NORTH BRITISH AND MERCANTILE FIRE AND LIFE INSURANCE CO. | 78 ST. FRANCOIS XAVIER ST. MONTREAL. 26 WELLINGTON ST. EAST, TORONTO.

KINGSTON. Is one of the oldest settled portions of Ontario, being the location of the fort constructed by Frontenac, in July, 1673, to command the trade of the St Lawrence and the lakes, and it was long known by his name. This fort stood on the site now occupied by the barracks, and was captured from the French by Gen Bradstreet in 1758, the name being changed to Kingston about 1780. In July, 1792, the Government of Upper Canada was organized at Kingston, but the city was not incorporated until 1846. It is now the fifth city of the province in point of population, and is pleasantly situated, in Kingston township, Frontenac County, of which it is the county seat, at the head of the Thousand Islands, on the river St Lawrence—where it issues from Lake Ontario—and on the river Cataraqui, which here falls into the St Lawrence. The Rideau canal also enters the river here, and furnishes direct water communication with Ottawa and the intervening towns on the route. Next to Quebec, Kingston is the most strongly fortified place in Canada. In front of the city lies a beautiful bay, forming a safe and commodious harbor for vessels of the largest draught. Kingston has good wharves and is well adapted for the building of ships and steamboats, having facilities second to none on the Lakes. Opposite the city lie two islands, Garden and Wolfe, and opposite Wolfe Island, on the south shore of the St Lawrence river, is the town of Cape Vincent, in New York State, the terminus of the Cape Vincent branch of the Rome, Watertown and Ogdensburgh Ry, and steamboats in summer and stages in winter ply daily to that place in connection with the railway. The G T Ry passes about two miles north of the city, and is connected with it by a branch line, and the K & P Ry, starting from here, runs northward until it forms a junction with the C P Ry at Renfrew, a distance of 104 miles. In manufacturing, Kingston takes a front rank; locomotives, cars, steam engines, agricultural implements, stoves, pianos, organs, etc, are manufactured here in large quantities. There are also 3 breweries, 3 planing mills, 3 foundries, 3 broom factories, saw and cotton mills, knitting works, chemical works, tanneries and other manufactories of various descriptions. Kingston contains 16 churches of various denominations, viz, 4 Episcopal, 3 Congregational, 4 Methodist, 3 Presbyterian and 2 Catholic, and has an excellent school system, comprising 9 public and separate schools, 3 convents and several colleges, the principal being Queen's College, incorporated by royal charter in 1841, in connection with which is an observatory and a library containing 14,000 volumes, also the Royal College of Physicians and Surgeons, Ladies' Medical College, Royal Military College of Canada and the Dominion Business College. The public school library contains 4,000 volumes, and the library of the Mechanics' Institute 3,000 volumes. There are several handsome public buildings, the court house, custom house, city hall, post office, banks, hospitals, etc; 3 public halls, viz, Martin's opera house, seating 1,100, city hall, seating 800, and the Victoria hall, seating 700 persons. It has 4 chartered banks, besides private enterprises, and 2 daily newspapers, the *British Whig* and the *News*, both of which publish weekly editions, the latter under the title of *Chronicle and News*, *Canadian Freeman* and the *Queen's College Journal*, published monthly. Grain, produce, live stock and the productions of the various manufacturing establishments form the shipments. The assessed valuation of real and personal property is $6,592 510, and the bonded indebtedness $363,166.71. About two miles west of the city is the village of Portsmouth, in which is located the Dominion Penitentiary and the Rockwood Lunatic Asylum. The city is lighted with gas, has good water works and fire department, and is supplied with a street railway, electric light and telephone facilities. Ironstone is found and extensively mined in the northern part of the county, and the opening of the extension of the K & P Ry will increase the yearly output, which is already very large. During navigation steamboats for all parts of the lake system and the river St Lawrence call daily. Stages run daily to Newboro', 30 miles north-east, fare $1.50, and to Napanee, 24 miles west, fare $1.50, and in winter to Cape Vincent, 12 miles south, fare $1; twice a week to Sydenham, 18 miles north, fare $1, and tri-weekly to Battersea, 16 miles north-east, fare 25c; to Gananoque, 17 miles east, fare 25c, and to Inverary, 11 miles north, fare 25c. Population, 17,000. Telegraph, GNW. Express, Dominion, American and Canadian. Mail daily. Distance from Toronto, 161 miles; from Ottawa, 115 miles; from Montreal, 172 miles. LONDON. The most important city of Western Ontario, is located at the junction of the north and south branches of the river Thames, in London township, Middlesex County, of which it is the county seat. It has excellent railway facilities, being on the main line G W div G T Ry, and the terminus of the L branch of the G T and of the L & P S and L H & B branches of the G W div of that road. Settled in 1820. After the opening of the railway in 1854 it grew rapidly, and was incorporated as a city in 1855. It is a handsome city with wide and regular streets, and many large and important public buildings and churches of great architectural beauty, and being in the centre of an excellent agricultural district is the seat of an extensive trade in grain, live stock and produce. It is likewise a large manufacturing point, having several agricultural implement works, extensive breweries, car, oil and chemical works, foundries and machine shops, furniture factories, brick and tile works, and other industrial undertakings. It is well supplied with churches, having 33 of the Episcopal, Catholic, Baptist, Christian, Congregational, Methodist, Presbyterian and Latter Day Saint denominations, and contains the Western University, a collegiate institute, a central, and 8 public and 3 separate schools, a mechanics' institute with a library of 4,000 volumes, a good opera house seating 1,500, a city hall, custom house, post office and other public buildings, several hospitals and asylums, 7 incorporated banks and a number of loan and savings societies, and lodges and courts of the principal secret, benevolent and social societies and clubs. There are two daily newspapers, the *Advertiser* and the *Free Press*, both of which publish weekly editions. The *Catholic Record* and the *Echo*, published weekly, the *Family Circle*, *Canadian Entomologist*, *Canadian Wheelman*, *Farmer's Advocate* and the *Forester's Herald*, published monthly. Grain, live stock, produce, beer and the products of the various manufacturing establishments are shipped. Assessed valuation of real and personal property $12,666,013, bonded indebtedness $1,742,523.47 for railway bonuses, waterworks, etc. The value of the real estate owned by the city is $599,187.12.

NIAGARA FALLS. An incorporated town, formerly known as Clifton, situated on the west bank of the Niagara river, which at this place is spanned by the magnificent railway suspension bridge, which connects the G W div of the G T Ry with the railways of New York State and the United States system. The world famed Niagara Falls are about 2 miles above this point, and are annually visited by thousands of tourists from all parts of the globe. The steel cantilever bridge of the C div MCRR is carried across the river at this point. This magnificent structure has a clear span of 494 ft 9 inches, and a total length of 909 ft 9 inches. A suspension bridge for foot passengers and carriages, with a span of 1,268 feet, extends across the chasm about 500 yards below the Falls. Niagara Falls was settled in 1806 and incorporated in 1856, and is in Stamford township, Welland County, 16 miles northeast of Welland, the county seat. The principal trade of the place is derived from the influx of summer visitors, for whose accommodation there are some very large hotels. It contains Episcopal, Presbyterian, Catholic and Methodist churches, 2 public and separate schools, a mechanics' institute with a library of 3,000 volumes, a town hall seating 400, 2 banks and 2 weekly newspapers, the *Niagara Falls Review* and *The World*. The assessed value of the real and personal property is $1,356,870, and the bonded indebtedness $8,700. The electric light is in use and the town has an efficient paid fire department, and telephone facilities. Stages to Niagara Falls South twice daily, fare 25c. Population, 3,000. Telegraph, GNW. Express, American. Mail daily. Distance from Toronto, 83 miles, from Hamilton, 44 miles, and from Detroit, Mich, 226 miles. Walter W Woodruff, postmaster.

OTTAWA. The capital of the Dominion of Canada, is most picturesquely situated on the south shore of the Ottawa river, 87 miles from its confluence with the St Lawrence river, and at the point of junction of the Gatineau and Rideau rivers and the Rideau canal with the Ottawa river. The celebrated Chaudiere Falls on the Ottawa are situated at the west end of the city, and are spanned by a handsome suspension bridge, erected by the Government at a cost of nearly $67,000 and which unites the provinces of Ontario and Quebec At the north-east of the city the Rideau river falls into the Ottawa, forming two beautiful cataracts 40 feet in height. The city is in the township of Nepean, Carleton County, of which it is the county seat. It has good railway facilities, being on the C P Ry, and is the western terminus of the C A and of the St L & O Rys, the latter worked by the C P Ry, and by means of the Ottawa river, it has steamboat traffic with all parts of the St Lawrence river and the Great Lakes. The Rideau canal forms a system of inland water communication extending to Kingston on the St Lawrence river. Ottawa was settled in 1827, and was originally called Bytown—from the name of its founder, Colonel By, the superintendent of the construction of the Rideau canal,—was incorporated as a city in 1854, and its name changed to its present, more appropriate one. The Rideau canal divides the city into two portions, known as the Upper and Lower towns, and reaches the Ottawa river by means of eight well constructed stone locks. In 1858 the city was selected by Her Majesty the Queen as the seat of the Government, and the erection of the magnificent Parliament and Departmental buildings was at once commenced, the foundation stone being laid by H R H the Prince of Wales, in September, 1860. These buildings, which occupy three sides of a quadrangle, are very extensive, and are handsome specimens of pure Gothic architecture, being the finest examples of that style on the continent, and afford accommodation for both houses—the Senate and the Commons

and for the various Government offices, and were erected at a cost of nearly $4,000,000. Adjacent to the city are several villages, the principal being New Edinburgh and Hull, P Q. Rideau Hall, the official residence of the Governor-General, is situated in the former village, and is a handsome stone structure with 35 acres of well laid out and beautifully shaded grounds attached. The city has wide, regular and uniform streets, and possesses many handsome stone buildings. It contains 22 churches of various denominations, having 5 Catholic, 5 Methodist, 4 Episcopal, 3 Presbyterian and one each of Baptist, Congregational, Reformed Episcopal, Lutheran and Catholic Apostolic, has a normal, 2 model, 6 public and 14 separate schools, a collegiate institute and numerous colleges, convents and other private educational establishments and a number of religious and benevolent societies, asylums, orphanages and hospitals. It has several excellent libraries and literary societies, an opera house seating 1,200, St James' hall seating 600, 9 chartered banks, 4 daily newspapers, the *Citizen*, which is also issued as a semi-weekly, the *Free Press* and *Le Canada*, who also issue weekly editions, and the *Evening Journal*, a daily issue, the *Courier de Hull* and the *Canada Gazette*, weekly, and the Dominion *Sanitary Journal*, *L'Album des Families* and the *Universal Penman*, issued monthly. The principal manufacturing interest of the city and the neighboring villages is lumber and millions of feet of sawn boards, square timber, deals, etc, are annually exported to Great Britain, the United States and other places. The assessed valuation of the real and personal property of the city is $13,000,000, the bonded indebtedness $2,117,849, and the value of the real estate belonging to the city amounts to $299,550, exclusive of the waterworks which are valued at $1,000,000. It is lighted with gas, has an excellent fire department with fire alarm, telegraph, telephone facilities, a street railway, and in fact all the modern requirements of a first-class enterprising city. It has lodges of all the various secret and benevolent societies, several clubs and other social organizations. Excellent steamboat facilities are provided by several companies, and boats run daily to Montreal, Kingston, Portland, and the Ottawa river ports. Stages daily to Aylmer, Chelsea, Kirk's Ferry, North Wakefield and River Desert, all in Quebec province, and to Richmond, Ont, 18 miles south-west. Population, 32,800. Telegraph, GNW and CM. Express, Dominion and Canadian. Mail daily. Distance from Montreal 120 miles, Kingston 115 miles, Toronto 261 miles, Quebec 292 miles and Halifax 978 miles. Express, Dominion and Canadian. Telegraph, GNW. Mail daily.

HULL CEMENT and LIME WORKS

I would call the attention of Engineers, Contractors and others interested, to the superior merits of my ***Hull Hydraulic Cement***, and its adaptation to hydraulic works of all kinds however much exposed to the influence of water, basement floors, concreting, plastering, etc. Best of references from leading Engineers and Contractors. Directions for using on barrel.

Best Common Lime for building, plastering, etc., supplied in bulk by carload, or otherwise, or barrel if required.

PARRY SOUND. A flourishing village 165 miles from Toronto, beautifully situated at the mouth of the Seguin river (which furnishes power) and on a spacious and safe harbor, is one of the most important points on the north shore of the Georgian Bay, and is the capital of the vast territorial district of the same name. It is in McDougall township, 64 miles by water north of Collingwood, with which it has daily communication by steamboat during navigation, 24 miles west of Rosseau, at the head of the lake of the same name, and 54 north-west of Gravenhurst, its nearest railway point. Extensive lumbering operations are carried on in the neighbourhood, and several saw mills give employment to large numbers of men, the magnificent land-locked harbor, capable of accommodating vessels of the heaviest tonnage, giving great facilities for the cheap shipment of lumber to all parts of the great lake system. Settled in 1860. The village contains Episcopal, Presbyterian, Methodist and Catholic churches and 4 public schools, a court house, a registry office, several good hotels and extensive mercantile establishments, and Masonic, Orange, Temperance and Odd Fellows' lodges. A newspaper the *North Star*, is published weekly. Several good colonization roads lead from here into the interior, and there is daily communication with Rosseau, Gravenhurst, Bracebridge (its nearest banking point), McKellar, Dunchurch, etc, fare 5c per mile. Population, 1,500. Telegraph, GNW. Mail daily. J M Ansley, postmaster.

PETROLEA. An incorporated town 160 miles from Toronto, located on Bear creek, a tributary of the Sydenham river, in the heart of the oil producing region of Canada. The Petrolea branches of the G W div G T Ry and of the C div MCRR both terminate here. It is in Enniskillen township, Lambton County, 16 miles south-east of Sarnia, the county seat. The oil producing belt, so far as proved, extends from the north-west to the south-east for about 20 miles with a width varying from 1 to 4 miles, and an immense quantity of oil is obtained from this area, of which Petrolea occupies about the centre. The extent of this important industry may be judged from the following figures:

Number of wells pumping oil	3,000
" engines used	450
Approximate number of wells drilled in 1885	500
Average cost per well	$500
Approximate number of barrels of crude oil produced 1885	540,000
Number of hands employed in oil pumping, etc	2,400
Number of hands employed in refineries	300

Average value of crude oil, 90c per barrel.

There are 9 large refineries in the vicinity of the town which produce about 3,500 barrels of refined oil per week. Ample facilities are provided for storing the crude oil by several companies who have storage for upwards of 300,000 barrels in underground tanks. The total amount of capital invested in the oil industry in its various branches is estimated to be but little short of $3,000,000. Petrolea was first settled in 1838, in-

THE CENTURY SOAP CO.

FINE LAUNDRY SOAP

MANUFACTURED UNDER MAHILE PROCESS, WHICH IS SOLELY CONTROLLED BY US IN THE DOMINION OF CANADA.

PICTON, ONT. J. F. BERRINGER, Proprietor.

Interested parties have stated that our soap is an imitation of other soaps upon the market. The shape of bar or color of wrapper has led them to make this statement. In a score of particulars our soap is entirely different.

CENTURY SOAP will not shrink.
CENTURY SOAP improves by age.
CENTURY SOAP's continued use will not tinge the clothes yellow.
CENTURY SOAP contains less alkali than any other soap.
CENTURY SOAP makes the clothes of a snowy whiteness.
CENTURY SOAP contains no adulteration to cheapen the cost.

Grand Central Hotel'

RIDGETOWN, ONT.

Having lately purchased this fine Hotel, I have put in new heating apparatus, and made every other improvement and addition which seemed likely to secure the comfort of guests. The Grand Central will be run in future strictly as a TEMPERANCE HOUSE, but no trouble or expense will be spared on the Sleeping, Table or Stable Accommodation to make it rank as ONE OF THE LEADING HOTELS OF ONTARIO. Cheapness will be considered, and the Grand Central will only charge

ONE DOLLAR PER DAY.

ST. CATHARINES. An incorporated city on Twelve Mile creek and the principal place on the Welland canal which unites Lakes Ontario and Erie and from which excellent water power is obtained, in Grantham township, Lincoln County, of which it is the county seat. It has good railway facilities, being on the main line of the G W div and on the Welland Ry of the G T Ry system, the latter road running from Port Dalhousie, Lake Ontario, to Port Colborne, Lake Erie. The Niagara and Lake Shore Railroad has been surveyed and a portion graded. This road is expected to open in 1887. Settled in 1782. It was incorporated as a town in 1850 and as a city in 1876, and has several extensive manufacturing industries, flour, cotton and planing mills, saw works, furniture factories, shipbuilding yards, foundries and machine shops. It contains 3 Episcopal, 3 Catholic, 5 Methodist, 3 Presbyterian, 2 Baptist and a Congregational church, a collegiate institute, public and separate schools with 2,000 pupils, a mechanics' institute with a library of 5,560 volumes, an opera house seating 1,100, 3 chartered banks, court house and county buildings, custom house, 2 daily newspapers, the *Journal* and the *News*, both having weekly editions. Flour, fruit, grain, produce, stone and the products of the various manufacturing establishments are shipped. Assessed valuation of real and personal property, $4,495,165; bonded indebtedness, $532,427.91. The city is lighted with gas and electric light, has an excellent system of water supply owned by the city, a fire department, a street railway, which runs to the neighboring towns of Thorold and Merritton, and telephone facilities. Extensive quarries of excellent stone are worked in the neighborhood. It contains a general and a marine hospital, an orphan asylum and other charitable institutions. During the season of navigation there is steamboat communication with all parts of the lakes and the St Lawrence river. There are celebrated mineral springs, and first-class hotels accommodate a large number of summer visitors. Stages daily to Niagara, fare 50c, and tri-weekly to Beamsville, Jordan and Smithville. Population, 9,500. Telegraph, GNW and CM. Express, American. Mail daily. Distant from Toronto by water, 34 miles, by railway, 71 miles; from Hamilton, 32 miles; from Suspension Bridge, 12 miles; from Buffalo, NY, 36 miles, and from Montreal, 404 miles. Robert Lawrie, postmaster.

ST. THOMAS. A thriving city beautifully situated on the banks of Kettle creek (which supplies power) in Yarmouth township, Elgin County, of which it is the county seat. First settled in 1810. It grew very slowly until the construction of the railways enabled it to make such rapid progress that no city in Canada has equalled it. It is an important railway centre, being the principal station in Canada of the C div MCRR and the point of junction of the St C br, and on the Loop line and L & P S br of the G W div G T Ry, and the present western terminus of the C V line O div C P Ry. The L & P S br gives it access to Port Stanley, 9 miles south, a good harbor, on Lake Erie, whence steamboats run to Cleveland, Ohio,

and other lake ports. Incorporated as a village in 1852, it had then a population of 1,300. In 1870, when the construction of the two railways was begun, it had only 2,000 inhabitants, in 1876 it had 6,000, and at its incorporation as a city in 1881 it had a population of over 10,000. It has a number of important manufacturing industries including saw, planing, flax and flour mills, foundries, agricultural implement works, breweries, tanneries, oil refinery, brick yards, while the extensive workshops of the MCRR give employment to a large number of men. It contains 13 churches, many of them handsome specimens of architectural construction, viz, Episcopal, Catholic, Baptist, Methodist, Presbyterian, Congregational, Reformed Episcopal and Bible Christian denominations, the Alma Ladies' College, a fine building, erected at a cost of $70,000, a collegiate institute, a model, ward and separate schools with 33 teachers and 2,100 pupils, a free library with 6,000 volumes, a town hall seating 400, and an opera house seating 900, 4 chartered banks and several loan and savings societies, and 2 daily newspapers, the *Journal* and the *Times*, both of them issuing weekly editions. A new building for the post office and Government offices has been erected at a cost of $50,000, and there is a good court house and county jail. Grain, live stock, flour, fruit and the productions of the various manufactories are shipped. Assessed valuation of real and personal property, $5,075,025; bonded indebtedness, $184,487. The city is lighted with gas, has an efficient water supply on the Holly system for fire extinguishing and manufacturing purposes, and it is intended to re-construct them so as to supply water for domestic use also, a good fire brigade and hall, a street railway, telephone facilities, etc. The various secret, benevolent and social societies are well represented. Stages daily to Fingal, 7 miles west, and to Union and Sparta, south, and tri-weekly to Tempo and Frome. It was at this city that the elephant Jumbo was killed by a freight train Sept 15, 1885. Population, 10,127 by last census. Telegraph, GNW. Express, Dominion and American. Mail daily. Distance from Toronto, 121 miles; from London, 15 miles; from Detroit, Mich, 108 miles, and from Buffalo, NY, 121 miles. Frank E Ermatinger, postmaster.

☞ **"LITTLE WONDER BATTERY" A SPECIALTY.** ☜

This is the most complete Medical Battery ever offered to the public. We will send the "Little Wonder Battery" to any address upon receipt of price, **$7.50.**

READ WHAT PHYSICIANS SAY OF IT.

I have thoroughly examined "Norton's Little Wonder Battery," and am satisfied that it is the most simple, compact and powerful medical battery that I have ever seen ; not liable to get out of order, hence it is well adapted for family use, and should be in every family.

C. McLARTY, M.D.

I use the "Little Wonder Battery," and find it to be the most complete machine I have ever used ; being small and compact it can be easily carried in the coat pocket ; the currents are soft, pleasing and flexible, and can be graduated from the weakest to the strongest that is ever required in ordinary proctice, in fact it is a most complete electro-medical battery.
