on the Dyea trail and thence to Dawson City every two weeks. On alternate weeks the American mail to Circle City from Juneau will pass through Dawson City.

THE Quebec papers are pointing out that when Mr. Tarte was in Opposition he delivered a speech in Parliament demanding that judges should be nominated by the bar instead of being named by the Government of the day and appointed for political services. Now, as the Montreal Gazette remarks, we have the Choquette case. It is difficult to believe that Mr. Tarte could have proposed a reform. But he did. And, like the rest of them, he does not intend to carry his reform into effect.

The experience of the La Rose children, who were lost for four days in the Blue Mountains back of Kingston, Ont., is a story of unusual sagacity as well as devotion on the part of a child. The 8-year-old girl kept the 6 month old baby alive all that time, by keeping a rag wet with water and berry juice in its mouth. The joy of the parents in the recovery of their children was most demonstrative. They should be especially proud of such a little girl and so sturdy an infant.

Murderer Martin Thorne is ready to give up his life to the law and manifests little interest in the efforts being made by his lawyer, William A. Howe, to have his sentence commuted to imprisonment for life. Mr. Howe went to Albany to appear before the governor and ask clemency for him. The condemned murderer, however, does not expect that the governor will interfere with the death sentence. Thorn is resigned and says he would rather die in the electric chair than have to endure life imprisonment.

The Mail and Empire in an editorial on the appointment of the Earl of Minto as governor general of Canada in succession to the Earl of Aberdeen, recalls the fact that this nobleman has already enjoyed a Canadian experience, he having been for two or three years military secretary to an earlier governor general, Lord Lansdowne, and says that the impression Lord Melgun left in Canada was distinctly favorable to him. He was a pleasant and genial gentleman, as well as a good soldier, and his return as governor general to occupy Rideau Hall will be quite welcome.

In Belleville, Ont., one day last week, Mrs. Joseph Henderson, of Bettes Street, set her house on fire by accidentally upsetting a coal oil lamp. Finding escape by the stairs impossible, she took two children to the kitchen and dropped to the ground herself, and caught the children in her arms when they followed her. A neighbor then dashed upstairs through the flames, and saved the third child, which Mrs. Henderson in her panic had abandoned. Finally the blaze was extinguished without doing much damage, and Mrs. Henderson is left to wonder how she got in such a fright.

Mr. Alex McDonald, Big Intervale, Cape North, was suddenly and sadly bereft of the whole family about a month ago. On the 14th day of May, Bessie Agnes, a two-year-old daughter died, after an illness of only one day. On the 18th, another child, John, died after an illness of five days the result of a cold with other complications, a baby eight days old was the only child left and the mother was suffering from fever which overcame medical skill, and ended in death on June 5th. The baby died two days later. Mrs. McDonald was a young woman and highly esteemed.

An accident resulting in the death of one man and injury to another occurred at Dufferin mines, Salmon River, Halifax county, a few days ago. Four men were at work in a vertical shaft sinking with air drills. One of these drilled into the bottom of a previously blasted hole in which there evidently remained some unexplored dynamite. The blow of the drill set this one tearing away fragments of the rock surrounding the hole. Flying pieces struck two men at the drill, fatally injuring a helper and wounding a driller in the head. The driller was Sylvester Carroll, a native of Newfoundland. The helper, Edward Spencer, was a native of Buxton, Derbyshire, England.

Some sensational cricket was witnessed in the Essex-Gloucestershire match. The first innings stood 128 for Essex and 93 for their opponents; the former made 250 in their second; Gloucestershire had but 19 runs to win when the fifth wicket fell, Champlain, however, was caught without further scoring. Jersey and Wrathall increased the score to 145, or but three runs to win; the latter, however, was caught in the slips, Brown was bowled and Wright given out l. b. w. Roberts joined Jessop with the position serious, 1 run to tie and 2 to win. Roberts made the tie, and then took an over from Mead. The exciting point came as Jessop, who had 13 (not out) faced Kartwright, who had already taken 7 wickets for 57 runs. The bateman never failed, and drove Kartwright to the boundary, winning the game for Gloucestershire by one wicket. Intense excitement prevailed.

Mail and Empire.—Dewey's claim to undying fame is now placed on a solid foundation. An American investigator has found that the admiral is the thirty-fifth in direct descent from the Earl of Winchester, who was the most distinguished of the twenty-five barons who forced King John to sign Magna Charta on the plain of Runnymede, June 15th, 1215; and the thirty-third in direct descent from Alfred the Great. If Uncle Sam goes in for imperialism and establishes a throne, he will have a properly qualified king ready to fill it. Great is Dewey.

A terrific thunder storm passed over the town of Antigonish on Thursday last, the lightning causing the death of John H. Our, and injuring five other men. Lighning struck the old Locke school building. Several carpenters who were engaged in building a new school building in close proximity to the Locke schoolhouse had secured shelter in the basement of the old building during the storm and received a terrific shock. One of the numbers John H. Our, of Weymouth, who was standing in the door, received the most direct effect of the lightning and died within six minutes after he was struck. His fellow workmen were badly shocked, but will recover. Mr. Our was 50 years of age.—New Glasgow Bulletin.

THE breaking of two world's records and one season's record marked the opening of the Grand Circuit races at the Glenville track, Cleveland, on Monday, 25th. The first event, the 2 16 trot, was the fastest race this season, and in the second race, the 2,10 pace, the world's record for pacing mares was clipped from 2.05 3-4 to 2.05 1-4 in the first. In the next mile Searchlight, another member of the California outfit, reduced the mark for 4 year olds in competition to 2.04 3-4 going under the record two seconds. Separately the heats in the 2.16 trot were not marvellous, but collectively they form the fastest trotting race of the year.

Two hundred cases of yellow fever are reported in the United Stotes military camp at Juragua, and the disease is spreading. Dr. Senn, the medical expert, says there will be 2,000 if the army is there two weeks longer. The camp at Juragua seems to have suffered from want of proper care in the hurry of landing, as at other nearby points where troops are gathered, the disease has not appeared. It is doubtful if, in connection with any military expedition, such provision for medical care of the troops was made as has been the case with the United States army in Cuba. That disease has gotten a hold in the camps shows how difficult it is to keep it out rather than that the direction was wrong.

Mr. Blair's Fredericton Herald quotes Mr. Godfrey, late of the Bank of B. N. A., at that place, as to the probable gold output at the Yukon. Mr. Godfrey's information is to the effect that this year the output will likely not exceed $10,000,000 and may fall below that figure. This he attributes to the fact "that many good mines have not been worked, the miners early in the winter having been driven up to Circle City by the fear of famine." He adds: "When the mines are thoroughly worked the clean-up will be enormous. Already the government has collected $400,000 in royal dues." It is very obvious that Mr. Blair has no wish that Mr. Sifton's scheme of making McKenzie and Mann a gift of between three and three quarters and five millons of acres of the gold lands of the Yukon, should become less popular than what it is. The Sifton plea that it is doubtful whether or not there be any large quantity of gold in the Yukon territory, is thoroughly exploded, and Mr. Blair, who has a Yukon railway scheme of his own, wants the country to know it.—Halifax Mail.

LOCAL AND OTHER ITEMS.

THE Plebiscite on the Prohibition question will be taken on Thursday, Sept. 29th.

THE appointment of Mr. A. B. Warburton, as County Court Judge has been Gazetted.

WE would call special attention to the card of Antoine Vincent, architect and sculptor, which will be found in this issue.

SATURDAY last was the hottest of the season. The thermometer registered 83 degrees in the shade at 1 o'clock.

DURING July you will find our prices on Ladies Misses and Childrens' Boots, the very lowest in the city. We have a lot in small sizes we are clearing out at half price. J. B. Macdonald & Co. J, 13 3i.

LIGHT Summer Clothing, Men's Black and Drab Lustre coats, Men's Black and Drab Long Dusters, Balbriggan underclothing a good range at low prices, come and see J. B. Macdonald & Co. J, 13, 3i.

WHILST playing with some companions on Thuraday last, a little son of Mr. P. Burke, of this city received a severe shock from a live electric wire, which he picked from the ground. The wire had been knocked down by a runaway team the same afternoon.

A MEETING for the purpose of considering a request of the Water and Sewer Commissioners for the issue of debentures for $50,000 for sewerage was held yesterday evening. It was decided after a short discussion to adjourn until the next regular meeting, Monday 8th.

THE Scottish Gathering at Head St. Peter's Bay on Wednesday, the 17th inst., bids fair to eclipse any similar gathering hitherto held in this Province. People are preparing to attend from all directions. With a fine day, an immense concourse of people and splendid games, the 17th is destined to be a memorable day. No one who can possibly attend should miss the Gathering

A SHOCKING affair, the result of a row, took place in this city on Monday evening last. A man named William Proud, belonging to Loyalist Road, in company with his brother, had been in town during the day, and about seven o'clock in the evening was apparently on his way home, his brother and another man being with him in the wagon. As they were going along Spring Park road, near Boyle's tannery, they seem to have stopped and come in contact with five or six other men. After a little while they began fighting and the result was that William Proud was killed in the fracas. About midnight the police arrested four men in connection with the affair. They were Hughes, Carrol, Thorne and Trainor. A preliminary examination was begun before the Stipendiary Magistrate, yesterday forenoon, and adjourned till today. Hughes was discharged, at the close of yesterday's evidence. In the meantime an inquest was held before Coroner Conroy, when the following verdict was returned by the jury: According to the sworn testimony of Drs. Johnson and McNeill, appointed to hold a post mortem examination on deceased's body the de[redacted] death in Charlottetown on Monday, the 1st day of August inst., at Lower Spring Park Road, from the effects of a blow on the windpipe, his death being possibly hastened by violence to other parts of his body.

DIED.

At St. Ann's, Hope River, on the 4th ult., of tuberculor consumption, John Henry Trainor, son of Patrick Trainor, aged 12 years. May his soul rest in peace.

That aching head can be instantly relieved by taking one of MILBURN'S STERLING HEADACHE POWDERS. 1 powder 5c., 3 for 10c., 10 for 25c.

GOOD TIMES COMING.

Under the use of Scott's Emulsion all the organs and tissues take on new life. The mind acts with more vigor, the heart beats stronger and the blood is greatly enriched.

A BAPTIST MINISTER.

Rev. M. P. Campbell, the highly esteemed Pastor of the Baptish Church Essex, Ont., says:—"From my personal use of Doan's Kidney Pills I can safely say they are an excellent remedy for all kidney troubles."

Minard's Liniment for Rheumatism.

CARD.

ANTOINE VINCENT, Architect and Sculptor, Dorchester Street, West, is prepared to execute orders for Monuments and Church-work, in Altars, Statuary, Holy Water Fonts, &c. Work done promptly.
August 3, 1898—6m

Sewerage Works

Tenders for Sewer Construction

SEALED TENDERS, endorsed "Proposal for Sewer Construction," addressed to the undersigned, will be received at this office until noon on FRIDAY, the 19th AUGUST, prox., for furnishing materials and performing the work necessary for the construction of certain portions of a sewerage system for the City of Charlottetown, according to conditions, specifications and plans to be seen (the plans and quantities after the 5th August) at this office and at the office of the Engineer, Mr. Freeman C. Coffin, 53 State Street, Boston, Mass.

Proposals must be on the forms supplied from this office, and each tender must be accompanied by an accepted bank cheque for Six Hundred Dollars ($600) payable to the order of the Commissioners of Sewers and Water Supply. This cheque will be forfeited if the party decline the contract, or fail to complete the work contracted for, and will be returned in case of non-acceptance of tender.

The Commissioners do not blud themselves to accept the lowest or any tender.

DAVID LAIRD,
Chairman.

Office of Commissioner of Sewers and Water Supply, Ch'town, July 29th.
