FROM INDIA'S CORAL STRAND.

DEAR SIRs,—I have much pleasure in certifying that after suffering severely for 15 months from diarrhoea, which came on after childbirth, previous to which I had suffered from dysentery for some months, I was cured by Dr. Fowler's Extract of Wild Strawberry, the first two doses giving me immediately a comfortable relief. I may add that during the 15 months of painful suffering I tried numerous medicines, but all failed to cure me. I am now in good health. Dr. Fowler's Extract of Wild Strawberry also cured my little son of a sudden attack of diarrhoea.

Reduced to a Shadow.

SAVED BY STRAWBERRY EXTRACT

GENTLEMEN,—Feeling it my duty to give you an unsolicited testimony for the direct benefit I have received in my family from the use of Dr. Fowler's Extract of Wild Strawberry, let me say regarding it that while we resided at Fenwick, Ont., my little daughter had an attack of Dysentery or Bloody Flux, by which she was reduced to a mere shadow and became quite helpless. Fortunately my family physician advised the use of Dr. Fowler's Extract of Wild Strawberry, as he neither had nor knew of anything better for this dreadful disease, and therefore we gave it an impartial trial. I am happy to say that less than $\frac{1}{2}$ of a bottle caused the flow of blood and clots to cease, and the child promptly recovered. We always have had Extract of Strawberry in the house since to be ready for unexpected emergencies common to children in summer from the effects of fruits, etc. I would just as soon think of losing my right eye as being deprived of Dr. Fowler's Extract of Wild Strawberry. This is a testimony of thanks for the untold benefit myself and family have received from this great remedy.

GREAT FAITH IN IT.

DEAR SIRs,—I have used Dr. Fowler's Extract of Wild Strawberry for nine years when required, and think it is the best remedy to be had for all kinds of Summer Complaints. It has never failed in our family to cure any Summer Complaint, so we have great faith in it.
