Another Big Scoop in Women's Jackets.

Our quitting time for these Jackets has come. We have no fault to find with the goods; they are as stylish and up-to-date as any Spring Jacket we have in stock. But we can use their space to better advantage, so we are going to let them go at a ridiculously low price.

$4.00, $5.00 and $6.00 Spring Jackets for $1.50.

Exactly 416 garments in this interesting lot, which comprises:

Women's New Spring Jackets, all first-class garments, made of box and covert cloths, chiefly in a fawn shade, with a few blacks, browns and greens; the sizes run from 32 to 42 bust measure; they were made by us to sell at $4.00, $5.00 and $6.00. On Tuesday morning while they last our price will be..... **1.50.**

Bicycles.

For your outing on the 24th a good, easy running wheel will add to your pleasure. If you are thinking of a new one come in and see our

Norseman Bicycles at $25

or the

Daycycle Bicycle at $35.

Both wheels are strictly up-to-date and fully guaranteed. We can recommend them to you, and you know by this time what an Eaton recommendation means. Come and see for yourself and don't buy unless you're satisfied it is to your advantage to do so.

Are you wanting any Bicycle Parts or Sundries? If so this list may interest you:

SAD AND SUDDEN DEATHS

Three Residents of Toronto Taken Off Without a Moment's Warning of the End.

MR. M. J. RYAN DIES IN HIS STORE.

Miss Clinkunbroomer Dies in Five Minutes — James Fudge Succumbs in the Hospital.

Between 7 and 8 o'clock last night some pedestrians while passing a store at 574 Yonge-street were startled by hearing moans coming from inside the door. On making an investigation they found Michael J. Ryan, the storekeeper, in a helpless condition, and suffering great pain. P. C. Montgomery was called and remained with the man while a message was sent to Dr. Aymot. Before the physician arrived, however, Ryan died. Dr. Amyot gave it as his opinion that death resulted from heart failure, and decided that an inquest was unnecessary. The deceased had for some time prior to his death suffered from heart trouble. Mr. Ryan was 60 years of age, and a shoemaker by trade. He leaves a widow and a grown up family. The members of the family were at church when Mr. Ryan was taken ill. He was making his way to the street for assistance when found.

Died in Five Minutes.

Death came suddenly to Miss Fair Ethel Clinkunbroomer on Saturday afternoon at her late home, 34 Dundas-street. Deceased was about the house and was apparently in the best of health up till five minutes before she died. While walking to the kitchen she was taken ill, and before medical aid arrived was dead. Miss Clinkunbroomer was in her 20th year, and was the daughter of Mr. James H. Clinkunbroomer. She was a member of Christ Church, and also of the choir. Deceased attended choir practice on Friday night. The funeral will take place to-morrow at 2.30 p.m. to St. James' Cemetery.

Sank Away and Died.

James Fudge was taken suddenly ill on Saturday night at his boarding-house, 407 Parliament-street. A physician was summoned who ordered the removal of the sick man to Grace Hospital. Shortly after his admittance to the institution he began to sink, and early yesterday morning died. His death was caused by heart failure. Fudge was about 25 years of age, and was well-known in the city.

HERO OF MAFEKING.

In the Splendid Fireworks at Hanlan's Point on Thursday Evening Next.

The hero of the relief of Mafeking, the valiant Baden-Powell, will be celebrated in the magnificent fireworks display at Hanlan's Point on the evening of the Queen's Birthday. All classes of the citizens will unite with the commanding officers of the three city regiments to make the evening worthy of Her Majesty's glorious anniversary. The fireworks will, in addition to many other features, include colossal fire portraits of Queen Victoria, Lord Roberts, Col. Baden-Powell and our own Col. Otter. "Our Boys at the Front," or a scene in the camp of the Canadians after the battle of Paardeberg, will be presented by 200 men in uniform, with the assistance of the massed bands. The moving pictures and the illustrated patriotic songs will both be of a novel and inspiring character, while the three bands will add greatly to the effect of the evening; the entire proceeds of which will go to the rifle fund.

The reserved seat plan opens to-morrow morning at Nordheimers'.

The celebration will conclude a splendid day at Hanlan's Point, where the free balloon ascension with a parachute drop from the clouds, the free Punch and Judy Shows, the new English maze and the trained birds and animals of Prof. Samwell's will interest old and young alike.

THE PEOPLE AND POLITICAL MORALITY.

Towards the close of his arraignment of the Government for its refusal to refer the West Huron and Brockville scandals to the Privileges and Elections Committee, Mr. E. B. Osler expressed his apprehension that it was possible that the poison of corruption had affected more than the members of the Government, that it had even affected a section of the people and had degraded and disgraced the whole country. He hoped not, however, and that the people would place themselves on record against corruption at the next general election. We are sorry to make the statement, but it looks as if the political morality of the people of this country is being undermined. The newspapers are flooded with the details of political corruption. The Legislature and House of Commons are the centres of prolonged discussions on political scandals. The railways and other big franchise corporations are up to their neck in the work of corrupting and mesmerizing the people's representatives. With the country in the possession of the politicians and corporation magnates, dividing the people's heritage between themselves, little wonder if the rank and file of the people become tainted. More than any one else the corporations are responsible for the wave of corruption that has overtaken the country. The source of the corruption evil is the money which they advance for the privileges obtained from the Governments. There never was a time when so much money was put up to demoralize the public as during the past four or five years. The Ontario Government has done little else during that time than grant valuable franchises and defend itself from never-ending charges of corruption. Almost as bad a state of affairs has prevailed at Ottawa. No business proceeds. The Government spends all its time in dodging charges in connection with mining, railway and other deals and election scandals. In spite of the temptations to which they are subjected, the people are honest. The closer the people can be brought into contact with the legislation that affects them, the more will corruption be eliminated from politics. The people at heart are not only honest, but it is in their interest to have the Government carried on honestly. The safety of the country lies in this great fact. It is in the interest of the people at large to have their heritage preserved, to have all public services conducted economically, to retain control of all public franchises. This principle is the substratum of the politics of the coming century. The people will pronounce directly on the issues of the day. The politicians and the corporations will not be allowed to help themselves first and leave for the public the remains of the feast.

HOW OUR PUBLIC OFFICIALS ARE APPOINTED.

It is interesting to observe how appointments to the Ontario Civil Service are made under the Ross regime. If the proper system were followed in making appointments, the official would be selected according to his qualification and ability. This practice, however, has never been followed. The selection for local offices has hitherto been left with the member representing the constituency in which the appointment is to be made, or with the defeated candidate, if the constituency is not represented by a Government supporter. Under Premier Ross, the system of making appointments has still further deteriorated. Now-a-days appointments to responsible offices are made by the local machines. The Peel Banner shows how the machine of that county has usurped the functions of the Government in this respect. We quote from its last issue:

Next Tuesday the Liberals of Peel constituting the Executive Committee will meet in Brampton to select a nominee for the vacant office of registrar of the Surrogate Court. The claims of the gentleman thus chosen will then, if the usual course is pursued, be laid before the Ontario Government by our member, Mr. John Smith, when, in all likelihood, the choice of the committee will be appointed. The candidates in the field are Arch. McKechnie, barrister; William Porter, farmer; R. H. Hodgson, druggist; R. H. Pringle, barrister, and J. B. Dixon, lawyer without credentials. During the past week there has been a lively canvass going on, and some of the executive never had so many warm visitors a day within their recollection. We believe the contest has been carried on in a proper spirit, with each candidate prepared to bow to the decision of the committee. It can safely be said that, whoever of the candidates secures the coveted position, the harmony existing in the Liberal forces will not be disturbed.

When the Government delegates to a local political machine the responsibility for making appointments to important offices, it is surely time that it went out of business altogether.

ST. LAWRENCE MARKET IMPROVEMENTS.

While the St. Lawrence Market improvement is under reconsideration, attention should be paid to the recommendation of the Transportation Committee of the Board of Trade to equip the market with adequate accommodation for trolley and steam cars, and for the handling of produce by boat. The project was originally launched on too small a scale. The hitch that has occurred in reference to the plans will not have been unproductive of good if it results in a reconsideration of the project, and in provision being made for the great business that will develop at the market in course of the next ten years. We should look ahead, and provide for the future. Between boats, trolleys, steam cars, wagons and automobiles, it is possible to concentrate an immense business at St. Lawrence Market. The market should contain adequate facilities for all these. We can hardly err in making the market too large, or the accommodation too extensive. Whatever building we put up, it is likely to be overtaken by the increasing business within a few years.

S. Ackerman, commercial traveler, Belleville, writes: "Some years ago I used Dr. Thomas' Eclectric Oil for Inflammatory Rheumatism, and three bottles effected a complete cure. I was the whole of one summer unable to move without crutches, and every movement caused excruciating pains. I am now out on the road and exposed to all kinds of weather, but have never been troubled with rheumatism since. I, however, keep a bottle of Dr. Thomas' Oil on hand, and I always recommend it to others, as it did so much for me. ed

WOMAN'S PLUCK WINS.

A Lady Who Cured Her Husband of the Liquor Habit Writes a Pathetic Letter.

She writes: "I had for a long time been thinking of trying the Samaria Prescription treatment on my husband for his drinking habits, but I was afraid he would discover that I was giving him medicine, and the thought unnerved me. I hesitated for nearly a week, but one day when he came home very much intoxicated and his week's salary nearly all spent, I threw off all fear and determined to make an effort to save our home from the ruin I saw coming, at all hazards. I sent for your Samaria Prescription and put it in his coffee as directed next morning, and watched and prayed for the result. At noon I gave him more, and also at supper. He never suspected a thing, and I then boldly kept right on giving it regularly, as I had discovered something that set every nerve in my body tingling with hope and happiness, and I could see a bright future spread out before me—a peaceful, happy home, a share in the good things of life, an attentive, loving husband, comforts, and everything else dear to a woman's heart, for my husband had told me that whiskey was vile stuff, and he was taking a dislike to it. It was only too true, for before I had given him the full course he had stopped drinking altogether, but I kept giving the medicine till it was gone, and then sent for another lot to have on hand if he should relapse, as he had done from his promises before. He never has, and I am writing you this letter to tell you how thankful I am. I honestly believe it will cure the worst cases."

A pamphlet in plain, sealed envelope sent free, giving testimonials and full information, with directions how to take or administer Samaria Prescription. Correspondence considered sacredly confidential. Address The Samaria Remedy Co., 23 Jordan street, Toronto, Ont.

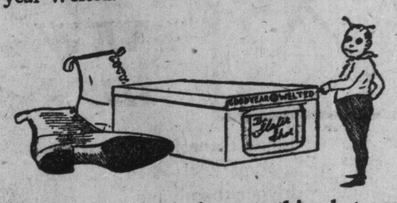
"How can I tell when I am getting a pair of genuine Goodyear Welted shoes?"

A very small fraction of the shoes, made outside the Slater Shoe Factory in Canada, are really Goodyear Welted.



Also a very large proportion of shoes that look like Goodyear Welted are anything but genuine.

It is almost impossible to tell the difference on the outside between a hand sewn shoe, and a Goodyear Welt.

Likewise few men can tell (except by wearing) a "fair stitched" shoe or an imitation Goodyear Welt—of which there are many—from the genuine.

How then is the wearer to have an absolute guarantee that his shoes are Goodyear Welted—having all the comfort of smooth flexible soles, and durability found only in the real?

By wearing only the stamped-on-the-sole "Slater Shoes" made exclusively by the Genuine, New and Improved Goodyear Welt process.

Soles stamped with maker's name and price $3.50 and $5.00 per pair.

Write for Catalogue. It's free for the Asking. "THE SLATER SHOE."

The Gear Is Inside
The Sterling Chainless models have the gear wheel between the crank axle bearings. The result is that there is no undue wear on the right bearing of the crank-shaft.
The bracket may be made much lighter, because there is no side twist, as the gear is near the centre, not at the extreme end of the bracket.
Every ounce applied to the pedals reaches the rear rim, as there is no "give" to the Sterling frame with the inside gear. Let us show it.

It Runs Without Sound
You can ride the Monarch Chainless without feeling any pedal-vibration from the gears. The gears may be separated or drawn closer together with the greatest ease. All the Monarch adjustments are made from the outside of the wheel.
The gear teeth are so scientifically cut that they run without sound. They are hardened, and will not wear out quickly. The Monarch Chainless is perfect.
Come in and see it.

The Standard Chainless
We have twelve chainless bicycles among the National wheels, and the Columbia Chainless is the Standard.
The large gear wheel is always true. It is the hardest gearing to make in all chainless wheels. But in the Columbia Chainless it is of such a shape that in tempering it shrinks into its proper scientific form. And it is absolutely perpendicular to the crankhanger.
All parts are protected from dust. It needs no graphite. It is always clean.

Just Half the Wear
In E. & D. four-point bearings the load cannot give itself any leverage, as the bearings only carry the load in a direct line from axle to hub.
The pressure on the E. & D. four-point bearings is divided in each bearing between two points, while in ordinary bearings it all comes on one point. In the E. & D. four-point bearing, as compared with the best bearing of any other type, the pressure is just half. Just half the pressure. Just half the wear.
E. & D. National locally-guaranteed four-point wheels, $60. E. & D. specials, $40. Ladies' and Men's models.
