Could'nt Get Strong

Seemed to Have Lost All Ambition, Was Pale and Anaemic

Made Wonderful Recovery When Dr. Hamilton's Pills Were Used.

"I was never actually sick," writes Mrs. La Pierre, wife of a well-known resident of Labenlene, "yet I never could get strong like other women. I ate well enough, but somehow blood rich and red I never could make. When I married I took a great pride in my housekeeping, but it kept me tired all the time. Mrs. Lechance my neighbor, looked well—she told me her health had been made by Dr. Hamilton's Pills. I only thought of pills as a physic, but now I know that Dr. Hamilton's Pills are more for they quickened my stomach, liver and bowels—made me stouter and stronger, gave me such color in my cheeks as I never had before. They do good to parts in ways I need not mention in this letter, but I sincerely believe Dr. Hamilton's Pills should be used at regular intervals by every woman—that's why I write this letter."

No medicine invigorates a woman like Dr. Hamilton's Pills. 25c. per box, all dealers or the Catarrhozone Co., Kingston, Canada.

SUCCESSFUL CANDIDATES IN U. N. B. EXAMINATIONS

Many Qualify for Promotion at Provincial Educational Institution – First, Second and Third Years Passed List.

Fredericton, May 18.—The following is the undergraduate pass list in the University of New Brunswick examinations:

Junior Calculus—1st Division: Jones Currie, Johnston, Veniot, Foster, Parker, Berry. 2nd Division: McKinnon, White, Feeney, Bowser, McKay, Renault, Vavasour, Murray, Miss McIntosh, Wilson. 3rd Division: McLean, Allan, McKenzie.

Sophomore Analytics and Calculus—1st Division: Melanson, Weston, Alexander, Brown, Asker, Miss Wallace, A. P. Baird, K. A. Baird, Rice, VanWart. 2nd Division: Dougherty, Pugh, Whelpley, Miss Jewett, Bender, McLean, Morrison, Miss Kirk, Flett, Melrose, Miss Lockary. 3rd Division: Laughlin, Duffy, Brewer, A. M. Gunter.

Sophomore Geometrical Conics—1st Division: Weston, Alexander, Asker, Bender, Baird, Brown, VanWart, Melanson, Jewett, Morrison, McLeod, Flett, Pugh, Murray, Whelpley. 2nd Division: Andrews, Brewer, Bowes.

Freshman Algebra and Plane Trigonometry—1st Division: Miss McNaughton, Titus, Miss Adams, Atkinson, 2nd Division: Owens, Ketchum, Murphy, Holman, Oulton, Murray, Otty, Maimann, Jago, Hipwell, deVeber, Fraser, Miller, Osborne, Driscoll McNairn. 3rd Division: Brewer, Porter, Webb, Gallant, McFadgen, Magoon, Lockary, Dinsmore, Hickman.

Junior Greek—1st Division: Carter, Miss Kitchen.

Sophomore Greek—1st Division: Baird, Miss Jewett.

Freshman Greek—1st Division: Titus.

Junior Latin—1st Division: Carter, Miss Kitchen, Nason, Miss McKnight, Hanson, Miss Russell. 2nd Division: Miss Lingley, Miss Charleton, McFarlane, Miss Steeves, Miss Corbitt. 3rd Division: Carpenter.

Sophomore Latin—1st Division: Miss Wallace, Miss Jewett. 2nd Division: Miss Wier, Baird, Miss Kirk, Dougherty, Miss Hanselpacker 3rd Division: Rice, Harmon.

Freshman Latin—1st Division: Miss Adams, Miss MacNaughton, Atkinson, Oulton, Titus. 2nd Division: Porter.

Freshman Ancient History—1st Division: Porter, Miss Adams, Miss MacNaughton. 2nd Division: Oulton, Atkinson, Titus.

Junior Geology—1st Division: Jones, Wilson, Currie, Berry, Allen, Shives. 2nd Division: Foster, Johnston, Renault, McKay, McKinnon, Machum, McKenzie, White. 3rd Division: Murray, Bowser, Veniot, Feeney.

Junior Mineralogy—1st Division: Shives, Jones, Berry, Wilson, Renault, Foster, Currie, White, Machum, McKinnon, Johnston. 2nd Division: Veniot, Feeney, McKay, Bowser, Allen, McKenzie, Murray. 3rd Division: Duguay.

Junior Anatomy—1st Division: Barry, Balkam, Miss Kitchen, Carpenter, Nason, Hanson, Miss Carleton, Brown, McFarlane, Miss McKnight, Miss VanWart, Miss Steeves. 2nd Division: McKay, Kuhring, Miss Lingley. 3rd Division: Miss Corbitt, Miss Russell.

Sophomore Zoology—1st division: Dougherty, Baird, Rice, Miss Kirk, Miss Greenlaw, Miss Jewett, Miss Lockary, Miss Wallace. 2nd division: Miss Wier, Duffy.

Junior Chemistry—1st. division: Nason, Jones, Hanson, Currie, Miss Kitchen, Carter, Wilson, Renault, Miss Lingley, Shives, Brown, Balkam. 2nd division: Carpenter, McFarlane, Barry, Veniot, Murray, H. B., Berry, McKinnon, Parker, A. McKay, Patterson, White, Miss Carleton, Machum, Foster, Miss VanWart, Miss Russell, McKay, Kuhring. 3rd division: Johnston, McKenzie, Allen, Miss Steeves, Bowser, W. A. Murray, Miss McKnight, Vavasour, Feeney, Miss Corbitt, Duguay.

Freshman Chemistry—1st division: Oulton, Titus, Owens, Miss McNaughton, Hipwell, Atkinson. 2nd division: Ketchum, Webb, Porter, Miss Adams, deVeber, Murphy, Maimann, Gallant, Jago, Holman. 3rd division—McNairn, Dinsmore, Brewer, Osborne, Murray, Gunter, Magoon, Otty, Driscoll, Hickman, Lockary, Miller, McFadgen, Fraser.

Junior Mechanical Engineering Examination—1st division: McLean. 2nd division: Murray. 3rd division: Parker, Vavasour.

Junior Mechanical Engineering Drawing—2nd division: McLean. 3rd. division: Murray, Parker.

Sophomore Descriptive Geometry—1st. division: Weston, Alexander, Asker, Baird, Melanson, Bender, McDonald, Whelpley. 2nd. division: Flett, Brown, Loggie, Murray, VanWart, Gunter, A. M., Morrison, McLeod, Bowes, Rowe, Melrose, Pugh, Jewett. 3rd. division: Andrews, McLean, McLaughlin, Brewer, Gunter, R. H.

Sophomore Mechanics of Materials Examination—1st. division: Alexander, Weston, Baird, Melanson, McLeod, Bender, Brown, Laughlin, Laughlin, Asker, Loggie McLean. 2nd. division: Pugh, Andrews, Flett, Bowes, Melrose, Jewett, Vanwart, Whelpley. 3rd. division: A. M. Gunter, MacDonald, Murray, H. R. Gunter.

Sophomore Mechanics of Materials Drawing—1st div; Weston, Alexander, Baird, Bender, Melanson, Whelpley, Asker, Loggie, Macdonald. 2nd. division: Flett, Jewett, Brown, Murray, Morrison, A. M. Gunter, Pugh, Bowes, R. H. Gunter, Howe, Andrews, Brewer, McLeod, VanWart. 3rd. division: Laughlin, McLean, Melrose.

Freshman Drawing Examination—1st. div.; Oulton, Weston, Webb, Holman, Fraser, deVeber, Owens, Otty, Hipwell, Jago, Hickman, Brewer, Gallant, Loggie. 2nd. division: McNairn, Ketchum, Maimann, Murphy, McFadgen, Miller, Murray. 3rd. division: Magoon.

Freshman Drawing Plates—1st. division: Oulton, Weston, Webb, deVeber, Holman, McNairn. 2nd. division: Hickman, McFadgen, Otty, Owens, Jago, Maimann, Driscoll, Miller, Murphy, Hipwell, Ketchum, Murray, Fraser, Brewer, Loggie. 3rd. division: Magoon.

Junior Dendrology—1st. division: Machum, Shives, Murray.

Junior Forest Surveying—1st. division: Murray, Machum, Shives.

Junior Forest Mensuration—1st. division: Machum, Loggie, Murray, Shives.

Junior Silviculture—2nd. division: Shives, Machum, Murray.

Sophomore Forest Botany—1st. division: Laughlin, Melrose, Shives, Loggie. 2nd. division: Gunter, Macdonald, Howe.

Freshman Botany—1st Division, Miss McNaughton, Hipwell, Oulton, Atkinson, Miss Adams, DeVeber, Ketchum, Titus, Webb, Holman, Jago Osborne, Owens, Porter, Maimann. 2nd Division: McNairn, Magoon, Driscoll, Gallant, Fraser, Murphy, Miller, Murray. 3rd Division: Lockary, Hickman, Macdonald, Brewer, Otty.

Modern Philosophy—2nd Division, Kuhring.

Junior Philosophy—1st Division, Carter, Nason, Miss Kitchen, Balkam, McFarlane Miss Corbitt, Miss McKnight. 2nd Division: Barry, Kuhring, McKay, Steeves, Brown, Miss Lingley, Miss VanWart. 3rd Division: Miss Carleton, Miss Russell.

Junior Economics—1st Division, Carter, Harmon, Carpenter, Balkam, Miss Kitchen, Hanson, McFarlane, Patterson, Brown, Miss VanWart, Barry, Kuhring, Machum. 2nd Division: Shives, Murray, McKay.

Sophomore Psychology—1st Division, Rice, Baird, Miss Wallace, Miss Jewett, Harmon. 2nd Division: Dougherty, Miss Lockary. 3rd Division: Miss Kirk, Miss Weir, Miss Greenlaw, Duffy.

Junior English—1st Division, Miss Kitchen, Nason, Carter, Miss McKnight, Miss Steeves, Miss Corbitt, Miss Carleton, Hanson, Kuhring, Miss Lingley, Miss VanWart. 2nd Division: McFarlane, Barry, Balkam, Carpenter, Patterson, McKay, Miss Russell. 3rd Division: Brown.

Junior History—1st Division, Balkam, Kuhring, Miss Corbitt, Barry, Brown, Miss VanWart. 2nd Division: Miss Russell, McKay, Miss Carleton.

Sophomore English—1st Division, Alexander, Miss Kirk, Miss Wallace, Baird, K. A. Melrose, Miss Wier, Miss Jewett, Murray, Rice, Baird, A. F., Miss Greenlaw. 2nd Division: Dougherty, Bender, Brown, Brewer, Miss Lockary, Gunter, A. M.; Andrews, Pugh, Whelpley. 3rd Division: Morrison, Laughlin, Bowes, McLeod, Asker, Flett, Duffy, VanWart, Jewett, Melanson.

Freshman English—1st Division, Oulton, Miss McNaughton, Hipwell, Ketchum, Owens, Osborne, Miss Adams, Porter, Titus, 2nd Division: Atkinson, McNairn, Otty, Maimann, Jago, Fraser, Miller, Gallant Magoon, Webb, Murphy, Holman, Hickman, deVeber. 3rd Division: Lockary, Brewer, Murray, Driscoll, Dinsmore, McFadgen.

Junior German—1st Division, Carter.

Sophomore German—2nd Division, VanWart.

Freshman German—1st Division, Mrs. Day, Miss McNaughton, Miss Adams, Ketchum. 2nd Division: Hipwell.

Junior French—1st Division, Nason 2nd Division: Miss Steeves, Miss McKnight, Miss Corbitt, Miss Russell, Balkam, Miss Carleton, Barry, Brown McKay.

Sophomore French—1st Division, Miss Wallace, A. F. Baird, Miss Kirk, Alexander, Rice, Weston, Brown 2nd Division: Melanson, Bender, Melrose, Miss Lockary, Miss Wier, Andrews, McLeod, A. M. Gunter, Bowes, Miss Greenlaw, Dougherty, Asker, Murray. 3rd Division: Laughlin, Brewer, Macdonald, Duffy, Pugh.

Freshman French—1st Division: Miss McNaughton. 2nd Division: Miss Adams, Fraser, Oulton, Holman, Porter, Owens, Murphy, deVeber. 3rd Division: Brewer, Lockary, Jago, Atkinson, Hickman, Gallant.

Junior Hydraulics—1st Division: Jones, Renault, Foster, Berry, White, Currie, Veniot, Feeney, Johnston, Wilson, Bowser, McKinnon. 2nd Division: Murray, MacKenzie, McLean, Parker, McKay, Vavasour. 3rd Division: Allan, Duguay.

Junior Materials and Foundations—1st Division: Jones, Berry, Wilson, Foster, White, Johnston, Renault, Currie, Feeney, McKinnon, Parker, Veniot, Allen, Bowser, McKay. 2nd Division: McKenzie, McLean, Vavasour, Duguay. 3rd Division: Murray.

Junior Railroad Economics—1st Division: Jones, Berry, White, McKinnon, Wilson, Johnston, Renault, Foster, Currie, Veniot, Bowser, McKay. 2nd Division: Feeney, McKay, McKenzie, Duguay.

Junior Applied Mechanics—1st Division: Renault, Berry, Jones, Veniot, Feeney, Currie, Johnston, Foster, Wilson, McKinnon, McKenzie, White, Murray. 2nd Division: McLean, McKay, Allen, Bowser, Parker, Vavasour. 3rd Division: Duguay.

Junior Highway and Railway Construction—1st Division: Jones, Berry, Johnston, Renault, Foster, Wilson, McKinnon, Currie, Feeney, White, Bowser, Veniot. 2nd Division: Shives, Murray, McKay, Allen, Machum. 3rd Division: McKenzie.

Railroad Plates—1st Division: Wilson, Currie, Jones, Veniot, Foster, Berry, Johnston, Renault, McKinnon, White, Feeney. 2nd Division: Bowser, McKenzie. 3rd Division: McKay.

Junior Summer Thesis—1st Division: Veniot, Feeney, Jones, Johnston, Berry, Currie, McLean, Renault, Foster, Allen, McKay, White, Murray, Wilson McKinnon. 2nd Division: Bowser, McKenzie, Vavasour, Parker.

Sophomore Surveying—1st Division: Weston, Baird, Alexander, McLeod, Melanson, Brown, Asker, Bender, Whelpley, Loggie. 2nd Division: Melrose, VanWart, Andrews, Pugh, Laughlin, H. R. Gunter, Morrison. 3rd Division: Brewer, Fleet, Howe, McLean, Macdonald, A. M. Gunter, Bowes.

Surveying Mapping—1st Division: Weston, Melanson, Alexander, Baird, Asker, Macdonald, Whelpley, Brown, Bender, VanWart, Melrose, Pugh. 2nd Division: Jewett, Loggie, Murray, Laughlin, Morrison, H. R. Gunter, McLeod, Flett. 3rd Division: Brewer, A. M. Gunter, Bowes, Howe.

Sophomore Summer Thesis—1st Division: Weston, Andrews, Melanson, Morrison, Whelpley, VanWart, Alexander, McGibbon, Murray, Lamb, Bender, H. R. Gunter, Asker, Brewer, Brown Flett. 2nd Division: Jewett, McLeod, Bowes, Maxwell, Baird. 3rd Division: Pugh, Palmer.

Junior Elements of Electrical Engineering—2nd Division: Murray, Parker. 3rd Division: Vavasour.

Junior Physics—1st Division: Curry, Jones, Berry, Wilson, McKinnon, Patterson, Veniot, Foster, Carpenter, Johnston, Miss Lingley, Miss McKnight. 2nd Division: White, Renault, Murray, Bowser, Allen, Vavasour. 3rd Division: McFarlane, Miss Steeves, Feeney, Parker, McKay.

Physical Laboratory—1st Division: Currie, Foster, Berry, Johnston, Veniot, Jones, White, Wilson, McKinnon, McKenzie, Bowser, Renault, Allen, McKay, Feeney. 2nd Division: Duguay.

Sophomore Physics—1st Division: K. A. Baird, Rice, Alexander, Brown, A. F. Baird, Miss Jewett, Melanson. 2nd Division: Murrison, Laughlin, Melrose, Andrews, Miss Wallace. 3rd Division: Whelpley, Pugh, Duffy, Jewett, McLeod, Bowes, Miss Wier.

Junior Electrical Engineering Laboratory—1st Division: McLean, Murray.

M'CURDY'S WEEKLY REVIEW

Montreal, May 17.—This week has been a remarkable one on the Montreal stock exchange. For some weeks past the market has been showing unusual strength and activity, but during the past week the volume of trading and the way the market has acted generally seemed to indicate that a big change has come over the market situation in Canada.

The main feature of the change undoubtedly is the large amount of English and foreign buying that has come on the local market. This buying has greatly reduced the floating supply of stocks and subsequent advances in prices are brought about on a greatly reduced volume of trading. In the past with the volume of transactions and the activity witnessed during the past week, one would have naturally decided that the market was near the culmination of a bull movement, but at the present time so much stock has been taken right off the market that the technical position would appear even stronger than it was back three or four months ago.

The outstanding features of the week were undoubtedly the advances scored by Dom. Steel Corporation common, and C. P. R.

For some little time past there has been steady accumulation of Dom. Steel Corporation and the large amount of orders which came from London made it appear as though foreign interests are decidedly more optimistic regarding the outlook for this stock than were Canadians. Previous to the movement in common, foreign investors had shown their faith in the company by subscribing to the new preferred issue seven times over and much of the recent buying was said to be by interests who had already taken a considerable amount of the new preferred stock. The advance in the stock to 65 was fairly orderly, but on Friday there was a regular deluge of buying orders which carried the stock up to 68 in the early trading.

The character of the buying indicated that some strong monied interests were taking all the stock they could get, and the report on the exchange was that most of it was being paid for in cash and being taken right off the market. The buying was said to be by a syndicate of London and Berlin interests who were accumulating the stock in anticipation of the listing of Dominion Steel Corporation stocks both in London and Amsterdam on Monday next. Right through the day the big advance brought out a pile of stock but right through the character of the buying seemed better than the selling.

The advance in C. P. R., to a new high level at 270 resulted in very little trading on the Montreal market. The movement from around 257 at the end of last week to 270 was engineered entirely in the Wall Street market and was said to be due to a drive at certain short interests. Even after its big advance the stock did not experience much of a reaction.

The pulp issues came in for a great deal of attention. Spanish River Pulp and Ontario Pulp being particularly prominent. Spanish River made a new high level, the common selling up as high as 62 1-8 and the preferred at 97. Most of the buying of these stocks was for Toronto account, and was said to be caused by the very much better showing the company would be able to make from now on as its new paper mill is now in operation. Ontario Pulp common had a sympathetic advance with Spanish, because the company is controlled by the same interests. The common went to 45 but later reacted to 40.

Nova Scotia Steel which has been neglected while the rest of the market was showing considerable activity came in for its turn and a small volume was sufficient to carry the stock as high as 97 3-4.

Mexican Light and Power was the only one of the Pearson's stocks which has not attracted some attention, and from around 82 gained to 85. Very little of this stock now remains on the Canadian market. The advance was an indication of increase in dividend.

Richelieu and Ontario was somewhat unsteady, selling at 122 3-4 and later was quoted 121 1-4 X D. The long drawn out negotiations in connection with the consolidation of other steamship companies has affected market for this stock.

The general market at the close seemed to show a firm undertone, and owing to the easy money conditions, a continuance of active trading is looked for.

The demand for local securities was rather better than usual, and the market is becoming pretty well cleaned up of everything except the newer issues. A strong demand has arisen for Maritime Telegraph and Telephone common stock and the bonds and preferred are also being steadily taken by investors. Municipal bonds are being offered by holders, but it is difficult to secure satisfactory bids. The large output of public utility and industrial bonds and preferred stocks has relegated these securities to the background as far as the investing public are concerned. It is now beginning to appear as though investors would soon be able to secure these desirable investments on a basis which will yield a fairly good return.

Nova Scotia Clay Works—The outstanding feature of the week in investment circles has been the rapid subscription of the seven per cent. preferred stock of the above company, which is being offered with a bonus of 40 per cent. of common stock. The steady demand for this security from all over the country is an evidence of the faith investors have in the future of this industry. Numerous applications have been received from upper Canada where the success of similar industries is perhaps more fully recognized.

The subscription books close on the 20th, and from all inducations the offering will be oversubscribed.

F. B. McCURDY, & CO.

LETTER FROM BOSTON GIRL

Boston, May 17.—Hush! An international movement to secure the suppression of avoidable noise in great cities will be inaugurated in Boston shortly, and if necessary, efforts made to have laws passed which shall compel restrictions in noise nuisances. An anti-noise committee's first meeting will be held August 15th, at the Harvard Medical School. The presiding officer will be Professor Victor Grazzi, of Pisa and Florence universities, to whom the progress of the movement is largely due. Owing to his efforts in the past fifteen years, laws have been passed in Italy forbidding some of the signals formerly used by railroad engines and automobiles. Research at the ural clinics in Boston shows that fifteen per cent. of the patients have lost the ability to distinguish notes of low register when they are away from their work, and that to restore normal hearing it is necessary to have a certain amount of noise around them. It has long been known that subjection to continued noise causes deterioration of the aural structure and accompanying nervous and muscular changes for the worse, and it is encouraging to note that something is to be done toward preventing ear-splitting cacophonies.

An unsuspecting professional man accompanied the editor of a Boston newspaper to one of the current theatrical productions recently. The editor procured the seats which had been held for him and which were well to the front of the orchestra. The professional man, a w. k. dentist who is acknowledged to be quite a "good looker" in spite of, or perhaps because of, a well polished superstructure, remarked: "I'll bet somebody will make a mark of my bald head before the show is over." During the performance a young man and girl do a sketch, in the progress of which the girl leaves the stage and does a little song and dance up the aisle through the audience. On her return down the aisle she spotted the tempting crown of the dentist and, as he sat conveniently near the aisle, she took his head between her two hands and implanted a stage kiss on the bald spot—or a portion of it—exclaiming as she did so: "Oh you doctor!" Her fellow actor immediately leaped from the stage in an apparent rage of jealousy, bent on finishing up the dentist. The latter realized that he was the butt of a joke and said he would meet the young man outside after the show—and buy him a drink. So well was it carried off that the audience thought it all part of the play, which it was, except that the principal hadn't been given his cue. It cost him several rounds of drinks, but the newspaper man who perpetrated the joke had to give up tickets enough to send the dentist's whole family to the play.

The trials and tribulations of Boston's philanthropic hotel patronized exclusively by women, are many. Again, the boarders have soured on the pickles at the Franklin Square House. Now that the long struggle to remove the institution from debt and the triumphant burning of the mortgage has been accomplished, the girls living at the comfortable home-like hostelry demand that the overgrown pickles—the treasured Jumbo pickle of school days and picnics—be reduced in length and circumference. The matter has been taken under advisement, but in the meantime the same pickles as of yore weigh heavily upon the breakfast table and the boarders' digestion. Probably the Franklin Square House will be spared a visit from the Washington woman of social aspirations who boarded at a Maine summer resort not long ago and was requested to pass the pickles at the breakfast table. Her eyes opened in astonishment, her nose tilted upward (she would have raised a lorgnette if it had been dinner instead of breakfast) as she remarked: "De-ah me! You queer New England people! Pickles for breakfast—how extrao'dinary!"

Bird lovers, zoologists and many others are glad that Governor Foss has signed the protective bill which has recently passed the legislature. This act makes it unlawful "to buy, sell, barter, exchange, or in any manner deal in or trade with respect to the dead or living bodies or any part thereof, of wild birds or game quadrupeds, except hares and rabbits, protected by law in any part of the United States, whenever and wherever taken or killed." Massachusetts thus joins the procession of progressive states interested in protecting wild creatures from the ruthless destroyers, who are fast killing off many valuable species. Members of the Massachusetts Zoological Society and farseeing people of all walks of life have been besieging the governor on this subject for a long time and the needed legislation is welcomed by scientists and humanitarians even if not so cordially by the citizen who takes his shotgun in hand in the still hours of the morning and goes forth to slay anything that wears feathers.

LOCAL GOVERNMENT PRIMARIES

Supporters of the Local Government will meet to organize wards and elect delegates to a nominating convention for the City of St. John, on Wednesday evening next, 22nd inst., at 8 p. m.

Kings, Queens, Dufferin, Victoria, Prince, Wellington, Dukes and Sydney wards, in the Nickel Theatre Assembly Rooms.

Lorne, Lansdowne and Stanley wards, in St. Michael's (old Temple of Honor) hall.

Guys and Brooks wards, in 'Prentice Boys' hall, Carleton.

ROBERT MAXWELL,
Chairman.

Low Vitality in the Spring

Vigor comes from good, red blood. Almost everybody's blood is thin and watery in the spring. Hence the tired, languid feeling, loss of energy and ambition, and general weakness of bodily organs.

You can feel yourself getting strength and vigor when Dr. Chase's Nerve Food is used. The blood is made rich and pure, the appetite is sharpened, digestion improves, and every organ in the body feels the benefit of the rich, red, life-sustaining blood.

Mr. W. J. Venner, clerk, 20 Blower street, Halifax states:—"This spring I felt that I needed a tonic. My health was very much run down and my system generally in a weakened condition. Soon after beginning the use of Dr. Chase's Nerve Food I could see that it was doing me good, as I felt very much better. This medicine gradually toned up my system, cured me of headaches from which I used to suffer, and now I take pleasure in recommending it as a grand nerve and general tonic."

RED ROSE
MANITOBA FLOUR
Is not excelled by any Flour made in Canada

DIED.

MAXWELL.—Entered into rest on 18th inst., at the residence of his brother, Mr. S. R. Maxwell, 133 Main street, Charles H. Maxwell, aged 64 years. Interment on Monday, the 20th inst., in Fernhill cemetery. Funeral private. No flowers, by request.
