SAINT JOHN, N. B., May 2, 1856.

CLOSE OF THE LEGISLATIVE SESSION.

The great agony is over—the mountain has bro't forth, and a mouse appears. Honorable members have received their wages, anxiously looked for, and returned to their constituents. The session just closed will long be remembered—the present generation and children yet unborn will groan under the burdens which it has so unmercifully and needlessly inflicted. Members have been reminded over and over again, that the energies of the neighbouring Province of Canada are now sadly over taxed, by reason of the gigantic railway schemes she has assumed to construct, and painfully have the disastrous consequences been appealed to which Canada must necessarily encounter; yet, it would seem that a majority of the house, charmed by some potent spell, have fallen unresisting victims into the coils of the destroyer. The legislation of 1856 will form a dark and melancholy page in the history of New Brunswick.

Our importations hitherto taxed, and without the slightest discrimination in favour of domestic industry, with as large an amount of duty as the people were disposed to pay, are now doomed to encounter an additional rate of 2 1-2 per cent. upon their foreign value. What effect this imposition will have upon the mutually advantageous trade with our Sister Colony of Nova Scotia, it is an easy matter to anticipate. The diminution of this trade, together with the greater inducements which will be held out for the operations of the smuggler, owing to an injudicious tariff, will soon be very sensibly felt by the people, when they behold an impoverished revenue.

But what cares the government for disasters like these? The salaries of its members will be punctually paid—new offices are created and government minions will fill them—There will be a commencement made to "girdle" the country with railways, while the end in view like that of Syphius will never be realized.

It is refreshing however to be assured, that notwithstanding the Executive has brought about the present unhappy crisis, and has by its stubbornness destroyed our revenue of the present year to an extent, exceeding £30,000, and has exhibited the most daring and reckless disregard of their country's interest, yet, it is refreshing we say, to be apprised, that a potent remedy for such misconduct and inability is to be found in the prerogative of the Crown, which alone has the power to *order a dissolution*. By the exercise of this Prerogative the Province may be saved from impending ruin, and a repitition of the disgraceful rows which for sometime past have marked the character of the House of Assembly.

PROROGATION OF THE PROVINCIAL PARLIAMENT.

LEGISLATIVE COUNCIL CHAMBER, Fredericton, Thursday, May 1, 1856.—This day at four o'clock His Excellency the Lieutenant Governor came in the usual state to the Council Chamber, and being seated on the throne, commanded the attendance of the House of Assembly, who being come, His Excellency was pleased to close the Session with the following Speech:

"*Mr. President, and Honorable Gentlemen of the Legislative Council;*

"*Mr. Speaker, and Gentleman of the House of Assembly;*

"The labors of the session are now concluded, and you will rejoice to be relieved from further attendance on your legislative duties.

"The consideration of the means whereby the formation of Railways may best be promoted, has occupied your attention. In the course of the session, measures of great importance have been passed on this subject, and I hope that these measures may attain the object for which they have been adopted.

"*Mr. Speaker, and Gentlemen of the House of Assembly;*

"The Supplies which you have granted for the public service demand my thanks.

"It will be my duty, aided by the Council, to apply with economy the funds placed at my disposal, and, to exercise with prudence the powers of pledging the Provincial credit, which have been entrusted by the Legislature to the Executive Government.

"*Mr. President, and Honorable Gentlemen of the Legislative Council;*

"*Mr. Speaker, and Gentlemen of the House of Assembly;*

"We shall cordially unite in an expression of joy of thankfulness for the restoration of peace.

"It is my sincere wish that in the various occupations to which you will now return, success may attend you, and I trust that by the favor of Providence the industry of the people, whether agricultural or commercial, will meet with a full reward."

SHIPS NEWS.

Arrived from St. John—Vocalist, Liverpool.

Sailed from Cork, 12th—Sutcliff, for St. John.

THE NEW ICE CROP.—The gathering of the new crop of ice has been completed within the last few days, and the houses are now all filled. Both as respects quality and quantity, the crop has never before been equaled. The superiority in point of quality is owing to the extraordinary thickness of the ice, and its solidity, making it much more enduring. Considerable quantities have been cut 22 inches thick; but the average is about 15 inches. For the retail trade thin ice is preferred, on account of the diminished waste in cutting up. The total amount housed this year by the different companies engaged in it appears from the following table:

	tuns
Knickerbacker Ice Company,	225,000
New-York and Brooklyn,	35,000
Hyslop, Winch & Co.	30,000
People's Ice Co.,	25,000
Passaic,	8,000
Total,	323,000

As nearly as can be estimated, this exceeds last years business about 75,000 tuns. Three of the old companies have been merged into the Knickerbocker Company, rendering this mammoth corporation, with a capital of $300,000, and employing in the retail trade of New York City not less than 200 horses and 125 ice-wagons, besides 14 barges with a capacity of 6,000 tuns. The profits last year amounted to $153,979. Two new companies have been formed, one of which is the New-York and Brooklyn, with a capital of $150,000. The prices for the approaching warm season have not been positively determined, but so far as concerns the retail trade, they will be something less than last year.

A RARE WORK KNOWN.—If the grease which is put upon most leather it is carried, it never washes out, the stream, marks, or holes, which are made from these rubs, will never be removed by moths. So it pays in the long run some time before being it the old not be washed.

ELECTION FOR MAYOR.—On Tuesday next the election for Chief Magistrate of this City for the ensuing year will be held. The Candidates in the field are, the present incumbent WILLIAM O. SMITH, Esquire, and ISAAC WOODWARD, Esquire. Our predilections are decidedly in favour of Mr. Smith. He stands foremost among our public men, and we may confidently say that his *whole* time has been devoted to the public business when holding any public situation. If the people desire a change merely for the sake of making a change, then we know of no better man on whom to shower their favors than Mr. Woodward; but at the same time we are of opinion that Mr. Smith's services will not be dispensed with at the present time, and that he will be completely successful in the contest on Tuesday. It will be recollected that on a recent occasion his Worship was eagerly importuned to exercise his authority in appointing three or four hundred special constables; his better judgement told him utterly to reject such a proposition, well knowing that such an act would have brought two opposite parties in contact, and probably disgrace the City with a violent breach of the peace. For this act, alone, if for no other, he deserves the continued suffrages of the people. The decision is in the hands of the public—they cannot well go astray.

☞ Since writing the above, we observe the Card of Mr. R. Salter for the mayoralty.

PROHIBITION AND ANTI-PROHIBITION.—A neatly printed pamphlet published by Barnes & Co., and bearing this title, we have recently received. The *Cons* and *Pros* had better purchase the work and read it, and judge for themselves. It is rather late in the day to throw any new light on the subject, even by the most astute writers. Excitement in reference to it is fast dying out, and will soon be succeded by the determinate conclusions of calm and sober judgments.

THE CHARACTER OF JOSEPH; OR, THE YOUNG MAN'S MODEL.—This is the subject of an excellent address delivered a short time since by the Rev. J. R. Lawson, before the Saint John Young Men's Christian Association. Like several other productions which have emanated from the pen of the reverend gentleman, the style of the present one, is plain, yet muscular, whilst the narration itself carries with it an air of simplicity and Christian truthfulness, and thus, from its own intrinsic value, we feel quite certain that the "Address" will be very generally and favorably appreciated.

THE MORNING TELEGRAPH.—This is the title of a tri-weekly paper established by friend Smiler of the *Temperance Telegraph*, and is creditable to the little man. If the tee-total cause does not meet with a great advancement in this community, it will not be the fault of brother Christopher, who, not satisfied with blazing away with his 84-pounder once a week, has now resolutely mounted a tri-weekly piece of ordinance, in order to fire round corners and into dark alleys, and thus to pepper the arch enemy the more effectually.

We are glad to be able to report that the pews in St. John Church are made free to the public at the afternoon service on the Lord's day, until the 1st November next. The subject was 1st brought before the Vestry by the zealous Rector of the parish, the Rev. G. M. Armstrong, and it was unanimously approved of, and a committee appointed to ascertain the opinions of the pew-owners. Their opinions were found to be generally favourable, and the seats in the church are accordingly free to the public for the period above stated. During the summer and autumn months, large numbers of persons belonging to our Church visit the City, who have no opportunity of attending the sanctuary, unless by applying privately for seats, which many hesitate to do, and consequently are deprived of the privilege of joining in public worship on the Lord's day. These are also many in the city who will value the privilege of obtaining seats in the afternoon, when Trinity Church is closed, and will no doubt avail themselves of it. The congregation of St. John Church deserves much praise for the movement they have made, and we trust that they will find the benefits of it so great, as to induce them to continue the experiment beyond the 1st November next.—*Church Witness.*

MARINE DISASTER.—We deeply regret to have to record that the Ship *Eudocia*, 1015 tons, Spurr, Commander, which left Liverpool for this Port on the 6th of March last, is reported as having foundered in lat 42, N. and lon. 36, W. The Passengers and Crew are saved, having been taken into New York by the *Empire State*. The freight of the *Eudocia* is estimated at about $60,000. The value of the vessel is fully covered by Insurance.

Her enterprising and liberal owners, Messrs. J. & R. Reed, are secure of the sympathy of all their fellow citizens, while general regret will be felt on account of all who may endure inconvenience, in consequence of the loss of this long-looked for vessel.

The *Eudocia* was decidedly a favorite with her owners and the public, and the disaster which has befallen her is the first that has overtaken any Ship of the *Black Ball Line*, during the space of three and a half years—in which over 100 passages between the Ports of St. John and Liverpool, have been accomplished by the vessels of this Line without a single misadventure.—*Tem. Tel.*

☞ *Holloway's Ointment and Pills*, cure of Piles, after fourteen years' affliction.—Mr. M. G., of Montreal, was a martyr to this complaint for 14 years, rendering him an object of misery to himself as well as to his friends; he shunned society, lest he should let those around him observe his affliction, and thus he suffered secretly. As he had tried every remedy without success, he at last gave up in despair all hopes of recovery; but resolved to give Holloway's Ointment and pills a last trial, and fortunate it was he did so for these potent remedies cured him in few weeks. He feels so grateful for the cure effected, that he wishes these facts to be made public for the benefit of similar sufferers.

To the Electors of the City of Saint John.

GENTLEMEN,—Having had the honour of receiving a large majority of your votes at the last Election for Chief Magistrate, I again most respectfully solicit your support at the Election for MAYOR on Tuesday next, feeling assured that my conduct in that capacity for the past year has met your approbation.

With sentiments of respect,

To the Freemen and Freeholders of the City of Saint John.

GENTLEMEN,—I address you for the purpose of soliciting your suffrages at the approaching Election for the Mayoralty of this City.

I do so as a competitor for the honor of that office with the present Mayor, and not in opposition, the termination of the period for which he was elected leaving the way open for any aspirant to the office—legally qualified.

My claims are based on my having served in the subordinate offices of Assistant Alderman and Alderman of the City Corporation for three years, in each capacity; also, as one of the Representatives for this City in the General Assembly for twelve years, and in the discharge of various other public duties.

I do not boast of superior abilities or attainments; but should I be honoured with a majority of your votes at the ensuing election, I will exert such abilities as I do possess to discharge the duties of office faithfully.

I do not present myself to you as the candidate of any party, or of any religious denomination, or of men of any particular country, but as one free to accept the support of any or all the electors, and I will receive with pleasure such votes as the Freemen and Freeholders may freely and voluntarily be pleased to give me.

Should I be elected on such principles, I shall feel myself unpledged and free to discharge any duty that may devolve on me with impartiality.

I am respectfully,
Your friend and fellow-citizen,
I. WOODWARD.

I am, gentlemen, sincerely yours,
R. SALTER.
