ASTONISHING BORING.

The deepest hole in the world is being bored by the Standard Oil Company at Elizabeth, Pa. It is nearly finished and the boring has already gone down more than a mile. When completed, the well will be 6,000 feet deep. At the distance of 2,285 feet a flow of gas was struck which was sufficient to make steam for boring the rest of the way. The most interesting phenomena connected with the work thus far is the gradually increasing heat of the earth as the shaft is sunk lower. At a depth of 5,500 feet the temperature was 129 degrees. At that rate a heat equal to the boiling point of water, 212 degrees, would be found at a depth of 9,000 feet. In case a strong vein of water were struck at a great depth steam would issue in force from the hole. Science may be able to gather from the deep well at Elizabeth facts throwing light on earthquakes, volcanoes, hot springs, etc.

The Jubilee Hospital.

Address by Mrs. Boomer to the Local Council of Women.

Plans for the New Building Have Been Called—Does the Sweating System Exist in London?—Reception to Mrs. Boomer and Lady Johnston.

Mrs. Harriet Boomer and her sister, Lady Johnston, of Montreal, gave a reception last evening at the rooms of the Woman's Art Club, Free Library building, to the members of the local Council of Women, and all affiliated societies. Nearly one hundred women were present, and after refreshments were served, interesting addresses on the work of the council were given by Mrs. Boomer and Mrs. English. The former, who was delegate to the National Council meeting at Halifax gave an interesting report of the meeting. Mrs. Tilley was also a delegate to Halifax, but was unable to be present last evening.

Plans for future work were discussed, and it was decided to devote immediate and undivided attention to the new hospital scheme. "The first crying need," said Mrs. Boomer, "is to see that a children's hospital is built. Anyone who will take the trouble to visit the present hospital cannot help but realize the dire and desperate need of a new building. When I returned from Halifax, I asked, 'How about the new hospital?' and someone said, 'Oh, the scheme is dead.' But it isn't a bit dead."

Mrs. Boomer then read a resolution passed at a recent meeting of the jubilee hospital joint stock company, which stated that when satisfied that they had sufficient funds to warrant it, they would build an administrative building and a pavilion for children. The company requested that the women's council appoint three ladies to act on the board of management. Plans have been advertised for the new building, which will cost $75,000, "and," said Mrs. Boomer, "we must all join hands to hasten its completion." As a good beginning, she said some of the ladies had been promised several cots for the new building, and 300 or 400 trees were also promised.

Referring to the condition of the present hospital, the speaker quoted from the report of the government inspector, Mr. Chamberlain, last April, in which he condemned the building, but spoke highly of the management.

One of the lines of work suggested by Mrs. English as desirable for the council to undertake was to attack the sweating system, and in this connection the following question was one contained in the question drawer, which was opened just before the close of the meeting: "Is the sweating system practiced in London?" Mrs. English said she had been told it was, but had not proofs of it at hand. She had heard of women making a dozen pairs of boys' knickerbockers for 12 cents, and out of such wages were obliged to pay their own board. Further, information was solicited about this question.

On Friday evening a meeting of the women's council and all affiliated societies will be held in the "Y" rooms, and the question of a new hospital will be more thoroughly discussed. A deputation from the Jubilee Hospital Joint Stock Company will then be present.

NEW GOLD FIND

About 40 Miles Northwest of Michipicoten—Said to Have Been Made by H. F. Eberts.

Port Arthur, Ont., Sept. 21.—A report has reached here of another gold find towards the eastern end of Lake Superior, about 40 miles northwest of Michipicoten. The ore is reputed to be rich in free gold, and H. F. Eberts, of Detroit, a mining engineer and explorer, who has spent many years on the north shore of Lake Superior, is credited with making the find. It is impossible to get the particulars, as only one man knows about it, and he will not talk.

It is surmised, however, that the discovery must be in the vicinity of the Little Pic River, as it is known Mr. Eberts spent several months there this summer, prospecting and examining mineral lands owned by Detroit people.

Detroit, Sept. 21.—H. F. Eberts is a mechanical engineer and an expert prospector, who has been working this season in the interest of the Palms estate, inspecting mineral lands. His headquarters are at Port Arthur, from there striking out in different directions.

Telegraphic Brevities.

Archbishop Langevin's condition continues to improve.

A discovery of natural gas has been made at Melrose, in Tyendenaga township, Ont.

News comes that the result of a tenday's run on ore from the Mikado mine in the Lake of the Woods produced a $12,000 gold brick.

Mr. Onesime Carignan, of Three Rivers, Que., ex-M. P. for Champlain, died on Monday morning of paralysis of the brain, aged 58.

The Toronto News says: "M. C. Biggar, solicitor, and agent for the R. G. Dun Company at Sudbury, has not been seen in Sudbury since Tuesday night, and inquiries are being made about him. The absent man was one of the best-known lawyers at Sudbury.

"The prospects for deer this fall are very promising," said Deputy Game Warden Lawrence, of Muskoka, the other day. "There never was such a good outlook. Never before have so many of the deer been seen at this time in the year." The Ontario government is anticipating a large increase in the number of hunters in that region, and has decided to increase the staff of officials in that district.

ELECTION IN NEWFOUNDLAND.

St. Johns, Nfld., Sept. 21.—The Newfoundland Legislature will be dissolved today. Sir Herbert Murray, the governor, announces in his proclamation that Oct. 28 next is the date for the election of the new Parliament.

Piles! Piles! Itching Piles!

SYMPTOMS.—Moisture; intense itching and stinging, mostly at night; worse by scratching. If allowed to continue, tumors form, which often bleed and ulcerate, becoming very sore. Swayne's Ointment stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. All druggists, or by mail, 50 cents. Dr. Swayne & Son, Philadelphia. Reckless Roberts

Pleads His Own Case and Makes a Mess of It.

He and His Companion McCullough Sent to the Central—A Number of Cases Dealt With by the Police Magistrate.

The police magistrate had another cageful to deal with this morning, and administered justice speedily. J. B. Roberts and John McCullough, who were arrested by Detectives Nickle and Rider for the theft of Harry Wallace's watch in the fair grounds last week, were the first cases. Mr. Wallace said he had ordered the men out of the cattle sheds, and they had been particularly saucy. Isaac Levi identified Roberts as the man who had procured $5 on Mr. Wallace's watch. McCullough was with him on Sept. 9—the day he sold the watch—and next day McCullough came to the store and said he had a suit he wanted to sell.

Detective Nickle said Roberts was arrested in the Hub Restaurant. The watch chain was found on him, and also the pawn ticket for the watch. At that time he said his name was Chambers.

Roberts defended his own case, and desired to give evidence. He went into the box and told a story of how McCullough had brought the watch to him, and he had bought it for $2 as a matter of speculation. Roberts told a very mixed tale about the bank books and other papers found on him. He claimed the book bearing J. B. Roberts' name was the property of his father, who was dead, but he could not remember when he died—he thought it was last January. The book was issued by the Farmers' Bank, Bowling Green, Mo., and contained the entry of moneys up to a few weeks ago. He appeared staggered when Mr. McKillop told him a warrant had been sent from Toronto for his arrest on the charge of stealing the papers and books from Mr. J. B. Roberts' bag at a Toronto hotel.

Roberts, alias Chambers, was given six months in the Central for stealing the watch, and both he and McCullough will be held for removal to Toronto to stand trial there.

Timothy Sullivan, who made his 32nd appearance before the court as a drunken vag, pleaded hard for leniency. It was the oft-repeated story, and he shed tears, while his face took on an agonized expression as the court announced the sentence: "Six months in the Central Prison."

Richard Fox, who brought a fine-looking boy from Port Huron last week for the purpose of begging, was released and given an hour to leave the city.

Percy Gardiner was arrested by Detective Nickle yesterday at the rear of the Tecumseh House. He had stolen a $12 overcoat from the Central Hotel, the property of Wm. Elliott, of London township. The coat, which he sold for $1, was recovered before the arrest was made. He pleaded guilty, and was remanded for a week for sentence.

John Pallard—a case of infirmity—was remanded for a week. He was at one time an inmate of the Strathroy refuge.

Two city merchants were up for having signs projecting over the limit from their premises. They were warned and discharged.

Charles Crofts, who was discharged yesterday morning when charged with drunkenness, was taken in again last night. He was given ten days to sober up on.

Shut in by Fire.

Five Men Perished in an Alabama Coal Mine.

A Hundred People Were Employed Therein.

Birmingham, Ala., Sept. 21.—About two hours after the men went to work in mine No. 2 of the Bessemer Land and Improvement Company's coal mine at Belle Ellen, near Blocton, Bibb county, yesterday, fire was discovered far down in the main slope. About 100 men were employed in the mine. A panic followed among the workers and in the little town of Belle Ellen. Hundreds of men, women and children gathered at the main entrance of the smoking mine, while rescue parties were at once formed to relieve the miners. More than 50 were gotten out from the various entrances without harm. Others were overcome by smoke and fell by the wayside.

These the brave searchers found and dragged out, while those waiting at the entrance restored life to their unconscious friends. A scene of wildest excitement prevailed at the mine's mouth, women and children were screaming and shouting for help, and a fire brigade was at work endeavoring to overcome the flames. Five men who were working about the slope beyond where the fire originated could not be reached, and it is regarded as certain that they are dead. The following are

THE MISSING:

Herman Kramer and Hubbard Foley (white), and Henry Reeves, Frank James and Wm. Fairfax (colored). It is possible that two or three others may be in the mine, but these five are known to be lost.

There was no possibility of their escape, and the fire brigade battled with the flames all day in a vain attempt to reach the entombed men, but at nightfall the fire was still burning fiercely and efforts were abandoned and the men given up for dead.

The fire is thought to have originated from an over-heated steam pipe which ignited gas in the mine.

CIGAR MANUFACTURERS MEET.

Montreal, Sept. 21.—The Dominion Cigar Manufacturers' Association held its first annual convention here yesterday. Most of the prominent firms in Canada were represented. After some preliminary business the president, Mr. J. B. Payne, of Granby, gave a report of the year's work. Mr. Payne thought stress should be taken to impress on the government that standard weights should be used instead of actual weights in collecting duties. The object of the association, Mr. Payne says, is not to compel all the dealers to do business in the same way, but to drop out from the business what may be termed methods foreign to the industry, and of no benefit to manufacturer, jobber, retailer or consumer. The treasurer's report showed the number of paid-up membes to be 37. The secretary reported that out of 158 manufacturers in Canada, 39 were members of the association. He thought that about 45 would be the limit, as many of those included in the 158 were very small.

Coote's Block Market Lane, London Ont.

Mr. Christopher Sykes, the most hospitable and popular of hosts in London, and an enormously wealthy man, whose entire existence seems to be devoted to organizing dinners and parties for the entertainment of the Prince and Princess of Wales, and of his other royal friends, keeps a little King Charles dog, to which he is devoted, shut up all the time indoors because he won't pay the dog license.

Worms cause feverishness, moaning and restlessness during sleep. Mother Graves' Worm Exterminator is pleasant, sure and effectual. If your druggist has none in stock, get him to procure it for you.
