MARKET REVIEW AND FORECAST

TORONTO, Monday, July 19.—In summing up trade conditions for the week, The Trade Bulletin of Montreal says: "Although trade in wholesale circles does not show the same volume as at this time last year, it is in a healthier condition. Our merchants in curtailing their expenses, have been more particular in weeding out the 'slow pays' and retaining the better class of customers. In dry-goods the great difficulty is in getting delivery of the goods ordered. Especially has this reference to imported goods from Eng and and France."

Quotations on grains have firmed considerably and have been soaring steadily during the week. Few price changes have been noted on other farm produce.

WHEAT

Some considerable interest was aroused in wheat circles when it was announced that the British Government was preparing to take over the Canadian wheat crop. It has since been stated, however, that nothing of the sort would be done, as it would be almost impracticable as well as unnecessary under present conditions. Prospects for the billion bushel crop in the winter wheat belt still continue to grow, although harvesting has been delayed, and much ripe wheat is still uncut, owing to wet weather. Quotations have advanced this week and No. 1 Northern is now quoted $1.45 to $1.45½; No. 2, $1.42½ to $1.43, and No. 3, nominal; Ontario wheat, $1.17 to $1.20.

COARSE GRAINS

Quotations on oats have advanced 2½c during the week. Pastures have been impaired by dry weather which has stimulated the demand for grain and feed. Oats, C. W., No. 2, are now quoted 66½c; No. 3, nominal; Ontario oats, 58c to 59c; American corn, 85c, barley, feed, 65c to 68c; buckwheat, 74c; rye, $1.05 to $1.15. The Montreal market quotes: Oats, C.W.,No. 2, 65½c to 66c; extra No. 1,feed, 65½c to 66½c; local white, 66 to 66½c; corn, 84½c to 86c; barley, feed, 72c; buckwheat, 79c to 80c.

MILL FEEDS

Quotations are firm: Bran $27; shorts $29; middlings $30; feed flour $1.85. Montreal quotes: Bran $26; shorts $28; middlings $33 to $34; moullie $35 to $40.

HAY AND STRAW

Latest advices regarding the hay crop are that allowing for the light reports from some districts, it will turn out a fair average. Quotations here are: No. 1 baled hay, $19 to $20; No. 2, $17 to $18; baled straw, $7. The receipts of hay at Montreal during the past week were 64,296 bales against 16,155 bales for the same week last year. No. 1 baled hay is quoted $21.50 to $22; No. 2, $21 to $21.25; No. 3, $19 to $19.50; clover, $18.50 to $19.

FRUIT AND VEGETABLES.

Wholesale quotations on this market are as follows: Cherries, 11-qt., sweet, 60c to $1.25; sour, 40c to 50c; strawberries, box, 5c to 7c; gooseberries, 11-qt., 40c to 50c; red currants, 35c; black currants, $1.50; raspberries, box, 10c to 15c; potatoes, Ontarios, 45c; Delawares, 55c; new potatoes, bbl., $2.25.

EGGS AND POULTRY

Eggs are coming to this market freely, but owing to the hot weather the quality is not as good as previously, there being a large percentage of cracked and shrunken eggs received. Eggs in cartons are quoted 24c to 25c, selects, 23c to 24c; No. 1, new-laid, 21c to 22c; No. 2, 18c to 19c.

Poultry quotations follow: Old fowl, live 13c to 14c; dressed, 15c to 18c; spring broilers, dressed, 17c to 20c; old turkeys, live, 16c to 20c; turkeys, dressed, 23c to 25c; ducks, live, 13c to 15c; dressed, 17c to 18c.

HIDES AND WOOL

The quality of hides continues to improve and trade is stronger because tanners like the short-hair and grub-free grades that are now coming to market. Hides, flat, cows, 13c to 13c; steers, 14c; 15c to 17c; deacons or bob calf, 75c to $1.10 each; horses, take off, No. 1, $3.75 to $4.25; No. 2, $3.25 to $3 each; sheepskins, 75c to $2 each; shearlings and spring lambs, 30c to 60c; horse hair, 35c to 40c.

Because of the high prices ruling, wool continues to be marketed freely here. Values are unchanged from the advance of last week. Washed, combing fleece (coarse), 30c to 32c; washed, medium, 35c to 41c; tub-washed, coarse, 38c to 40c; fine, 40c to 41c; washed fleece, fine, 40c to 42c; washed rejects, 38c to 39c; unwashed combing fleece (coarse), 28c to 29c; unwashed medium, 30c to 31c; unwashed fine fleece, 31c to 33c.

DAIRY PRODUCE

The easier butter market noted last week has firmed, and butter at Montreal is quoted 26½c to 26¾c for finest. According to statistics, the make is short as compared with that of last year to date. As cheese is being made so extensively this year, holders do not expect prices to go much lower than at present.

The cheese market is in an unsettled condition owing to the continued large production and also the poor demand from the old country. Prices on country boards have dropped slightly. As it is anticipated that the make of English cheese will be short and that shipments from New Zealand will be comparatively short for a time, as this is their non-producing season, cheese prices can hardly go much lower than they are now. Country board prices follow:

LIVE STOCK

There was a large movement of all kinds of stock to this market this week. The demand for export trade still continues, holding the prices of heavy, well finished animals firm. Over 1,000 more cattle were handled this week than last, and 1,000 more than the same week a year ago. Quotations follow:
