A HOLD-UP.

There are all sorts of "hold-ups" these days. Some are agreeable—others are not.

It is certainly anything but pleasant to be urged and importuned to buy a suit just because you happened to drop into a store for a moment's look.

No such "hold-ups" here.

You're always as welcome to look as to buy.

Look or buy at your leisure and no urging.

Neither do we attempt to "hold up" patrons by advertising false inducements to attract trade.

No such "hold-ups" here,

COME ON IN

J. COOMBES - MANAGER.

YOUR COLUMN

INADEQUATE P.O. SERVICE.

Editor World: Your correspondent, Busy Man, is right about the inadequate service at the postoffice on public holidays. I, too, went to the Adelaide-street office on the morning of Labor Day (it was open then) but it might almost as well have been closed, for I was unable to register a package which I wished to mail, because the registration clerk was not on duty. Now, the way it strikes me is this: What is the service for if not to accommodate the public, and what are the clerks paid for? The entire staff need not be on duty on a holiday, but enough should be present to enable the public to do business.

While I am on the subject, I see that Alive Bollard is going to accommodate the public by selling three street car tickets for ten cents. Why should he not extend his operations and sell also postage stamps and postal notes? Of course the regulation must be amended a lot, but why not? As he is centrally located, the convenience to the public would be very great.

Disgusted One.

IT IS REASONABLE.

Editor World: I admire the stand you take on public rights and the two cent rate on steam railways. The Grand Trunk are not satisfied with three cents a mile, for they charged me $7.30 for a first-class ticket between here and Prescott, a distance of 220 miles. Their second-class rate was $5.50, so that was exactly 2 4-2 cents a mile. I consider it extortion and wish you success in your efforts to secure a two cent rate, which is reasonable.

Reader.

TORONTO'S FIRST ELECTRIC CAR.

Editor World: Some twenty years back myself and a friend left Barrie with a crowd and landed in Toronto to visit the exhibition. We rode on an electric car from Strachan-avenue to the entrance of exhibition ground. Kindly say if that was Toronto's first electric street car, and give date, to decide a dispute, and oblige,

Joe G.

Ans.: Yes; 1884.

OLD FORT WATER LOTS.

Editor World: It is well that the public should understand the meaning of the proposal now before the harbor commission and board of control to alienate the water lots in front of the old fort to private uses. In February last an application was made by a firm to the harbor commission to obtain an extended lease of one of the water lots to the west of Queen's Wharf. This firm were willing to pay $1 per foot frontage for the first ten years and [illegible] per foot for the following eleven years. But the chairman of the harbor commission thought that this property should be under the control of the city and not placed in private hands. The commission, therefore, held a conference with the board of control and suggested that the city council should make an offer to save these lots for city purposes. Altho the commission were willing to accept a lower rental from the city, and any rents paid to the harbor commission would be spent on improvements which would be entirely for the benefit of the city, yet the board of control appeared to take no interest in the matter and were not prepared to make any offer whatever.

Now again the Canadian Shipbuilding Company comes forward with an offer to acquire the water lot on the same terms, but the board of control is equally indifferent to the fate of this lot, which has an important relation to the future scheme of water front improvements, as well as affording an alternative route to the exhibition around the fort, instead of going thru it. The board of control are apparently not even prepared to pay a nominal rent, but seem willing to let this pass into private hands and thus ruin the tout ensemble of the waterfront scheme.

The public should be reminded of these facts, and the members of the board of control must take the full responsibility of the decision, which involves not only the maiming of the lakefront plan and the proposed island driveway, but is another stumbling block in the plans for the restoration of the old fort.

Jean Earle Geeson.

HAMILTON HAPPENINGS

NIAGARA POWER IN MONTH COMPANY NEARLY READY

Sewers Committee Recommends Expenditure of $13,000 on Mountain Drain.

NO AWARD.

Hamilton, Sept. 26.—(Special.)—The Street Railway arbitrators, altho they were in session until near midnight, failed to arrive at a decision to-night. It is expected that they will bring in an award Thursday.

Hamilton, Sept. 26.—(Special.)—Allen H. Royce, solicitor of the Toronto & Niagara Power Co., was in the city this afternoon arranging for the right of way over some beach property. He stated that the company would be delivering power in Toronto probably within a month and not later than six weeks at the outside. As yet the company has made no arrangements to bring a power line into Hamilton.

The sewers committee had a special session this afternoon and agreed to recommend the city council to spend some $13,000 on grading the mountain drain and putting in cement walls. Ald. Martin opposed this proposition, at first urging that there was no necessity for haste, but his colleagues disagreed with him. The council will hold a special meeting Friday night to discuss the matter.

To-morrow, at St. Catharines, legal action to upset the bylaw which made Beamsville a dry town will be taken. Efforts will be made to quash the local option bylaw on the ground that it was insufficiently advertised, and that three aliens voted for it.

W. E. Orton of Lucas, Steele & Bristol, and Miss Laura Tovell were married this afternoon by Rev. Dr. Tovell, Toronto.

Many For One Job.

There is some trouble in the local Liberal camp about patronage. It is reported that Adam Zimmerman, M.P., wants to have W. R. Davis appointed surveyor of customs, and the executive has decided upon Geo. Shambrook. Cal Davis of The Hamilton Times is also mentioned for the position, which is worth nearly $2500 a year.

Typhoid Dying Out.

Only one case of typhoid fever was reported to-day, and the medical health officer, Dr. Roberts, thinks that the outbreak is dying out. An inspection of the milk dairies failed to reveal anything objectionable.

John Larman, the painter, who was run over by an M.C.R. train at Welland Monday night, died in the City Hospital at an early hour this morning. The doctors could not operate upon him, and he died without regaining consciousness.

A number of weddings took place to-day. Frank A. Magee and Miss Mabel Scott, daughter of James Scott, were quietly married this afternoon. In Zion Tabernacle Frank Kerr and Miss May Lucas were married by Rev. F. W. Hollinrake.

The Toronto Daily and Sunday World delivered to any address in Hamilton before 7 a.m.; daily, 25c a month; Sunday, 5c per copy. Hamilton office, Royal Hotel Building. Phone 965.

Martimas Cigars, 5 cents to-day, at Billy Carroll's Opera House Cigar Store.

JOHN ARMSTRONG IT IS LABOR BUREAU SECRETARY

One of City's Oldest and Foremost Labor Men Receives Government Appointment.

John Armstrong has been appointed to succeed Robert Glockling as head of the bureau of labor. The entire bureau may soon be reorganized.

John Armstrong is one of the oldest compositors in Toronto, and for many years has occupied a prominent place in the ranks of organized labor. He learned his trade with The Toronto Globe and worked for many years upon that paper. In 1872 he took an active part in the nine-hour movement and the strike. He was one of the organizers and first president of the local trades assembly, the forerunner of the present Trades and Labor Council. He has served as secretary and also asm president of the International Typographical Union.

He is at present on The Mail and Empire, having started with The Mail on the day of its first publication.

"CAYUGA" MAKES A TRIP.

Goes 5 Miles Out on the Lake and Is Photographed.

The new steamer Cayuga of the Niagara Navigation Line was run out on the lake yesterday to get a picture taken, and over 200 people took advantage of the little jaunt to enjoy a pleasant afternoon's trip. She sailed out about five miles, and altho at no time was she speeded to the limit she was back to the dock in a little over half an hour.

The sailing of the Cayuga caused considerable excitement on the waterfront, and as soon as it was learned that she had laid in to the company's Yonge-street Wharf there was a great rush to that quarter from all directions.

The Cayuga will make another longer trip before the season ends.

A STABLE BURNED.

A sudden glare in the sky northeast of the city, and the clanging of the alarm bells, created a lot more general excitement than the fire which caused it warranted.

As it was, however, the stable occupied by R. S. Gallagher on Winchester-street, just east of Parliament-street, was pretty badly burned. The loss is $400 to the building and $100 to contents.

Exchequer Court of Canada.

There will be a sittings of the exchequer court of Canada in Toronto Tuesday, Oct.

ALUMNI FAIL TO RAISE FUNDS FOR MISSIONARY

Only $500 Out of $1200 Pledged Contributed and Change in Policy May Result.

The secretary's statement yesterday, that the Knox College Alumni had subscribed less than $500 last year towards the Goforth fund, to which they had pledged $1200 annually called for considerable discussion. The secretary strongly deplored the increasing lack of interest displayed among the members in the great work. Mr. Goforth was conducting a mission on behalf of the college at Honan, China. Statements and circulars issued by Rev. R. P. Mackay three years ago had not been fruitful, and since that time there had been a more decided falling off in subscriptions.

Rev. Dr. Turnbull saw a possible reason for this in the fact that the younger generations could hardly be expected to show the same interest in Dr. Goforth's work, even tho it were for the alma mater, as those who had been students intimate with him and knowing the man's qualities personally. The question was, should the $1200 annually be continued towards one special field, or should the amount be augmented and distributed more generally? While interest in Mr. Goforth had obviously slackened, interest in foreign missions generally had grown and he wondered if the efforts of Knox College really should be confined to one special field.

Rev. Mr. Haddon, editor of The Westminister, was surprised and disapointed to find differences of opinion regarding the Goforth fund, and thought it a much better policy, if these conditions were going to continue, to call Mr. Goforth back to eclesiastical work in this country.

Rev. Messrs. Duncan, Rogers and Watson were selected to deal with the question, which embodies a motion that an energetic member of each presbytery be appointed to represent the alumni and push the interest in this matter, and probably levy an assessment on each member. The committee will report to-day.

The discussion on the removal of Knox College and the sale of the old site was of a private nature, but it is understood that there is a popular feeling favoring the move, the general opinion being for an even greater expenditure of money than was at first contemplated, with the idea of making the presence of Knox felt in the atmosphere of University College.

The alumni pledged themselves to raise $50,000 by personal subscription toward the new college building.

Annual reports showed an expenditure last year of $102.03, with a small balance.

The Revised Bible.

Prof. G. L. Robinson, D.D., of Chicago, speaking before the conference yesterday morning, eulogized the American Standard Revised Version of the Bible. Among the defects stated to exist in the Anglo-American revision of 1881-5 were the omission of four important manuscripts of ancient date, and roundabout translation of some words. The American Standard Revision was claimed to represent thirty years' study by the ablest theological scholars in America, it being the seventh revision of the Protestant Bible since 1870, when the Church of England began the work. In specifying the improvements, reference was made to the employment of euphemisms for words which had degenerated in meaning so that their reading created a sense of repulsion among cultured listeners and levity among the more vulgar.

Rev. Marshall P. Talling, Ph.D., in discussing the use of liturgy in the churches, first referred to the ritualistic form of worship which, being offered thru a priest, tended to cause the congregation to place undue dependence on external ceremonial. The liturgical form of worship might be an arbitrary one of ritualistic leaning, might lend itself to variation, or might be merely suggestive to the minister preparing no set forms for him or the congregation.

The Set Prayer.

The speaker believed the most desirable worship to be non-liturgical when proper dignity and reverence were preserved, the danger of any set form being that it tended to cultivate a superficial rather than a spiritual interest. Printed prayers were not such spirit nourishment as were prayers arising from the individual soul, and where a form was constantly repeated, spontaneity was lost.

Dr. Talling was of opinion, however, that extemporaneous prayer detracted from reverence, and he advocated that ministers should give more attention to the preparation of their prayers. He believed, nevertheless, that it was necessary above all things that prayers should not be read.

LAW LIBRARY ASSOCIATION.

The adjourned meeting of the County Law Library Association will be called to order in the convocation room at Osgoode Hall this evening, and will be continued to-morrow.

The formation of a Provincial Bar Association, and a change in the method of electing benchers are two subjects down for discussion.
