COMMERCIAL.

Corn Exchange Report.

MONTREAL, November 19, 1878.

FLOUR—Market quiet and easier, the offerings are not very large, but considerable quantity of Welland Canal flour is expected this week. The sales reported are: 100 barrels Spring Extra at $4.02½; 205 barrels Superior Extra at $4.30; 200 barrels Medium Bakers' at $4.05; 100 barrels Superior Extra at $4.32½; 100 barrels Extra at $4.20; 200 barrels Strong Bakers' at $4.35; 100 barrels Extra at $4.25; 100 brls Medium Bakers' at $4.10; 200 barrels Spring Extra at $4.05.

Receipts per Grand Trunk Railway, 1,480 barrels; do Canal, 3,200 barrels.

WEEKLY REVIEW.

The movement in the wholesale markets continues quiet, although the near approach of the close of navigation has led to a little more stir in some departments. With the coming week business is expected to assume a very quiet character, and no improvement is anticipated before the holidays.

LEATHER.—Transactions for the week have only been moderate, and at prices within the range of quotations. Stocks are not heavy, and prices for most descriptions are pretty well maintained. Best Spanish Sole continues in fair request, with small offerings of really prime in suitable weights. Slaughter Sole—is rather neglected. Harness—Dull for the season. Upper.—There has been more demand latterly, and as stocks are small here and in the tanners' hands, holders are more firm. Measured Leathers.—Not so much doing. Splits.—Prime, light and medium, are in fair request, but heavy are in less demand.

BOOTS AND SHOES.—A moderate sorting demand prevails, but manufacturers are chiefly engaged in working up spring stocks, for which travellers are now soliciting orders in the Lower Provinces.

LIQUORS.—The market continues active for almost all classes of goods, but the demand is not of a speculative nature, purchases being only made for actual requirements. Raw grade sherries and white wines are very scarce, and holders have all advanced their ideas. We note that the "Dunsinane," from Cognac, with a cargo of brandies, has lately arrived at Halifax, but as we find that only a few packages are coming through to this market prices remain very firm for all well-known brands.

GROCERIES.—The jobbing trade continues dull, but the demand from retailers has continued, and the distributing movement is fairly good. Teas.—A considerable quantity is being brought from New York, but nothing of consequence is being done between jobbers in this city, who are supplying themselves from New York. A good demand, however, prevails from retailers, who are purchasing more freely. The principal business has been in Japan at 28c to 37½c for medium; 48c to 52c for firm grades. Young Hyson is selling well in Ontario at 22½c to 26c. Other Green Tea is difficult to move, and Blacks are also dull. Coffee continues inactive, only a light enquiry prevailing, and that for Java and Mocha.

SUGAR—The demand has assumed small proportions, and the movement is not important. Granulated is about ⅛c higher in Boston, but holders here have not advanced quotations; the supply of all kinds is ample. The English market is easier. A cable despatch to-day reported a decline of 3d per cwt, notwithstanding that the stock is larger than last year.

FRUIT.—Holders of Valencias are firm at 4½c to 5c and good demand has been experienced. Some 3,000 boxes changed hands during the week. The recent large stock of Valencias has been now pretty well distributed, a large portion of the sales being for Ontario markets. Malaga fruit is dull at unchanged prices. Currants are difficult to sell, owing chiefly to the low price of raisins. Figs, of which the quantity received is not large, find a ready sale on arrival. Nuts—Unchanged: the stock is moderate and holders firm.

MOLASSES.—Sales during the week have been moderate and principally made up of small lots of jobbers. Transactions were about 100 hhds at our quoted rates. Syrup—A quiet demand prevails; prices are easier; amber being reduced 2c, 30c to 42c, and silver drips 38c to 40c.

FISH.—There is no change in prices; a light demand prevails and sales are much smaller than in previous years.

RICE.—Is firmer in consequence of an advance in freights, and $4.25 to 4.40 is now asked.

SALT.—Sales during the week have been considerable and importers having to clear stocks off the wharves, have been making concessions on late quotations rather than store the salt. Coarse has sold at 60c to 62½c.

SPICES.—A fairly good distributive movement is going on, and a generally firmer tone pervades prices, although quotations are unchanged. A sale of black pepper was made at 8½c, but 9c is generally asked.

DRY GOODS.—Travellers have been sending in fairly large sorting orders this week, the colder weather having stimulated retail trade; and an improved demand has been had from the city trade. The market, however, is, on the whole, very quiet.

RAW FURS.—Several large lots of fall skins have arrived this week, principally from the North, and sold readily at our quotations. Advices from the European markets say little change is looked for, and no prospect of improvement in prices.

DRUGS AND CHEMICALS—There has been a steady demand for bicarb and sal soda, and, as stocks are light, prices are firm; sal soda is selling in a jobbing way at $1.10 to 1.20, and bicarb at $3.05 to 3.25 as to lot. In other chemicals there is little or nothing doing.

OILS—Nothing doing, and quotations are purely nominal.

City Retail Markets.

Notwithstanding the muddy roads throughout the district, our markets were largely attended by market gardeners and farmers, all of whom offered for sale abundant supplies of produce at exceedingly low prices.

FRUIT.—The market still remains glutted with apples, and the prices asked are still very low. American apples are selling at $1.50 per barrel; Canadian Apples, $2.00 to 2.50 per barrel; Montreal Fameuse are cheaper, and are now selling at from $2.50 to 3.00. Malaga grapes are plentiful, at $6.50 per barrel of 50 pounds. Cranberries, $8.00 per barrel. Lemons, $6.00 per box, or $11.00 per case. Oranges, $7.00 per case.

POULTRY AND GAME are selling very cheap. Turkeys are in large demand at from 75c to $1.00 per pair; Geese are selling from 60c to $1 per pair; chickens, 30c to 35c do; ducks 20c per pair; wild ducks are very plentiful 50c to 60c per do; pigeons, are very scarce and dear, are selling at $1.25 do; quails a[illegible] in large supply at 25c per dozen; prairie [illegible] are selling at $1 per pair; partridges are very plentiful at 70c per pair; hares, 30c.

GRAIN AND WHEAT.—Flour is selling at from $2.10 to 2.11 per bag. Oats, 75c to 80c per bag. Bran, 80c per bag. Grue, $1.00 to 1.20 per bag. Cribblings, 60c per bag. Moulie, $1.00 to 1.20 per bag. Peas, 80c per bushel. Corn, 50c to 60c per bushel. Buckwheat, 80c per bag. Beans, $1.20 per bushel.

BUTTER is very plentiful and of a much superior quality. Good tub butter is selling at from 9c to 12c per pound; choice do., 13c to 15c per pound; fresh print do. is selling at from 18c to 25c per pound.

VEGETABLES.—The potatoes offered at the markets to-day were of a very inferior quality, and sold at from 80c to 90c per bag. It is anticipated that potatoes will be very dear this winter. Onions were in large demand at 30 cents per bushel. Celery is getting rather scarce, and sold at from 40 to 50 cents per dozen bunches. Turnips are arriving in large quantities from Quebec, and are selling at 50 cents per bag and 75 cents per barrel. Beets are rather scarce at from 25c to 30c per dozen.

Cattle Market.

FAT CATTLE.—The cattle trade was almost at a standstill to-day, as butchers have already on hand nearly enough of cattle to do them for some days to come which they bought at exceedingly low rates last week. About 150 head of cattle were offered at the Viger market to-day, but they were mostly the culls from the last week's market.

MILCH COWS.—The supply of good milch cows has been very poor of late, none of those offered being such as could be called extra quality. Prices are from $30 to 45 each for pretty good cows, and from $12 to $25 for small cows and strippers, chiefly the latter, although some of them had calves tied to them. Several good calves have been sold lately at from $1.50 to $9. Small calves are sometimes in demand to assist in selling strippers.

SHEEP AND LAMBS.—Good sheep and lambs were very scarce to-day and were fully ten per cent dearer than the prices quoted a week ago.

HOGS—Continue to arrive in large quantities, and prices have declined to a very low figure. About 1,000 hogs have been sold the past few days at 8c per pound, and a large number remain on the market unsold.

Chatham, Ont., Markets.

CHATHAM, November 18.—GRAIN.—Fall Wheat, White, 85c to 90c; Red. 83c to 86c; Spring, 70c to 75c. Oats, 24c to 25c. Beans, 50c to $1.75. Barley, 70c to $1.25.

NEXT to building a church for the worship of the Creator there is no more praiseworthy undertaking than erecting a refuge for the aged and the infirm, such as the Grey Nuns have in course of construction in Montreal. The funds they have at their disposal for such a purpose are not equal to their willing hearts, however, and the consequence is that they have gotten up a Grand Lottery under the patronage of some of the most distinguished gentlemen in Montreal. The drawing for this lottery will take place on the 16th day of January next, and the prizes are valued for $10,200. Among those prizes are a splendid stone house valued for $1,200, and from seven to eight hundred valuable articles worth in the aggregate nine thousand dollars.

—:o:—

WE ARE NOW PREPARED TO DELIVER, ON RECEIPT OF SATISFACTORY orders, our **Celebrated Hall Champion Thrashing Machine,** to be driven by Horse or Steam Power. These machines have been without a rival for the past FIFTY YEARS. Nearly all the other Thrashing Machines are imitations of the Hall Machines, and have failed to give entire satisfaction. The Hall Machine has been

THE STANDARD THRASHING MACHINE!

In the United States and Canada ever since introduced by the late JOSEPH HALL in 1828. The Hall Champion Thrashing Machine has been gradually and carefully improved each year as experience proved wise and desirable. No changes have been hastily made and called improvements. The greatest possible care has been exercised in the construction of all the working parts of the machine so as to save the necessity of repair and prevent annoying delays which are caused by breakages. Nothing but the very best of material has been used throughout the machine; and the workmanship is unsurpassed. Our machines are supplied with our

Patent-Diamond-Pointed-Cylinder-Teeth!

Worth three times as much as the ordinary teeth.

WE CAN SUPPLY PITTS, PLANET, OR HALL HORSE POWERS!

—Eight or ten horse—either DOWN OR MOUNTED ON TRUCKS, as Customers may desire. Also, Trucks built specially for Separators, with broad tires.

We are building a special machine for STEAM THRESHING—with 36-inch cylinder and 42-inch grain belt, and we also supply a Steam Engine which we guarantee to drive our Thresher in a first-class manner as rapidly as it can possibly be fed. Our Engine is made from the moss improved model used throughout the United States, and gives universal satisfaction. It is simple in construction, easily and perfectly governed, and not liable to accidents or to get out of order, and all danger from sparks entirely removed.
