PUBLIC ARCHIVES OF NOVA SCOTIA

PUBLIC ARCHIVES OF NOVA SCOTIA

PROSPECTUS of the "*COLONIAL FARMER*," a monthly journal devoted to the Improvement of Agriculture and Horticulture in the Provinces of NOVA SCOTIA AND P. E. ISLAND.

THAT Nova Scotia and Prince Edward Island are countries capable of sustaining a large Agricultural population, and of attaining to a considerable degree of Agricultural wealth, few persons acquainted with the resources of these colonies will deny. "It is equally apparent that in these countries, (compared with others where the great bulk of the people are tillers of the soil,) the business of farming is in a backward state, and comparatively unremunerative. Our land is fruitful—our climate sufficiently genial to bring to maturity every product of the soil necessary for the success of the husbandman;—in these essentials there is no deficiency that can be viewed as a barrier interposing between our farmers and the wealth to be legitimately derived from their occupation.

In these days, labor, in any branch of industry, to be successful must be aided by intelligence and enlightened skill. Unskilled labour is always unsuccessful. This fact needs no demonstration. If we enquire into the condition of the agricultural population, in every country where farming formd the great business of the people, it will be found that their various stages of wealth or comfort form a sort of sliding scale exactly corresponding with their several degrees of scientific skill and enlightenment. Where farming is understood and practised as a science, the soil never fails to yield a generous return for the labour bestowed upon it.

A Journal devoted wholly to the interests of the Farmer, it is believed, will not only be useful, but indispensible, in the improving the husbandry of these Provinces. It forms the cheapest, or, in fact, the only medium by which Farmers can inform themselves of the progress of improvement in their vocation—through its columns they can communicate to each other the results of experiments—become acquainted with improved systems, and compare the practices of their own with those of other countries; it forms the best medium of communication between different Societies, and when extensively patronized will excite to an honorable emulation that must always have a beneficial result. The want of such a journal has been long felt among us. The Canadian, the United States Journals devoted to the Agricultural interest, which are now extensively read by our farmers, although valuable in themselves, are yet wanting in that local applicability which is necessary to their general usefulness.

From these considerations, the subscriber has determined to commence, early in the year 1853, (if a sufficient number of subscribers is obtained to warrant the undertaking) the publication of a monthly journal to be called the COLONIAL FARMER and devoted to the agricultural interests of Nova Scotia and P. E. Island.

Its pages will be occupied with communications from practical farmers and others on agricultural subjects, the Reports, &c., of Societies, gleanings from agricultural publications of other countries of whatever is valuable or suited to the circumstances of these Provinces—General Agricultural and Horticultural Intelligence, together with such other matters as may be deemed interesting or useful to Farmers generally.

It will be printed with clear type on good paper—will contain twenty-four pages large octavo, and in order to insure a wide circulation it will be issued at the following low rates, viz:

Single copies, each,	5s.	a year.
" ten "	4s. 4d.	
" twenty "	3s. 9d.	
" fifty & upwards	2s. 6d.	

Payment to be made invariably in advance.

No advertisements except those of Agricultural Societies will be admitted into its columns.

The subscriber is aware that several attempts at establishing agricultural papers in Nova Scotia have been made and failed. The causes that have led to these failures it is unnecessary now to refer to. He would just state, however, that such a journal, if properly conducted, may be the means of doing a vast amount of good;—its value and the manner in which it will be conducted, even its very existence, depends upon the amount of patronage awarded to it. It is unnecessary to say anything further, but merely add the assurance, that should this enterprise be liberally supported, no labour or expence will be spared to make the COLONIAL FARMER worthy of the patronage of that numerous and respectable class to whose interests it is dedicated.

Officers of Agricultural Societies and others to whom copies of this Prospectus are sent, are respectfully requested to exert themselves to obtain subscribers and form clubs, and to forward lists to the undersigned before the 16th day of January next. It is necessary that the year's subscription be paid on receipt of the first number, which will be issued in March, 1853.

All orders for subscriptions to be addressed (post paid) to

E. M. MACDONALD,

PICTOU SS. *In the Supreme Court.*

CAUSE { ELIZABETH HAGUE, Plaintiff,
vs.
WILLIAM MURRAY, Defendent.

TO be Sold at Public Auction, on Saturday the eighth of January next, at eleven o'clock in the forenoon, at the Court House in the Town of Pictou, by the Sheriff of the county of Pictou, or his Deputy—

All the estate, right, title and interest of the above defendent, of and in the following lot of land, viz., a certain lot of land situate on the west side of River John, in said county, and bounded as follows:—Beginning on the south boundary line of a lot of land now belonging to David Fairweather, at a hemlock tree marked I. M., being the north east angle of a lot of land granted to James Murray, and running thence east on said Fairweather's and others' lands seventy-five chains to the north-west angle of a lot of land conveyed to or laid out for Robert Murray, thence south on Murray's lot ten chains and fifty links to the north east angle of a lot of land conveyed to or laid out for Alexander Murray; thence south eighty-eight and a half degress west on said last mentioned lot, seventy-eight chains to the west boundary line of the lot granted to James Murray as aforesaid; thence north twelve degrees east along the last mentioned boundary line thirteen chains and twenty-five links, to the place of beginning, containing ninety acres more or less, being the same lot of land that was conveyed to the said defendent by James Murray aforesaid, by deed bearing date the first day of January one thousand eight hundred and thirty eight, together with all the houses, buildings, privileges and appurtenances thereto belonging: the same having been taken in execution at the suit of the above plaintiff on a judgment in the above cause, duly registered more than two years.

A. C. MACDONALD, } JOHN W. HARRIS, Sheriff
Pltff's Atty. } of the County of Pictou.
December 3, 1852.

Judgment of October Term 1848.

CAUSE { John Duffus, Eldy Tupper, and Isaac Morrow, *Plaintiffs*,
vs. Alexander Brown, *Defendent.*

TO Be Sold at Public Auction, by the Sheriff of the County of Pictou, at the Court House in Pictou, on Thursday the seventeenth day of February next, at the hour of eleven o'clock a. m., ALL the Estate, Right, Title and Interest of the said Alexander Brown, in and to a certain lot of Land situate at Mount Thom in the County of Pictou—beginning at a stake fifty-eight links in a north-east ern direction from a three branched maple bush in the south or obtuse angle of Murdoch Stewart's lands on the line of James Fraser's lot; thence on said line north forty seven degrees east (original course), five chains and seventy-nine links to the boundary of the new road leading to Truro, thence westerly the courses of said road three chains and fifty links to a poplar tree, thence south seventeen degrees and a half west four chains to the place of beginning, containing one half acre and sixteen poles more or less; ALSO, a building lot on the north side of said road—beginning at a maple tree on the boundary of the road running in an easterly direction to the north-west corner of the house on said lot, thence running twenty-five feet till it comes to the north east corner of said house, from thence south to the boundary of the road twenty-three feet with the buildings and appurtenances thereof; the same having been taken in execution in the above suit, and the judgment therein having been registered upwards of two years.

JOHN W. HARRIS, Sheriff.
JOHN M'KINLAY, Atty. of Plaintiff Jan 3, '53.

ON THE Philosophy of MARRIAGE, and the SECRET INFIRMITIES OF YOUTH AND MATURITY:—in a sealed envelope 2s. 6d. sterling.

SELF-PRESERVATION: an analytical investigation of the physiology and functions of marriage, in all the bearings in which that important subject affects the health and happiness of man, with its disqualifications and impediments, tracing their origin to the effects of youthful excess, tropical climates, or close study; followed by practical remarks, founded on twenty years' experience in the treatment of impuissance, nervous debility, local weakness, spermatorrhœa, symphilis, and all diseases of the urinary and generative system. Illustrated by 50 coloured engravings.

BY SAMUEL LA'MERT, M.D., 27 *Belford-square, London*, Doctor of Medicine, Matriculated Member of the University of Edinburgh, Honorary Member of the London Hospital Medical Society, Licentiate of Apothecaries' Hall, London, &c., &c.

The essential object of this treatise is to point out the fearful consequences resulting from irregularities and excesses, which have produced more misery in youth, degradation in manhood, and permature decay at all stages of life, than, perhaps, any other class of disease known to modern pathologists. Its perusal is particularly recommended to persons entertaining secret doubts of their physical condition, and who are conscious of having hazarded the health, happiness, and privileges to which every human being is entitled. The treatment adopted is founded on experience gained in the most celebrated schools of medicine, both in this country and in continental Europe, and the results of the knowledge thus acquired are here condensed under the personal supervision of the author, himself one of the few legally-qualified physicians who have devoted their whole and undivided studies to this important branch of medical science. In short, every peculiarity relating to the treatment of the diseases incidental to the generative system, and the means of immediate relief and ultimate cure, are described in detail. The professional reputation of Dr. La'Mert, who has taken the most distinguished medical and academic honours, at home and abroad, is in itself a sufficient guarantee that those who may place themselves under his care will, in every instance, meet with that delicate consideration and inviolable secrecy so requisite in the treatment of these cases.

"It is highly necessary that parents, the heads of families, and directors of public and private schools, should possess this useful work. Numerous editions, in six different languages, are a striking testimony to its practical utility."

THOUSANDS have been cured, Why may not you, by the

Cramp and Pain Killer!

The world is astonished at the wonderful cures performed by the CRAMP AND PAIN KILLER, prepared by CURTIS & PERKINS. Its equal has never been known for removing pain in all cases; for the cure of spinal complaints, Cramp in the limbs and stomach, rheumatism in all its forms, bilious cholic, burns, sore throat and gravel, it is decidedly the best remedy in the world. Evidence of the most wonderful cures ever performed by any medicine are on circulars in the hands of Agents—you may be *positively cured of relief* if you *use* it.

N. B.—Be sure and call for CURTIS & PERKINS' Cramp and Pain killer. All others bearing the name are base imitations, and will deceive and injure the patient. Price 25 cts. per bottle. Sold by Agents in nearly every town in the Province.

Hunter's Pulmonary Balsam.

HAMPDEN, Feb. 24, 1846.

Messrs J. Curtis Jr & Co—Gentlemen:—I have a word to say to you, in favor of Hunter's Cough Syrup. I have in the past year used in my practice two dozen bottles of it, which I had of you, and every bottle has done good. For eight years past I have been in the practice of medicine, and I have never found any thing so well calculated to operate so favorably in all diseases of the lungs as this is. I have known hard distressing cough cured in forty eight hours, by using (in broken doses) one bottle of it. One case here in particular, of a man who was thought to have seated consumption, troubled with a hard distressing cough. I let him have one bottle, and he had two more of your agent, Mr Whitmore. After using the three bottles, he has become well, and now labours every day. He told me lately that Hunter's Cough Syrup was the means and only means of his cure. I have given it to infants, to children, to adults, and have the pleasure to inform you that it has done good in every case, I do think if it was more universally known, you would have hard work to supply the demand. All who speak of it, wherever I go speak in its praise. I hope no one will attempt to counterfeit the article, to hurt the sale of it. It is now good, and it is doing good, wherever it is used. You need not hesitate to recommend it for a cough, and also all diseases of the lungs. I shall do all in my power to recomend it in the cases above named, not only for your benefit, but for the benefit of suffering humanity. Yours Truly,
jy27 BENJ L. POMROY.

ALSO—AMERICAN VERMIFUGE

WORMS! WORMS!! WORMS!!!

Thousands of children die annually in consequence of worms. Indeed, grown persons—adults often suffer severely from the same cause. We have a preparation to offer which is a sure remedy for all this suffering.

The AMERICAN VERMIFUGE prepared by Curtis and Perkins is a sure exterminator of WORMS in children or adults. It is pleasant to the taste and sure and safe in its operations. It dose not contain mercury or other mineral poison, and as it is pleasant to the taste children will take it easily, and without the nauseous effects produced by other kins of vermifuge.

The receipt for this vermifuge was procured from one of the most celebrated physicians in New York, and extensively proved through a long successful practice; and we can cite numerous instances where it has produced large evacuations of worms after all the vermifuges had been tried without any good effect.

Remember it is always safe and sure, and sold for 25 cents a bottle by Druggists and dealers in medicine generally.

Forsale by Jmes D. B Fraser and Henry Elliott, *Pictou*; James Kitchen, *West River*; William Graham *Durham Village*; Isaac Matheson *Albion Mines*; James McGregor, Roderick McGregor, *New Glasgow*; Robert Copeland, *Merigomish*; Johno Gould, and Stewart Burns, *River John*; William Blackwood, John Lambert, and James McLearn, *Tatamagouche*; and by Druggists and Traders generally throughout the Province. jly.27

THE WORLD RENOWNED CHOLERA, DYSENTERY AND DIARRHŒA

CORDIAL.

Mrs. E. Kidder's Cholera Morbus, Dysentery and Diarrhœa Cordial stands unrivalled in the annals of history as a curative for the Cholera, Dysentery, Diarrhœa both recent and protracted, Summer complaints of Children; Sea Sickness; General Debility, and Fever and Ague. Its well known effect is to immediately relieve and cure the worst forms of the disease, and in all recent cases in a few hours, both in children and adults. Bowel complaints of children while teething, can not only be cured, but prevented, by the timely use of the cordial.

ALSO:—Wheeler's celebrated SHERRY WINE BITTERS, for sale at FRASER'S AMERICAN STORE.

JUDSON'S
CHEMICAL EXTRACT OF

CHERRY AND LUNGWORT,

OR THE CURE OF

Coughs, Colds, Hoarseness, Spitting of Blood, Night Sweats, Asthma, Liver Complaints, and

CONSUMPTION.

DEATH Can be and has been prevented in thousands of cases by this *Nature's own remedy*, JUDSON'S CHEMICAL EXTRACT OF CHERRY AND LUNGWORT. This medicine, unlike most other patent medicines of the day, is the result of the careful *study* and *experiments* of a scientific and *experienced Physician*. The two principal ingredients have long been known and celebrated. WILD CHERRY BARK.—When the strength of this is *properly extracted*, it is the best medicine known for curing the worst Coughs and other Pulmonary diseases; it loosens the phlegm and enables the sufferer to expectorate easily, and alone will cure the worst cold or cough, which if neglected always leads to consumption. LUNGWORT. This is a plant the virtues of which are known to but few. It has been said by the most learned men of all times, that "nature has provided a remedy for every disease," and the discoveries that are daily made go to prove its truth. *Lungwort is doubtless the remedy designed by nature for Consumption.* Its healing properties are truly wonderful, and the rapidity with which it cures the worst cases of ulcerated lungs, soothing and subduing all irritation almost immediately, is a proof of its adaptation to this disease.—These two articles *combined with other purely vegetable* ingredients, form a medicine that is certain to cure the worst cases of consumption if taken before the sufferer is entirely prostrated.—Do not be discouraged, a trial can do no harm, but will convince the most sceptic of its *real* worth.

Carlton's Liniment for the Piles, &c.—It is now used in the principal hospitals and in the private practice of our country by an immense number of individuals and families, first and most certainly for the cure of the PILES, and also extensively and effectually as to baffle credulity unless where its effects are witnessed; *externally* in the following complaints:—*Dropsy Swellings, Rheumatism, acute or chronic, giving immediate ease; Sore Throat, Bruises, Sprains, Burns, &c.* SORES and ULCERS—whether fresh or of long standing, and fever sores.—

CAUTION.—Never buy it unless you find the fac simile signature of Comstock & Brother, proprietors, on the wrapper.

Azor's Turkish BALM, the only *Certain remedy for Baldness, and for preventing and stopping the falling out of the Hair.* As a toilet article, for beautifying and keeping the hair soft, glossy and in a healthy condition, it is unequalled. Its positive qualities are as follows:—

1st. It frees the head from dandruff, strengthens the roots, imparts health and vigor to the circulation, and prevents the *hair changing colour* or getting gray. 2d. It causes the hair to curl beautifully when done up in it over night.

CARLTON'S Founder OINTMENT—For the cure of Founder, Split Hoof, Hoof bound Horses, and Contracted and Feverish feet, Wounds, Bruises in the Flesh, Galled Backs, Cracked Heels, Scratches, Cuts, Kicks, &c., on Horses.

CARLTON'S RING BONE CURE
For the cure of Rig bone, Blood Spavin, Windgalls, and Split—a certain remedy.

CARLTON'S CONDITION POWDERS, FOR HORSES AND CATTLE.
The changes of weather and season, with the change of use and feed, have a very great effect upon the blood and sinuous fluids of Horses. It is at these changes they require an assistant to nature to throw off any disorder of the fluids of the body that may have been imbibed, and which, if not attended to, will result in the Yellow Water, Heaves, Worms, Botts, &c. All of which will be prevented by giving one of these powders, and will at any time, cure when any symptoms appear, if used in time. They purify the blood remove all inflammation and fever, loosen the skin, cleanse the water, and invigorate the whole body, enabling them to do more work with the same feed.

CARLTON'S NERVE AND BONE LINIMENT FOR HORSES,
and for the cure of all diseases of man or beast that require external application, and for contracted cord and muscles, strengthens weak limbs, and is also used for sprains, bruises, saddle galls, swelled legs sores of all kinds on horses.

DEAFNESS.—Use Doctor Larzette's Acoustic Oil, for the cure of Deafness. Also, all those disagreeable noises, like the buzzing of insects, falling of water, whizzing of steam, which are symptoms of approaching deafness. Persons who have been deaf forty years, and were subject to use ear trumpets, have after using one bottle, been made well.

COMSTOCK'S VERMIFUGE. This is the most extraordinary remedy for Worms ever used; it effectually eradicates Worms from both Adults and children. It cannot harm the most delicate infant or strongest adult and never fails to completely root out and destroy all kinds of Worms. The cost, 25 cts. per bottle, puts it within reach of all, and all parents who are without it are wantonly exposing the lives of their children to those fell destroyers of youth, "Worms." Look for the name of Comstock & Brother, proprietors, on the wrapper of each bottle.

GEORGES Honduras Sarsaparilla Extract, for the Cure of those Diseases arising from an impure state of the blood, such as Scrofula, Stub born Ulcers, Skin Diseases, Pimples on the face, Female irregularities and complaints, &c. As a general tonic and invigorater of the system it is unequalled.

Caution.—None can be genuine unless you find the name of J Carlton Comstock on the Wrapper of each article.—Remember this, as their articles have been extensively counterfeited of late, look and find the proprietors name J. Carlton Comstock, &c., never buy without.

Caution.—All of the above named articles are sold only by Comstock & Brother, 2 St. Peter's Place, directly in rear of the Astor House, between Barclay and Vesey sts., one door from Barclay and one block from Broadway, New York, to whom all orders must be directed, and in Halifax by MORTON & Co., and at the SUN OFFICE; also by HENRY ELLIOTT and J. D. B. FRASER Pictou; I. MATHESON Albion Mines, T. R. FRASER New Glasgow, and one agent in every town. Nova Scotia, Sept 26th 1852.
