LIQUIDATION IN WHEAT OPTIONS

Heavy Stop-Loss Selling Led to Panicky Market at Chicago.

CHICAGO, Oct. 16.—Stop loss selling on a large scale broke the wheat market today, notwithstanding that the season's low price record had already been smashed twice in the previous 48 hours. Bearishness in Wall street had much influence. There was a heavy feeling at the close, which ranged 1¼c to 1⅝c under last night. Corn finished ¾c off to a shade up, oats at ½c decline, and provisions varying from 5c loss to a rise of 10c.

Foreign news gave the first downward impulse to wheat. Crop conditions abroad were reported as generally favorable, and storage room becoming scarce in most European centres, especially in Great Britain. The effect of the cables was supplemented by rains in the winter crop region southwest of Chicago, where moisture would be most helpful to growth.

Pressure Was Steady.

Quick profit-taking by shorts led to several fair rallies, but selling drives continued, the hardest of all coming in the last half hour, and emphasizing fears in regard to the Mexican situation and the general financial outlook, including the fate of the currency bill. Unloading near the end of the day was of a semi-demoralized character.

Corn made a strong rebound from an early setback, and ruled higher most of the time, but weakened with wheat at the close. The buying side received help chiefly from prospects of unsettled weather thruout the entire spring belt. There were also advices that supplies at Buenos Ayres had become almost exhausted.

In the oats crowd covering on the part of big shorts checked weakness. The first cargo of Canadian oats ever brought to Chicago arrived today, 300,000 bushels coming from Fort William.

Provisions averaged firmer. The buying was mainly traceable to houses identified with the trade in coarse grains.

BROOMHALL'S CABLES.

LIVERPOOL, Oct. 16.—Easier American cables and weakness in Winnipeg caused realizing at opening and values ⅝d to ⅞d lower. After opening there was further decline ⅛d to ¼d. Pressure on Manitoba offers, more rain in India, favorable prospects in Argentine, belief in large Russian shipments this week, helped decline. At 1.30 p.m. market weak, ½d to 1d lower. Corn opened with a steady undertone, unchanged, and later advanced ¼d to ⅜d. The easy American cables were offset here by the closing firmness in Buenos Ayres. There was an improved demand for spot with Plate grade, ½d higher and forecast is for lighter Argentine shipments this week. Later, there was some decline from the high in sympathy with heaviness in wheat.

BIG RECEPTION FOR OIL TANK STEAMER

LONDON, Oct. 16.—(Can. Press.)—The oil tank steamer Narragansett, which "arrived with the milk in the morning" on the scene of the Volturno disaster, and by scattering tons of oil on the raging sea, helped so much in the rescue work, was given a great reception on her arrival in the Thames at noon today. A band on board a tug met her down the river and played her to her berth to the strains of the "Conquering Hero," and a succession of national airs. The sirens of all the vessels in the river crowed and salvos of cheere greeted them from those in shore when they reached the Anglo-American Co. wharf. She had a number of survivors on board.

HEAVY RECEIPTS AT UNION YARDS

Medium and Common Cattle Decline About Twenty-Five Cents Per Cwt.

Receipts of live stock at the Union Stock Yards yesterday were 150 cars, comprising 2927 cattle, 1583 hogs, 1238 sheep and lambs and 269 calves. The percentage of good to choice cattle after the first market day of the week as a rule, grows perceptibly smaller, and on Thursdays generally there are scarcely any good to choice butchers offered, the reason being that dealers buy the bulk of their supplies at the beginning of the week.

Thursday's market has become generally to be a market for stockers and feeders, and a general clean-up day for odds and ends left over from the other days' sales.

This was characteristic of yesterday's trading. There were few good to choice cattle, and these sold at about steady prices. All other grades of fat cattle sold at from 15c to 25c per cwt. lower quotations; especially was this the case in common and medium cows and light heifers. Sheep and lambs as well as hogs sold at firmer prices.

Butchers

Good to choice butchers sold at $6.75 to $7; medium butchers, at $6 to $6.60; common butchers, at $5.50 to $6; good to choice cows, at $5 to $5.65; common to medium cows, at $4.50 to $4.80; canners, at $3.50 to $4; bulls, at $4.50 to $6.25.

Stockers and Feeders

Prices for good to choice heavy feeders, 1000 to 1150 lbs., were firm, at $6.40 to $6.65; steers, 900 to 1000 lbs., at $6.60 to $6.25; steers, 700 to 800 lbs., $5.25 to $5.75; eastern stock heifers, $4.35 to $4.80.

Milkers and Springers

There has been a fairly good supply of milkers and springers which were readily bought up at good figures, ranging from $50 to $90 each. The bulk sold at $65 to $75. The highest price was $110.

Veal Calves.

The market for veal calves held steady as follows: Choice calves sold from $9 to $10; good calves, $8 to $9; medium, $7 to $7.50; common, $5.50 to $6.50; rough eastern calves, $4.50 to $5.

Sheep and Lambs

There wa sa good demand for sheep and lambs, prices for both being a little firmer. Sheep ewes sold from $4.25 to $5.25; rams and culls at $3 to $4.75. Lambs sold at $7.25 to $7.75, and cull lambs at $6 to $6.50; buck lambs, 75c per head less.

Hogs

There was a good demand for sheep yesterday, 1583, which sold at Wednesday's advance. Selects, fed and watered, at $8.75, and $8.40 f.o.b., and $9 weighed off cars.

Three Dreadnoughts Cannot Be Built Within Time Limit Required.

LONDON, Oct. 16.—(C. A. P.)—If some Liberal newspapers are well informed the government is considering the navy estimates for the coming year. Unless there is a sudden and unexpected change in Canadian political conditions, says The Mail, the three Canadian Dreadnoughts cannot now be ready by the date when Winston Churchill has declared they will be absolutely necessary for the world-wide defence of the British Empire. At the same time, the enormous additional programs of Germany's Mediterranean allies have passed beyond the region of project to the land of fact.

"The British Government is now, without openly admitting the fact, trusting to the French navy for the defence of Mediterranean interests, continues The Mail, "but the point has been reached where the whole strength of the French navy will be unequal to the task. Assistance must be forthcoming from the British navy. Ships to give that assistance cannot be spared from the North Sea unless the British program is markedly increased."

NEW BATTLESHIP OPERATED BY OIL

PORTSMOUTH, Eng., Oct. 16.—(Can. Press.)—A novelty in the way of battleships, the Queen Elizabeth, carrying an immense armament and using oil instead of coal for her motive power, was launched at the royal navy dockyards here today for the British navy.

The new vessel, whose keel was laid on October 21, 1912, is of an entirely fresh type and the details of her construction have been kept secret.

It is generally believed, however, that her armament is to consist of ten 15-inch guns mounted in pairs in barbettes, while her secondary armament of 4-inch or 6-inch guns is also to be placed behind protective armor. This is a big advance over the armament of her predecessors.

Should the oil fuel in the case of the Queen Elizabeth prove successful all large warships of the British navy will in future use it.
