cal Scholarship, Arthur H. Scaling and Fred. Hall being equal, the prize was divided between them. These scholarships are worth $30 each.

The time for speech making was very short, but Rev. Dr. Stewart and Rev. Dr. Pickard both made a few remarks; the former referring to the catholic principles upon which moral philosophy was taught in the college; the latter saying a few words about the gratifying success with which the Institutions over which he had watched so long were meeting. He expressed his pleasure at seeing so many of the old students back to visit their alma mater, and he referred particularly to one who, a student there twenty-five years ago, had come back this year for the first time, bringing with him his wife and son to visit old familiar places. From this interest exhibited by the old scholars he argued that much good would result. It was evident that the Sackville institutions were increasing their hold upon the affections of the people, and he could only regret that they were so situated as to be unable to divide the rich intellectual and musical entertainment they had enjoyed there to-day, and present one half of it in St. John and the other half in Halifax, so that the people in these places might know the work these institutions were doing.

The Morning News says :—

Only one thing now remains to place the Institution in a thoroughly satisfactory situation, I refer to the Endowment Fund. The prospects are good, and it is hoped that the move in this direction will be abundantly successful. Surely when such a thing is reasonably and imperatively necessary, it will be met by the substantial approval of persons generally, who have the interest of education at heart. It is to be hoped that the noble and generous impulses actuating persons in the past to place these Institutions at their present situation, may still be found existing in many persons of the present time, and that the appeal that has been made, may meet with a just response exceeding the anticipations of the most sanguine.

The Editor of the *Globe* at the close of his very full and accurate report declares:

This year's visit to Sackville confirms our impression of last year that the College and Academies are doing a good and thorough work in the educational field; indeed there is no institution in the Lower Provinces doing so much and doing it so well, a fact that is to be attributed partly to the efficiency and earnestness of the men who preside over them, and partly to the watchfulness of the great body of ministers who are so deeply interested in its maintenance.

General Intelligence.

FUNERAL OF THE LATE LIEUT. GOVERNOR, THE HON. JOSEPH HOWE.—Yesterday Nova Scotians paid their latest tribute of respect to the memory of their greatest and best beloved countryman. He, who through life had received encouragement from the plaudits of the people, was yesterday consigned to the silent grave in the presence of a vast concourse of mourning friends and admirers. At 3 o'clock the shops were closed and business was entirely suspended. The employees of these establishments thus freed, swelled the number of those hastening in every direction to the line of march. By half-past three there remained no place where a spectator could obtain a footing. Windows, door steps, stone walls and railings were completely thronged, and it was almost impossible to force a passage along any of the side walks. From the Citadel, the war and merchant ships, and from nearly every flag staff in the city, colors both national and foreign, were displayed at half-mast. The streets through which the cortege passed were lined by the naval, military and volunteer forces, composed of the sailors and Marines, the 87th Irish Fusileers, the 60th Rifles, the 66th Infantry, the Royal Artillery, the 63rd Rifles, and the Garrison Artillery. The line was formed along Pleasant to Morris street, up Morris to Park street and along Park street to the cemetry gate.—At four o'clock precisely midst the solemn tolling of the church bells and the sullen booming of the minute guns, the procession moved from Government House in the following order:

Division of the city Police,
(Under the Deputy Marshall.)
Rev. J. K. Smith and Dr. Gilpin,
(Officiating Minister and Doctor.)

The cortege took fifteen minutes to pass a given point and was fully half a mile in length.

AT THE CEMETERY.

About a quarter to five o'clock the procession reached the cemetery, and entered by the main gate. Here an enormous number of people had already assembled, and every spot which could command a view of the grave had long since been occupied. The rush of the thousands of people who had accompanied the procession through the streets was simply tremendous, and soon every means of ingress to the grounds was completely blocked. In vain, men, women and children struggled to free themselves. In their thoughtless eagerness they had rushed together and now found it, impossible to go either backward or forward—and there they remained a dense forest of upturned faces, surging backward and forward, as if agitated by the wind. Arriving at the grave, which is situated near the centre of the grounds on the right hand side of the main pathway, the Casket containing the remains of all that was mortal of the foremost man in the Dominion, and covered with wreaths of everlastings and *immortelles*, was taken form the hearse and lowered into the waiting tomb. A short prayer was offered by the Rev. J. K. Smith, and then the cold clods of earth began to fall thick and fast giving forth "dull, strange, hollow sounds," which preached a sermon both befitting and impressive.

Silently and reverently, the people looked on the spot, and then with mournful sighs and few words passed slowly away from the affecting scene.—*Citizen 5th inst.*

CENTENARY ENTERTAINMENT.—Last evening a very pleasing entertainment was given in Centenary Church Sabbath School room. The exercises were opened with prayer by Rev. Mr. Daniel. The quartette, "When I can read my title clear," was sung by Mrs. Tuck, Miss Lizzie Troop, and Messrs. W. A. Lockhart and Dr. Daniel, followed by a solo, "Lady look down," from Offenback, by Mrs. Thorne. Mr. Clawson read, "The master of the situation," and a piece by Mr. D. P. Howe. Mr. Lockhart sang "The Tempest," and was encored. Duett, "Go where the Mist is Sleeping," by Dr. Daniel and Mrs. Thorne, "Spirit of the Air," solo, by Miss Warwick; readings, "The King's Temple," one of Mark Twain's best pieces, by Mr. A. Robinson, and the quartette, "God in mercy hear our prayer," by the first named four, and an excellent recitation by Mr. Lemont of Fredericton, were all embraced in the programme. All who participated acquitted themselves well, and the audience were delighted. Mr. Bustin presided at the piano with his usual success, and Capt. Pritchard was chairman. The proceeds are for the benefit of the Sunday school.—*St John Telegraph.*

ACADIA COLLEGE ANNIVERSARY. — Anniversary Exercises of an interesting character were held during the past week in connection with the Wolfville Educational Institutions. Three young ladies who had completed the three years' required course of study in the Academy, received the usual diploma; and it was reported that 14 young men had been prepared in the Academy for matriculation in the College this year. The public College exercises on Wednesday, as usual, drew a large audience. Twelve young men received the Bachelor's degree. At the close of the College Exercises, the deed of a house and grounds, lately the property of the Rev. Robt. Somerville, and valued at $3000, was presented to the Rev. Dr. Crawley as an acknowledgment of his long-continued service for the Institution and the denomination.

The social and business meeting of the Alumni Association on Wednesday evening, was a pleasant one.

The Halifax *Chronicle* announces that the Endowment Fund for Acadia College now amounts to about $30,000.

A CONTRADICTION. We contradict, on good authority, a report in circulation among the Wesleyan brethren, to the effect that the Rev. James Strothard, who labored here with so much acceptance, and who is at present stationed at Halifax, intends leaving shortly for the United States. The Rev. gentleman is happy and contented in his present position and has not the slightest inclination to cross the border. We make this correction believing that the report would injure our much esteemed friend's prospects in the Wesleyan Conference of British North America.—*Newcastle N. B. Advocate.*

We notice that the weekly edition of our lively contemporary the St. John *Tribune*, has been enlarged by the addition of two full pages and contains an immense amount of reading matter.

News has been received at Halifax of the total wreck of the Missionary ship *Dayspring* in the New Hebrides. The vessel was built in New Glasgow ten years ago by the Presbyterians of the Provinces, for mission service in the South sea.

POST CARDS.—The Postmaster General has ordered that Post Cards coming from the United States for delivery in the Dominion shall be subject, on delivery, to one cent postage instead of ten cents, which has been the rate since the American cards were issued. No doubt a similar arrangement has been made, whereby Post cards mailed in the Dominion for delivery in the United States shall be treated in the same manner.

Mr. Bouchette, Commissioner of Customs, has obtained leave of absence for three months, and his duties will be performed during that period by James, Johnson Esq., Assistant Commissioner, who has been for some months Acting Collector at St. John. Mr. Johnson left St. John for Ottawa. The St. John "Globe" thinks there is little doubt that Mr. Bouchette will be superannuated, and that Mr Johnson will take the office of Commissioner of Customs.

THE NEWPORT FIRE BRANDS SENTENCED.—At Windsor, on Saturday, Judge McCully sentenced the three persons convicted of setting fire to buildings at Newport. The two men, Masters and Cochran, wese sentenced to seven years' imprisonment in the Penitentiary, and the woman Card to five years. The people of Newport will breathe freer hereafter.

A lad ten years old, son of Mr. Gibbs, of West Pereau, King's County, had all the fingers of his left hand taken off by a hay cutter in his father's barn, one day last week. A younger brother was turning the machine when the accident occurred.

County Courts are being established in Prince Edward Island. There will be one Judge for each County, at a salary of $2 000 a year, and $200 for travelling expenses.

HOUSE BURNED.—For the last three or four days fires have been a prominent feature in the woods near Lower Onslow. On Monday last the fire communicated with a house occupied by the family of Capt. Crowell, who is himself at present away at sea, and in a few minutes the building was in ashes. The inmates had only time to save their clothing and a part of the furniture.—*Truro Sun.*

AN IMPROBABLE RUMOR.—It is rumored at Ottawa if Sir John A. McDonald visits England to be sworn in a member of the Privy Council, he will resign his position in the Dominion Cabinet, and that His Excellency will thereupon call upon Dr. Tupper to form a new cabinet or construct the old one.—*St. John News.*

FIRES IN KINGS CO.—The Pine Woods School House, near this town, was burned on Sunday last. The fire spread to the surrounding forest and made considerable havoc. It is supposed to have been the work of an incendiary. Several fires have occurred recently in the woods in different parts of this and Annapolis County, and considerable damage has been the result.—*Kentville Star.*

FAILURE AT ST. STEPHEN, N. B.—The St. John "Telegraph" says Mr. John F. Grimmer, of St. Stephen, who for the past eight or ten years has done a general country store business in that place, has failed for about $30,000. The secured debts of the estate are large, and creditors generally may not expect a very large dividend.

FIRE AT SALEM.—On Sunday, 1st June, a fire occurred at the residence of Isaac Spicer, Salem, (Cumberland) which resulted in the total destruction of the house and the barn, with their entire contents. About $130,00 belonging to Rev. S. Thompson, who was staying at the house was lost in the flames. The dwelling house of James Dunn, about a mile from Salem, was also burnt about the same time. The fire, in the latter case, caught from burning woods.—*Citizen.*

NEW YORK, June 3.—The Modoc war ended Sunday with the surrender of Captain Jack and an insignificant number of warriors. The partial success reported yesterday was vigorously followed up, and now every member of the tribe is in the hands of Gen. Davis.

Colonel Mackenzie was specially chosen for duty on the Texas frontier, and his orders were substantially to punish marauders from Mexico, even if he had to cross the line to do it. He will, therefore, be upheld in his recent raid, and any similar expeditions which may be found necessary in future.

The *Frolic* with the *Polaris'* survivors is now daily expected from St. John's, and is under orders to report at Washington Navy Yard, in order that the Department officials may investigate the singular breaking up of the expedition.

This morning Frank H. Walworth, aged 19 years, shot and killed his father, Manfield T. Walworth, in the Sturtevant House, in this city. Domestic trouble is assigned as the cause.

LONDON, June 3.—The steamship *Drummond Castle*, from Han Kow for this port, went ashore on Chusan Island, off east coast of China, and became a total wreck. Thirty persons were drowned.

Shanghae advices report the capture, by the Imperial Chinese force, of the capital of a Mohammedan State in the Province of Yannan, south western part of China. The victorious forces fell upon their captives and massacreed 30,000 of them. The Sultan poisoned himself preferring death by his own hands to falling into the power of his enemies.

NEW YORK, May 27th, 1873.

The 7-30 First Mortgage Gold Loan of the Nothern Pacific Railroad Company is to be closed, in accordance with the following resolutions adopted by the Board of Directors, on the 13th of May:

Whereas The Northern Pacific Railroad Company has built and has in operation over Five Hundred miles of its line, through a fertile and valuable country; and,

Whereas, A large and growing way and through traffic is already assured to the Company over its road thus far completed; and,

Whereas, The Company has earned title to about Ten Million acres of its Land Grant, and placed a large part of this in market, and the same is being rapidly settled by immigration, foreign and domestic, and sales thereof have been made at an average price of nearly six dollars per acre, to such an extent that a Sinking Fund has resulted, out of which the redemption and cancellation of the Company's bonds have been begun; and,

Whereas, It is believed that on these results the credit of the Company is so established as to render inexpedient the payment of so high a rate of interest as 7 3-10 per cent. on future issues of its bonds; therefore,

Resolved, That the Loan of the Company, under its present issue, bearing 7 3-10 per cent. interest, be limited to a total amount not exceeding Thirty Millions of Dollars, and that no issue of bonds hereafter by this Company beyond the said Thirty Millions shall bear a higher rate of interest than six per cent. per annum.

Resolved, That the Finance Committee be directed to arrange with Fiscal Agents for the closing out of the 7 3-10 Loan, as indicated in the preceding Preamble and Resolution.

The President of the Company, in forwarding these Resolutions to the Fiscal Agents, writes the following letter:

NORTHERN PACIFIC RAILROAD COMPANY,
Presid nt's Office 23 Fifth Avenue.
NEW YORK, May 15th, 1873.

Gentlemen: I have the pleasure of enclosing to you a copy of a Resolution passed unanimously by the Board of Directors of the Northern Pacific Railroad Company on the 13th of MAY, instant.

This Preamble and Resolution are in entire harmony with my own views and wishes, and agree in spirit and policy with the letter which I addressed to you on the 11th day of December last.

The completion of our Road to the Missouri River, and our control of the trade of Manitoba and Montana—the beauty and productiveness of the Red River Valley, and the valleys of Dakota—the value of the large Government trade on the Upper Missouri, for the carrying of most of which we have this year contracted—our having in operation and under contract 165 miles of road on the Pacific side, between Puget Sound and the Columbia River—the very successful inauguration of our Immigration system, the large arrivals from Europe of bodies of colonists destined to our Land Grant, and the steady movement of settlers from various parts of the Union to the country tributary to the Road—all this should, in my judgment, justify us in elevating the standard of our credit.

I trust that when the limit of the present Loan is reached, the Company will find itself able to negotiate a six per cent. loan for the prosecution and completion of the enterprise.

Respectfully Yours,
G. W. CASS,
President.

THE LIMITED REMAINDER OF THE SEVEN-THIRTY LOAN IS NOW BEING DISPOSED OF, and on the basis of previous sales will soon be absorbed.

As the bonds of this issue are made receivable in payment for the Company's land at 1.10, they are in constant and increasing demand for this purpose, and will continue to be after the loan is closed—a fact which much enhance their value and attractiveness as an investment.

Other securities are received in exchange, at market rates.

For the limited period during which the Loan will be on the market, the 7-30 Bonds may be ordered from any of the Banks and Bankers that have hitherto sold them. All needed information will be furnished by the various agents of the Loan, and also by

THE PEOPLE'S
Steam Washer!
(PATENTED MAY, 1873.)
The Cheapest, most Convenient, and Serviceable Washer in Existence.

It is an established fact that Steam will cleanse clothing better, and at far less cost, than any other Agent. An improvement has just been invented in Nova Scotia which combines more advantages than any other Clothes-Washer, and is made at less expense.

It is so Simple that it cannot get out of Order, and any one can Work it.

It does its work in about an hour, and needs no attention; saves greatly in fuel, soap, time, hard labour, and wear of clothing; can be made by any Tinsmith and at cheap rates.

The People's Steam Washer

Is the only one that can be made to fit any cooking-stove Boiler, can be cleansed and dried in all its parts after using, and can be used admirably as a steamer for cooking food. It has no wheels, pipes, tubes, or other machinery. It works by making the steam circulate rapidly through the clothing. Persons already owning Cooking-Stove Boilers may have a Steam Washer to fit for $3 50. Send size of Boiler inside at the top. If a round Boiler, send size across the top. I will send Washer and Boiler complete for $5.50.

THIS WASHER COMBINES MORE GOOD QUALITIES AND COSTS LESS THAN ANY OTHER.

I invite correspondence from Agents in New Brunswick, to whom this Washer will become a source of wealth, as I leave a good margin for profits, and it sells wherever known.

LOOK AT THE FOLLOWING RECORD!

In six weeks I have sold the Patent right for every County in Nova Scotia proper. About 60 samples have been sent to order, and no failures reported. I challenge the history of modern inventions for success equal to this. Mr. Wm. North, of Cornwallis, N S., got a sample, tried it in several families, and immediately bought the right for six Counties. He may be referred to. Also—Rev. Dr. Stewart, Sackville, N. B.; Rev. A. S. DesBrisay, Windsor, N. S.; Rev. Dr. Pickard, Halifax; S. Seidon, Esq., Editor "Christian Messenger," Halifax; and a host of others too numerous to mention, who have bought and tried the PEOPLE'S STEAM WASHER.

Intending Agents will be supplied with samples at $5 each.
