NOTE AND COMMENT

The publication of the Eastern League schedule is made at the same time as the Coupon No. 1 in the World's triple baseball contest. The opening of the season is only a matter of two weeks away—April 23—and the first home game takes place between two and three weeks later—May 12. President McCaffery expresses satisfaction with the arrangement. The Sunday ball is not played in Toronto, the champions have a good share of the Sunday plums away, viz., three at Montreal, two at Providence and one at Newark. Toronto has two holiday games at Buffalo and four at Rochester, and Kelley plays three Saturdays at Jersey City and Baltimare, two at Newark and one each at Buffalo, Rochester and Providence. Rochester, Jersey City and Baltimore divide up the Toronto's holiday double-headers—on Dominion and Victoria Days and Civic Holiday. Montreal comes for four Saturdays, Buffalo, Rochester, Jersey City and Baltimore for two each, and Providence and Newark one.

But if the wind and waves keep going there may be no island at all to play baseball on. This would be the new Union League's best method of killing off opposition.

Montreal is going ahead as a real member of the Eastern League. The club under Dr. Jimmy Casey is working at Easton, Pa., and at a meeting last week received considerable financial support, the stock subscribed to date nearing the $10,000 mark, but $17,500 will be required before the company can start on a successful basis. The directors appointed Messrs. Carrington and Cushing to represent the club at the schedule meeting in New York to-day.

While the lacrosse men are talking in these parts of mingling the amateurs with the pros., in the far west British Columbia has wisely decided to rigidly separate the sheep and the goats.

Despite Hackenschmidt's statement to the contrary, several exchanges are ahead of us in suggesting that Gotch will risk his new title soon again with the Russian. That's one of the penalties of being a wrestler.

The western tour of the Montreal basketballers should further confuse the athletic situation. Arrangements are now being made for the trip of the Y.M.C.A. basketball team, winers of the eastern section of the Canadian Basketball League. This aggregation is scheduled to play home-and-home games with the Hamilton basketball team, winners of the western section, for the Canadian championship. The first of these two games will be played in Hamilton on April 14, and the other in Montreal on April 20, regardless of the fact that Hamilton stands suspended by the Quebec Federation.

The eastern style of amateurism received a severe shaking up at the annual meeting of the Montreal Hockey Club. What they call semi-professionalism was unanimously agreed on as not proving a success. For the payment of their professionals a sum of $2004 had been expended, with an additional amount of $200 for the services of Coach Chaucer Elliott. The traveling and other expenses of the club were a large amount, while the gate receipts had been comparatively small. With the old debt, the statement showed a big deficit, something over $1600 being the sum.

John L. Sullivan, who was in his home in Boston last week, learned that a prominent pugilist, resident of Beantown, was in very poor shape physically, and in immediate need of medical aid. The big fellow needed no further information or advice, but called a prominent specialist on the phone, and, learning of the seriousness of the malady, called in person at the specialist's office. A cheque for $100 was John L.'s tribute, the same to be paid to the wife of the unfortunate pugilist.

Hack Accepts Defeat.

CHICAGO, April 4.—Frank Gotch, who last night defeated George Hackenschmidt, the "Russian Lion," for the wrestling championship of the world, seemed to feel little ill effects to-day from the two hours' battle. He arose early and after breakfast took a long walk with "Farmer" Burns, who acted as one of his seconds last night.

"I am not fatigued," he said, "and was not tired when the batte ended. I could have gone on for hours. I would be willing to meet Hackenschmidt tonight. If he desires it I will give him a return match any time he wants it. Next time I will put him on his back."

Gotch will remain in Chicago until Monday and will then probably return to his farm near Humboldt, Iowa. He has been offered engagements at two local theatres, but may not accept either of them.

Hackenschmidt looked as if he had been in a prize fight instead of a wrestling match to-day. The left side of his head was badly swollen and his left eye inflamed. His eyelids were swollen and lacerated. He said this was done by Gotch's thumb. As to plans while in America, Hackenschmidt said he was not decided what he would do.

Speaking of the new champion, Hackenschmidt said: "There is man in all England who has a chance with your man Gotch. He is king of his class, the greatest man by far I have ever met. After going nearly two hours with him my muscles became stale, my feet also gave way. I had trained constantly against the toe hold, and I had strained the muscles of my legs.

"When I found myself weakening I knew there was no use continuing. I had no chance to win. That was the reason I conceded the championship to him. I have no desire to wrestle him again. A return match would not win back my title."

Crowd of 120,000 See Football Match.

GLASGOW, April 4.—One hundred and twenty thousand persons attended the football match between England and Scotland here to-day. A mob of a thousand broke into the enclosure and 40 persons were injured by the crush. During the progress of the game stones and bottles were thrown by angry spectators in the rear. Three of the injured were taken to the hospital. The result was a tie, one goal each.

Eastern League Meets To-Day.

NEW YORK, April 5.—The annual schedule meeting of the Eastern Baseball League will be held at the Victoria Hotel to-morrow. President Powers has arranged the schedule for the coming season, calling for 140 games. There is no change in the make-up of the league. Montreal still retains its franchise. There was a movement on foot to transfer the Royals to Hamilton, Ont., but a syndicate of Montreal men furnished sufficient funds to purchase the club's interests from Frank J. Farrel and his partners and Manager Jimmy Casey, formerly of the Brooklyn National League team, has signed several players for the new owners.

Rolls 587 at Galt.

GALT, April 5.—The bowling tournament was successfully concluded on Saturday evening. There were several last minute surprises. In the singles on Saturday afternoon, Codling of Galt rolled 587, bringing down first money. Matthews, Brantford, 570, and Waterworth, London, 550, were second and third. In the team competition on Saturday evening, London Ideals rolled 2490 and the London Orients 2470, capturing first and second money. Brantford was third with 2560. In the doubles, Codling and Larter, Galt, did 1094; second, Little and Hindmarsh, Galt, 1090; third, Miller and Litten, Berlin, 1034. Dewond of London won the prize for the highest aggregate score, while Larter of Galt won the prize for the highest single score, rolling 254.

Stanley's Weekly Shoot.

The Stanleys held their weekly spoon shoot on Saturday afternoon. The weather was fine and an enjoyable afternoon was spent. Hulme and Ely were the winners in the spoon event. Scores:

Gossip of the Thorobreds

Louisiana Jockey Club Takes Hold at Fair Grounds --- The Late Riley Grannan.

The season of racing under the auspices of the Crescent City Jockey Club came to a close at the Fair Grounds with the running of a small sized program on Saturday. The new Louisiana Jockey Club, composed of local business men, will take charge of the sport for the next week, but practically the same officials who presided all season will officiate. The feature of the program Saturday came in the shape of a selling stake called the Audubon, at 1 1-16 miles, which was won by Green Seal, the favorite, whom Notter took to the front at the barrier and won all the way.

Bill Phillips, trainer of Fred Cook's horses, says he is about to ship a string of 18 head to Sheepshead Bay, no matter what may be the outcome of the legislation at Albany. Phillips says he has 40 of the best racers ever developed in the west, chief of whom is Lawrence P. Deley. Jockey Dave Nicol will come east with the Cook stable.

The winter meeting at Los Angeles ended Saturday. Associate Judge Ed. Cole, Racing Secretary E. C. Smith, Geo. Rose, Cull Holland and other well-known layers will find for the east in time to arrive for the Aqueduct meeting.

Speaking of Rubio, the American horse who won the Grand National Steeplechase in England recently, a well-known turfman said yesterday that in 1898 J. B. Haggin sent a consignment of about 40 fillies to England, where at auction they realized an average of $900. This led to the shipment of a band of colts in 1899, but, altho one, Convamore, sold for $9250, the experiment was not as paying as had been hoped for and further shipments were stopped. It was as a member of this band that Rubio landed in England. Evidently he did not appear attractive to buyers, as he was knocked down to Mr. D. Pennant for $75.

The death of St. Simon, England's great stallion, recalls the fact that his first foals, 15 in number, appeared in 1887. At the close of the English racing season last November St. Simon had had 425 living foals, 220 colts and 205 fillies, 205 of whom had appeared under colors and 178 had won races, earning $2,636,690. He was the sire of many winners of England's great races. Of them to win the St. Leger were Diamond Jubilee, Persimmon, Memoir and LaFleche. In the list of Derby winners appear Diamond Jubilee and Persimmon. St. Frusquin won the Two Thousand Guineas, while Semolina, La Fleche, Annable and Winifreda won the One Thousand Guineas. His representatives to win the Oaks were LaRoche, Annable, La Fleche, Memoir and Mrs. Butterwick.

Riley Grannan, who died Friday last at Rawhide, Nev., after a long illness, in his day was one of the best known race track plungers in the United States. He was the son of a tailor, and when 17 drifted to New Orleans, where he attracted the attention of a bookmaker named Botay, who was the first to introduce the "dope" system, or form table, which shows the different positions held by horses from start to finish. Grannan was in the employ of Botay a short time when he met Ed. Appleton of Kentucky, one of the most prominent bookmakers and horsemen in the south in those days. Appleton gave Grannan enough money to start a book at the New Orleans track. He was successful from the first, and from New Orleans went to San Francisco. Before this, however, he bought a $25,000 tract of land in Louisville and erected a $20,000 building on the site. He had not been in California more than three months before he won almost $100,000.

It was at this time that something occurred which well illustrates Grannan's character. While making a book on the races of the California Jockey Club at San Francisco he bet heavily on President Williams' colt Don Fulano to beat the speedy mare Charmion, which it did. A few days later the same pair met, with a few pounds more on Don Fulano, and this time Grannan's money went on Charmion, the mare beating the colt. This aroused the suspicions of certain persons, and a San Francisco newspaper stated that Grannan had some occult influence over the jockey who rode President Williams' horse. Grannan said that if he cared to be dishonest he had plenty of opportunities to do so, as he had been repeatedly approached by horse owners, who offered to run their horses "dead" in his interest for a consideration. After the trouble blew over Grannan said that he would bet $10,000 that Don Fulano could beat Charmion with the weights arranged in the original race or a similar amount that Charmion could beat Don Fulano with the schedule the same as when the mare won. Grannan came to the east and won many thousands and lost them in endeavors to gain a larger fortune.

OLYMPIC TRIALS.

At the meeting of the Ontario Olympic committee on Saturday, President Stark in the chair, it was decided to hold the provincial field and track trials at Rosedale on Saturday, May 23, and the morning of Monday, May 25, and the final tests on Saturday, June 13. At the latter games all Canadian athletes expecting to go to England will compete on road, track and field.

PRINTERS' CHAMPIONSHIP FINAL GAME ON SATURDAY

Newton-Treloar Take All Three From the Globe - Clark is High Man.

The final game for the Printers' Bowling League championship Saturday night proved to be somewhat of a surprise, as the Newton-Treloar team turned the tables completely upon the Globe and took all three games, thus winning the championship, after losing two out of three games a week ago. The winners were in fine form and rolled a good game thruout. Captain Clark jumped into the contest himself Saturday night, and was instrumental in winning the victory, he being high man for the night, with 499. The Globe, who won the championship last year from the News in similar fashion, did not roll as well as usual, and the Newton-Treloar team, taking advantage of this, captured the three points, tho two were close contests. Splits were numerous on both sides, which partly accounted for some of the low scores. The following shows how the game was lost and won:

Newton-Treloar—	1	2	3	T'l.

Cambridge By 2 1-2 Lengths Wins Annual Eight-Oared Race

Winners Were Favorites at 3 and 4 to 1, and Led the Procession From Start to Finish—Only 32 Secs. Behind Record.

PUTNEY, April 4.—For the third year in succession Cambridge won the varsity boat race to-day, defeating Oxford by 2½ lengths. The light blues fully justified the confidence reposed in them by the riverside experts and led the procession from start to finish.

The crews got off to a splendid start, but the quicker stroke of D. C. R. Stuart of the Cambridge crew, who set the rate at forty for the first minute against Oxford's thirty-eight, soon put the supporters of the light blues at ease. At Beverley Brook, Cambridge already had gained an advantage of half a length, and at Craven steps the light blues were a full length in front of and steadily drawing away from their opponents. The uniform sliding and the greater length of Cambridge's stroke continued to tell, and in shooting under Hammersmith Bridge there was a full length and a half between the boats. At this point Stuart gave his crew a breather, and A. C. Gladstone, the Oxford stroke, called on his men for an effort, quickening his stroke to 38 to the minute, as against Cambridge's 32. Gladstone slowly lessened the gap to a length and a quarter. But this advantage was only on sufferance. When Stuart was ready he set his men going again the Cambridge crew quickly shook off their opponents. Pulling strongly, steadily, and well within themselves, the light blues shot past Thornleycrofts three lengths ahead, and held about the same lead to Barnes' Bridge. After passing this point they rowed without apparent effort, and passed the finish post easy victors b ya distance given of only two lengths and a half. The Oxford men were much distressed at the finish.

The result never was in doubt. In spite of the advantage of Oxford in winning the toss, which gave them the calmer side of the river, the extra stamina of the Cambridge crew quickly sent the nose of their boat ahead and enabled them to assume a lead which they held comfortably to the end.

The official time of the race is 19 minutes 19 seconds. The record is 18 minutes and 47 seconds, established by Oxford in 1893, and equaled by Cambridge in 1900. The time last year was 20 minutes and 26 seconds.

The race was from Putney to Mortlake. The contest brought out the customary crowds of enthusiasts, and long before the race started the banks of the river were lined by the people, who also massed themselves on the bridges spanning the Thames, and on the roofs of buildings affording a view of the stream. All sorts of river craft—house boats, launches and rowboats of every description—were moored along the banks. The day appeared dark and cold and there was a threat of rain. A boisterous wind ruffled the water and promised to make the course difficult. Altho the race is not scheduled to start until half-past 3, people began gathering from all directions as soon as it was daylight.

Cambridge was a strong favorite in the betting, which was 4 and 3 to 1 in her favor. Her smartness in getting off in practice led everyone to expect her to take the lead at the start, and the crew had shown also the best staying power. Both crews appeared for short practice spins before noon to test their boats. They were warmly cheered. The Cambridge crew used the same boat with which it won in 1907.

The Oxford crew received much chaffing because of its recent secret trial over the course. This awakenedo a tremendous storm of protest from the newspapers and from the public, as a violation of all amateur sporting traditions. Each crew was stroked by a veteran, each had a veteran coxswain, and two other old men. The Cambridge style, as shown in training, gave them extraordinary pace for a short distance, while that of Oxford seemed to produce more lift on the boat and more pace in the long run.

The crews and their weights were as follows:
