SPECIAL TO THE DAILY BRITISH COLONIST

Eastern States.

WASHINGTON, March 8.—Among the appropriations secured were $170,000 for the Pacific surveys, $13 600 for the North Western Boundary Commission, $150,000 for the San Francisco Mint, and $50,000 for repairs of Custom House.

NEW YORK, March 7.—It is stated that several boxes of guineas of the coin of George III have been recovered from the wreck of the British frigate Hussar, sunk in the East River in 1784.

NEW YORK, March 8.—Havana official reports state that the insurgents are disheartened by the recent battle near Puerto Principe, where they lost 1000 killed and wounded. The Government, in assaulting the rebel entrenchments with artillery and the bayonet, lost 31 killed and 80 wounded.

WASHINGTON, March 8.—Secretary Washburne attended to his duties at the State Department. A large number of members of Congress called. No change has yet been announced in positions; the official notification of the acceptance by Washburn of the Secretaryship of State has been forwarded to each member of the resident diplomatic corps. A statement is made on good authority that Stewart has been throughout in full accord with Grant, and that it has been distinctly understood between them that he will not allow himself or his appointment to embarrass the President in the slightest degree; if it is deemed expedient by Congress to relieve Stewart, it is understood that he will withdraw. Stewart, however, will not recede if he can accommodate his extensive business connections so as to obviate the difficulty, and in this view he has offered to make an absolute transfer and disposition of all the profits and interest which may be derived from his business while he remains in office. The number of office-seekers increases—hundreds were at the Capitol today.

WASHINGTON, March 9.—There is special reason for believing that the President intends giving Washburne the French Mission. Gold advanced on the news of Stewart's withdrawal. Stewart at a late hour last night finally decided to resign.

WASHINGTON, March 9.—In the House the resignation of Washburne, of Illinois, was received.

Schenck introduced a bill to reduce into one act all laws relating to the Internal Revenue Bill for coinage of nickel five cent pieces. Resolution was adopted for the appointment of a Select Committee to provide for taking the census. Butler introduced a bill to repeal the tenure of office law, and moved the previous question which was seconded and the bill passed, there being only sixteen negative votes. The bill passed to provide against the extermination of fur-bearing animals in Alaska.

WASHINGTON, March 9.—The President has issued an order to General Sherman to assume command of the armies. Secretary Boric was qualified to day. Secretary Cox has arrived and will probably be qualified tomorrow. Stewart has declined the appointment of Secretary of the Treasury, and the President has accepted his declination.

It is said, at the lowest estimate, six millions would have been realized to the charities of New York by the means Stewart proposed within four years.

CHICAGO, March 10.—The *Times'* special thinks the Senate will promptly expel the Tenure of Office Bill. It also thinks that Motley stands the best chance for the English mission. The *Tribune's* special thinks Hamilton Fish will be sent to England and Curtis to Russia. Speaker Blaine expresses the opinion that the present session will not last over a month.

Europe.

LONDON, March 6.—Seven Fenians, imprisoned in various parts of the Kingdom, are liberated. They are Thomas P. Burke, the American-Fenian organizer; Charles Chickwell, one of the editors of the *Irish People*, Capt. McKay, F. O'Conner, Starke and Kepper. The three latter were liberated unconditionally.

Rumors from the Continent again mention the death of the Pope.

LONDON, March 7—Late advices received from Japan state that the Minister of France to Japan has had an audience with the Mikado at Yeddo, and presented his credentials.

The ports of Yeddo and Negata are open to foreigners. Yeddo is to be the official residence of the Mikado and the permanent capital of the Japanese Empire.

ROME, March 8.—The rumored death of the Pope is false.

MADRID, March 9.—The Cortes yesterday had a stormy debate on the future form of government. The Republicans have demanded the removal of Marshal Montpensier, and accused the Government of trying to smuggle him into the country as King. Prim defended Montpensier; Serrano defended the course of the government, choosing a ruler had been left to the Cortes, but this republican pressure was ruled out.

LONDON, March 9.—Mackay or Mackey the Fenian is not released as reported.

Cuba.

HAVANA, March 7.—The small pox is raging at Consola. Advices from Trinidad on Tuesday report the seige raised there, and forces are in constant pursuit of insurgents. Every Spaniard at Maiora is killed. The clergy have offered government one-sixth of their income to defray the expenses of the war.

Advices from St Thomas state that renewed efforts to consummate the sale of the Island to the United States has caused intense disgust among the inhabitants.

HAVANA, March 9.—Telegrams from the City of Mexico on the 3rd say that executions have become so frequent in the country as to create general public dismay. On the first of March Juarez forbade them and ordered the officers to bring the prisoners to the Capital for trial. General Negrete has not been found. It is hinted that his defeat was not so complete as reported. Romero writes to a friend that the opposition after fomenting a rebellion, now clamor for a change in the Ministry.

Canada.

ST. JOHN'S, N. B.—The Newfoundland Legislature adopted the resolution in favor of Confederation by a large majority.

California.

SAN FRANCISCO, March 7.—The following order has been received—

WASHINGTON, March 6.—To General John F. Miller, Collector of San Francisco: St. Paul's and St. George's Islands, Alaska, are, by the Act of March 3d, made Government Reservations. It is unlawful for any person to land or remain thereon unless authorized by this Department. Persons found there contrary to law will be removed; natives will not be disturbed as long as they observe the regulations respecting killing seals. The six persons suffered to remain by prior instructions, will be undisturbed, under like conditions. Detain the Lincoln until further directions.

[Signed] J. N. HARTLEY,
Acting Sec. Treasury.

SAN FRANCISCO, March 8.—Sailed—Schr Gen. Harney, Sitka.

SAN FRANCISCO, March 9.—Gold in New York 131⅜ and 131¼.

Wheat market quiet at $1 45@1 55; for ordinary to fair $1 55@1 60; for fair to good $1 60@1 65 for good to choice.

Oats, good Oregon $2 12½; for very choice do $2 20; quotable at $2 05@2 20; California quotable at $1 75@2 15.

Sailed, brig T. W. Lucas, Port Ludlow; barkentine Adele, Burrard Inlet.

SAN FRANCISCO, March 10.—Sailed, 9th—Steamer Continental, Portland; ship Helois, Port Townsend.

DELAYED DISPATCHES.

Oregon.

PORTLAND, March 5.—The steamer Oriflamme arrived Wednesday night.

Ben Holladay came up on railroad business. The location of terminus on the Sound of the Puget Sound and Columbia River Railroad is discussed.

Eastern States.

This evening the following dispatch was handed to Grant:

BERLIN, March 4.

PRESIDENT GRANT, White House;—My cordial congratulations on this solemn day.
BISMARCK.

WASHINGTON, March 4.—Blaine is Speaker of the House.

An immense procession was formed this morning which proceeded to the Capitol to witness the inauguration.

Johnson was not present. Grant and wife and Colfax and wife gave a private reception. No public reception was given. Johnson left Schofield in charge of the Executive Mansion, who delivered it over to Grant. The *World* says the inaugural shows confidence and self-sufficiency, and lacks the grave propriety of expression befitting the Chief Magistrate. There are no original ideas in it. Everything in it is flat, crude, and the mere echo of the *Tribune*, and commonplace.

The *Tribune* says the emphatic declaration that we should pay the national debt to the uttermost farthing, is worth countless millions to the labor, commerce and prosperity of the Republic. Grant will be the champion, and will direct his policy towards consolidation and extension of republican institutions upon the North American continent.

The *Times* says the inaugural touches great waste; it propounds a great policy with distinctness and leaves nothing in doubt.

NEW YORK, March 2—The *Herald* says that in conversation with General Reynolds yesterday, Grant was understood to say that reconstruction can take care of itself, and that Cuban independence and the Alabama claims will require his attention first.

NEW YORK, March 5.—The *Herald* says in the points of the Inaugural about economy, retrenchment and the faithful collection of revenue, we have the sailing directions of the new Administration. The general prospect is full of promise, prosperity, progress, development and power, both at home and abroad.

Coughs, Colds, Rheumatism, Diarrhœa, Dysentery, and Fever.

THE "TIMES," OF INDIA, STATES "that the discovery of Dr. J. COLLIS BROWNE'S CHLORODYNE is a greater blessing to the human race than even the discovery of Vaccination." This remedy is invaluable in the above diseases, and is indispensable to Emigrants, Travellers, and Families, a few doses being generally sufficient.

DR. J. COLLIS BROWNE'S CHLORODYNE.—The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See "Lancet," December 31, 1864.

DR. J. COLLIS BROWNE'S CHLORODYNE.—Extract from "Medical Times," January 12, 1866:—"Is prescribed by scores of orthodox medical practitioners. Of course it would not be thus singularly popular did it not 'supply a want and fill a place.'"

DR. J. COLLIS BROWNE'S CHLORODYNE is the best and most certain remedy in Coughs, Colds, Asthma, Consumption, Neuralgia, Rheumatism, etc.

From A. Montgomery, Esq., late inspector of Hospitals, Bombay: "Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after eighteen months' severe suffering, and when all other medicines had failed."

It is necessary to warn the public against spurious imitations, which only bear the pirated name, and are deficient of the true properties of the only genuine, viz.: DR. J. COLLIS BROWNE'S, as was proved before Vice-Chancellor Sir W. P. Wood, in the Court of Chancery, in case Browne vs. Freeman, when the Vice-Chancellor stated that the story of Freeman being the inventor was DELIBERATELY UNTRUE.
