Several of the States it is reported have pronounced against dis exactions.

THE NEW YORK SUN.—The proprietors of this newspaper held a celebration last Saturday evening, in honor of the twentieth anniversary of the establishment of that paper. About three hundred persons, including the wives and children of the men employed in various capacities in the Sun office, were present. In commemoration of the event, the Sun has issued a fac simile of the first number of that paper, a little thing not much bigger than a man's two hands. It was the pioneer of the penny press, and has since grown to be a great and profitable business.

LITERATURE.

"A HISTORY OF ENGLAND, from the first invasion by the Romans to the accession of William and Mary in 1688."—By JOHN LINGARD, D. D.—(In 13 Volumes.)—Volume II. p.p. 360. [*Boston.*—Philips, Sampson and Co.—1853.]

We have received from the enterprising Publishers, the second Volume of Dr. Lingard's learned and valuable History of England; comprising the reigns of William the Conqueror, William II., Henry I., Stephen, Henry II., and Richard I.; a period embracing a very stirring and exciting portion of English Annals. Having, in noticing the first Volume of this Edition, warmly recommended this valuable work to public favour, we need now only refer to our former commendation. It is on sale by Messrs. J. & A. McMillan. B.

[FOR THE OBSERVER.]

MR. EDITOR—I have seen an Address in the *Chronicle* of the 19th instant, stating to be signed by 138 Churchmen, including all the Church Wardens and Vestrymen in the Parishes of Springfield and Johnston, and bearing date "Springfield, July 18th, 1853."

All addresses that I ever saw before, were directed to some person; but whether the name of the person for whose benefit this address was signed was intentionally or inadvertently withheld, I would wish to be informed. There appears to be something very singular about the affair: that an address should be got up by the joint consent of two Parishes, directed, as it appears, to a Rev. Gentleman, and signed by such very important personages, without ever giving one single name! For my own part, if I may be allowed to express an opinion had I taken any part in such an eloquent address, I would not be ashamed to direct it to the individual for whom it was intended; but probably the signers thought it best to withhold the name, as some of the expressions in it would not tally well with the general conduct of the Rev. Gentleman. In the first place, I would like to know the names of some one or any of the 138 Churchmen who drew up or signed this address; and also for the signatures to be published; so that there would not be so much secrecy involved in the affair. As regards the Church Corporation of Johnston, I wish to be informed, by what Act of the Legislature they are incorporated; and if by any Act, whether that Act is complied with or not; and as for the Corporation of Springfield, what means were resorted to, to get some of the individuals into it, when they were first in it!

On looking at this address, very near'y at the beginning, it reads as follows:—"But since his Lordship has been "induced to decide, contrary to our wishes, and we can-"not but think to the best interests of the Church, we are "compelled to part."—Now, how does this expression coincide with the remaining part of the address; and who has induced his Lordship to decide contrary to their wishes? It appears from the wording of the Address, that the ministration of this Rev. gentleman has been a great comfort to his Parish and a benefit to the Church. In reference to this, I wish to be informed, who is there among the 138, who is competent to judge of his teaching and preaching, so that they would be able to express themselves in the manner in which the Address is worded? Point him out; name him, if you can. The moral improvement of the people is pointed out, as the proof of the usefulness of the man. Where is it to be found? Then come the beautiful expressions, "In our daily intercourse, we have found you kind and courteous; and in the ordinary transactions of life *just* and *upright*: and we cannot omit recording our conviction of your *strict integrity*." After expressing themselves in that manner, it is quite necessary that the signers of the address should point out in a clear, plain and correct manner, what was the cause of this separation. It appears to me, in their wishing him good success for the seed that they hope he will sow, they had as well state what kind of seed he has sown, and what effect it has had where it was sown. Following this Address, there is a Reply, from a person by the name of R. Drake Palmer, dated at Harvey, A. C., Aug. 13th, 1853. It would appear from that reply, that it was directed to the individuals who presented the before-mentioned address: but how can that be? It cannot be possible; for no person on this earthly tabernacle ever knew or heard of that person being entitled to be eulogised in that manner.

I now beg leave to submit the following queries:—How many of the 138 Churchmen are of the age of 21 years and upwards; and how much have they given toward the support of the Church?—Are the members of the Corporation of the Church at Springfield, composed of the persons who principally built the Church, or their descendants?—Who is the Vestry Clerk at Springfield?—Was not the reply that is spoken of, read in the Church at Springfield, July 12th, 1853?—Who was Chairman of the meeting held on that day?—What are the singular circumstances, attending the removal of the gentleman, as spoken of in the Address?—Whose faithful servant was your worthy teacher, when placed in such trying circumstances?

Now, if any one of the 138 Churchmen will favour the undersigned with a correct answer to these queries and enquiries, he will confer a great favour on him, and, I think, on many others.

A CHURCHMAN.

Springfield, K. C., Aug. 22d, 1853.

DISEASES OF THE LIVER.

☞ When the celebrated Dr. Rush declared that drunkenness was a disease, he enunciated a truth which the experience and observation of medical men is every day confirming. The many apparently insane excesses of those who indulge in the use of spirituous liquors, may be thus accounted for. The true cause of conduct which is taken for infatuation, is very frequently a diseased state of the Liver. No organ in the human system, when deranged, produces a more frightful catalogue of diseases. And if, instead of applying remedies to the manifestations of disease, as is too often the case, physicians would prescribe with a view to the original cause, fewer deaths would result from diseases induced by deranged state of the Liver Three-fourths of the diseases enumerated under the head of Consumption, have their seat in a diseased Liver. (See Dr. Gunn's great work.

☞ Purchasers will please be careful to ask for **Dr. McLane's Celebrated Vermifuge**, and take none else. All other Vermifuges, in comparison, are worthless. Dr. McLane's genuine Vermifuge, also his Celebrated Liver Pills, can now be had at all respectable Drug Stores in the United States and British Provinces.

Loss of Ship Cleopatra.—The U. S. sloop-of-war Decutur, Commander Whittle, when off the coast of Newfoundland on the 27th ult., fell in with the ship Cleopatra, Capt. Leavitt, of this port, 24 days from Liverdool, for Quebec, in distress, with four feet of water in her hold. Two officers and a gang of men were put on board to assist the crew to keep her afloat and get her into Sydney, but on the night of the 28th, the wind blowing hard and a heavy sea running, she began to fill, and was made out from the Decatur, lying on her beam ends, with masts cut away, and on fire, from the burning of tar barrels as signals of distress. Commander Whittle, seeing that further efforts to save the ship would be useless, took off all hands with great difficulty, and landed them at Canso on the 3d inst. The ship foundered soon after she was abandoned.—The Cleopatra was a new ship of 1064 tons, on her first voyage, and was owned by Wm. Leavitt, Esq., of this City, where she was insured.

DEVINE'S

Compound Pitch Lozenge.

An appeal to matter of fact, and common sense.

IT is that which has so long been sought for, and is in full faith offered to the public as a CERTAIN CURE for

Coughs, Colds, Whooping Cough, Croup, Costiveness, Asthma, and Consumption,

and will, in any case where lungs sufficient are left to sustain life, check the ulceration, and raise the patient to health. This is not an idle boast, nor is this remedy sent into the market without a thorough trial; but has proved beyond a doubt that what has been asserted CAN BE DONE.

We do not ask you, reader, to take our word, but those who, but a few weeks ago had given up in despair and are now in the enjoyment of health, and without asking have given us their certificates in favor of this great remedy.

Let all, then, who are afflicted, TRY IT, and if the assertions on each box are not proved after an impartial trial, the price will be returned: when the article is not *perfectly satisfactory!*

If the Lozenge on being exposed to the air in hot weather should become soft, it is no objection, but rather goes to prove that they are in good condition.

S. D. Fuller & Co., Boston, Proprietors for Devine's Pitch Dozenge, Dr. Corvell's Pain Expeller and Macaronick, a sure cure for the Piles; also, the Yankee Extract, an article warranted to take out all Grease, Oil, Paint, &c., without injury to the finest texture or showing any dust on the part cleansed. Saint John, Aug. 30, 1853.

E. VERNON, M. D.,

Graduate of the Toronto Board of Medicine, and of the Jefferson Medical College, Philadelphia.

TAKES this method of informing the inhabitants of St. John and the surrounding country, that he has established himself on the North side of King's Square, two doors west of Gables' Corner, for the purpose of practicing his profession, viz., PHYSIC, SURGERY, &c. Dr. Vernon has devoted great care to the study of diseases in all their forms—and all the modern improvements in their treatment, in a number of the largest Hospitals in America—as well as in his own private practice for several years.

He likewise feels prepared to give the EAR and EYE, those most delicate and necessary organs, that care and attention which they may require—very many cases of deafness that have been considered as hopeless can be entirely cured by a proper and judicious treatment. Diseases and deformities of the Eye, as Inflammation—Cataract. Strabismuth, or Cross Eyes, &c. &c., are a few of the cases that will receive particular attention—and in all cases of disease of those organs, if the parties are not helped, the money will be returned. Sub-acute and Chronic diseases of the respiratory organs will in most cases be treated by the inhalation of Medicated vapours. Nervous diseases will be treated principally with Electricity, which is the safest and most efficient means.

For the benefit of the poor, Dr. V. will remain in his office from 9 till 12 A. M. on Mondays, where he will be happy to consult, gratuitously, as many as can make it convenient to call.

N. B.—Office hours from 9 till 11 A. M., and from 3 till 5 P. M. through the week.

August 9, 1853.

Saint John Grammar School.

THE duties of this Seminary will be resumed on MONDAY the 1st of August. Several new Pupils can be admitted. The branches taught are, *Latin, Greek, Mathematics theoretical and practical, History, Geography*, and all the branches that constitute a GOOD ENGLISH EDUCATION.

JAMES PATERSON,

July 19, 1853. PRINCIPAL.

SAINT JOHN SEMINARY,

Princess Street.

THIS SEMINARY will be opened on Monday the 1st of August, in Princess street, (South side, a few doors East from Germain street,) by Messrs. **MALCOLMSON & HUTCHISON,** who design it not only for Boys, but also to supply a want long felt and expressed by many intelligent and respectable parents anxious to obtain for their daughters, at moderate expense the usual requisites of a sound and liberal Education.

For Young Ladies who may find it inconvenient to attend in the forenoon, or may not wish to mix with the junior scholars, private Classes will be formed, in the School Rooms, between the hours of 3 and 6, P. M.

Mr. M would acquaint his friends, that Mr. H. is a young gentleman of considerable literary acquirements, and experience in teaching, and that he has during the last four years been employed as Teacher in two Academies of the highest grade in Scotland.

The whole arrangements of the institution are adapted to the Improved Modern System of both Male and Female Education.—The following Branches form the standard course of Instruction:—Greek, Latin, French, and English; Algebra, Geometry, Trigonometry, Mensuration, and Arithmetic Theoretical, Mental, and Practical; Bookkeeping, by Double and by Single entry; Natural Philosophy, Astronomy, Political and Physical Geography, Natural and Civil History, English Grammar, English Composition; and the Composition, Origin, and Primary signification of Words; Spelling, Reading, and Writing—together with all the usual subordinate and subsidiary branches.

Mr. M. will be in attendance at the School Room, on and after Monday the 27th instant, from half-past 4 to 6 o'clock, to answer inquiries and enrol pupils for the different classes to be formed.

St. John, June 21st, 1853.
