DIAMOND FURNACE

With Double RADIATION and Ribbed Fire Pot.

PATENTED 1886 and 1888.

3 REASONS WHY THE

Diamond Furnace

Gives the Best Satisfaction

1st.—Because the Castings are all heavy and durable.

2nd.—Because having two entire circle RADIATIONS, they stow more heat and for a greater length of time than any other Furnace.

3rd.—Because having more Radiation than any other Furnace, the heat is retained inside the Jacket, and thereby caused to flow through the Registers instead of being wasted by passing up the Chimney.

CAUTION

Pay no money in advance to itinerent Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting moneys in advance.

Before signing an Order see that it has Might's Directory Co. printed thereon

We ask no payment until the work is delivered, and our Solicitors have strict orders not to take payment in any case for either advertisements or subscriptions.

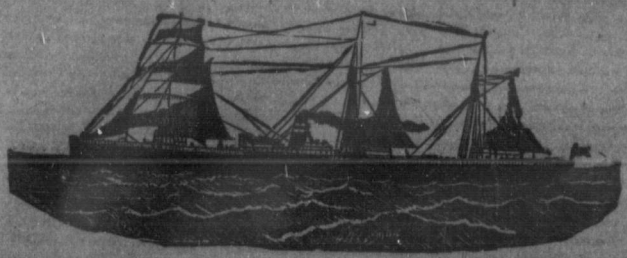
Beaver Line of Steamships



S.S. "LAKE SUPERIOR." S.S. "LAKE ONTARIO."
S.S. "LAKE WINNIPEG." S.S. "LAKE HURON."
S.S. "LAKE NEPICON."

SAILING WEEKLY BETWEEN

Montreal - and - Liverpool

DURING THE SUMMER, AND

NEW YORK, BOSTON AND LIVERPOOL

DURING THE WINTER

The steamships of this Line are of the highest class, and specially built for the Atlantic passenger trade. The Steerage in these steamships is unusually spacious, well lighted, ventilated and warmed, and passengers of this class will find their comfort carefully studied, and the provisioning unsurpassed. Each person over twelve years is provided on board with a separate berth to sleep in. **Married Couples, with their Children, are berthed together; Single Women are berthed by themselves.**

An Experienced Surgeon is attached to each steamer, and medical comforts are supplied free of charge.

Steerage Stewardesses are provided by the Company to attend to the wants of Female Passengers and Children.

The Saloon accommodation cannot be surpassed, the Staterooms being very large and well ventilated

This is the Cheapest, Quickest and Most Comfortable Route to Manitoba and the Canadian North-West.

For Freight, Passage or other Particulars, Apply to

SEWER PIPES

Sewer Pipes, Flue Linings, Chimney Tops, Lime, Fire Brick, Fire Clay and all Fire Clay Products. Portland and Native Cements, Calcined Plaster and Mortar Colors always on hand.

NOTICE

Particular attention is directed to the formation and construction of the MAGUIRE TRAP. Sanitary experts, engineers, architects, plumbers and builders, after subjecting it to the severest tests, have declared it to be worthy of their unqualified approval. Leading physicians also declare that where it is used, typhoid fever, diphtheria and other infectious diseases are much less prevalent. In the City of Toronto there is a very large and constantly increasing number of these traps being used, and in every instance they are giving perfect satisfaction. Call or write for pamphlet, at 84 Adelaide Street West.

DIRECTORY BORROWERS

THE patrons of our Directory are frequently inconvenienced by borrowers; not the stranger or private citizen, who steps into the office, looks at the Directory, gets his information, and goes out; but by business men, who continually need it for reference. yet are too mean to buy one. These are the men who carry off your Directory "just for a few minutes," which generally means a few days or weeks, unless you send for it before; it is scarcely in its place before another request—*Please lend me your Directory for a few minutes*—These same borrowers tell our canvassers that they have no use for a Directory—SHAME.

Directions and Instructions for Telegraphing Fire Alarms.—Keys are left with the occupants of buildings in the vicinity of each fire alarm box. The members of the police force also possess keys. The following will be observed when a fire is discovered:—Go to the box, open the door and pull the hook down as far as it will go, firmly and without jerking, and let it slide back; if the alarm is not immediately heard upon the small bell within, or upon the tower bells, go to the next nearest box and repeat the operation. Key-holders are cautioned not to open the box except in case of fire; to not give an alarm till certain of a fire; to not give an alarm for a fire seen at a distance; to pull down the hook but once in giving an alarm; to not let the key go out of their possession except when demanded by proper authority.
