WHEN THE STILES STOPPED

turning Saturday evening they registered the fact that 19655 had passed through into the huge exhibition buildings since the Wednesday morning before, making an average of almost 5,000 a day, and this exclusive of Moosepath. On Wednesday, 1,631 people visited the exhibition; on Thursday, 1,531 passed the gate keepers; on Friday, 10,547 and on Saturday, 3,796.

This means a big fistful of money to help liquidate the running expenses, and doubtless the receipts during the week will average as much as, if not more than those of the preceding four days. There is some talk of repeating the concert, and the idea is a good one. Every body wants the concert repeated, and the chances are that their wishes will be met by the association. It will assuredly be another musical and financial success. The programme is attractive and the concert is certain of attracting 10,000 people.

It may now be said that the exhibits are all in order, the machinery is running in full blast, the candy makers, and restauranters are doing a rushing business and the various inside attractions, are certainly exciting much interest.

This morning many found their way into the halls some for the first time, and this is indicative of the fact that visitors are continuing to arrive by every boat and train which comes into the city. It is satisfactory, too, to know that while the great majority of those who arrived here last week are with us yet, that the influx is going on. There are quite a number of the special attractions of the exhibition still to be given, and the great fair itself is just beginning to assume its real interesting features.

NELSON DETHRONES AXTELL.

KANKAKEE Ill Sept. 26.—This was a great day for the kite-shaped track, for, despite unfavorable conditions, records went tumbling all around. Nelson succeeded in wiping out 2:12, and 2:11½ is now the stallion record; Faustino, by Sydney, dam Faustina, placed the 2-year-old figures at 2:22¾, and Greenlander lowered his own record to 2:15¼.

The weather was cool and threatening rain, and when Nelson was brought out for his trial against Axtell's regular record and his own (kite-shaped) record, it was not thought that thestallion would succeed. He trotted in great shape, however, and, with never a break, went to the half in 1:04¾, and, going against a slight wind, passed under the wire in 2:11¾, chipping off half a second.

There was great enthusiasm, and it was the general opinion that with favorable conditions the time would have been 2:11 or better.

The kite-shaped track is open to great possibilities, and is becoming a Mecca for ambitious owners. It now remains for Axtell to make the pilgrimage and knock Nelson's figures into a cocked hat.

OFF THE TRACK.—A special freight train ran off the track at Westfield Saturday afternoon. The accident which was caused by the breaking of one of the car wheels, was the cause of the detention of the Flying Yankee and accommodation trains till after midnight. The Fredericton train passengers did not reach Fredericton till 2 o'clock Sunday morning. The damage to the road bed was trifling, and all repairs were made before a train was set in motion.
