LONDON FORGING AHEAD IN SALE OF WAR BONDS

Thursday Saw $150,150 Added to List of Buyers.

TOTAL ABOVE 3 MILLIONS

Soldier Boys Keep Up Terrific Pace Set on First Day —"Flu" a Handicap.

London's Victory Loan machine is slowly but surely forging ahead, and when Thursday's subscription of $150,150 was added to Wednesday's effort the total reached $3,182,700. The Middlesex drive is also progressing merrily, with a total of $215,000 reported up to date.

"Double up, double up.' That's the slogan from now out," declared Chairman Geo. M. Reid last night, thumping his desk so vigorously that it almost split. "I tell you this war is a mighty serious thing. We've got to have the money to carry on with, and the people will have to double their subscriptions and the salesmen double their efforts. London had got to go over the top. We've got to show other cities that we are alive. Today's amount more closely resembles the spirit of London. We have got to have the cash, and we are going to get it."

Keep Up Fast Pace.

The military men are still maintaining the terrific pace they set on the first day of the drive. Last night saw a total of $135,100 out of their quarter-million objective from 807 applications. This means that in four days the boys that get up to the call of the bugles have on an average subscribed nearly $175 per head. When the $250,000 objective was set, it was estimated that there would be at least 2,000 more men in camp than there are at present. Extended harvest leave has meant that the boys will not be back until the middle of November.

Sending Out Cards.

However, all information and cards to be filled out have been sent to the farmer soldiers, and it is expected that they will come across as well as getting ready to go across." By arrangement with Ottawa the khaki lads will be able to extend the time of a bond payment over ten months, and it is felt that under these conditions every soldier can afford to invest in a bond. Campaign headquarters at Wolseley is anxious for every man to invest, as the officers are anxious for Military District No. 1 to not only lead in bond buying but also in the number of bondholders.

The salesmen are finding the "flu" a handicap, but in spite of the malady the people, they report, are taking the loan in the serious manner it warrants, and are "digging down deep" for all their savings to show in no uncertain manner to Kaiser Bill that they are determined to carry the war to a successful finish.

GREAT STRIDES AT GODERICH.

GODERICH, Oct. 31.—The Victory Loan is making great strides here, and those who are connected with the drive are working hard. The people are buying the bonds well and it looks as if Goderich will go above its mark.

OVER HALF SECURED.

INGERSOLL, Oct. 31.—The first four days of the Victory Loan campaign has resulted in the Ingersoll canvassers selling $235,000, over half of the town's objecteive, $460,000. Every effort will be made to sell a large amount of bonds in excess of the objective.

VOICE OF THE PEOPLE

A FAIR SUBJECT OF DEBATE.

To the Editor of the Advertiser:

In an editorial on page 6 of the morning edition of your issue of date, October 30, under the heading of "The Changing World," you make the remarkable statement that "Meanness, bigotry, intolerance and unfairness have lost much ground" This cannot be said of the Dominion of Canada. For meanness, intolerance and tyranny study the so-called Ontario temperance act passed in 1916, and the amendments thereto. Read especially Section 54 to the effect that if the occupant of any private dwelling house is convicted of any offence against the act, the said house shall be taken to have ceased to be a private dwelling house, etc. Section 55, subsection 3, marginal note, "Person found intoxicated compellable to disclose name of persons from whom liquor was obtained. Penalty for non-disclosure imprisonment for an indefinite length of time. Marginal note to Section 5, Chapter 40, 1918, "Dwelling house in which inhibited person resides not to be deemed a private dwelling house." The inhibited person carries the infection with him by statute, and becomes an outcast and an outlaw. I also refer to the numerous orders-in-council more or less tyrannical, and some of them contrary to all British law and traditions, with the exceptions of the Cromwellian period. Before closing I wish to call your attention to the proceedings at meetings of the Dominion alliance, the W. C. T. U. and Methodist conferences. What sane Britisher would try to prohibit smoking by law? It seems to me that meanness, bigotry, intolerance and unfairness were never in a more flourishing condition in Canada than today, and there seems to be no redress. J. BULL.

October 31, 1918.

VENTILATE AND FUMIGATE.

To the Editor of The Advertiser:

As the churches, schools and public buildings have been closed so long, it is very important that they should be thoroughly ventilated before being used by the people. And as there will be accumulated dampness in the buildings it will be important and necessary that the fires be on some time before the time of meeting. As some caretakers or janitors are known to be careless in this regard, I wish, Mr. Editor, to emphasize these matters for the benefit of the people. Yours sincerely,

MRS. W. SELLERY.

"HOW IS YOUR LIVER?"

No question is more important. As your liver is, so are you. Take Hood's Pills—best for a sick, torpid, miserable liver, biliousness, constipation, bad taste in the mouth, etc. Sugar-coated, easily swallowed. Do not gripe. Price 25c, of all druggists or promptly by mail of C. I. Hood Company, Lowell, Mass.

L. M. JACKSON BUYS BUSINESS.

ST. THOMAS, Oct. 29.—L. M. Jackson, who has for many years conducted the barber shop formerly owned by W. R. Cook, adjoining the Grand Central Hotel, and who some weeks ago severed his connections with that establishment, has purchased the business of Samuel Heard, at Elgin and Talbot streets. Mr. Jackson will conduct the establishment on an up-to-date basis, and offers the best possible conveniences to both his old and new customers.

EKFRID SOLDIER FALLS

PTE. JOHN ALEXANDER McDOUGALD, son of Archie McDougald of Melbourne, has been killed in action. News to this effect has just reached his parents. Pte. McDougald enlisted in the 1st Depot Battalion, Regina, Sask., on February 20 last, accompanying that unit to England, where he transferred to the 15th Reserve Battalion, with which he proceeded to France, where he served with the 78th Battalion. He arrived in France on August 20, his 30th birthday, and was killed on September 27, being just a little over a month in France. Previous to enlistment Pte. McDougald was employed as inspector for the Federal Elevator Company, with headquarters at Weyburn, Sask. He is survived by his father, mother and four brothers.

VARIETY OF CASES BEFORE MAGISTRATE

Deserters, Paperless Men and Thief Included.

The militia predominated at the police court session this morning. Two deserters, Geo. E. Phillips of the 149th Battalion and Thomas H. Brown of the 241st Battalion, both pleaded guilty to taking French leave of their units, and were sentenced to six months in jail by Deputy Magistrate Bartlett.

Nil Bounk, another member of the Russian colony, who insisted on traveling around without his papers, was nabbed by the Dominion police yesterday, and paid his $5 fine like a little man. He was informed that a much larger fine or possibly imprisonment would result on his next appearance.

Too Sick To Appear.

William J. Milton, who signed for the mysterious packing cases that disappeared in short order from the Central Garage a week ago, was sick, and could not appear in court to tell the magistrate and License Inspector Keenleyside what he knew about them. The case was adjourned another week.

Morris Whyte and B. Lewis, to whom Morris Goolson last week passed the buck of maintaining a junk yard within the prescribed area, had their case adjourned for a week in order that a witness sick with the flu may be on hand to give evidence.

Guilty of Theft.

Harry Barber pleaded guilty to the charge of stealing a pair of military handcuffs and a baton. He, too, had his case remanded a week, when he will appear for sentence.

Frank Carnes, 20 Wreay street, could not produce a birth certificate to show that he was over the military age, and was consequently turned over to the militia authorities, and will wear the khaki until he can prove that he does not come under the present draft. Carnes stated that he was a year to the good on the act, and could not be called for service, but that he had been unsuccessful in obtaining a birth certificate from Blenheim, where he was born. He was warned to get it by Capt. A. Minard of the Dominion police, but failed to do so.

LINSEED OIL APPEARS ONLY ARTICLE WHICH IS DECREASING IN PRICE

Everything Else On Upward Trend, Is Market Report.

Hardware and Metal, November 2, will say:

Lower prices are again in evidence on linseed oil this week after a week of rather uncertain conditions in the seed market. Declines range from four cents to seven cents per gallon. Uncertainty as to how flaxseed may go seems to be the only certain feature in this market.

Turpentine has advanced 2c per gallon in some quarters. Local conditions are affected, too, by increased charges for warpage, marking and barrels which have now become effective.

Horseshoes are again prominent this week in an advance of 50c per keg. This follows on the heels of a similar increase about three months ago. Further evidence as to the trend of these markets is given in an advance of about 20 per cent in steel game traps, one of the sharpest increases yet regarded in this line.

New prices issued on roofing cement and paint for spring provide for an advance in these two lines. Cresote has also gone to higher levels, and the market in all roofing products rules with a very firm undertone.

Other lines to join the list of those on the upward trend are axle pulleys, tin roofing caps, hand saws, foot valves, planes, tower bolts, thumb latches, and chain pipe wrenches. A 15c increase in the price of cement is also effective, as applied to certain territory.

Business as a whole has been very good in spite of adverse conditions brought about by epidemic of sickness.

JOHN F. LANGAN GOING FROM BRITISH COLUMBIA TO GOVERNMENT POSITION

Well Known in This City and in West Elgin.

News has been received in this city that John F. Langan of Vancouver, B. C., has received the appointment to the British Columbia agent general's office, London, England, in charge of colonists for the British Columbia Government. Mr. Langan's staff has already left British Columbia, and he shortly will leave himself, and will visit his home in St. Thomas, Ont. Mr. Langan has been most successful in the Northwest and British Columbia, and has for many years been connected with some of the greatest land movements in the western provinces. This is not his first trip to the old country, as on another occasion he was sent to Great Britain on official work. His many friends in West Elgin, London, Toronto and Montreal will learn with pleasure of this appointment.

INFLUENZA TAKES TWO OF G. T. R. EMPLOYEES

Spanish influenza claimed two popular employees of the Grand Trunk staff this morning, when the deaths of J. D. Craig, the dispatcher at Stratford, and J. M. Cruikshank, the agent at Alvinston, occurred. Mr. Cruikshank had been ill for five days. Pneumonia was the immediate cause of his demise. Their loss is keenly regretted by all members of the staff who had occasion to come in contact with them.

VICTORIA HOSPITAL HAS TREATED 241 INFLUENZA PATIENTS; 37 DEATHS

The complete statistics concerning influenza patients at Victoria Hospital since beginning of epidemic are as follows. 241 patients in all, 37 deaths, 109 discharges as recovered, and 95 remaining still in hospital.

JAIL MAY YET HAVE HEATING SYSTEM IN ACTION THIS WINTER

County Representatives Persuade Board of Control.

JOHN M. MOORE OBJECTS

Does Not Think the Change Can Be Made In Time.

That ever-recurring problem, the question of anthracite coal, caused considerable discussion among the members of the board of control this morning. County Engineer C. Talbot and Reeve of Westminster A. J. Blaikie waited on the board to ask that some action be taken regarding the heating of the jail. This has been hanging fire between the city and the county authorities for some time.

F. E. Barley, chairman of No. 1 committee and Controller J. M. Moore were appointed to visit the jail and report back to the board of control. This committee thought that the old furnaces could be used for this winter with soft coal or wood without any inconvenience.

Proof of the Pudding.

Mr. Talbot pointed out that this had been tried last year, and the prisoners nearly froze as a result. Conditions became so severe that one of the judges threatened to order the removal of the prisoners to some other place if the heating were not improved. "Why not release them altogether for the winter," remarked one of the numerous facetious controllers.

The suggestion of the county committee was that radiators be installed in the jail and connected with the boilers that now heat the county court house. This, it is estimated, would cost nearly $6,000. The work would be paid for by the city and county in equal proportions.

Opinions Differ.

Controller Moore thought that it was too late to have the work done this year at any rate. Engineer Talbot thought the work could be gone on with and completed by the end of December in time for the severe weather conditions.

Another question was that of ventilation. With the present hot air system this is taken care of in the ordinary way. If the hot water system is installed there will have to be some other method of ventilation devised. It was pointed out that this was provided for in the estimated cost. The committee finally decided to recommend that the plans and specifications of the system be prepared and tenders called for. This was agreed to on the motion of Controller E. S. Little. It was suggested that the plans could be prepared inside of one week. County Engineer Talbot and City Building Inspector Piper will jointly prepare the plans.

To Prevent Influenza,

Colds cause Grip and Influenza—LAXATIVE BROMO QUININE Tablets remove the cause. There is only one "Bromo Quinine." E. W. GROVE'S signature on box. 30c. v

VEHICLES DISAPPEAR OFF LONDON STREETS

Couple of Autos and Horse Taken Last Night.

Possibly Lloyd O'Neil of Dorchester maintains his Ford car in perfect running order and keeps the gas and oil tanks well filled, and this may account for the fact that joyriders have it spotted. For the second time within a couple of weeks it was taken last night about 10:30, a few minutes after he had left it standing in front of St. Joseph's Hospital. Mr. O'Neil, with his wife, had driven to London to visit some relatives who are ill, and had left his car but a few minutes, when it was taken. The license number is 66856.

A Ford car belonging to J. Campbell of Cowell, No. 67810, was taken from in front of a store near the market on Talbot street, also last evening. The car was later located in the grounds of the Hospital for Insane.

Mr. Volchivok, who lives north of London, on Adelaide street, left his horse and buggy near South and Wellington streets, for a while last evening, and some person borrowed it without the consent of the owner. He was still searching for it at a late hour last night. It was taken about 8:30 on Thursday evening.

The police department has been notified of these, and the patrolmen are on the watch for the outfits.

PURSE OF GOLD AND ADDRESS PRESENTED REV. WM. M. WALKER

Appreciation of His Long Service to the Church.

Rev. W. M. Walker of the Wortley Road Baptist Church was agreeably surprised on Thursday evening, when the members of the Wortley Road Church called at the parsonage, 99 Askin street and presented him with a well-filled purse and an address. Mr. Walker has been the pastor of that church for more than 27 years. The following address was read to him:

"Dear Pastor,—The members of the Wortley Road Baptist Church feel that they could not at this time let an opportunity pass without expressing in some way, their sincere appreciation of the faithful service you rendered to this church. For over a quarter of a century you have been their pastor, and through success and adversity, they have had your kindly monition and advice at all times. In your leaving the church, we are not only losing a faithful minister of the gospel but one who was always ready to give advice in all matters pertaining to our spiritual welfare. In you, the congregation will miss a friend indeed and, as a citizen, London loses one of its best citizens. We ask you to accept the inclosed purse as a token of love and esteem.

"Signed on behalf of the church,

"CHARLES FITZWALTER, Clerk."

SQUIRREL SHOOTING IS OPEN FOR MIDDLESEX, AND HUNTERS GET BUSY

Many Counties Have No Open Season For This Year.

Some firms are wondering why so many of their employees are not at work today, but if they were acquainted with the game laws of the province they would know the reason. Today is the first day of the black squirrel season, and many local hunters have polished and cleaned their old shotguns and set out for the happy hunting grounds. For some weeks past boys have been shooting the little fur-bearers, but at the same time they were on the watch for County Game Warden "Ted" Jury.

However, since the season has come, they no longer fear the game warden and the little animals are now left without a protector, will have "a hot time" until the fifteenth of the month. In many of the counties the season has been closed, but in Middlesex the squirrel hunter may pursue his favorite sport, except on reserves and other private premises. In the vicinity of Byron, the farmers are up in arms because some of their livestock have been shot by a few boys who are not capable of handling a gun in the right manner. They also forbid anyone shooting game in that neighborhood.

The squirrels are reported to be very plentiful in the districts near London this year, and on account of the high cost of living the squirrels will not be hunted for sport alone, but also to help stock the family larder.

HEART PALPITATED

COULD COUNT EVERY BEAT.

When the heart begins to palpitate, it will beat fast for several seconds, then slow, then start to flutter, and a feeling of utter depression will come over your whole system, accompanied by weak, fainting and dizzy spells.

When the heart gets into this condition, you become weak, worn and miserable, and are unable to attend to either social, business or household duties.

Milburn's Heart and Nerve Pills will give prompt and permanent relief to all sufferers from any heart weakness or nervous derangements.

Mrs. Walter Greives, Apaley, Ont., writes: "I had been rundown, and doctors told me I was anaemic, but did not help me with their medicines. I could not sleep nights, my heart palpitated so, and I could count every beat.

"I used to have such dizzy spells I would have to go to bed. I was not able to do any work for eight months. A cousin of mine had taken Milburn's Heart and Nerve Pills and told me what they had done for her. I took eight boxes of them, and now I am able to help every day with the work. I am so thankful to tell others what they have done for me, so that they may try this great and wonderful remedy. I hope this may prove good to someone who is suffering the way I did."

Milburn's Heart and Nerve Pills are 50c a box at all dealers or mailed direct on receipt of price by The T. Milburn Company, Limited, Toronto, Ont.

Fur-Trimmed Millinery

---the Vogue of the Moment and Ever So Smart

Saturday we open our real display of Winter Millinery, a display of hats that will arouse your enthusiasm to the highest delight. These hats have been fashioned of soft, furry material that is adaptable for wear with almost any type of tailored coat or costume.

Beaver is still the favored material. Mole fur is developed in wonderful models, combined with brocades or velvets, and the beautiful shades of larkspur blue, or the sapphire tones, and also in self tones of mole and silver.

Soutache Braiding is shown again on different smart models. Beads are being used, but very delicately in embroidery effects and studding whole crown.

The Beaver Tam is strongly favored and doubly smart because it is a revival of two old-time fashions—the quaint Scotch tam-o'shanter and the modey beaver, but not quite so old —the two fused into a fashion so dashingly new and becoming that it cannot fail to have a twofold popularity. There are many phases of this style of hat, and several are shown in this winter display, to which we respectfully invite your inspection Saturday.

NOTES FROM THE DISPLAY—Mole, Squirrel and Seal on the most favored Furs. Silver Quills, Frost Balls, Rhinestones, Silver Pins and Steel Buckles are some of the new ornaments.

A number of small hats show a great deal of handwork, smocking, shirring and soutache, outlined with silver and gold thread; flowers embroidered with chenile or wool, such as morning glories in all their wonderful shades.

Yard-Wide Pussy Willow Silks, Saturday, 98c Yd.

SEE WINDOW DISPLAY.

Such splendid silks at this low price are sure to bring out many early buyers tomorrow for Christmas supplies.

Pussy Willow Finish Silks are one of the most-sought-after kinds today because of their beautiful rich finish, great wearing qualities, and when necessary may be dry cleaned or laundered perfectly.
