TORONTO MAN LOSES FOOT IN ACCIDENT

James Lowndes Caught Crossing Track in C. P. R. Yards at Orangeville.

Special to The Toronto World.

Orangeville, Sept. 9.—On Saturday evening, about five o'clock, James Lowndes, a C.P.R. brakeman on the Weston way-freight, in charge of Conductor Joseph Walker, met with a serious and painful accident in the C. P. R. yards here, as a result of which he has had to have one foot amputated. Lowndes was stepping across the track to turn the switch when the freight was backing down. His left foot caught in the point of the rail and before he could extricate it the wheel passed over, crushing the foot to pulp. Later in the evening the foot was amputated a little above the ankle by Dr. T. H. Henry, C.P.R. surgeon, assisted by Dr. J. A. MacLeod.

The patient rallied from the operation and is resting easy today. He is a married man, 45 years of age, and lived here for some years, moving to Toronto two months ago. He has been in the company's service several years.

His flesh was blackened with the acid. Little hope is held out for his recovery.

HUN-SWEDISH INTRIGUE IS PROFOUND SENSATION

U. S. Expects Germany to Offer Amends to Argentina and to Recall Luxburg—Swedish Minister Denies Charge.

Washington, Sept. 9.—The government's exposure of how Sweden's legation in Argentina acted as a channel for news between Minister Luxburg and the Berlin foreign office has created a sensation which absorbs the diplomatic corps and all official quarters almost to the exclusion of all other subjects connected with the war.

As a revelation of the machinations of German diplomacy it takes rank second only to the celebrated Zimmermann note plotting war between the United States and Japan and Mexico.

State department officials today continued their policy of absolute silence, but it was plain they deplored any attempt to color the incident as forecasting a diplomatic break between the United States and Sweden.

No such development is even thought of at this juncture. At the present stage it is wholly a matter between Argentina, Sweden and Germany, with the United States, her allies and the rest of the world interested onlookers, eager to know how the most remarkable train of events will be explained or dealt with by the three governments.

May Recall Luxburg.

Germany's probable action is more or less discounted. Anxious to retain the friendship of the few nations who have not gone to war with her, it is expected that amends will be offered to Argentina. This might take the form of Luxburg's recall and a repudiation of his act.

To Sweden, however, the United States and its allies look for an explanation which will purge the Stockholm foreign office of the stigma of knowingly having been Germany's tool in war time.

Officials and diplomats entertain the possibility that Luxburg's despatches may have been transmitted without the Swedish minister knowing the contents thereof, taking Luxburg's word they would not violate Sweden's neutrality. Whatever becomes of the official explanation, officials and diplomats here are unanimous in their belief that Sweden must disavow any participation and responsibility, and take steps to show her good faith. This may be difficult because of the internal situation in Sweden, where the upper circles are admittedly pro-German, because of the fact that Sweden, militarily a weak nation, lies at the mercy of Germany, and also that Sweden may not adopt one course when Germany wishes her to take another.

Must Stay Neutral.

Sweden is bound to maintain her neutrality, for it is believed that Sweden will be almost another Holstein in case Germany wins. The greater number of the Swedish people are counted socialists, with every tradition against monarchy, as represented by Germany. While their sympathies are with the allies, they feel their helplessness, and should Germany be antagonized Sweden would be at her mercy. Aside from the Russian fleet there is not an allied warship in the Baltic, and the coasts of Sweden could be quickly ravaged.

It is recalled by diplomats here that Count von Bernstorff, former German ambassador to the United States, recently has been much in Stockholm.

BARON LOWEN'S DENIAL.

Buenos Aires, Sept. 9.—The Swedish minister to Argentina, Baron Lowen, today denied that despatches in cipher had been sent to Berlin by the German charge thru the Swedish legation at Buenos Aires. He declared:

"I have not sent nor caused to be sent by the legation under my charge any telegram from the German legation. The news is a great and disagreeable surprise. I have cabled to my government to clear up matters.

"In the United States they are very excitable."

The official announcement issued by the state department at Washington that communications from Count Luxburg, German charge at Buenos Aires, had been sent to the Berlin foreign office thru the Swedish legation in cipher, caused a sensation and was the principal topic of discussion thruout the city. The president of the republic has already called upon the foreign minister for explanations.

Exposure "Unusual Scandal."

The newspapers of Buenos Aires refer to the exposure as an unusual scandal. La Nacion says: "This sensational revelation, which compromises the faith of the German foreign office, must modify many opinions regarding the situation. It clearly shows the contempt with which the two diplomats involved regard the Argentine foreign office.

"Diplomacy in this war has given us many surprises, but none so grave or that occasioned consequences so difficult to foresee in their far-reaching effects, as this from the United States, the involvement of the fair name of our country, imposed upon because of its excessive good faith. In a complicated plot, which must arouse universal comment of all kinds, claims, fears and speculations."

Every paper today said that the report was so sensational and unusual that it could not be believed except for the fact that it had been made public by the state department of such a great country as the United States.

NORTHUMBERLAND MEN CARRY FOE TRENCHES

London, Sept. 9.—The official communication from British headquarters in France, issued tonight, reads:

"In successful local operations this morning southeast of Hargicourt, the Northumberland troops attacked and captured six hundred yards of German trenches, south of the positions we gained in this area on August 26. We also captured 52 prisoners and two trench mortars.

"At the same time we attacked a small portion of a hostile trench required to round off our line east of Malakoff Farm and captured it after heavy fighting, in which considerable casualties were inflicted upon the enemy.

"During the night hostile raiding parties attacked two of our posts south of Hollebeke. After sharp fighting with heavy enemy casualties, the raiders succeeded in entering one post, from which three of our men are missing. The attack on the second post was driven off with enemy loss.

"Early in the morning the enemy also attacked our trenches in Inverness Copse, but was repulsed, leaving 12 prisoners in our hands.

"We improved our position slightly during the night, northeast of St. Julien."

The text of today's British statement follows:

"Early this morning troops holding our line east of Villeret and southeast of Hargicourt attacked and succeeded in entering German trenches on a front of several hundred yards. A number of prisoners were taken by us.

"We successfully raided the enemy's trenches during the night in the neighborhood of Gavrelle and east of Vermelles and secured a few prisoners.

"Hostile artillery was active during the night in the neighborhood of Westhoek. We captured 13 prisoners as the result of local fighting northeast of Ypres."

ANARCHY IN ARGENTINA.

Buenos Aires, Sept. 9.—The proposed strikes by employes of five railroads have been postponed by the men's unions in order to give them time to organize a general walk-out on seven of the largest roads. The walk-out probably will take place this week. Meanwhile anarchy is raging in many sections of the country, the strikers taking part in them not being held in check by the railroad unions, because they are not members of the unions.
