SCARE REPORTS LOSE INFLUENCE

Outlook For Crops Cannot Be Ignored and Prices React.

CHICAGO, April 22.—Refutation of the southwestern crop scare reports which caused a rise in wheat yesterday, today brought a reaction, downward tendencies being sided also by the fact that big buyers seemed to have all the wheat they wanted. Closing prices were ⅝c to ¾c net lower. Net losses on other markets were: Corn, a s hade to ⅛c; oats, ⅛c to ¼c, and provisions unchanged to 7½c o½.

Advices from Texas said yesterday's estimate of an expert that in some sections there was as much as 90 per cent. of the wheat acreage that would have to be abandoned because of injury from dry weather, were incorrect and that, in fact, conditions nearly all over the state were favorable for a bumper crop. Similarly the reports of chinch bugs and dry weather in Kansas were minimized. Free selling sent prices off after a fairly firm opening on strength in Liverpool. Reports of a sale of 400,000 bushels in Duluth for export could not be verified and the downward trend of prices was not checked.

Weakening Influences.

The large buyers seemed to be filled and the market showed a weakening tendency thenceforward, depression being added to by the fact that primary receipts were more than double those for the same day last year. Bearish sentiment was helped by an official state report that wheat in Ohio had not been seriously hurt by the March floods. Primary receipts of wheat were 410,000 against 231,000 last year. Seaboard clearances of wheat and flour equalled 236,000 bushels.

Expectations of increased receipts here next week made a lower corn market. Weakness of wheat also depressed corn in the latter part of the session. Oats were weakened by the action of other grain.

Unloading by longs made lower prices in provisions. A decline in prices of hogs at the yards also worked against values.
