Northern Railroad, N. Y.
Ogdensburgh and Rouse's Point.
Summer Arrangement

HEREAFTER Trains will run as follows, until further NOTICE:—

Leave ROUSE'S POINT at 8 o'clock, A.M., and 3, P.M.
Arrive at OGDENSBURGH at 10 o'clock, P.M., and 7½, P.M.
Leave OGDENSBURGH at 8 o'clock, A.M., and 3, P.M.
Arrive at ROUSE'S POINT at 1 o'clock, P.M., and 7, P.M.

At Ogdensburgh the Trains connect with Steamers for Brockville, Kingston, Sackets Harbor, Oswego, Toronto, Lewiston, Niagara, Hamilton, and the Upper Lakes; and at Rouse's Point with Steamers for St. Johns, Montreal, Plattsburgh, Burlington, Whitehall, Saratoga, Troy, Albany, and New York.

At Rouse's Point Trains also connect with the Trains of the Vermont Central Railroad, running through the heart of New England to Boston; and it connects by means of Steamers to Burlington, with the Rutland and Burlington Railroad leading also through the New England States to Boston.

This is the most desirable route for either pleasure or business travel between New England and the Western States; and is the most expeditious route from Montreal to Western Canada.

THIS COMPANY, which has been established 30 years, commenced with a subscribed Capital of $3,000,000, and was the first, 20 years ago, to offer to the Public two Scales of Premium—the lower, to insure only a fixed amount; the higher, entitling the Insurers to a participation in the profits.

Advantages offered to Insurers.
Very low Rates of Premiums on Young Lives.
The security of a large realised and invested Capital.
Large Bonuses on Policies effected on the high Scale.
Prompt settlement of Losses.
The full value given for Policies when discontinued.
On Insurances for the Whole of Life: one-half of the Premiums, if desired, permitted to remain unpaid for the first seven years, as a Loan at interest, and then to be paid, or to remain as a permanent Loan, at the option of the Insurer.
Loans upon Policies for the Whole of Life, after payment of three Premiums, in proportion to the value of same.
The acceptance of Naval, Military, Climate, and Special Risks of all kinds, on payment of a commensurate Premium. Age admitted on the Policy when issued, if desired, on proof of date of birth.
Permission for the Lives assured to reside in any part of Europe, without extra premium or special license, and to, at and from California, at a small extra premium.
Insurances, if required immediately, may be effected any day between the hours of 10 and 4.
The Pamphlets published by this Company fully set forth the merits of Life Insurance; and copies thereof may be had, *gratis*, on application to the Agent, who is also prepared to furnish every information that intending Insurers may require.

BRITANNIA
LIFE ASSURANCE COMPANY,
No. 1, *Princess Street, Bank, London.*

CAPITAL—ONE MILLION STERLING.

Empowered by Special Act of Parliament, 4 Vict., Chap. 9.

REDUCED RATES OF PREMIUM—HALF CREDIT RATES OF PREMIUM.

THE great and decided success which has attended this Institution, has induced the Directors to REDUCE the RATES originally required in British North America, to the ordinary European Rates. The result of such Reduction is to enable parties to avail themselves of the important benefits to Life Assurance at *much lower Rates of Premium than those of any other Assurance Company transacting business in Canada.*

The Directors have also resolved to extend to British North America the advantages afforded by the HALF CREDIT RATES of PREMIUM which have been so highly approved, and are so generally adopted by Policy Holders in the United Kingdom. The most liberal conditions are likewise offered to the Assured in the limits to which they may proceed by sea or land, to other parts of North America without affecting their interest in their respective Policies.

Ministerial Patronage.

We elsewhere copy an article from the Kingston *British Whig*, from which it appears that, in consequence of the extraordinary activity of Mr. George Brown, the Penitentiary is in a state of the most disgraceful insubordination. It appears that not one of the officers of this establishment, including the Warden, can do any thing without first asking, and obtaining, the consent of the ubiquitous and all-powerful Mr. George Brown. Mr. Brown, like many other half-bred persons, seems to take it for granted that all subordinates are rogues, and that no confidence can be, or ought to be, placed in any one; hence the whole house is divided against itself, and placed in a state of the most demoralizing antagonism. The Warden, and other officers, are denuded of their natural and proper authority, and the convicts are encouraged to make complaints against them, and to harrass them with continual fault-finding, which is listened to, by this everlasting Mr. Brown, with all the avidity of a petty tyrant "dressed in a little brief authority." Without stopping to advert to the well-known, inevitable, and proven commentary, which every one puts upon a suspicious temper, we cannot be blind to the disastrous consequences which must necessarily follow "*the encouragement given to convicts to make complaints, on every frivolous pretext, against their officers*;" nor can we reasonably expect that these officers will be able to do their duty fully and effectively when the whole power is placed in the hands of a Mr. George Brown, and when they are never for a moment "*safe from the trumped-up charges of the vilest criminals.*"

Without entering into the merits or the demerits—we mean the necessity or uncalled-for character of the late investigation—but assuming that a reform was necessary within the walls of the Penitentiary, no one can doubt but that such inquiry was the more readily entered into because the then Warden and his friends were opponents of the present Ministry. We will even go further, and declare it to be our conviction, having the case of the Quebec Marine Hospital before our eyes, that had the then officers of the Penitentiary been nominees or otherwise creatures of the Government, no investigation would have taken place at all. A Committee was however formed, who, at so much per day, were sent to Kingston to sit, like a Coroner's Jury, upon the rotten carcase of the Penitentiary, the officers of which they were previously determined to bury in a cross road. We say nothing of the guilt or innocence of the accused farther than this, that if the Warden was really so gross a delinquent, where was the necessity for garbling the evidence? Why was every extenuating circumstance left out of the report? And wherefore was every witness who said one word, or was even suspected of intending to say one word, in favor of the accused, instantly dismissed from the establishment? Well, the Penitentiary Commission, after a *deliberate* investigation—their deliberations not by any means hastened to a conclusion by the comfortable receipt of eight dollars a-day—found every Conservative guilty of conservatism at the least, and every relation or friend of an Opposition member of the Provincial Parliament quite as guilty of the heinous and deadly sin of not believing in Mr. George Brown, or Mr. Adam Ferguson of Woodhill. Of course a clean sweep was made, and the consequence now is, that the Establishment is popularly and currently reported to be in a state of anarchy and confusion; so that murder has been attempted several times, and once actually perpetrated, within the last few months. Mr. Brown, who has the whole weight of the House upon his own shoulders, is found to be manifestly unfit for the duties he has assumed, and the convicts, so far from becoming more subordinate and orderly, are said to be in a state of rebellion against their keepers, who are too few in number to have any authority over them. Mr. Brown's ignorant religious prejudices are also complained of as interfering with the due, proper, and impartial government of the convicts. It would appear that a Free Kirk thief is, according to him, a suffering saint, a Church of England delinquent is an unmitigated vagabond, but a Roman Catholic offender is the very quintessence of blackguardism, who does not deserve to live in the pure air of the immaculate Mr. Brown's pet Penitentiary. We should like to know in what category these unfortunates are put who have no religion at all. Here then is a grave charge of mal-administration brought against the authorities of this prison, and we shall see whether an investigation will be as promptly and readily gone into as it was when a Conservative Warden was to be got quit of.

There certainly cannot be any thing more absurd than to encourage the complaints of convicts against their keepers. It is but natural that men who have been placed under salutary restraint for their transgression against the law should have something to complain of; indeed it is not only natural for them, but necessary for the conservation of society that they should. The Penitentiary is a place of punishment of more kinds than that of mere confinement; and he is but a very bungling reformer who would listen to the complaints of such persons, and try to render the prison a place to which convicts, when dismissed, would wish to return,—rather than a scene of discipline they would in future, by good behaviour, desire by all means to avoid: and the proof of the truth of this is, that Mr. Brown has listened to and encouraged their complaints, until the shoemakers, who have necessarily knives in their hands, have been for some time back ready to cut his throat, as a due, proper, or at least characteristic return for the countenance he has been bestowing upon the aforesaid "suffering saints."

Our esteemed cotemporary, the *Cornwall Constitutional*, remarks, that as the daily expense of Parliament is about £500, he thinks, in the plenitude of his simplicity, that "fewer Saints' days ought to be attended to by our Legislative sages," or, if they do observe them, they ought not "to take any pay for those days on which they do not work for the country." Oh! fy, most unconstitutional *Cornwall Constitutional*, would you really deprive honorable gentlemen of combining pleasure—we don't speak of religion, mind you—and profit at the same time, since, long ere this, you must have known perfectly well, the pleasure has been so often turned into profit, and profit into pleasure, that the honorables have entirely forgotten which is which? We have a very peculiar feeling upon this point, and we don't care who knows it: it is this, that we have no objections to a Saint's day when it chronologically comes round, provided always that it be kept in a saintly and canonical manner. But we seriously protest against Saints' days being dedicated, as they often are, and by professing Christians, too, to the service of one whom no one mentions to ears polite. Saints of old, each of them, in their lives, were celebrated for some particular Christian virtue; and they were canonized, and placed on the calendar by the Church, as beacon lights to guide the *religieux*—sorry we have no proper English word for this—in his works of piety to his Creator and good will to man. But in these degenerate times, Saints' days are observed in a very unsaintly manner, indeed; and how can it be otherwise, when even the very Sabbath itself—a day consecrated, by every Denomination of Christians, to profound thought and religious exercise, is profaned and abused, and turned into a day of revelry, worldly pleasure, and secular pursuit? This, in itself, is by no means a light evil, not so much in its immediate effects as in the bias which it gives to character. In the words of the Scottish poet, than whom none has expressed it better, and which words we put into an English dress:—

"I wave the quantum of the sin,
The hazard of concealing;
But, Oh! it hardens all within,
And petrifies the feeling."

THE HERON FAMILY.—There are few Companies of Vocalists or Comedians who have hitherto visited Montreal with stronger recommendations to public favor than this accomplished Family, and their several appearances have fully borne out the encomiums which the newspaper Press elsewhere have bestowed upon them. The versatility of their powers, both in singing and acting, is really astonishing, and is the true secret of their extended popularity. This evening Mr. T. B. Bennard, Lessee of the Royal Lyceum, Toronto, makes his first appearance as a Comedian in Montreal, so that, in conjunction with the Misses Heron, a very rich treat awaits the play-going part of the community of this city. Mr. Bennard's masterly delineations of Irish character are well known, and he is fast becoming no less celebrated in genteel comedy, and broad humour. We anticipate a full house on this evening.

The Annual Examination of the High School of Montreal will take place on Monday, Tuesday, and Wednesday, the 7th, 8th, and 9th instant, in the different Class-Rooms of the School, between the hours of 3 and 4 o'clock. The Distribution of Prizes will be made on Thursday, the 10th July.

"MANY A SLIP BETWEEN THE CUP AND THE LIP."—This saying was supposed to take its origin from one of Poniatowski's wounds being shot as he was going to drink. But it arose, as Ainsworth had it, thus:—"A king of Thrace had planted a vineyard, when one of his slaves, born bed had

Montreal, June 10, 1851. 356

Subjoined is one of the numerous testimonials with which the proprietors have been favored from parties residing in Liverpool and the neighborhood, where these Inks were originally introduced:—

Extract from the British Army Despatch, *March 29th*, 1851.

BLACKWOOD & Co's INK-BOTTLES.—This is decidedly the age of inventions. Man's genius seems ever on the stretch to fashion something new; something that will supersede and cast into shade for ever what our forefathers acknowledged as permanently staple, and never dreamt of improving. Among the multiplicity of needful adjuncts to our comfort which refinement has rendered necessary, how many trifles, too proficient in themselves, but troublesome by mismanagement, are of necessity resorted to daily, and yet though the inconvience experienced by the ill-fashioning of the article is loudly commented on, how seldom a rectifying principle is attempted. It is not every one who would turn their attention to the manufacture of an ink-bottle, and yet we may venture to assert, that not one of our readers but has at some period stained their fingers and their gown ends with the sombre liquid, through difficulty in pouring it forth from the awkwardly rounded mouthed jars in which this particular substance has been vended from time immemorial. At all events, we can answer for ourselves, and many a malediction have we uttered on the stone bottles, impervious to the most searching scrutiny of entailing on the person extracting the contents an almost certain emersion in a color anything but fashionable or generally regarded as improved die for a lady's fingers. To rectify this abominable nuisance, Messrs. Blackwood & Co. have invented an ink-bottle, elegant in form, yet extremely simple in construction, which wholly obviates the annoyance complained of. This capital article can be procured at any price, and from the smallest to whatever size may be required, and as some are constructed of glass as well as others of a more durable material, the evils we have enumerated can readily be guarded against. "There is a time for all things," we are told, and assuedly the obnoxious stone ink-bottles have had their day; and in brief time, when Messrs. Blackwood's patent becomes more generally known, the ancient receptacles for the "dingy fluid" will be numbered among the inventions of a by-gone age.

LIVERPOOL, 1851.

We beg to bear testimony to the excellent quality of your Writing and Copying Inks. The latter gives us great satisfaction, and, as respects its fluidity and copying qualities, is equal, if not superior, to any we have ever used. We need hardly say that your new description of bottles cannot but be considered an immense advantage to all who use them.
Yours, very respectfully,
PETER LEICESTER & Co.

FAMILY TEA, COFFEE AND SUGAR WAREHOUSE.
No. 109, Notre Dame Street.
SAMUEL COCHRAN invites the attention of Customers to his stock of TEAS and COFFEES, which have been selected with the greatest care, and on such terms as allow him to offer them at unusually low prices.
The MACHINERY on the Premises, worked by a Four Horse Power Steam Engine, for Roasting and Grinding Coffee, is on the most approved plan, the Coffee being closely confined in *polished metal spheres*, which are constantly revolving and scillating in *heated air chambers*, is prevented imbibing taint from Smoke, danger of partial carbonization of the Bean and loss of Aroma, so important to Connoisseurs, which is further ensured by attention to Grinding at the shortest time prior to Sale. To this elaborate process SAMUEL COCHRAN owes the high reputation his Coffee has obtained through a large portion of the Provinces.
CRYSTALIZED SUGAR (much admired for Coffee); REFINED SUGAR in small loaves, and WEST INDIA SUGARS, of the best qualities, always on hand.
A few of the choicest selections of TEAS may be had at the CANTON HOUSE, in Native Catty Packages, untrivalled in flavor and perfume, at moderate terms.
Families residing distant from Montreal will have their orders scrupulously attended to, and forwarded with immediate despatch.

CALEDONIA SPRINGS.
THE "CANADA HOUSE,"
AT THE ABOVE
CELEBRATED AND FASHIONABLE WATERING PLACE,
IS NOW OPEN FOR THE
RECEPTION OF GUESTS.
VISITORS may rest assured the arrangements will be such as to insure every satisfaction—and that INVALIDS will be particularly attended to.
PRICES OF BOARD FOR THE SEASON OF 1851:—FIVE SHILLINGS PER DAY, or FIVE POUNDS PER WEEK.
Caledonia Springs, 2nd June, 1851.

[Extract of a letter from P. J. Lecroix, Esq., of Montreal.]
I beg to state that in July, 1840, I went to the Springs for the purpose of testing their efficacy in a case of the most violent Rheumatism, under which I had been suffering for several years previous. After remaining at the Springs for about three weeks, and making free use of the Waters, my limbs were entirely relieved from all pain, and my health perfectly restored. Several of my friends, to whom I have recommended the Springs, assure me that they have experienced immediate relief from their use. I consider the Waters of the Caledonia Springs to be most efficacious in cases of Rheumatism.
To the proprietor of the Caledonia Springs.

MONTREAL, 4th June, 1851.
DEAR SIR,—In compliance with your request, I have much pleasure in giving you my opinion of the extraordinary efficacy of the Waters of the Caledonia Springs, so long and highly appreciated by the Public; based upon the observations of some twenty-five years' experience, and tested as they have been by a great many, patients of mine and others, labouring under Rheumatic affections and the different forms of disease to which the human frame is liable. I consider them invaluable. Few persons, except those who have suffered from that stroke (as I may justly appreciate their wonderful salutary effects), I have often seen persons martyrs to this disease, (myself for one during ten years,) which baffled all medical skill, both in England and on this Continent, resort to the Caledonia Springs walking on crutches, and others that could not walk at all; worn out by protracted sufferings, and their general health disordered and broken down by profound and wasting excesses, return to their homes free from pain, leaving behind (with unspeakable joy) their crutches, and with health, strength, appetite, and activity, perfectly restored. Striking as such results are, the curative action of these Waters, the Intermittent and Sulphur Springs in particular, have been almost as efficient in other diseases, such as Lepra, generally called *St. Ishram*, and other affections of the skin; in a variety of Dyspepsia, Constipation, Chronic Affections of the Liver and Kidneys; and I am sure that a great number of those cases that have the Springs greatly benefitted, but not completely restored, would have been cured by a more extended use of the spa. That these Waters have acted in many diseases as a specific, seems to be generally admitted, and so much respectable testimony to this effect has already been laid before the Public, that he say more would be superfluous.
H. MOFFATT,
Member of Royal College of Surgeons, London.
To John L. Wilkinson, Esq.,
Proprietor of the Caledonia Springs.

MONTREAL, 13th December, 1842.
DEAR SIR,—I have to state that I consider the use of the Caledonia Waters a very valuable curative agent in the treatment of many forms of disease. Circumstances enable me to grant you a favorable Certificate with more than usual propriety, many of my own Patients tested the efficacy, and derived great benefit from the use, of the Waters. Of all diseases that have come under my notice, in which a persevering use of the Waters has given the most beneficial results, Chronic Rheumatism ranks the first. Many of the cures in this disease have been truly astonishing. I met with a case last summer, where the individual, a delicate lady, had been suffering severely for more than nine months, at a had completely lost the use of her hands, and could only walk a few steps with great pain and difficulty. After a residence of six weeks at the Springs, she returned free from pain, and strong enough to walk a considerable distance without fatigue. I have also found the Waters useful in Dyspeptic and Urinary Complaints, in Chlorosis, Secondary Syphilis, and some of the forms of Cutaneous Diseases.
In conclusion, allow me to add, from a personal visit to your Establishment, that (independently of the acknowledged virtues of the Waters) the great outlay you have been put to in the improvement of the place, and the unwearied care and attention which you bestow to the comfort and convenience of your boarders, justly entitled you to a large share of public patronage and support.
I remain, dear Sir, Yours very truly,
GEORGE W. CAMPBELL, A.M., M.D.,
Lecturer on Surgery, McGill College.
To the Proprietor of the Caledonia Springs.

MONTREAL, December 8th 1842.
SIR,—I beg to state that I consider the Caledonia Waters efficacious in cases of Dyspepsia, Chronic Rheumatism, or where the constitution has been impaired by the injudicious use of Mercury, and illcreated Syphilis. I would also add, in certain Cutaneous Diseases, I have frequently recommended their use in the above complaints, and witnessed their good effects. I hope that the benefits that are derivable from them may not be lost to society, by the indiscriminate and almost universal use they have been lately put to, and like the fate of many of our other excellent remedies, fall into unmerited disrepute.
I have never visited the Establishment, but I have often heard it most favorably spoken of.
I am, Sir, your obedient servant,
JAMES CRAWFORD, M.D.
To the Proprietor of the Caledonia Springs

☞ A FRESH SUPPLY of the above WATERS has been received at the Depot, which can be had at the Counter, or sent to order to any address in town or country. Price of the Water very moderate.

THRASHING MACHINES.

LETTERS PATENT.
TIME AND LABOR SAVED IS MONEY EARNED.
THE subscribers having secured to themselves the exclusive right of manufacturing and vending to others to use within the territory of Upper and Lower Canada,
SEVERANCE'S CELEBRATED IMPROVED HORSE POWER & THRASHING MACHINE,
one of the most valuable time and labor saving Machines ever devised by human ingenuity, respectfully inform the public, that they have just completed a new and extensive Factory on Wellington Street, extending from Prince to George Street, which gives them more than double the accommodations they had in the old shop, which will hereafter, they trust, enable them to supply the whole farming community of the United Provinces with a machine that will thrash and clean more grain in a day, with less expense and with greater cleanliness, than any other known invention—only requiring two horses.
We beg leave to say to our customers and friends, that we are again prepared to furnish those in want of Thrashing Machines with an article superior even to those heretofore manufactured by us.
Our long experience in making, and the very liberal patronage we have enjoyed in the sale of our Machines, has, together with a constant determination to produce an article that will never fail to excel all others, caused us to watch carefully all the improvements that could be made from time to time, until now we feel confident in saying, that for durability, neatness of work, and amount of it they can do, our Thrashing Machines are unequalled by any in use. And while the grain is thrashed clean, and none of it broken or wasted, it is, at the same time, perfectly cleaned, fit for the Mill or any Market.
All orders addressed to us, or our Agent, Wm. Johnson, will be promptly attended to.
Machines shipped to any port in Canada, and every one warranted as far as good so recommended.
Liberal terms of payment allowed.
B. P. PAIGE & CO.
Whereas, Letters Patent were obtained, bearing date March 4, 1848, on said Machine, the public are cautioned against purchasing, using, or manufacturing any imitation thereof, as all infringements will be dealt with according to the law of the land.
All genuine Machines will be accompanied by a Deed signed by B. P. Paige, the owner of the right, giving the purchaser the right to use or transfer the same. Without such a Deed, no person will be safe in purchasing or using and Machines.

JOHN G. D

Still the Forest is the best Medical School!

That predisposition which exposes the human frame to the infection and virulence of all the causes, generally or indirectly, from a disordered state of the System, caused by Impure Blood, Bilious and Morbid conditions of the Stomach and Bowels.

DR. HALSEY'S GUM-COATED FOREST PILLS.

(A Sarsaparilla preparation of unmatched efficacy.)

These Pills are prepared from the best Sarsaparilla, combined with other Vegetable preparations of the highest Medicinal virtue. They are warranted not to contain any Mercury or Mineral whatever. Their purge without griping, nauseating or weakening; can be taken at any time without hindrance from business, change of diet, or danger of taking cold. They neither have the taste or smell of medicine, and are five times more effectual in the cure of disease than any Pills in use.

But a short time has elapsed since these great and good Pills were first made known to the public, yet thousands have already experienced their good effects. Invalids given over by their Physicians as incurable have found relief, and been restored to sound and vigorous health from their use.

TO FATHERS OF FAMILIES.

Bile and foul state of the stomach occasions more sickness and deaths in families than all other causes of disease put together. In the latter part of Summer and Autumn, when the atmosphere everywhere is poisoned from miasma, arising from stagnant pools and decayed vegetation, whole families are taken down by Malignant Fevers, Fever and Ague and other dangerous disorders, all proceeding from a bilious and foul state of the stomach. No parent can be so ignorant as not to know the great danger existing from biliousness—no parent would be guilty of causing the

DEATH OF THEIR OWN CHILDREN!!!

Yet thousands of children and adults die every year through neglect of parents to attend to the early symptoms of bile and foul stomach.

Superfluity of bile may always be known by some unfavorable symptom which it produces, such as sick stomach, headache, loss of appetite, bitter taste in the mouth, yellow tint of the skin, languidness, costiveness, or other symptoms of a similar nature. Almost every person at this season of the year is bilious, the neglect of which is sure to bring on some dangerous disorder, frequently terminating in death. A single 25 cent box of Dr. Halsey's Gum-coated Forest Pills are sufficient to keep a whole family from bilious attacks and sickness from six months to a year. A single dose, from 1 to 3, of these mild and excellent Pills for a child, from 3 to 4 for an adult, and from 5 to 6 for a grown person, carry off all bilious and morbid matter, and restore the stomach and bowels, curing and preventing all manner of bilious attacks and many other disorders.

SALTS AND CASTOR OIL.

No reliance can be placed on Salts or Castor Oil. These, as well as all common purgatives, pass off without touching the bile, leaving the bowels costive and the stomach in as bad condition as before. Dr. Halsey's Forest Pills act on the gall ducts, and carry all morbid bilious matter from the stomach and bowels, leaving the system strong and buoyant, mind clear, producing permanent good health.

Dr. Halsey's Forest Pills are unlike all others. They act directly on those vital organs of the Stomach, Liver, Kidneys, &c., which secrete the fluids of the body and separate the impurities from the blood. While they purge all bilious and morbid matter from the stomach and bowels they cleanse and renew the blood, thereby destroy the seeds of disease. The Forest Pills do not weaken, but give strength and animation to both body and mind. They not her cause griping nor any inconvenience whatever, and the patient is better able to attend to business while under their influence than before taking them. They are mild in operation, yet powerful in restoring health.

The great amount of good these Pills have done for the sick and afflicted have induced thousands to commend them to their friends and the public. Individuals of worth and integrity in almost every part of the country have testified to the world in favor of their great effects in curing disease.

Testimonial after testimonial showing their great powers of curing in almost every class of disease have been tendered to us by individuals of undoubted character and respectability. The following testimony is from a respectable and wealthy farmer residing near Utica, New York:—

UTICA, November 9, 1848.

DR. G. W. HALSEY,—Every fall, for several years back, I have had much sickness in my family, of Bilious Disorders, and Ague and Fever. In the fall of 1848 two of my sons were taken at the same time with Bilious Fever. In former seasons, when sickness occurred in my family, I had always employed a Physician. But at this time having two boxes of your Forest Pills in the house, I concluded to try them. I gave to each of them six Pills, and four hours after I gave them three Pills more. They soon operated, bringing away much black and green matter. On the following day the fever had left them, and they both recovered without any more medicine. Since this time I have always kept your Pills at hand, and in all cases of sickness we have used them with the most happy results.

(Signed) IRA S. GOODHOE.

NOTICE TO THE PUBLIC.

In 1845 Dr. Halsey's Pills were first made known to the public, under the denomination of "Halsey's Sugar-Coated Pills." Their excellent qualities soon gained for them a high reputation, and the annual sale of many thousand boxes. This great success excited the avarice of designing men, who commenced the manufacture of common Pills, which they coated with Sugar, to give them the outward appearance of Dr. Halsey's, in order to sell them under the good-will Dr. Halsey's Pills had gained by curing thousands of disease.

The public are now most respectfully notified that Dr. Halsey's genuine Pills will henceforth be coated with

GUM ARABIC,

an article which in every respect supersedes Sugar, both on account of its healing virtues and its durability. The discovery of this improvement is the result of a succession of experiments during three years. For the invention of which Dr. Halsey has been awarded the only Patent ever granted on Pills by the Government of the United States of America.

The Gum-Coated Forest Pills present a beautiful transparent glossy appearance. The well-known wholesome qualities of pure Gum Arabic, with which they are coated, renders them still better than Dr. Halsey's celebrated Sugar-Coated Pills. The Gum-Coated Pills are never liable to injury from dampness, but remain the same, retaining all their virtues to an indefinite period of time, and are perfectly free from the disagreeable and nauseating taste of Medicine. In order to avoid all impositions and to obtain Dr. Halsey's true and genuine Pills see that the label of each box bears the signature of G. W. HALSEY.

Reader!!! If you wish to be sure of a medicine which does not contain that lurking poison, Calomel or Mercury, purchase HALSEY'S GUM-COATED FOREST PILLS, and avoid all others.

If you desire a mild and gentle purgative, which neither nauseates nor gives rise to griping, seek for HALSEY'S PILLS.

If you would have the most concentrated as well as the best compound *Sarsaparilla Extract* in the world for purifying the blood, obtain Dr. HALSEY'S PILLS.

If you do not wish to fall a victim to dangerous illness, and be subjected to a Physician's bill of 20 or 50 dollars, take a dose of Dr. HALSEY'S PILLS as soon as unfavorable symptoms are experienced.

If you would have a Medicine which does not leave the bowels costive, but gives strength instead of weakness, procure HALSEY'S PILLS, and avoid Salts and Castor Oil and all common purgatives.

Parents, if you wish your families to continue in good health, keep a box of HALSEY'S PILLS in your house.

Ladies, Dr. HALSEY'S PILLS are mild and perfectly harmless, and well adapted to the peculiar delicacy of your constitutions. Private them.

Travellers and Mariners, before undertaking long voyages, provide themselves with Dr. HALSEY'S PILLS, as a safeguard against illness.

☞ General Depot for Halsey's Forest Wine, No. 254, Spruce Street, New York. One Dollar per bottle, or Six Bottles for Five Dollars. Twenty-Five Cents per Box for the Pills.

For Sale by Wm. Lyman & Co., and all respectable Druggists.

PLANTAGENET WATER.

Among the Medicines exhibited at the late Industrial Fair, the celebrated Plantagenet Water held a conspicuous position, and its exhibitor, Mr. Sharples, received from the Judges the highest award. The demand at the Room for this health-restoring draught was so urgent that it was with great difficulty strangers and visitors to the city could be supplied. The testimonials of these Medicinal Springs have been so thoroughly and satisfactorily established that testimony of the most valuable character comes daily accumulating. The Medical testimonials and certificates given in our paper of Monday will, if possible, increase their reputation, and add to their value throughout the Province. The testimony of the medical gentlemen is certainly highly favorable to the chemical and medicinal qualities of these Springs—Drs. Nelson and Gibb placing them above all other Mineral waters on this Continent:—

"I believe I was one of the first Practitioners of this city who recommended the use of the Plantagenet Spring Water, and since that time I have prescribed it to a very large number of my patients with invariable advantage.

"Two members of my family, of feeble and delicate constitutions, have derived marked benefit from the use of the Water. One had nearly lost all power in the right arm, the result of a severe and protracted attack of Rheumatism; the other was extensively debilitated from derangement of the digestive and alimentary organs.

"The administration of the Water is attended with the happiest result in constipation, arising from sedentary habits, and in aged persons.

"In heartburn, morning sickness, and the other complaints to which women are subject under certain circumstances, it acts most agreeably and effectually, but in these derangements, as well as where there is over action of the kidneys and bowels, it should be taken in smaller quantities at a time, but more frequently.

"From an extensive experience I am well satisfied with the operation of the Water; to weak persons it is most suitable, and I deem it preferable to any other of the Mineral Waters in Canada with which I look upon many of the Mineral Waters as a great boon conferred by Providence on mankind.

"WM. NELSON, M. D., V. R. Col.,
"Phy. & Sur., Canada East."

"Many months experience in the use of the Plantagenet Waters in my practice have fully convinced me of their value as a remedial agent, and I have not had reason on any single occasion to regret their use. I find that they seldom disagree with the stomach, and always act as a gentle aperient and alterative, and, from their composition, they possess, in addition, decidedly tonic properties.

"Certainly, too much has not been said in their favor, for they are, probably, the most valuable Waters on that Continent.

"GEORGE D. GIBB, M.D.,
"Licentiate Royal College of Surgeons, Ireland,
"Physician to the Montreal Dispensary.

"Montreal, 8th August, 1850."

The following certificate is from the Hon. Peter McGill, a Member of the Legislative Council of the Province, and President of the Bank of Montreal:—

"CHARLES LAROCQUE, Esq.

"SIR,—Having during the year past used the Plantagenet Water, so well known and so highly commended to public favor by many of our most eminent Medical Practitioners, I can bear testimony to its salutary effects on my own immediate health, and doubt not its efficacy in contributing to strengthen and invigorate the constitution of those who may freely use it. The value of this water has been generally acknowledged in this community, and my own experience of its excellent qualities fully warrants me in giving my testimony to its beneficial effects.

SMITH'S EXTERMINATOR
FOR THE ENTIRE EXTIRPATION OF
Rats, Mice, Cockroaches, Beetles, Crickets, Ants, &c,
Without the use of Arsenic or other Mineral Poisons.

The Genuine Article has a Label, similar to the above, pasted on the top of each Box.

The following TESTIMONIALS, from parties of high respectability, will place its efficacy above suspicion:—

With pleasure I assert, that the use of SMITH'S EXTERMINATOR was attended with complete success in destroying Cockroaches, Beetles, and Rats, in and about my premises; which was effected without any inconvenience.

C. F. BAILLARGEON, Ptre.

Quebec, 7th March, 1848.

My premises have been infested with Rats for several years, and I have tried various means to rid myself of the annoyance, without success. Having been strongly recommended SMITH'S EXTERMINATOR, I have much pleasure in testifying that its use has been perfectly successful in the total destruction of the Rats with which my place abounded, and that without the least inconvenience.

BENJAMIN HART.

Montreal, November 22, 1845.

I hereby certify, that by using SMITH'S EXTERMINATOR it has perfectly succeeded in ridding the College Premises of Cockroaches, Crickets, and such like disgusting Insects, which were before very numerous.

S. VILLENEUVE,
Director of Montreal College.

Montreal, April 20, 1848.

From the Rev. B. Davis, D.D., Minister of the Baptist Church, Montreal.

I most willingly bear testimony to the good effects of SMITH'S EXTERMINATOR. I found my present dwelling over-run with Beetles; the nuisance bid defiance to all efforts to abate it, until this preparation was applied. One Box has sufficed to exterminate the Insects almost entirely from the house. Similar cases of success have occurred in my neighborhood.

THIS GALVANIC EMBROCATION is an unparalleled remedy for the Cure of Rheumatism, Acute or Chronic, seated in the Head, Joints or Limbs, The Disorders and Pain of Gout, in the worst forms, Palsy, Fits, Scrofula or King's Evil, Spinal and Hip Complaints, Stiffness of the Joints, Lumbago, Neuralgia, Chilblains, Fever Sores, Salt Rheum, Ring Worms, White Swellings, Diseases of the Skin, Leucophlas, Goitre or Thick Neck. It is likewise highly recommended in the most confirmed cases of Scrofula and Scrofulous Affections of the Neck, Affections of the Spine, Mercurial Affections, &c., &c., &c.

It is now generally admitted, by the learned and scientific, that the mysterious power called *Galvanism* or *Magnetism* is in fact the principle of Vitality or Life, and that disease in many of its most painful forms is entirely owing to the absence of this Galvanic or Magnetic power in its healthy proportions. If, then, we can artificially supply this wondrous power, when it is thus deficient, we can successfully combat disease; and this has been fully and perfectly attained by this most wonderful scientific discovery, of combining Magnetism or Galvanism with a Fluid which has cost the inventor of this remedy years of study and labor.

There is not an intelligent Physician, who has kept pace with the progress of science, that does not readily approve of the use of the Magnetic power in various diseases, and there is scarcely a Medical Journal, either in this country or Europe, which makes its appearance, without the statement of various cases, showing some new effects of these wonderful agents, corroborating the experience of their beneficial use. The inventor of the *Galvanic Embrocation* has great pleasure in being able to state, that a majority of the most distinguished Physicians of New York constantly recommend this Embrocation in their practice, and from many of them he has received the kindest testimonials of approval and commendation.

ELEGANT AND INVALUABLE ARTICLES FOR THE TOILET.

BOGLE'S HYPERION FLUID,

FOR RESTORING PRESERVING, AND EMBELLISHING THE HAIR.

The following Certificate, from Dr. Winslow Lewis, one of the most eminent Physicians of Boston, will show the estimation in which it is held by the scientific and learned, being one only of many similar ones.

BOSTON, Feb. 15, 1847.

Mr. WM. BOGLE,—Sir,—The preparation introduced by you for the hair, has been extensively used in my family, and they give it the decided preference over all other compositions of the kind. It invigorates and beautifies the hair, and clears the skin of all impurities, without producing any ultimate deleterious effects, which are so frequently the result of many well-known patented compounds.

WINSLOW LEWIS.

It is an indispensable article for the Ladies, as it keeps the hair in place and curl, and the skin or parting of the hair free from dandruff and scurf. For children, it lays the foundation of a good head of hair.

BOGLE'S AMOLE,

A COMPOUND FOR SHAVING.

This delightful article is totally different and far superior to anything yet invented for shaving. The base of it is derived from the *Amole*, or "soap plant," of California, an article used by the natives of that country for washing; and thus the use of strong alkali, so hurtful to the skin, is avoided. Its vegetable and detergent properties have the purest and most nourishing effects on the skin,—it soothes and allays irritation, and has a fine, thick, creamy lather, which does not dry on the face. It is a decided luxury to be shaved with this incomparable soap. It is done up in elegant style, calculated either for the dressing case of the rough and ready "traveller, or the toilet of the most fastidious connoisseur.

BALDNESS CURED.

The following is from Sumner F. Barrett, Saratoga Street, East Boston;

EAST BOSTON, Feb. 8, 1847.

Mr. William Bogle.—Dear Sir; For several years past, my wife has been troubled with baldness on the Crown of the head, about six or seven inches in circumference.—After repeated failures of other so-called remedies, and by the advice of friends, she was induced to use your Hyperion Fluid, for the purpose of restoring her lost hair, and I am happy to say that its effect has been to cause the hair to grow all over the part affected. She has used only two bottles, and that very irregularly; but she used it clean and more regular, I am convinced that the growth of the half would have been accelerated. I am, Sir, yours respectfully, SUMNER F. BARRETT.

BOGLE'S HEBEAIONA,

FOR REFRESHING AND BEAUTIFYING THE COMPLEXION.

Eradicating Tans, Pimples, and other eruptions of the skin, and rendering it fair, delicate, and blooming. It is equally efficacious in protecting the skin from the hot sun of summer, and freezing blast of winter, and is the most fragrant and delicious article to be found at the toilet or fashion.

All the above articles have stood the test of the severest examination, and are WARRANTED superior to anything yet introduced.

AGENTS FOR CANADA:—Mr. Lymans & Co., Montreal; J. D. Manson, Quebec; R. Lovell, Toronto.

HUMAN HAIR.—HYPERION FLUID.—This is a compound admirably adapted to the decoration of the hair, and has the particular merit of being prepared purely from vegetable substances, so that its application is perfectly free from any injurious effects. It promotes growth, imparts a healthy glossy appearance, and, in cases where the hair is merely dry, or affected with the dandruff, or slightly inflammation of the skin of the head, caused by severe brushing, it will be found invaluable. It is also a most elegant use of the Hyperion, in a state thus they will find, to their delight, a complete change will have taken place in the action of the glands, and a healthy growth of hair will shortly follow. Its effects in checking the hair from falling and changing to any other colour, are wonderful. The Hyperion should be used in the following manner:—Dip body's sponge or brush into the Hyperion, and gently rub it into the roots of the hair, so as to moisten the skin. Its effects will be found astonishing. The Hyperion should be used once or twice a week, according to the state of the hair.

CRAMP AND PAIN-KILLER.

THE MOST SUCCESSFUL REMEDY KNOWN

For the Cure of all Rheumatic Affections—Pain in the Stomach, Back, Side or Limbs—Stitches in the Back, Side or Limbs—Cramp in the Limbs or Stomach—Darting Pains, Bilious Cholic, Dysentery and Diarrhœa, Colds and Sore Throat, all cases of Local Inflammation—Cuts, Wounds, Bruises, Headache, Toothache, Burns, Scalds, Frozen Limbs, &c., &c.

THIS wonderful Medicine has effected many truly surprising cures in cases of the foregoing complaints. And we say no more than hundreds and thousands who have used it will assert, when we say there is no Medicine designed for that class of complaints, possessing more than a tythe of the power to relieve and cure of this.

We solicit particular attention to the fact that it does not contain a particle of *Opium* in any form. Neither does it contain Camphor.

It is free from any deleterious article, and cannot, in any supposable case, injure the patient.

It does not deaden the *Life Faculties*, nor produce the burning, drying, parching sensations, so much complained of in the use of other "Pain Killers."

It does not weaken the peristaltic motion of the bowels, promoting Costiveness and its attendant evils, but is a promoter of digestion, and of proper and healthy action in the stomach and intestine canal.

IN ALL RHEUMATIC AFFECTIONS,

LOCAL Pains, &c., it has proved *surprisingly* successful, rarely failing to *cure*, even in the most desperate and long standing cases. (See Certificate.) In these cases the parts affected should be freely bathed, and then rubbed lightly, but briskly—not hard enough to hurt the patient, till an irritation is produced on the surface, and in severe cases the patient should take half a teaspoonful on sugar or molasses.

CRAMP IN THE STOMACH OR BILIOUS CHOLIC.

We believe it will never fail to *speedily cure*. It should be a teaspoonful at a time, on sugar or molasses, or in any manner the patient can take it best, and the stomach and bowels freely bathed. And if in fifteen or twenty minutes the patient does not find relief, repeat the dose.

DYSENTERY OR DIARRHŒA.

Are speedily and easily *cured* by it. It should be given a teaspoonful at a time, once in an hour or two, or oftener in severe cases, and bathe the stomach and bowels with the same.

EVEN THE CHOLERA.

Which during the past season has swept off such fearful numbers, has been cured by it, we believe in every case; where it has been early and faithfully applied. In Bangor, where it proved singularly fatal, it was found to yield to no remedy, and CURTIS & PERKINS' *CRAMP AND PAIN KILLER*, was the Medicine recommended by the first Physicians, and by the Press, as the first, the safest remedy to be used.

As a dressing for *Cuts, Wounds, Bruises, &c.*, it is without a rival. As also in cases of *Burns, Scalds, Frozen, &c.*,—relieving the pain and *healing* without scar.

FOR TOOTHACHE

It is, nine times out of ten, a *CURE*. We believe it will *never fail*, unless the tooth is ulcerated. If the tooth is hollow, saturate a little lint and put it in the cavity. Hold some of it in the mouth. If the face is swollen bathe it with it.

Bathing the head with it is generally a cure for the *Headache*.

We are constantly receiving certificates from every part of the country, many of which may be seen in newspapers, and in pamphlets, which may be obtained of any of our agents.

P. S.—It is the best *HORSE AND OX LINIMENT* in the world.

Please read the following statement from John Buckman, Esq., of Belmont, Me.:—

BELMONT, July 11, 1848.

Messrs. Curtis & Perkins.—For two years past I have been entirely prostrated with the Rheumatism; both of my knees were swelled to twice their original size—a large bunch came out on my breast bone, appearing like a joint of the bone thrown out. Another bone was thrown out of my wrist. In short, I endured the most excruciating pains for nearly three years. I obtained the best medical attendance the country afforded, and tried a great number of medicines and prescriptions without the least benefit or alleviation, which I had the good fortune to procure a bottle of Cramp and Pain Killer, prepared by Messrs. Curtis & Perkins, of Bangor. Soon after using it I found I could get some rest nights, and the pain became less violent. I have continued to take it and apply it externally, until I have used eight bottles. I took much larger doses than was recommended.—The swelling has all gone down both in my limbs and breast, and I am entirely relieved from pain. I have been able to do a good day's work at any time for the last three months, for a man of my age. No description of my case can convey the vast amount of benefit I have received from this article. I believe it is the best article in the world for Rheumatism, I have also used it for cholic and pain in the stomach, and always found immediate relief.

ST. LEON AND CAXTON SPRINGS.

MONTREAL, June 3, 1850.

For the past twelve months I have frequently recommended the Waters of the St. Leon and Caxton Springs, and have received a favorable opinion of their efficacy as aperients in various derangements and diseases. I have found both Waters well adapted, in the generality of cases, for accomplishing all the purposes of the ordinary saline aperient draughts, over which their tonic and alterative ingredients give them, for continued use, a superiority.

SCROFULOUS AFFECTIONS, &c.

In all these distressing and prevalent cases, there is no question regarding the efficacy of this medicine, as testimony from citizens of this city, writes as follows:—

Dr. Sherwood's Galvanic Embrocation, I regard as the most efficacious of all remedies in Scrofulous affections. One of my children, a daughter of 5 years old, was afflicted with a very inveterate and protracted Scrofulous affection, which had continued its ravages nearly two years, various remedies were tried but without effect.—The disease had diffused itself in several deep-seated ulcers the discharge from which was acrimonious and very offensive. At this crisis, I commenced the treatment with Dr. Sherwood's Galvanic Embrocation—the only remedy used in connection, was a decoction of Sarsaparilla, which soon conquered the disease, and a complete cure was effected. 225

SELF-PRESERVATION:

A MEDICAL TREATISE ON THE PHYSIOLOGY of MARRIAGE, and DISORDERS of YOUTH and MATURITY, usually acquired at an early period of life, which enervate the physical and mental powers, diminish and enfeeble the natural feelings, and exhaust the energies of Manhood—with practical observations on the Treatment of Nervous Debility and Indigestion, whether arising from those causes, close study, or the Influence of Tropical Climates; Local and Constitutional Weakness, Syphilis, and all Diseases and Derangements resulting from Indiscretion.—with Forty Colored Engravings, illustrating the Anatomy, Physiology, and Diseases of the Reproductive Organs, explaining their structures, uses and functions, and the various injuries that are produced in them.

BY SAMUEL LA'MERT, M.D.,

No. 37, Bedford Square, London,

Doctor of Medicine, Matriculated Member of the University of Edinburgh, Licentiate of Apothecaries' Hall, London, Honorary Member of the London Hospital, Medical Society, &c.

THE Work contains an accurate and complete account of the Anatomy and Physiology of the Reproductive Organs, and of their relative conditions in health and disease. Nor are alone the sole conderns of the Work; the means of escape, as well as the nature of the danger, are pointed out in clear and intelligible language. It unerringly requires the closest attention and study, for what subject can be of more import than the preservation of health, and of the physical capabilities of which every man should be possessed. It unfortunately happens that the unhappy victim of excessive indulgence and vicious habits, whether acquired in early life, or from the follies of advanced age, while suffering from their invariable consequences, one lately entertains a fear of applying to a qualified physician for relief. Shame and the dread so frequently, but erroneously, entertained, that those complaints are beyond the reach of art, alike restrain him, and prevent the seeking for assistance before alone it can be procured. In acting thus, he forgets that accurate discrimination in ascertaining the causes of disease, sympathy with the sufferer, and, above all, secrecy, invariably characterize the intelligent and practical physician, and to the medical man, who can show by his possession of the requisite legal qualifications, that he is entitled to esteem and respect in his professional pursuits, the utmost confidence should be extended. Dr. LA'MERT has obtained the highest medical honors, as his diplomas testify, and the great extent of his practice for many years, is a guarantee for his professional experience, which has reference almost solely to the treatment of these diseases.

The Work may be had in Montreal, of BENJAMIN DAWSON, St. John, of H. Cathin & Co., price 5s. 6d. Sterling; Halifax, Messrs. Morton & Co.

Society at large is indebted to William Bogle, 277 Washington Street, for a series of the most unexceptionable toilet articles,—the month of his inventive research. His Hyperion Fluid is extensively used, and stands at the head of the list of preparations for strengthening and beautifying the hair; his Amole, for shaving, is decidedly the greatest assistant in comfort, and, we add, this troublesome task; and his Hebeaiona, for the complexion, is universally in its beneficial effects. STRONG RECOMMENDATIONS.

Regarding the effects of Dr. Sherwood's Galvanic Embrocation, is distinguished Physician of New York remarks as follows:—"The extraordinary rapidity with which this Galvanic Embrocation is conquering the prejudices and overcoming the opposition of the medical profession and intelligent members of the Profession, seems to warrant the conclusion, that it will ultimately effect a complete revolution in the practice of medicine." The Boston Medical and Surgical Journal, recently, seems to have been little thought of its duty by the profession, and it will be found the best Physician, and surest friend, in cases of sickness, pain and accident." The Boston Medical and Surgical Journal, recommends it to the regular practitioner in private families and on shipboard, for effects sometimes almost miraculous, in judicious application, for severe contusions, sprains, &c., and in cases of accidents, where the skin is not ruptured, the Embrocation can possibly injure, the result will be as in any case whatever, even to the most delicate person or tender infant.

From the Baltimore Sun Daily Paper.—Dr. Sherwood's Galvanic Embrocation, is in great demand, and is rapidly growing into general use, and is a valuable remedy for Rheumatism, Gout, Lumbago, Sprains, &c., &c., &c., &c.
