In other respects the light will remain unaltered.

This notice affects admiralty charts Nos 352, 353, 1,551 and 2,670, and Canadian List of Lights Nos 39 and 40.

WM. SMITH,
Dep. M. of M.

Boston, April 2.—For experimental purposes the black can buoy, No. 5, off Ram Head, Broad Sound, has been temporarily replaced by a light red gas buoy.

Tompkinsville, NY, April 2—The Lighthouse Board gives notice that on April 2, 1896, a black can buoy, without number, was established in four fathoms, mean low water, off Eighteenth street, Hoboken, NJ, to mark the wreck of a sunken brick scow. The scow lies NE and SW, and the buoy is placed about 50 feet east from her bow, outer end of coal dock, NE by N, distant about 500 feet. There are from 7 to 10 feet of water over the deck. South corner of Fortieth street dock, New York, ENE 5-16 E; south corner of Twenty-second street dock, New York, SE.

On May 1st, the beacon light, St. John harbor will be changed from fixed white to fixed red; and on the same date the light on the end of the Negro Point Breakwater, will be changed from fixed red to fixed white.

REPORTS.

Boston, April 3—The sch Young Bros, which grounded in the harbor today, came off at high tide this afternoon and proceeded to a coal port.

STEAMSHIP NOTES.

(Daily Sun, 3rd inst.)

S.S. Lake Winnipeg, Capt. Taylor, sailed about noon yesterday for Liverpool with a full cargo. This is her last trip from St. John for the season. Capt. Taylor told a Sun reporter just before he sailed that he had found St. John an easy port to approach, despite the bad weather with which he had met every trip. He hoped to see St. John get even a larger share of the business next winter.

S.S. St. John City, Capt. Harrison, arrived at 5 o'clock yesterday morning from Halifax. She came around in nineteen and one-half hours. She brought a large cargo for St. John and western points. Among her cargo were 150 boxes of silver and copper coins amounting to $129,000. The coins are consigned to the assistant receiver general, and were imported through the Dominion Express Co. Of the above amount $20,000 in silver and $1,000 in copper is for St. John. The remainder is for Montreal, Toronto and Winnipeg. The St. John City finished discharging what cargo she had for this side of the harbor about 6 o'clock last night and then moved over to Sand Point to finish discharging. She will take away a lot of timber and deals, besides a large quantity of western stuff.

The Beaver line steamer Lake Huron, Capt. Carey, which arrived from Liverpool on Wednesday night, moved into her berth at an early hour yesterday morning. She has a large lot of cargo for St. John and the west and brought over forty-two passengers. The cabin passengers were S. B. Townsend, Mr. Bashford, Mr. Franks, Dr. Rennie, and Mr. Fug. The second cabin passengers were Mr. Bass, wife and three children, Mr. Glass, Mr. Henry, Mr. Hardy, Mr. Frarce, Mr. Somervill, Mr. Hagan, Mr. Pollock, Mr. Powers, Mr. Gartley, Mr. Newman, Mr. Mackay. She also brought twenty-three steerage passengers. They went west yesterday. The western part of the cargo is now on its way to Montreal.

NEWS FROM OTTAWA.

An All Night Session in the House of Commons.

Liberals Even Object to the Deputy Speaker Taking a Short Rest.

Reply of the Imperial Authorities to Eighth Cavalry Offer for Service.

Ottawa, April 6.—The first half of today's sitting of the commons was devoted to public and private bills, but those were skimmed over as rapidly as possible in order to get down to the all-important measure of the session, the Remedial bill.

Hon. Mr. Dickey entered the chamber during the routine proceedings, and as he took his seat was greeted with a vigorous hand clapping in recognition of his Winnipeg expedition.

Mr. Gillies inquired: "Have the commissioners of the joint convention of the governments of Canada and the United States completed their investigation into the subjects submitted to them for examination and to report upon? If so, does their report suggest that an arrangement be entered into between both governments for the purpose and with the object of preventing and prohibiting purse seining and trawling beyond the three mile limit upon the Atlantic coast? If the report has been completed, has it been submitted to Her Majesty's government of Great Britain and that of the United States, and what action is likely to be taken thereon? If the work of the commission has not yet been concluded, when is their report expected by the government of Canada?"

Mr. Costigan, replying, said: The commissioners appointed by Her Majesty's government and that of the United States under the international agreement have, it is understood, completed their investigations and are at present engaged in preparation of their report for submission to their respective governments. The action to be taken on the report or reports is provided in the agreement, as follows: "The two governments agree that so soon as the reports of the commissioners shall be laid before them, as aforesaid, they will consider the same and exchange views thereon to the end of reaching expedient and practicable such conventional or other understanding as may suffice to carry out the recommendation of the commissioners by treaty or concurrent legislation on the part of the respective governments or the legislatures of the several states and provinces, or both, as may be found most advisable, but nothing herein contained shall be found to commit either government to the results of the investigation hereby instituted." It is impossible to say when the report might be communicated to the government of Canada or what suggestions may be contained in it, but it is understood that it will be communicated to Her Majesty's government and that of the United States in June next. The scope of the enquiry includes the whole question affecting the fisheries in contiguous waters and in waters of the open sea commonly resorted to by fishermen of the United States and Canada.

The house went into committee on the Remedial bill, and the discussion was resumed on Mr. McCarthy's amendment to the fourth clause, purposing to strike out the first line and substitute for the "board of education" "the present advisory board of the province." The member for North Simcoe again repeated his objections to clause four, contending that it was inconsistent with the second sub-section of clause 3, which vests important powers in the Catholic board.

Col. O'Brien after recess continued the discussion on the lines of Mr. McCarthy's argument.

Dr Sproule continued the discussion for an hour, after which the first subsection of clause 4 was declared carried, Mr. McCarthy's amendment having been voted down.

At one o'clock, after Deputy Speaker Bergeron had been steadily at his post as chairman for five hours, he called Mr. Mills of Annapolis to take his place for a little while. This led to a protest from Mr. Davies, who contended that the chairman had no right to retire if it was the intention of the house to remain in session all night.

This point was discussed for some time, Mr. Bergeron in the meantime having retired. A remark by Hon. Mr. Ouimet, "I think, Mr. Chairman, you can rule that you are rightly in the chair," set the house in a roar, which was renewed when Mr. Mills gave his ruling in the words, "Well, I am certainly here."

At 2.30 about forty members were in the house, an all night session evidently being in store.

Members of the conservative side are divided into relays. A new lot of members will be on duty at 4 o'clock.

NOTES.

The government today received a message from the colonial secretary expressive of her majesty's grateful appreciation of the offer made by the 8th New Brunswick Huss
