GOVERNMENT CROP STATISTICS.

Grain Movement for the Week—General Markets and Comment.

World Office,
Monday Evening, Aug. 11.

Liverpool wheat futures closed ¾d lower than Friday, and corn futures ¾d to 1⅛d lower.

At Chicago to-day prices fell away further. September wheat eased ⅝c from Saturday, September corn ⅞c, and September oats 1⅜c.

The government crop report, issued to-day, places spring wheat at 89.7, corn at 86.3, and oats at 89.4.

Northwest cars, 177, against 210 last week and 386 last year.

A Topeka wire says: One inch of rain fell over the entire corn belt. Practically assures success of corn crop, which is now estimated at 2,500,000,000 bushels.

The imports of wheat into Liverpool last week were 69,700 quarters from Atlantic ports, 15,000 from Pacific and 1000 from other ports.

The imports of corn from Atlantic ports last week were 8400 quarters.

Herald says: Crops are greatest in the history of the nation, and western farmers will reap 4,000,000,000 bushels of cereals, exceeding all records, with corn leading with an indicated crop of 2,380,000,000 bushels, and wheat and oats also likely to exceed the amount raised last year. Recent rains are said to have improved the conditions in Kansas and Nebraska, and will break all records with 300,000,000 bushels corn each. The Indiana crop is said to be phenomenal, and Wisconsin has the largest yield of oats in the state's history, and spring wheat reports are good.

Chicago Gossip.

J. G. Beaty, 21 Melinda-street, received the following from McIntyre & Marshall at the close of the market to-day:

Wheat ruled very heavy to-day on general selling, due to the fine crop news and prospective early spring wheat movement. The light world's shipments gave us a steady market early, and, while the primary receipts were under last year, they were offset by the light clearances, in comparison. The visible shows that the receipts are too large for the shipments, and, without an improvement in cash and export demand, we are on the eve of an increase in stocks. The trade seems to fear another large crop, and, while stocks are considerably under last year, the general demand on this crop promises to be much less than one year ago. Wheat looks cheap, but without a better cash situation we fear will drag lower.

Corn finished weaker with wheat and on fine crop situation, in face of bullish visible and light receipts. Southwest reports offerings of corn at Kansas City for September delivery, which adds to the weakness. The new corn will practically take care of all consumptive demand, but will not meet contracts. The fact that all the contract corn here—5,000,000 bushels—is owned by one house, naturally makes shorts a little nervous in the September. December and May are working reasonably cheap.

Oats heavy to-day on big receipts and favorable harvest reports. Nothing special to the market. Estimated cars for to-morrow are liberal at 545.

YORK COUNTY AND SUBURBS

Mayor of Toronto Junction Objects to the Town Council Maintaining a Baby Farm.

THREE FOUNDLINGS THERE NOW

And What to Do With Them Was a Live Topic at a Meeting Held Monday.

Toronto Junction, Aug. 11.—The disposal of the three foundling children which have been thrust upon the town within the past few months was considered by a special meeting of the town's Executive to-night. Under a requisition from members of the True Blue Association, the final disposition of the children was laid over for a week. The town has been paying $7.50 a week for the maintenance of each child. This amount the town did not feel until two and then three arrived. Upon the arrival of the third the Mayor determined that the town could not maintain a baby farm, and he at once communicated with various charitable institutions, with a view to having them taken off the town's hands. There appears to be no Protestant institution in Toronto that will take infants of tender years. The House of Providence is the only institution that will take them, and then only upon the conditions that they be given up absolutely.

Mr. Goedike, for the True Blues, stated that it was a rule of the order that no children should be admitted to the Orphanage at Picton less than two years of age, but he thought that arrangements could be made for their care. The Orphanage has no nurses, but he believed that those in charge of the orphans would readily look after the babes until they were two years old.

Mr. Ward, in whose charge the children have been placed, stated that the first child had turned out a handsome boy, and the Mayor and Councillor Howell vouched for his good looks.

If his parentage was known, suggested a member of the committee, he might be adopted.

"What difference would that make?" chimed in Mr. Goedike. "I know of many people of professed good looks that had miserable children."

Then the member of the committee replied that he thought parentage had something to do with the future of the child, but Mr. Goedike could not see why. Mr. Ward hardly felt disposed to give up the boy if the town would deal reasonably with him in the matter. Mr. Ward has seven children of his own, and they have become attached to the lad. He stated that he would adopt him if the town would contribute two years' maintenance. This proposition will be considered at the next meeting of the Council, and the disposal of the other two children will also then be considered.

A special meeting of the High School Board has been called for Friday, as there was no quorum to-night.

A firm to manufacture steam boilers is asking the Town Council what inducements they can give in the way of exemptions.

There were 15 applications for water, which were granted. A bylaw was passed to provide the York residents with water. Another bylaw was passed, providing for the taking of the census of East Toronto and Little York in the near future. Mr. W. H. Givens was appointed census ennumerator. The Council will see that the incorporation of Little York and East Toronto takes place in the near future.

Many are the young couples who will settle down to housekeeping this fall. And not a few of them begin wisely and prudently in a very small, modest way. It would be lovely, wouldn't it, and yet that is practically what our August Furniture sale is doing for you. You save on everything you buy in the big department this month. For instance:
