PUBLIC WORKS.—The building of the bridge over Atkinson's Creek, Wood Point, was let on Tuesday to Mr. M. Estabrooks for $175.00

Mr. and Mrs. A. MacKay have returned to Amherst after an absence of 19 years in New Zealand. Mr. MacKay will go into the lumber business at Shulee with J. T. Smith, Esq.

KENT ITEMS.—From the *Advocate* we learn that the people of Kingston are erecting a $2,000 school house. A Presbyterian Manse is also being built on land given by Wm. Bowser, Esq., to cost $2,000.

STRAYED.—From the Subscriber's Pasture, a Dark-Brawn Mare, aged about 15 years. The finder will be rewarded by returning to T. B. Calhoun, Memramcook, or to Alfred B. Dixon, Sackville.—1ins.

GRIST AND SAW MILL SUPPLIES.—Parties in want or Silk Bolting Cloth, French Burr Stones, Rubber and Leather Belting, Machine Oils, Wool Oils, Mill Saws, or mill furnishings generally, can obtain them from the old established house of Estey, Allwood & Co. (successor to Z. G. Gabel) St. John. They also catalogue Rubber Goods of all kinds.

THE KENT LOBSTER TRADE.—H. O'Leary, Esq., has put up this season 750,000 lbs.; N. B. Noble, 200,000 lbs.; J. H. Bell, 150,000 lbs.; Jno. McMurray, 75,000 lbs.; and the Dominion Packing Co., 175,000 lbs. The quantity of lobsters packed this season in these Provinces is probably not above one quarter what it was last.

MURRAY CORNER ITEMS.—The schr. "Lone Star" having returned from her second fishing voyage is now on a trip to Summerside, P. E. I.—All the crops are abundant this year. During this fine weather the farmers are very busy with their harvesting. —We hope soon to be enabled to announce several happy matrimonial alliances from this quarter in the POST.—Business is brisk at the Murray Corner shoe factory.

NEW MILL.—The enterprising firm of Messrs. Grey & Wheaton, at Salisbury, N. B., have nearly completed the re erection of their new mill on the site of the one destroyed by fire in March last. The present structure is very spacious, is 100 feet in length, 40 feet in breadth, and three stories in height. It embraces a shingle machine which cuts from 16,000 to 20,000 shingles per day. The machine does its work smoothly. Good stock pine shingles can be purchased at the mill for $1.80 per thousand. Driven by the same steam power is a wheat mill, &c., and a saw mill for cutting lumber of any dimension. The cost of the building, engine, machinery, &c., will exceed $9,000. So much for interprise.

FROM PUGWASH.—The dull rainy weather has not affected the grain crop here as it has in some other localities. Early wheat has been housed in good order and the grain still standing is not injured to any extent. Better returns than for several preceding years are expected. —The new woollen mills have commenced operations; carding, fulling and dyeing are being carried on briskly.—Mr. Allan McLeod is building a fine new store at the corner of Water and Victoria Streets, which he expects to occupy this winter.—Mr. Peter Tidd has completed and moved into his neat new cottage in "Irish Town."—We hope that times are looking up and welcome every sign of improvement.

THERE is a growing suspicion in Great Britain that Russia has been the instigator of the Cabul revolt, and the fact that the expedition to Merv has been resumed has caused much excitement in high political circles.

GLOUCESTER, MASS., Sept. 15.—Schr. "Russian Councillor," from Ratchford's River, N. S., for Boston, put in here to-day, having collided with an unknown schooner, and lost mainboom and had starboard bow stove in.

KILLED ON THE TRACK.—George White, 70 years old, an inmate of York County alms-house, was walking on the railway track Friday morning when the train from St. John was approaching Fredericton, and before the train could be stopped it struck and killed him instantly.

SPRING HILL, Sept. 16.—A brick making establishment has been started at Salt Spring, and is turning out good work.

Some few days ago some evil disposed persons spiked an iron coupling link on the railway track near the Junction; fortunately it was discovered and removed five minutes before the Halifax express arrived.

The canvass for the County Council goes on as briskly as ever, and it is hard to say who is to be the happy man.

PARRSBORO', Sept. 15.—Ship "Tasmania" arrived on Tuesday to load deals for T. L. DeWolf. The brig "Economy" is loading deals for D. A. Huntley & Co., at Young's Wharf, for Liverpool. Schr. "Star in the East" is loading at Coal Wharf for Wolfville Schr. "Blue Wave" is loading coal for Canning Schr. "Air Light" is loaded with coal for Windsor.

Mr. Wm. Kirkpatrick has a building on Main Street almost completed. It is quite an ornament to the town. It is two and a half storeys high. He expects to move into it next month.

Business generally is looking up, and the town of Parrsboro' presents quite a lively appearance.

Capt. A. W. Gow has removed into his new store, and is doing quite a fine trade.

TOM THUMB will be in Sackville, at Chignecto Hall, on Tuesday afternoon and evening. The St. John *Telegraph* of August 24th, says:

A very enjoyable entertainment was given in Carleton City Hall, last evening, by Tom Thumb and the company that is associated with him. The audience, which was large, was enraptured with the performance Major Newell appeared in a great number of specialties, his singing and dancing being much appreciated. Tom Thumb and wife were introduced and took part in the early evening. The sketch, the Mischevious Monkey, concluded the programme. In it Major Newell represented the monkey, while the other characters were represented by different members of the company. The dialogue is bright and kept those present in a continual roar. There are to be two performances, afternoon and evening.

Great Enterprises.

The present time is faithful in schemes of great magnitude. There are already projected:

A new suspension bridge over Niagara river;

A new Atlantic Cable in addition to that now in process of construction;

A ship-canal across the Isthmus of Darien;

A ship-railroad across the same strip of land, separating two oceans;

A railroad over the desert of Sahara, connecting Algeria and Soudan;

A canal, which, conveying the waters of the Mediterranean into the sands of Africa, shall make a great inland sea and fertilize arid wastes;

The establishment of water communication between the Black and Caspian seas.

Add to those enterprises, most of which seem likely to be undertaken in the near future:

Ericson's scheme for utilizing the sun's heat;

Edison's scheme for utilizing electricity;

The various plans of geographical discovery;

The solution of the mysteries of Central Africa, and the civilization of its savages,

The destruction of the world's plagues;

The emancipation of every slave;

Universal education;

The adjustment of the relations of labor and capital;

The solution of the population question;

And we need not fear that the world's great thinkers and doers will get out of work and have to go tramping for a long time to come.

The Sea Serpent Again.

Captain J. F. Cox, master of the British ship "Privateer," which arrived at Delaware Breakwater on September 9th, from London, says:

"Aug. 5th., 100 miles west of Brest in France, weather fine and clear, at 5 p. m., as I was walking the quarter deck looking to windward I saw something black raise out of the water about 20 feet, in shape like an immense snake of 3 feet diameter. It was about 300 yards from the ship coming towards us; it turned its head partly from us and went down with a great splash, after staying up about five seconds, but rose again three times at intervals of ten seconds until it had turned completely from us and was going from us with great speed and making the water boil all around it. I could see its eyes and shape perfectly. It was like a great eel or snake but as black as coal-tar, and appeared to be making great exertions to get away from the ship. I have seen many kinds of fish in five different oceans, but was never favored with a sight of the great sea snake before."

In connection with this statement of Capt. Cox, should be read the account of the loss of the Norwegian bark "Columbia," which we annex. Whether the sea serpent be a myth or not, Capt. Larsen certainly believes in its existence. The "Columbia" was on her way from London to Quebec, when on September 4th she sunk. The cause of her sinking is thus outlined by Capt. Larsen and his crew:—

"On their way from London they met with variable wind and weather until 4th September, when sailing with all sails set in a light N. E. wind, about 11 a. m., they felt a sudden shock, and looking overboard they saw the sea discolored with blood and either a fish or some other sea monster making away from the ship as fast as it could; at the same time Capt. Larson heard some of his men crying out that the ship was leaking badly and filling very fast, went down into the hold to see if anything could be done to stop the leak, but soon found that nothing could be done to save the ship. When he came on deck again, they had barely time to get the boat overboard and a few things with them. Half an hour after they left the "Columbia" went down."

DORCHESTER ITEMS.—The ladies of St. Andrew's Church, Dorchester, are taking steps to inaugurate a grand concert to take place in Robb's Hall some time next month. The programme will embrace solos, duetts, trios and choruses, including some favorite selections from "H. M. S. Pinafore," interspersed with instrumental music. A refreshment table is to complete the list of attractions, and the proceeds are to be devoted to defraying the expenses of some needed improvements on the Church premises and Sunday-School House.—Joseph B. Peck, Esq., is erecting a new law office near W. F. Tait's Job Printing Office.—His Honor Judge Palmer was in Dorchester yesterday.—The body of the boy Coffrey, whose death by drowning was recorded in last week's POST, drifted ashore on Dorchester Island on Monday morning. An inquest was held by Corner Chapman and a verdict brought in of accidental death.

General Tom Thumb is now beginning to show signs of age. He is becoming somewhat obese and his red cheeks are beginning to protrude outwards from his ears. His hair is turning gray. His intellect is as bright as ever; indeed, he is noted as a clever financier, sound as a nut on the Dollar question. He is said to be worth a cool half million. Although he has a palatial residence at Middleboro', Mass., travelling has become a second nature to him and the road is now his home. His wife, née Lavinia Warren, is a vivacious and comely little matron, very charming to all who meet her. They had one child who died at the age of two years and eleven months. Major Newell, who married Minnie Warren, sister of Lavinia, accompanies them and is a clever little fellow. It will be recollected that Minnie died in August last year, casting quite a gloom over the little coterie, from which they have not altogether recovered.

New Buildings.

The new Church School House is now completed on the outside. The inside will be completed in the course of a few days and furnished complete ready for occupation.

Mr. D. G. Dickson is erecting a residence for himself on an elevated site above the old station road. From its windows a charming range of country is seen. The house with its Mansard roof and large bow windows presents a striking and handsome architectural appearance.

Mr. C. W. Ford has completed a cottage, very compact and neat on the Academy road, which will make a very desirable residence.

An eight-roomed house built by Mr. C. W. Cole on the Fairfield road is now ready for plastering. It stands on one of those undulations so peculiar to Sackville, and commands a fine view.

Mr. Isaac B. Barnes is erecting a cottage with a French roof on the Back Road, also ready for plastering, and will be tenanted late in the fall.

Mr. Wm. Hicks has commenced a cottage in the French style on Foundry Street.

Mr. Geo. T. Bowser is building a residence for himself near the old Bowser homestead. It has two bow-windows and a veranda connected on the front side from which a good view of the Bay and the hills of Cumberland, is presented.

In all about fifty new buildings have gone up in this place this year, which during a period of hard times, is an evidence of the prosperous condition of this locality.

Guilty of Manslaughter.

End of the Connick Murder Trial.

NEWCASTLE, Sept. 15.—The trial of Joseph Meagher for the murder of Wm. Connick occupied the Northumberland Circuit Court, Judge Wetmore presiding, on Friday and Saturday last, Attorney General Fraser appearing for the Crown, and Messrs. Adams and Wilkinson for the defence. The fatal affair occurred at Nelson, in that county, on the 25th of March. Joseph Meagher (the prisoner) his brother James, Connick, the murdered man, and others, were drinking in Carroll's tavern. After going outside Connick was stabbed, and he died two days afterwards. It was alleged that the fatal wound was given by Joseph Meagher. James Meagher left the country. A number of witnesses were examined for the prosecution and several for the defence, and the counsel addressed the jury on Saturday. The Jury retired between five and six o'clock on Saturday evening and were absent about four hours. When they returned the Court room was crowded. They gave a verdict of "manslaughter."

THE LIVE STOCK department of the Toronto Exhibition opened on Tuesday. There are 941 entries, as follows:

PERSONALS.—Mr. Chauveau, Provincial Secretary in Mr. Joly's Government, resigned on Friday night.

Ex Governor Letellier held an enthusiastic open air demonstration at Montreal on Friday night which was attended by 5,000 persons.

Governor Robinson was re-nominated by the Democratic Convention of New York State Thursday, and the Tammany wing bolted.

A delegation of English, Scotch, and Irish farmers are to arrive at Montreal on Saturday to report on the advantages of the Dominion for settlement.

Sir John MacDonald and Sir Alexander Galt sailed for home Thursday. Sir Alexander will return to London to assume the position of Canadian Commissioner. Mr. Annand is to be retired.

COMPLIMENT TO A DORCHESTER VESSEL.—The Baltimore *American* of the 7th inst., referring to an interview in the Pilot office of that port said:

It was remarked that the Nova Scotians were the best found and the fastest ships in the trade between here and Europe, and that they constituted a larger portion of the tonnage of this port than that furnished by any other nationality. It was further said that the captains were very gentlemanly and hospitable, and the accomodations were as good as anyone could possibly expect on shipboard. There were no finer vessels anywhere than such, for instance, as the bark "Ruth Palmer," Capt. Smith; &c., &c.

DEAL EXPORTS from St. John fell from 135 millions shipped during the first seven months of 1878 to 111 millions shipped during same period in 1879. The shipments in August this year were not more than one fourth what they were in August 1878, being respectively 7 and 28 millions feet. The Chatham exports for August were 7.7 millions against 11.1 millions in August 1878.

EXPORT OF HAY TO ENGLAND.—Last week 100 bundles of hay were shipped in the "M. J. Foley," from Halifax. Hay is also being shipped from Ottawa.

REV. C. P. MULVANY, of Ontario was on Monday night elected Rector of this parish, Rev. R. J. Uniacke having some weeks ago resigned its charge.

VEGETINE.

A Home in the Celestial City.

MINNEAPOLIS, MINN., Dec. 18, 1878.

H. R. STEVENS, BOSTON,

About nine and a half years ago I had a fever; the doctor gave me some poisonous medicine, drove the disease into my leg, and it broke out, and has been from two to ten running sores ever since. I could not sleep a fourth of a night once in six months, and a great many nights was compelled to get up and take opium—a piece as large as a pea—to deaden the pain. I have tried everything I could hear of, in fact I have paid out hundreds of dollars, and found no relief until I commenced taking Vegetine, and now I can go to bed at eight o'clock at night and sleep until seven o'clock in the morning, and no occasion to waken from pain. I was used up, perfectly dead inwardly, and frequently when I would get up, would be dizzy, and have to put my hand on something to keep from falling; but since I commenced taking Vegetine it all disappeared, and I feel like a new man. My honest conviction is that it will cure my leg entirely, from the present looks and feelings. I shall continue taking Vegetine, and recommend it to all whom I come across; and I hope the man who introduced Vegetine into the United States will have a home in the Celestial City.

Yours most sincerely,
W. S. LEACH.

Mr. Leach is a gentleman well known here and is the owner of the "celebrated Turbine Water Wheel."

Druggists take Vegetine and Recommend it.

H. R. STEVENS, BOSTON:

I have been selling Vegetine ever since it came into existence, and have recommended it to my customers. I have tried it myself and find it a great blood purifier and renovator of the system.

Aug. 22, 1878. Burlington, Iowa.

W. Hippee, M. D., Says.

H. R. STEVENS:—

I have sold your Vegetine for over a year, and have heard every person who has used it speak favorably of its good effects.

Dr. W. Ross Writes.

Scrofula, Liver Complaint, Dyspepsia Rheumatism, Weakness.

H. R. STEVENS:

I have been practising medicine for 25 years, and as a remedy for Scrofula, Liver Complaint, Dyspepsia, Rheumatism, Weakness, and all diseases of the blood, I have never found its equal. I have sold Vegetine for 7 years and have never had one bottle returned. I would heartily recommend it to those in need of a blood purifier.

Druggist's Report.

MR. H. R. STEVENS, BOSTON, MASS.:

I have been selling your vegetine for the past five years, and find the sales increasing every year. I consider Vegetine one of the best and most reliable preparations now in the market.

VEGETINE

PREPARED BY

H. R. STEVENS, - - - - BOSTON, MASS.

VEGETINE is sold by all Duggists.

And at wholesale, by T. B. Barker & Sons, St. John, N. B.

Among the most remarkable productions of this age and country is Hall's Hair Renewer. Its success is unparalleled. It is bought after by rich and poor, high and low, young and old. Inhabitants of foreign lands—the people of Australia, of Europe, and of South America find means to get it at whatever cost. It is because it works like magic. It restores the hair to its youthful color and beauty, and robs approaching age of one of its disagreeable accompaniments. If you are getting bald, try it. Try it if you are getting gray, or if you have any disease of the scalp. Try it if you wish a good hair dressing. It will not disappoint you.—*Muncie (Ind.) News.*

Doctor, it Feels like a Ball of Fire!!

So speak oftentimes the sufferer from Dyspepsia. After eating, it seems as if there was a veritable ball of fire running up and down through his stomach. If he eats much he feels it. It destroys his enjoyment of life. If the doctor be really desirous of curing his patient he should not experiment with the sufferer, he should recommend him to use PERUVIAN SYRUP, whose merits have been tested so long, and always satisfactorily. Balls of fire in the stomach and PERUVIAN SYRUP can't dwell together. Send to your druggist: he keeps it always ready, and try it. It will work like a charm.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D. New York City.*

If there is anything in this life that will give one a foretaste of hell, as some represent it, that thing is Neuralgia. It is the refinement of torture. But there is a simple and inexpensive remedy for it. *Johnson's Anodyne Liniment* snuffed up into the head will give instant relief.

Pure rich blood gives us health, long life and a "green old age," but how few pay any attention to the state of their blood? *Parsons Purgative Pills* make new rich blood, and taken one at night for three months will change the blood in the entire system.
