FINANCE AND COMMERCE.

STILL ANOTHER BREAK IN THE AMERICAN BARLEY MARKETS.

On the Local Stock Exchange—Montreal Quotations—London Stocks and Bonds—Foreign Exchange—New York Stocks—Chicago Markets—European Cables.

THURSDAY EVENING, March 28.

Consols are stronger to-day in the London stock market, being quoted by cable this morning at 98 7-16 for money and 98½ for account.

Canadian Pacific is quoted at 52½ in London to-day.

There was a feeling of firmness on the local Stock Exchange to-day, but things are nevertheless very quiet. Montreal ½ higher in bid at 250½, and Toronto 1 higher with buyers at 216. Merchants' ½ firmer in bid at 133½, and Commerce also strong, with a sale of sixty shares at 120½. Imperial ½ higher in bid at 145, and Dominion was 252½ ex-dividend bid. Hamilton firmer at 142 bid. Loan and miscellaneous shares steady as a rule. Dominion Telegraph ½ easier at 85 bid, and Northwest sold at 72½ for twenty-four shares. Freehold Loan higher at 170 bid, and Union lower at 130 bid, without sellers. Farmers' Loan 122 bid, without sellers, and London and Canadian ½ better at 146½ bid. Manitoba Loan sold at 101 for thirty shares, and Ontario Industrial offered at 115, without bids.

The stock market in the afternoon was quiet, with prices somewhat irregular. Ontario sold at 132 for ten shares, and Montreal steady at 250½ bid. Toronto 1 lower in bid at 215, and Merchants' ½ easier at 133 bid. Commerce sold at 120½ for twenty and 121 for two shares. Imperial 1 lower at 144 bid. Northwest Land sold at 72 for 100 and at 71½ for a like amount. Others unchanged.

"	June	7.22½	7.17½	7.25	7.17½

Grain and Produce.

Things are very quiet and dull. Sales of flour seem to have almost entirely fallen off and quotations are nominal.

On Call to-day at the Board of Trade No. 2 fall wheat was wanted at $1.05, without offers. $1.05 was also bid for No. 2 spring and $1.03 red, but there was none on hand. No. 1 frosted was offered at $1.05 on track here with $1.00 bid. No transactions.

The sales of grain on the street were 400 bushels of wheat at $1.08 and $1.09 for white, $1.09 and $1.10 for red, $1.09 to $1.13 for spring and 87½ cents for goose; 1500 bushels of barley at 44 to 52 cents; 200 bushels of peas at 66 to 71 cents, and 400 bushels of oats at 36½ to 37½ cents.

St. Lawrence market was very dull to-day. The supply was fair but there was very little demand, and not much change in prices. Potatoes were a drug. They sold at 30 to 40 cents per bag. Butter was a little higher, selling at 22 to 24 cents. Eggs were plentiful, selling at 12 to 14 cents. There was very little sale for fresh vegetables. Pork was plentiful and prices easy at $6.50 to $7.00. Beef was unchanged.

Receipts of hay were large to-day, the demand fair, and prices firm at $17 to $19. Straw was plentiful, selling rapidly at $10 and $11.

Provisions.

Trade generally is quiet and inactive with pretty good supply all round and only fair demand. Butter is in good demand but very scarce, especially in high grade and gilt edge. Really good butter brings 17 to 21c. easily, but low grade does not sell and is not wanted. Eggs are very easy and are coming down in price, have experienced a drop during the past week of 2 to 4c. Bacon is very quiet and steady with no unusual demand and prices unchanged. Hams are quoted at 11 to 11½c. per lb. Lard is slow and selling in small quantities at 10 to 10½ and 11c. according to size and style of package. Other prices unchanged.

OSWEGO BARLEY MARKET.

OSWEGO, March 28, 11 a.m.—Barley quiet. No 2 Canada nominal at 70c.; No. 2 extra Canada 68c. Later—Barley quiet and easy. Prices unchanged.

LIVERPOOL MARKETS.

LIVERPOOL, March 28.—Wheat—quiet; demand poor; holders offer moderately. Corn—Easy; fair demand. Spring wheat, 8s; red winter 7s 4d; No. 1 Cal., 7s 6d; corn, 3s 9½d; peas, 5s 6d; pork, 65s; lard, 38s 9d; bacon, short and long clear, 32s 6d and 34s; tallow, 25s; cheese, white and colored, 55s 6d.

BERRIDOM'S REPORT.

LONDON, March 28.—Floating cargoes—Wheat and corn, very quiet. Arrivals—Wheat, 3. Sold—Wheat, 2. Waiting orders—Wheat, 9; corn, 1. Cargoes on passage—Wheat and corn, weaker. French country markets, on ef. Weather in England fresh. Liverpool—Spot wheat, quiet and steady; corn heavy. Corn, 43s 9d, 1d cheaper.

More J. P.'s for West Toronto.

A movement is to be made towards the Attorney-General shortly to get him to appoint more justices of the peace for West Toronto. At present Ald. Baxter is the only available one, and as he is frequently out of town the police find it sometimes very inconvenient.

"SELF-RELIANCE" TO THE FRONT.

What He Says on a Very Important Subject.

Several days ago we published a letter from "Experience," upon a subject which is attracting considerable attention, and we have since received a similar communication from another, which we publish in full:

TO THE EDITOR: A short time ago I noticed in your columns a letter signed "Experience." At first I was inclined to regard the letter referred to as a clever advertising scheme of Messrs. H. H. Warner & Co., to attract notice to their well-known Warner's Safe Cures, which is, it must be admitted, of the greatest value and merit, but upon more mature consideration I am inclined to believe that the letter is a genuine expression from a well-informed individual, who is not afraid to grapple with a question which should receive greater attention.

It is daily becoming more apparent that there is something radically wrong in the manner in which disease is being treated by those whose profession it is to heal the sick. A man is taken ill, and a physician is called in. "Only a slight nervous disorder," remarks the physician. The slight nervous disorder, however, refuses to be controlled, and in a short time the physician ominously remarks that the patient is suffering from consumption. Things go on for a while until the patient is afflicted with what the physician calls "a series of complicated disorders." Treated for first one thing and then another—dosed with all sorts of vile concoctions—the patient finally succumbs, and then for the first time it is learned that the real cause of suffering and death was disease of the kidneys, which manifested itself in various other disorders—all of which could have been promptly cured had a timely use been made of Warner's Safe Cure, which is the most important discovery made in connection with scientific progress in recent years. The referee made by "Experience" to the Robinson poisoning cases, where no less than seven members of one family died within five years from the effects of arsenical poisoning without attracting the attention of skilled physicians, who were in attendance to the real cause, but who issued death certificates for pneumonia, typhoid fever, bowel disease, etc., is a startling disclosure of the ignorance which prevails among those whose duty it is to definitely detect and treat the true cause of disease.

I quite agree with "Experience" in the opinion that, above all, those who take matters of health in their own hands and place their reliance on a well-known remedy which is time-tested and known to be of benefit are better off than those who trust themselves in experimental and ignorant hands.

SELF-RELIANCE.

To lessen mortality and stop the inroads of disease, use Northop & Lyman's Vegetable Discovery and Dyspeptic Cure. For all diseases arising from Impure Blood, such as Pimples, Blotches, Biliousness, Indigestion, etc., etc., it has no equal. Mrs. Thomas Smith, Elm, writes: "I am using this medicine for Dyspepsia: I have tried many remedies, but this is the only one that has done me any good."

Whiskers Gets a Remnad.

J. Lee West, the New Orleans man who stole $4200 from his employers and was arrested in Union Station Wednesday afternoon wearing a pair of false whiskers and mustache, was in the Police Court yesterday. He was charged with bringing $1400 of the stolen money into Canada. Detective Sergeant Reburn said an officer from New Orleans was expected in town tomorrow and West was remanded for a hearing until Monday. Lee evidently thinks that he made a great mistake when he put on a pair of false whiskers to elude detection. The whiskers gave him dead away and caused his arrest.

No medicine has had greater success in checking consumption, in its early stages, than Ayer's Cherry Pectoral. It stops coughing, soothes the throat and lungs, and induces much-needed repose. Hundreds have testified to the remarkable virtues of this preparation.

Dr. Wild Gets a Ducking.

At Bronte the other day, says The Oakville Star, Dr. Wild while going to see a friend, and to save walking, attempted to cross the Twelve Creek. He was warned by the lady members of his household not to attempt it, but he took no heed to the warnings of the fair maidens and the result was that the great Bond-street Prophet received an immersion. It is not known whether the Dr. made that journey into the waters of the tranquil Twelve in anticipation of finding some traces of the lost Ten Tribes of Israel or for the purpose of sampling the atmosphere in that region.

For purifying the blood, stimulating the appetite, and invigorating the system in the Spring and early Summer, Ayer's Sarsaparilla is unsurpassed. Be sure you get Ayer's Sarsaparilla and no other; else the result may be anything but satisfactory.

CHAT ACROSS THE CABLE.

Lord Mandeville, heir to the Duke of Manchester, has been pronounced bankrupt.

The St. James' Gazette, commenting on the appointment of Robert T. Lincoln as American Minister to England, says it is certain that Mr. Lincoln will be popular.

Many letters of the period of the Wars of the Roses, including scores by Clarence and a number by Edward and Richard, have been found in a stable loft in Balvior Castle.

The Baltic timber yard, near Buckingham Palace, London, was burned yesterday morning. Loss $300,000. During the fire a pile of timber fell, injuring a number of firemen.

An enormous crowd assembled at the church of San Carlo Wednesday to hear the famous preacher, Father Agostino. Several persons insulted the preacher and a riot ensued. Many arrests were made.

The Dublin Freeman's Journal says the appointment of Patrick Egan as American Minister to Chili will keenly delight Irishmen. It is a comment on the policy toward Ireland pursued by England, where Mr. Egan is a hunted outlaw.

In January and February there were 21 suicides at Monte Carlo. There have been seven in this month. This season is considered the most prosperous in the history of the place. The winnings in February alone amounted to $750,000.

As PARMELEE'S VEGETABLE PILLS contain Mandrake and Dandelion, they cure Liver and Kidney Complaints with unerring certainty. They also contain Roots and Herbs which have specific virtues truly wonderful in their action on the stomach and bowels. Mr. E. A. Cairncross, Shakespeare, writes: "I consider Parmelee's Pills an excellent remedy for Biliousness and Derangement of the Liver, having used them myself for some time."

Buried by His Court.

The funeral of W. T. Wadham, the carpenter who met with so terrible a fate on Tuesday last, took place yesterday from his late residence in Bolton-avenue to St. James' Cemetery. All the members of deceased's lodge, Court Star of the East, A.O.F., and two lodges of the Sons of England were in the cortege. The arrangements were under the charge of the Foresters, Undertaker and Chief Ranger McCabe superintending. Deceased was one of the pioneer Foresters of Toronto.

The great lung healer is found in that excellent medicine sold as Bickle's Anti-Consumptive Syrup. It soothes and diminishes the sensibility of the membrane of the throat and air passages, and is a sovereign remedy for all coughs, colds, hoarseness, pain or soreness in the chest, bronchitis, etc. It has cured many when supposed to be far advanced in consumption.

Lost.—Thirty-seven thousand dollars lost between Yonge-street and the Army & Navy store, 155 King-street east. It can never be recovered by the owners, so the less said about it the better. Fully thirty-seven thousand dollars would now be in the pockets of our citizens if they had gone direct to the Army & Navy store for their clothing, but fakir bankrupt sales, wholesale supply shops and high-sounding advertisements have induced a great many people to part with good money for bad value. When you want good clothing for the least money at which good clothing can be sold go to the Army & Navy store.

A LAND OF PROMISE.

What Professor William Brown Says About Australia and its Resources.

When Prof. William Brown severed his connection with the Ontario Agricultural College faculty last summer and sailed away to Australia he took with him a commission from the Ontario Government to "prepare a report of such features of the Australian Exhibition (then being held in Melbourne) as may be of service to the agricultural interests of this province."

The distinguished Professor now writes to Hon. Charles Drury, Minister of Agriculture, as follows:

"You may be surprised at the seeming lateness of my response to the honor conferred. I beg to say I have found so much that is new, practically valuable, scientifically interesting and of such width that I did not and do not yet care to risk my reputation by a description of them on such short acquaintance. I have very carefully considered the position I am thus taking, and trust you and my Canadian friends will agree that the full report which follows during the summer is more creditable to the interests you represent as well as more just to the sister colonies of Australasia. Therefore, this letter is strictly introductory and with the clear purpose of whetting the Canadian appetite for more.

"The Centennial International Exhibition, Melbourne, 1888, may be characterized as a 35 acre shop of 41 nations, in which agriculture occupies a fair though not relative proportion, and is particularly good in wool, grain, wine, wood and implements.

"Australia is a land of wool and minerals, and that statement catches much of the history of the colonies. It is a sparsely populated land in consideration of the great range of deep rich unbroken volcanic soils in every colony. It is also to some extent a tied-up land,"—the natural following of over-liberal legislation joined to individual enterprise, whereby large land-ed estates have been acquired, and now retard settlement. And yet there is no want of land for any one, for any purpose, at any time. It is, then, a very much uncultivated country, when wool versus grain and other tillable crops are balanced. Nevertheless it is eminent in production of quality of all the cereals and in quantity of many of them. It is not yet a 'per acre per annum' nation in its farming, though unquestionably in its statistics the most ably edited in any language. It is a land unknown in mass of its resources, even to the oldest and most enterprising of its people. It is just being tested for fruit, wine, oil and butter, with results so striking, even under their rudeness, that the European and American stand astonished at the seeming indifference of if not neglect of the men who hold it.

"Australasia is a land of sunshine and showers, with the note Canadians can well reciprocate that such showers though enough per annum are not sufficiently distributed for agricultural good. It is therefore a growing policy of this Greater Britain to catch and sell its waters to its cultivators, in which enterprise some of your own country men are becoming eminent. It is not a land of forests as known to you and yet possesses some remarkable trees and other flora, both commercially and scientifically interesting. There has been die-afforesting here also, and one of the bright spots already, for her age, is liberality and system in its forestry, as to which I will have to draw your particular attention.

"This is a land of 313 days outside work every year, and nature being so wealthy and liberal the average man has accumulated, as he does every where under similar conditions, loan easy going of things because a good living can be made with little effort. Apparently, labor is also easy and highly paid, and holidays are as plentiful as with your French neighbors in Quebec. Live stock graze 365 days a year, and as the soil and herbage are prolific of all classes of them they are good, cheap and unsystematized—outside of those who import from Europe.

"Australia is 'Old England' in many of its agricultural implements, as understood by you and the Americans, being clumsy, costly, and possibly not so efficient, but on this I must be guarded meantime. Co-operation amongst farmers has not yet attained the form it should, in virtue of the future importance of the interest. You will be surprised to learn that after traveling thousands of miles in South Australia and Victoria, as I have done by the liberality of both governments, I have seen very few rabbits. They are said to exist "like flocks of sheep" in some districts, but when I find a pair costing 1s 6d as food on the Melbourne market, there is surely an inconsistency somewhere.

"Governments are the 'good mothers' of this land, and in some respects can offer lessons to you and the Americans. They hold all the railways and are thus able to further agriculture most efficiently. I know of few things so well managed, so directly remunerative, and so conducive to national progress as the railway system in Victoria. Then also agricultural education is being fostered upon a system that maybe will equal the Germans ere long.

"In one sentence the abilities of the man and of the soil of Australasia are yet unknown and the reasonable possibilities of the nation cannot be put in ordinary language. I am not so young and inexperienced as to be carried away by the glitter and good times of a centennial exhibition, and hence even now am not afraid to say that Australasia is yet an undiscovered agricultural country.

"But it is an unfederated, disjointed land nationally—more so indeed than in the days before Cook touched its shores. There is a distinct friendship for Canada everywhere and when the new cable and the 35-mile steamers tie the two countries together the international relations should be very strong."

The late Dr. Dio Lewis, whose name is a household word all over the globe, warmly endorsed the use of Warner's Safe Cure in cases of kidney disorder. He said over his own signature: "If I found myself a victim of serious kidney trouble I would use Warner's Safe Cure."

Troubles in Business.

Henry Carroll until recently kept a boot and shoe store at 574 Queen-street west, but a few weeks ago he sold out and went to Chicago. He has written to Mills & Mills, barristers, turning over his assets and asking them to divide the proceeds among his creditors.

T. D. Gibson, carriage maker, Brockville, has assigned to the sheriff. The creditors are Toronto firms.

Even the most sceptic now admit that if William Burgess will send back all the cash he took away with him the estate will pay every shilling in full and more.

It Makes You Hungry

"I have used Paine's Celery Compound and it has had a salutary effect. It invigorated the system and I feel like a new man. It improves the appetite and facilitates digestion." J. T. COPELAND, Primus, S. C.

Spring medicine means more now-a-days than it did ten years ago. The winter of 1888-89 has left the nerves *all jagged out*. The nerves must be strengthened, the blood purified, liver and bowels regulated. Paine's Celery Compound—*the Spring medicine of to-day*—does all this, as nothing else can. *Prescribed by Physicians, Recommended by Druggists, Endorsed by Ministers, Guaranteed by the Manufacturers to be*

The Best Spring Medicine.

"In the spring of 1887 I was all run down. I would get up in the morning with as tired a feeling, and was so weak that I could hardly get around. I bought a bottle of Paine's Celery Compound, and before I had taken it a week I felt very much better. I can cheerfully recommend it to all who need a building up and strengthening medicine." Mrs. B. A. Dow, Burlington, Vt.

Paine's Celery Compound

is a unique tonic and appetizer. Pleasant to the taste, quick in its action, and without any injurious effect, it gives that rugged health which makes everything taste good. It cures dyspepsia and kindred disorders. Physicians prescribe it. $1.00. Six for $5.00. Druggists.

WELLS, RICHARDSON & CO. - MONTREAL.

DIAMOND DYES Color anything any color. Never Fail! Always curel

LACTATED FOOD Nourishes babies perfectly. The Physicians' favorite.

SIX HUNDRED TESTIMONIALS

To Publish of People Whom We Have Cured in this City.

There is a medical institute for the cure of Catarrh, Dyspepsia and all chronic diseases at 170 King-street.

The four physicians who compose the medical staff have cured hundreds of people in this city of the diseases of their specialty and propose to prove this fact by publishing the testimonials of six hundred people in this city, not testimonials of patients from some far-off locality where no one resides, but in your own city and at your own door. You are invited to call upon their patients. Ask them what we have done for them, and if you don't believe what they say, ask their neighbors and you will find that we do cure the diseases which we have for a lifetime made a special study. We prefer to be master of a few diseases rather than commonplace in all. We have decided to let our work show for itself. What we have done we can do again. That we have cured six hundred people in this city we shall prove to the minds of the most skeptical. Our systems of cure, which are the outgrowth of years of study and experience, are far superior to those of doctors who try to cure every disease to which flesh is heir. For the present we will charge nothing for consultation, examination or advice, in order that all may have a chance to investigate and see for themselves what we are doing for suffering humanity. We shall never publish the picture of any patient, but allow them to modestly assert what we have done for them. Are you willing to be convinced? If so we invite you to investigate our success. Call upon us and we will send you to hundreds whom we have cured of diseases like your own and then draw your conclusions. Remember it is not what a doctor claims to be able to do, but what he has done that proves his success.

Watch the papers and see what the people are saying about us.

MEDICAL INSTITUTE, 170 King-street west.

S. Chadwick of Arcadia, Wayne Co., writes: "I have had severe attacks of Asthma for several years. I commenced taking *Dr. Thomas' Eclectric Oil*. The first dose relieved me in one hour. I continued taking tea-spoonful doses for a few days, and have not had an attack of it since, now nearly one year."

Strange & Mysterious Power!
Healing Through the "Laying on of Hands" by
PROF. LEMON,
M. D.,
Offices over Imperial Bank Branch, corner Queen and Yonge-streets, Toronto.

Formerly of the Medical Faculty of the University of Buffalo.

Esoteric and Magnetic Scientist, produces strange and wonderful cures.

That of Capt. N. Smith of Hamilton, paralyzed, made to walk, and the following:

L. Pears, Esq., Davenport, received renewed hearing, and can now hear sermons from any part of the church.

I hereby certify that my daughter, Miss Lily Lucas, who has suffered from "Ulcerated Catarrh" for the last 8 years, is now perfectly cured after two months' treatment by Prof. Lemon. (Signed) G. N. LUCAS,
388½ Yonge-street, Toronto.

Miss M. C. Haslett (by permission full name), of 77 Huron-street, writes: "Doctor, you have saved my life. I was a very great sufferer from chronic dyspepsia for years. When you first saw me I was a wreck, dying by inches, could not bear anything on my stomach, and the pain was nearly as great when empty, nearly sleepless, stools white, urine thick and red, bricky, obstinate costiveness. Now I can eat, sleep, and digest good."
MASSIE, March 20, 1889.

Dr. Lemon, corner Queen and Yonge-streets, Toronto:

Dear Sir,—I take the pleasure of writing to you according to promise. Since I came home from Toronto I have felt no pain in my knees at all, but my right knee is swollen at nights after doing my day's work. Do you think it will go away in time? Now for what the neighbors say: They would not believe it was me. The way I walked home, they thought I was a new-made man—I was walking so smart. I walked over four miles when I left the train, from Chatsworth. Some say they will watch me until the month of May and stay the same and then come and see you. So will you be kind enough to do all you can for me further—it will be the means of them coming to see you and get advice from you. Please answer by return of mail and oblige.
Yours truly,
BENJAMIN PARTRIDGE.

N. B.—Mr. Partridge was a bad case of stiff knees and ankles from chronic rheumatism; could not work for a long time and in great pain.

Consult free, 9 a.m. to 9 p.m. week days only. Letters enclosing stamped envelopes answered. Will (D.V.) remain in Toronto UNTIL FIRST JULY.

"Absent treatment" by the "perfect way" for the distant and sick who cannot see Prof. Lemon personally.

VETERINARY.

ONTARIO VETERINARY COLLEGE. Horse Infirmary, Temperance-street. Principal assistants in attendance day or night.

J.H. ROGERS 105 KING & CHURCH

HATS.

J.H. ROGERS 296 MAIN STREET

The NEW STYLES shown by us possess the merits of excellence in design, finish and general desirability. The amount of Hats being sold proves that they are meeting with the favor they deserve.

James H. Rogers,
CORNER KING AND CHURCH-STS.
