IN THE DIVISIONAL COURT.

(Before Chief Justice Sir M. B. Begbie and Mr. Justice Drake.)

Re Ellard—This was an appeal from an order of Mr. Justice Crease, dated October 29th, 1892, that the costs of all parties to the action and proceedings should be taxed as between solicitor and client, and paid only out of the estate of the late James Ellard. The writ of summons in the action, pleadings, etc., were issued and filed in the Westminster Registry.

Mr. Luxton for James Harvey and Esther Harvey, two of the defendants, the respondents on the appeal, took the preliminary objection that the appeal was too late, not having been brought, that is, set down for argument, within eight days from the date of entering the order, though a notice of intention to appeal had been given within the eight days.

Mr. Helmcken, contra, submitted that the serving of the notice of intention to appeal was the bringing of the appeal within the meaning of the section, citing Christopher v. Croll. 16 Q. B. D. 66, Steatman vs. Hakin, 22 Q. B. D. 16, Reg. v. Lynch, 13 Q. R. 178.

The Court so held and overruled the objection.

Mr. Helmcken, for the appellant, then submitted that Mr. Justice Crease had no jurisdiction to make the order appealed from, as the summons upon which it was made was not issued out of the Registry office in which the action was pending, namely, Westminster, as provided by section 27 of the Supreme Court Act, and that the whole proceedings upon it were irregular and void.

By the Court—It was a matter of discretion in the learned judge to hear the motion or refer it to the domicile of the action. The provision in section 27 is directory and not imperative, and that objection to the order appealed from overruled. The Court stated that they did not desire to express approval of the practice of making motions in an action away from its proper domicile.

Mr. Helmcken then submitted, under rule 385, order lv, r. 4, an order to tax costs on the attorney and client scale was wrong as there was only one scale of costs allowed under the rule and its schedule H.

Mr. Luxton, contra, contended that though there was only one scale the question of whether the attorney and client items provided for in the schedule should be allowed or not where the work was done were intended to be provided for in the direction.

It appearing that a previous order for taxation of costs and payment out of the estate having been made on 18th August, 1888, the order appealed from was varied by limiting the taxation to take place thereunder to costs incurred since that date, excluding the costs of the arbitration, to be afterwards dealt with, striking out the words attorney and client, cost of order appealed from and of the appeal to be paid out of the estate.

MISS MATHER'S LOVE AFFAIRS.

A Rich Young American Said to Have Wedded Her—She Denies the Report.

MILWAUKEE, Wis., Nov. 14.—Rumor states that Col. Gustav Pabst, oldest son of Capt. Fred. Pabst, president of the world-famous Pabst Brewing company, was married at San Francisco to Miss Margaret Mather on Wednesday last. Capt. Pabst admitted that he was informed by his son of the wedding, but declined to say anything further.

SAN FRANCISCO, Nov. 14.—Miss Mather's niece confided to a friend here that the actress and Pabst had been married near Chicago shortly after she had secured a divorce from Emil Haberkorn. The papers here commented on young Pabst's devotion, but she said he was merely a friend. It was learned at the California hotel that Pabst registered there October 22 and engaged a suite of rooms. Miss Mather arrived with her niece and company the next day. Pabst remained only two days and left October 24 on a business trip to the East. He returned home on November 5, and on November 6 left in company with Miss Mather for Los Angeles.

LOS ANGELES, Nov. 14.—Margaret Mather was seen at her hotel. She said the report was wrong. Pabst expressed himself as anxious to marry her, but so far she had refused. They could not have been married last Wednesday in San Francisco, as reported in Chicago, as Miss Mather left here last Sunday to play an engagement in the southern part of the State, and has appeared in Fresno and Los Angeles during the week. It is learned that the niece confessed the marriage in explanation of the intimacy existing between her aunt and Pabst.

Hamilton, land commissioner at Winnipeg for the C.P.R., mentions the fact as proof that the Government's efforts to obtain immigrants for this country from the United States are resulting successfully. At 2:30 this afternoon, in payment of a bet made on the U. S. Presidential election, Dave Douglas wheeled R. G. McKay along Cordova street, from Dunn's hardware store to the Real Estate exchange. While on the way, Mr. McKay waved an American flag that had been carried in a Cleveland procession in Cincinnati in 1884.

Counsel has been retained by a city contractor to press a claim for extras on street work.

C. P. R. telegraph offices have been opened at Winkler, Rathwell, Monteith Junction and Wawaneza, all in Manitoba, and at Syntaluta, in Assiniboia East, also at High River and McLeod, a new town, on the south branch of the Calgary and Edmonton railway.

The Board of Trade will make a protest to the Government against the present law on bills of sale, by which eastern wholesalers have lost heavily, and they now threaten to do business on a cash basis only.

WESTMINSTER.

NEW WESTMINSTER, Nov. 14.—Continued reports of smallpox cases from the Sound, and the spread of disease to Blaine, has awakened the city health authorities to the fact that some steps must shortly be taken to keep the disease out of Westminster. It is probable a move in the matter of quarantine will be made this week.

Diphtheria has made its appearance at Westminster Junction. The victims are daughters of J. T. Scott. One case is a mild one, but the other is very serious, owing to the naturally delicate health of the patient. Precautions have been taken to isolate the patients, and it is hoped the disease will be kept within present bounds.

The Pittendrigh inquest was concluded this evening. The evidence adduced showed that Indian Jack loaded a revolver and gave it to Peter, telling the latter to kill Pittendrigh, which he did. The evidence also cleared away all suspicion that Pittendrigh visited the Indian camp to see the women. It was clearly proved that he went to see Peter about his canoe, which the latter had stolen. The jury found a verdict charging Peter with the murder and Jack as being an accessory.

NANAIMO.

NANAIMO, Nov. 14.—Edwin Richards, treasurer of Damon Lodge, No. 8, K. of P., Northfield, has, it is charged, skipped the country, taking the entire funds of the lodge, amounting to $800. At the last meeting he was instructed to take $700 and deposit it in the Bank of British Columbia in this city. He took all out of the safe, and then left here on the steamer Cutch for Vancouver. Nothing was thought wrong for a few days until suspicion was raised by his prolonged absence. When the safe was opened nothing was found.

H. Parrish, of Newcastle townsite, has grown a monster cauliflower. It is of the English variety, weighs 28 pounds, and measures 22½ inches across the top.

The ship C. F. Seargent is libelled for $5,000 for salvage. A deputy sheriff is in charge. It appears that the Seargent on the way up got into a rather dangerous position near Barclay Sound. A steamer went to her assistance, asking $500 to bring her to a place of safety. The Seargent wished to give only $100. Finally it was decided to leave the matter to the owners of the steamer and the Seargent to decide afterwards. The steamer claims that a strong wind sprang up, the Seargent claims it to have been a favorable wind. Hence the libel.

J. W. Sutherland, representative of American capitalists who are bonding the Texada Island mining claims, returned on the steamer Joan from Texada. He is more than pleased with all he saw, and says that in his fifteen years' experience he has never before seen anything to equal the mineral riches of Texada. He has bonded the claims of C. R. Miller and Hugh Kirke, and is under negotiations with the Minerva Mining Company for their properties. He has also obtained several adjacent claims, including the Blue Bell. Operations on an extensive scale will be commenced by the first of the new year.

Arrived, bark Alden Bessie, ship Commodore.

A carload of ore passed through Kamloops last week consigned to the Tacoma Smelting Co. It was shipped from the Vermont Creek mine, owned by Wells and Pollock, situated near the Columbia river above Golden. The ore is shipped by steamer to that place and thence by the C.P.R. This is the third carload sent out from that mine, two loads having been sent to the Revelstoke smelter that gave a return of 95 ounces silver and 63 per cent. lead, and it is expected that this lot will run some better. The ore is an excellent quality of galena, containing some rich gray copper that runs over 2,000 ounces silver per ton. The ore has to be packed to the river 20 miles on horses, and it is the intention of the owners to put on a mule train as soon as spring opens up and make regular shipments through the season.

At the call of Mr. A. P. Cummins, Gold Commissioner, an informal meeting of free miners was held at the Queen's hotel, Wednesday evening, 2nd inst. Mr. Cummins in taking the chair stated that he had received a letter from the Minister of Mines, Col. Baker, in which the latter alluded to the movement on foot in parts of the West Kootenay district, looking toward a return to the old mining law, "Mineral Act, 1890," and he desired to ascertain the feeling of the miners in East Kootenay in the matter. The discussion resulted in an unanimous approval of the system of 1,500 feet square locations bounded by vertical planes, but the present method of staking was condemned. Many suggestions in the way of improvements were made and finally one was advanced by Mr. Fowler which met with general approval, so far as its principle was concerned, viz, that stakes should be placed on the outcrop of a lead, and no lead should be staked blind. Mr. Fowler was then deputized to draft a petition to the Minister of Mines, embodying the sense of the meeting.

KOOTENAY.

Archie Chisholm, of Illecillewaet, has been in town during the past week, and will probably spend the winter here. He sold a mine (the Goat Cave) to Mr. McIntosh, M.P. Most of the prospectors have come in, and many have gone east. On the whole the development work done this summer has been satisfactory. Next spring a large output will be assured.

Nakusp has made a progressive movement, which, it is hoped, will be the forerunner of greater things. The sleigh road to New Denver and the Slocan mines has been commenced, about 20 men being employed on it.

The steam scow belonging to the C. & K. N. Co., launched about two weeks ago, made a trial trip to the head of the lake last Sunday. She made better time up the river than either of the steamers.

VANCOUVER.

VANCOUVER, Nov. 15.—The City of Puebla arrived this evening with mixed freight.

The argument on the lumber mill wage case was concluded to-night. The entire question hinges on the construction of Sec. 26 of the Mechanic's Lien Act, the meaning of which is claimed to be obscure. Judge Bole reserved his decision for three weeks. The decision will be far-reaching in its results. If the loggers secure a verdict, the mill owners will be responsible in a measure for the wages of the men employed by a party who has contracted with the mill owners for a supply of logs, whether the timber limit be owned by mill owners or not, this being the chief point at issue, though affected by minor developments to some extent.

The decision in the case of Goodwin, who is suing for wages from the Captain of the schooner Vancouver Belle, seized by the Russians, from the time of engagement till his arrival in Vancouver, is also of wide general interest. The question appears to hang on the legality or illegality of the seizure and the wording of the ship's articles of agreement. Judgment reserved.

WESTMINSTER.

NEW WESTMINSTER, Nov. 15.—The preliminary inquiry into the case of Frank Beagen and wife commenced to-day in the police court. The charge of murder laid against May Deming and Bertie Kazar was withdrawn, there being no evidence against them. No important evidence was adduced which was not brought out at the inquest some months ago, except that of Sergeant Carty, who saw Beagan and wife at 3:30 on the morning of the murder on the street within 200 feet of May Todhunter's house. They went into some house, but which the sergeant could not swear. The day following the murder Beagan and his wife were at Kelly's hotel, Westminster Junction. The case is still proceeding. Unless more telling evidence is brought against the accused, by later witnesses, they will be discharged.

Voting on the by-law to raise $5,000 by way of a loan for road purposes takes place in Dewdney municipality on Saturday, the 19th inst.

The annual meeting of the Diocesan Synod of Westminster will be held in this city to-morrow and Thursday. Delegates, lay and clerical, will be present from all parts of the diocese.

Action has already been taken on the Medical Health Officer's report, sent to the Council last evening. In the course of her evidence given at the Pittendrigh inquest yesterday, Indian Mary said that on the day of the murder the deceased passed their tents on Front street, walking towards Sapperton. Peter, her husband, and Jack, Peter's father, when they saw him muttered, and then Jack loaded a revolver with two cartridges. Both then went down town, the revolver in Jack's pocket. They went towards the city. She saw them next hiding behind a bush. When the deceased returned he went up the left hand trail. As he was turning the bend Peter rose and shot him from the right hand trail, a distance of about 18 feet. After the murder, Peter gave the revolver to Jack. Five minutes elapsed before the pair returned to the tent. Peter commenced to beat her saying, "If you want to die come along with me where the white man lies, and I will cut your head off." He said he would kill her then himself. Four times he thrashed her, then she left with her brother for up river. She had only once spoken to deceased, above two years ago, when she washed him some shirts. Peter knew deceased three years ago at the salmon hatchery.

NANAIMO.

NANAIMO, Nov. 15.—John Collishaw's house, in the suburbs of this city, was burned at an early hour this morning. No one was in the house at the time. He left the house last evening to go to work in the mine, and returned this morning to find nothing but ruins. He had $315 in bills in the house. He supposed the fire originated from a small fire which had been left burning in the kitchen. Loss, about $2,000; insurance, $1,100.

Some individual has been shooting cattle in the vicinity of Wellington.

On Saturday the New Vancouver Coal Co. paid out to their employes $92,000. This month the pay will reach over $100,000.

PLUMPER'S PASS.

PLUMPER'S PASS, Nov. 14.—Thanksgiving Day passed quietly here, the public schools being closed in accordance with the general custom.

Mr. P. Watelet, of the Tumbo Island Coal Co., returned from Victoria on Monday. There is a general belief that his mission has been in connection with a scheme for the future employment of white men exclusively in the mines. It is learned on good authority that he is negotiating with one of the foremen employed in the Galt mines at Lethbridge, with a view to secure his services, and with a staff of white labor there is no doubt but that the natural resources of the Island will soon be unearthed and made the subject of future developments.

A spirit of amusement seems to have pervaded the breasts of many here upon reading in the columns of a certain contemporary, last week, the thrilling "dime novel" narrative of a fugitive pirate escaping from justice. The simple facts of the case were these: There is no constable for this place, and upon the morning in question when the lightkeeper had his suspicions regarding the boat, one of the settlers was sworn in to go in pursuit, and had with him one assistant, who knew and could identify it. After rowing and cruising around all day, a boat was seen in the vicinity of Boot Bay just upon dusk, but upon coming up to it the boat was not believed to be the one in question, and therefore the man was left unmolested. At that time news had not arrived that a boat had been taken.
