You will be also asked to sanction the erection of a public wharf at Digby, the completion of new roads from Mill Village to LaHave, from Plaister Cove towards Baddeck and other public works, for which the ordinary resources of the counties have been hitherto found inadequate to provide.

In accordance with the policy suggested in a despatch received from the Right Honorable the Secretary of State for the colonies. I have caused a board of statistics to be duly organized under the laws of the Province, and proceedings are in progress for taking a census on the thirtieth day of March next—the anomalies so apparent in the representation and the imperfections on the act of 1859, suggest a new adjustment of the division lines of districts and redistribution of the franchise.

Your attention will be directed to these subjects, and to a measure based upon the English statutes for ensuring greater purity in the conduct of elections.

While our neighbors are passing through trials the most severe, and are menaced with civil war, we ought in resuming our Legislative labors to be thankful to the Giver of all good, for the permanency of our institutions and for the freedom and tranquility they secure.

SPECIAL NOTICES.

Obadiah Dix, of Shute's Falls, Tioga Co., Pa., substantially states: He has been a painful invalid for three years; had *rheumatism*, which, serving him as it does thousands more, filled his limbs with anguish, sometimes tolerable and anon utterly intolerable; resided in those members chiefly, but more than once did travel to the region of his heart; a painful visiter is Rheumatism there, thinks Obadiah, which brings its victims face to face with the inevitable hour! Subtle rheumatic distemper in his legs made them worthless for locomotion, good only for torment, unutterable pain. Assiduous care and skill medicinal brought him some occasional relief, but chiefly clouds of woe o'ershadowed all his sky. One lucky day he finds a travelled friend of medical acquirements, who tells him how AYER'S PILLS are made; their searching properties that seize upon disease, and drag it from its strongholds; their virtues and their cures; points to a star of hope, does Medicus, that glimmers through the gloom on Obadiah. Pills, procured and swallowed, purge out the angry humors of the blood, and, with them their whole infernal retinue of ills. The Augean stable cleansed, and foul obstructions in the blood cast out, the vital forces then resume their wonted action. Obadiah's legs turn dutiful again—walk, and even run at his command, with Obadiah on them;—but bring him messages of rending pain no more. Dreadful distemper gone, health takes possession of her own, and from the downward, swift surging river to destruction, where oarless and rudderless he rode, our great remedial turns him upon the placid stream of Health's perpetual spring. Obadiah mentions that he took three boxes and paid six shillings for them, and that some Pills are sold at Shute's Falls for less. O worldly-minded Obadiah, that saves his life for shillings, and then revolves the cost! Is it too dear? We know not, for we know not Obadiah, but we have his well-authenticated certificate, covering two letter sheets with prolix details, too much diluted for our space here. He must excuse us for this concentration. 22seply

The present critical state of European affairs will render these publications unusually interesting during the forthcoming year. They will occupy a middle ground between the hastily written newsitems, crude speculations, and flying rumors of the daily journal, and the pondrous tone of the future historian, written after the living interest and excitement of the great political events of the time shall have passed away. It is to these periodicals that readers must look for the only really intelligible and reliable history of current events, and as such, in addition to their well established literary, scientific, and theological character, we urge them upon the consideration of the reading public.

Moffat's Life Pills & Phœnix Bitters.

THESE Medicines have now been before the public for a period of *thirty years*, and during that time have maintained a high character in almost every part of the globe, for their extraordinary and immediate power of restoring perfect health to persons suffering under nearly every kind of disease to which the human frame is liable.

The following are among the distressing variety of human diseases in which the *Vegetable Life Medicines* are well known to be infallible.

Dyspepsia, by thoroughly cleansing the first and second stomachs, and creating a flow of pure, healthy bile, instead of the stale and acrid kind; *Flatulency*, loss of appetite, heartburn, headache, restlessness, listlessness, anxiety, languor, and melancholy, which are the general symptoms of Dyspepsia, will vanish, as a natural consequence of its cure.

Costiveness, by cleansing the whole length of the intestines with a solvent process, and without violence; all violent purges leave the bowels costive within two days.

Fevers of All kinds, by restoring the blood to a regular circulation, through the process of respiration in such cases, and the thorough solution of all intestinal concretions in others.

The Life Medicines have been known to cure *Rheumatism* permanently in three weeks, and *Gout* in half that time, by removing local inflammation from the muscles and ligaments of the joints.

Dropsies of all kinds, by freeing, strengthening the kidneys and bladder; they operate here delightfully on these important organs, and hence have even been found a certain remedy for the worst cases of *Gravel*.

Also *Worms*, by dislodging from the turnings of the bowels the slimy matter to which these creatures adhere.

Scurvy, Ulcers, and *Inveterate Sores*, by the perfect purity which these Life Medicines give to the blood, and all the humors.

Scorbutic Eruptions and Bad Complexions, by their alterative effect upon the fluids that feed the skin, and the morbid state of which occasions all eruptive complaints, sallow, cloudy, and other disagreeable complexions.

The use of these Pills for a very short time will effect an entire cure of *Salt Rheum*, and a striking improvement in the clearness of the skin. *Common Colds and Influenzas* will always be cured by one dose, or by two in the worst cases.

Piles.—The original proprietor of these Medicines was cured of Piles, of 35 years standing by the use of the Life Medicines alone.

Fever and Ague.—For this scourge of the Western country, these Medicines will be found a safe, speedy, and certain remedy. Other medicines leave the system subject to a return of the disease—a cure by these Medicines is permanent—try them, be satisfied, and be cured.

Bilious Fevers and Liver Complaints.—General debility, loss of appetite, and diseases of females—the Medicines have been used with the most beneficial results in cases of this description.—Kings evil, and Scrofula, in its worst forms, yields to the mild yet powerful action of these remarkable Medicines. Night sweats, nervous debility, nervous complaints of all kinds, palpitation of the heart, painters' colic, are speedily cured.

Mercurial Diseases.—Persons whose constitutions have become impaired by the injudicious use of Mercury, will find these Medicines a perfect cure, as they never fail to eradicate from the system, all the effects, of Mercury, infinitely sooner than the most powerful preparations of Sarsaparilla.

Prepared and sold by W. B. MOFFAT,

Ayer's Cherry Pectoral.

New York Courier and Enquirer.

Daily, Semi-Weekly, and Weekly.

For 1861.

THE attention of the Reading Public is called to the old established New York Journal, the *Morning Courier and New York Enquirer*. It is believed to stand second to none in all the proper elements of a Public Newspaper. In its political character, it is *Republican*, and therefore *Conservative*. But it has never been a partizan paper, and will continue to discuss all public questions with candor, clearness, and decided views.

The *Courier and Enquirer* has been for more than thirty years, under the direct and active *Editorial Management* of GENERAL J. WATSON WEBB, who is assisted at all times by thoroughly competent gentlemen at the head of the various departments: Domestic and Foreign Politics; Literature, and the Arts; Music, and the Drama; Law; Finance; Markets; Shipping Intelligence; General Intelligence; &c.

Every effort and expense which are requisite to maintain the reputation of the *Courier and Enquirer* as a *first class Journal*, will be continued in liberal and vigorous application. The *Courier and Enquirer* has always preserved its columns free from purient details unfit to be introduced into a family; and vigilance will continue to be exercised to the end.

AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints:

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OSWEGO, Ind., 6th June, 1859.

J. C. AYER & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it breed out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the Oswego Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully, Yours,

ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert N. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured many cases of *Dropsy*, which threatened to terminate fatally, by the preventive power of Ayer's Sarsaparilla, also a dangerous *Malignant Erysipelas* by large doses of the same; says he cures the common *Erysipelas* by it constantly.

Bronchocele, Goiter or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a Goiter—a hideous swelling on the neck, which I had suffered from over two years."

Leucorrhœa or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes: "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. I have cured many inveterate cases of *Leucorrhœa* by it, and some where the complaint was caused by *ulceration* of the uterus. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Merrow, of Newbury, Ala., writes, "A dangerous *ovarian tumor* on one of the females in my family, which had defied all the remedies we could employ, had at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

DR. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of *Venereal and Mercurial Disease*. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather, that on a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 6th July, 1859.

DR. J. C. AYER: Sir, Please been afflicted with a painful chronic *Rheumatism* for a long time, which baffled the skill of physicians, and crippled me so that I could find no remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I am fit for labor than before I was attacked. I think it a wonderful medicine. J. FREAM.

Jules V. Gotchell, of St. Louis, writes: "I have been afflicted for years with an *affection of the Liver*, which destroyed my health. I tried every thing, and every thing failed to relieve me; and I have been a broken-down sick for some years from no other cause than *derangement of the Liver*. My beloved pastor, the Rev. Mr. Espy, advised me to try your Sarsaparilla, because he said he knew you, and anything you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to make a new man of me. I feel young again. The best that can be said of you is so bad, bad good enough."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia.

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of the diseases of the throat and lungs, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful Cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects—some loved one lost in the midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the efficacy of this remedy, we need not do more than assure them that it is now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.
