OUR EXCHANGES.

DR. LACHLAN TAYLOR will have a new and boundless theme after this. He has been visiting our own far west, and this is in respect to that visitation, from the Rev. G. McDougall, dated Fort Brenton, Sept. 25th, 1873:—

We are now on the banks of the great Missouri, grateful to heaven for the unnumbered mercies vouchsafed to us on our long and dangerous journey. In the camp of the wild and blood-thirsty Blackfeet we have been protected; where but three days before our arrival, lawless white men and intoxicated Indians met in deadly conflict, we passed unharmed. We part with our dear friend, Dr. Taylor, who has still a long journey to perform, devoutly praying that he may reach favored Ontario in safety. The time of the Doctor's visit to our great country was most opportune; at great personal toil he visited every point connected with our work, made himself acquainted with its details in a way that none but a practical visitor could have done. He has also seen the wild tribes of the plains, and will never forget the marked contrast between the docile confiding native at the mission station and his ferocious brother of the prarics.

The Doctor has enjoyed the fullest opportunity of becoming acquainted with the geographical and physical character of the country. I know of no traveller who has enjoyed equal opportunity. The growth of cereals has been witnessed, coal-beds have been examined, vast and fertile prairies traversed, and our glorious mountain scenery admired. In a word, our eloquent friend will be qualified from personal observation to give authentic information on all that relates to the great North-West. But more on this subject if I live to return to Fort Edmonton.

P. S.—I ought to have added that a Divine influence attended the services conducted by Dr. Taylor. Both Cree and Stoney will long remember the words of advice and encouragement given them by the distinguished visitor. The church-opening at Wesley Hill, Edmondton, and the Lecture on the Holy Land, with many other delightful reminiscences we must leave for another time.

DR. PUNSHON is creating a wonderful interest in England by his "Men of the *Mayflower*." Says the London *Watchman*:—

On Monday evening, the first of a series of eight lectures, to be completed during the winter season, under the auspices of the Young Men's Christian Association, was delivered by Dr. Punshon. The subject chosen was the "Men of the *Mayflower*." Our readers know that the "Men of the *Mayflower*" as an historical oration, has charmed thousands, aye, many thousands, across the Atlantic. In Canada and the United States the lecture has been especially popular, for it has touched sympathies, religious and otherwise. The "Pilgrim Fathers" are among the most cherished of English and American "memories." Grim American humour disappears when such men as the "Men of the *Mayflower*" are dealt with. Hawthorne, in his gentle and most subtle mood, has eulogised their descendents, and their mantles were caught by many a hero in the struggle between the North and South American States. Therefore, in Canada and America, Dr. Punshon had before him audiences who were ready to cheer his utterances, as the Americans greeted Mr. Thackeray's when he "politically" dealt with the "Four Georges" But good folks in the "old land" were longing to hear what Dr. Punshon had to say about these noble "Men of the *Mayflower*." The large hall was crammed, the audience, as the lecturer advanced to the platform, greeting him with the most enthusiastic cheers. A summary of Dr. Punshon's lecture is given elsewhere, and doubless the outline will be followed by our readers with pleasure. The subject was one in which the "oratorical" genius of the well-known doctor had full play. Some *ad captandun* remarks told capitally. Earnest, serious, and occasionally playful, the lecturer carried his audience with him to the close. It is a good sign of the times (apart from the ability of the lecturer) when such a determination is shown to appreciate the merits of the noble men who suffered so much for the advance of Protestantism. Who that thinks of the advance of the Spanish Armada, when "He blew with his breath," and overthrew it, but can recall, as Dr. Punshon has suggestively indicated, the Providence which safely sent to other shores the "Pilgrim Fathers."

We give two extracts from the *Scientific American*:—

LARGEST BOOK IN THE WORLD.—We read of what promises to be the biggest book in the world. It is now in process of manufacture in Paris, and will contain the names of all the inhabitants of Alsace and Lorraine who have formally proclaimed their wish to remain French subjects. The list is said to comprise 380,000 names. One hundred and twenty-five compositors have been employed on the work during the last three months; it is being printed on seven presses, and the volume will include 13,163 pp. A valuable work, no doubt, but not one which we would wish to read through at a sitting.

AMERICAN WONDERS.—The greatest cataract in the world is the Falls of Niagara. The greatest cave in the world is the Mammoth Cave of Kentucky. The greatest river in the world is the Mississippi, 4,100 miles long. The largest valley in the world is the valley of the Mississippi. The largest lake in the world is Lake Superior, which is truly an inland sea, being four hundred and thirty miles long and one thousand feet deep. The longest railroad in the world is the Pacific Railroad, which is over three thousand miles in length. The greatest natural bridge in the world is the natural bridge over Cedar Creek in Virginia. The greatest mass of solid iron in the world is the great iron mountain in Missouri. The largest deposits of anthracite coal in the world are in Pennsylvania.

The above reminds us forcibly of an anecdote told by Dr. Punshon with remarkable effect: An Italian meeting an American, exclaims, to stay his boasting, "You have no Vesuvius—ha!" "No," replies the irrepressible Yankee, but we have a Niagara that would put her out in five minutes."

The St. John *Telegraph* opens a notice of a Lecturer and subject thus:—

There was an immense audience at the Institute last evening to hear the Hon. Wm. Parson's lecture on Michael Angelo. Among the gentleman on the platform were the venerable Elihu Burritt, who somewhat resembles the late Alfred Barnes, and the Rev. Mr. Gaetz, who came down from the capital to take the measure of the audience, and catch a little extra inspiration before his own turn comes. The lecturer said he was about to speak of the most universal genius that the world had ever seen, the sculptor, painter, poet, architect, etc. Criticism stood mute in his presence. He then by way of introduction, gave a very elaborate and beautiful definition of art and its objects. Art was the infusion of mind into matter; Philosophy was the translation of matter into mind. The object of art was to give us a correct idea of the infinite, of the beautiful, and the true. Michael Angelo was the grand exponent of true Art.

The *Ladies' Repository* does not put on gloves to handle the premium business. It says: "Bribing subscribers with chromos, pianos, is wretched pandering to human sordidness. It is based in falsehood, and akin to gambling, and will ultimately shame its abettors." The *Examiner and Chronicle* says it will give neither "pictures or gridirons" to tempt subscribers.

SPECIAL TO AGENTS.—In remitting monies, please state whether for new subscribers whose names were forwarded before, or old subscribers on account, or new subscribers now ordered.

SUBSCRIBERS for Periodicals, Berean Leaves, &c., may expect that their first, or January numbers will be somewhat late. This is unavoidable, as all orders have to be adjusted, and several are slow in coming in. After that we hope to supply very early in each month.

HALIFAX WESLEYAN CITY MISSION.—A collection will be made in all the Wesleyan Churches in this City next Sabbath morning and evening, in aid of the funds of the Halifax Wesleyan City Mission. We hope our friends will give liberally and cheerfully as a new year's offering, to aid in carrying on the object of this important branch of our church operations.

1. NOTES FROM OUR AGENT.—We have a nice assortment of Books on sale at Huestis and Davidson's, Amherst.

2. ST. JOHN.—Subscribers for the WESLEYAN will facilitate the Agent's operations by leaving their subscriptions at Mr. J. Earle's, Brussells St., or A. & T. Gilmour's, Germain St., during *the first week in the New Year*.

OUR types last week seemed to revel in anticipation of Christmas. Taking advantage of our hurry and toil, they took matters pretty much into their own hands, turning our heartiest commendations into burlesque, and our most serious words into comedy. This week over, and we hope to bring them into subjection once more. Could we give our readers a *resume* of our work for the past fortnight they would more than sympathize.

months.

NOTE.—The above news has been extracted from 35 different papers. What may be read in ten minutes, required nearly four hours of close, unintermitting search and writing. But we are thankful, notwithstanding all this it seems to suit our readers.

There is, probably, no way in which we can benefit our readers more than by recommending to them for general use *Johnson's Anodyne Liniment*. It is adapted to almost all the purposes of a Family Medicine; and as a specific for coughs, colds, whooping coughs, soreness of the chest, lame stomach, rheumatism, spitting of blood, and all lung difficulties, it has no equal that we ever saw or heard of.

The propriety of giving condition medicine to horses, cattle and sheep, was discussed and admitted by many of the Agricultural Societies throughout the State last Fall, and we believe that in every case but one they decided in favor of *Sheridan's Cavalry Condition Powders*. Good judgment.
