PROPOSED SUB BUILDING, DALHOUSIE UNIVERSITY

A Student Centre --- Our Urgent Need

For over 50 years Dalhousie Students have been working for a Student Centre on campus. Since 1911 a succession of committees have been working toward the goal. However, it is only in the last 6 years that real progress has been made and the drive is now close to success.

Why does Dalhousie need a Student Union Building ?

A union is more than a building it is also an organization and a program serving the needs of all students at the university — a community centre for all members of the university family.

IDEAS

At present, as all of us are aware, there is no adequate meeting place for the consumption of coffee, the exchange of student ideas and the administration of student activities and organizations. This is why we must have a S.U.B. — **NOW.**

The present multi-million Fund raising compaign includes in its list of priorities (and very high on that list) the provision of a students' building to meet our needs.

Raising $16,000,000 is a huge undertaking and as students it is in our interest to take an active part in the campaign.

CONSTRUCTIVE PARTICIPATION

The Student Blitz offers us a wonderful opportunity for constructive participation — its a big job which requires the enthusiastic (and active) support of a large number of students.

OUR BUILDING

I'm sure you'll find participation in the Blitz to be an enjoyable and worthwhile reprive and you will know the satisfaction of knowing that each dollar we raise on November 1 and 2 speeds the arrival of **OUR** Union building.

S. U. B. AMONG TOP PRIORITIES

"The Student Union Building is among the first on the list of priorities for buildings needed on this campus." These were the words of President Hicks at the meeting of Campus organization heads the other week.

This was at a dinner at which the Student Blitz was first announced. The administration has also announced that an amount equal to the sum collected by the students during "Blitz" will immediately be set aside and added to the general S.U.B. fund.

When the idea of a Student Blitz was first brought up at a management committee meeting of the fund, President Hicks thought it would be a definite demonstration of the loyalty and support of the Dal student body toward the fund raising campaign as a whole as well as a way of bringing the concept of a student union building closer to reality.

He did feel that the organization of the Blitz should be carried out entirely by the student body. He stated that if an acceptable plan was presented he would offer his 100 per cent backing. This was the case as George Cooper, President of the Student Body Jim Cowan, S.U.B. Committee chairman and other student body leaders formulated and designed a complete and comprehensive plan for the November 1-2 Blitz.

(Dr. Hicks has excused the Student canvassers from their classes for these days.)

COOPER COMMENTS

Success in the coming Student Blitz of Halifax depends entirely on the support of the students. The job to be done by each person is small, but the benefits can be very great indeed, provided everyone helps out and does his share.

Buildings and recreational space are so hopelessly inadequate at Dalhousie these days, that if something is not done very soon to improve facilities, Dalhousie will just not be able to continue giving the kind of leadership it has been accustomed to giving in the academic field.

Among the first requirements is a Students' Union Building. You have all heard of it; you all contribute to its future to the tune of $10.00 a year. If you have ever tried to get a cup of coffee at 10:30 in the morning; if you have ever tried to buy a book at the beginning of the year; you know the desperate need of a S.U.B.

So bring your time, bring your energy and bring your enthusiasm to this Blitz.
