

For the week ending May 31st, the Wm. Davies Co., Toronto, will pay \$7.00 per cwt. for select bacon hogs, \$6.75 for lights, and \$6.75 for fats.

The Trade Bulletin's London cable of May 22nd, re Canadian bacon, reads thus: "The market is weak and lower under increased offerings, and prices here and in Liverpool have declined 2s per cwt."

Horses

The races interferred somewhat with the horse market here at the end of the week. Sales at Grand's were well attended, but not by buyers. Most of those present being visitors to the races. About 75 horses in all were sold during the week. Prices in most cases, were lower than the week previous. This is the season, however, when trade slackens and prices fall off somewhat. Good heavy draft horses sold at from \$135 to \$180 each, or \$10 to \$20 lower than the week previous. General purpose horses sold at from \$100 to \$140 each.

The Horse Blew First.

An Irish horse owner whose horse had been prescribed for by a veterinary surgeon ran into the latter's office, and, with tears in his eyes and his face the "pitchur of bad luck," cried: "Oh, Mr. Moriarity, I'm poorly. The powder's kilt me entirely!"

"The powder!" cried Mr. Moriarity. "Why, I didn't tell you to take the powder, I told you to place it in a paper tube and put one end in the horse's mouth and blow hard."

"Yes, sorr," cried Pat. "I put the powder in the chube, and I put the end of it in the horse's mouth, with the other end in my own, but, begorra! he blew first."—London Answers.

Four Reasons Why
The U.S. CREAM SEPARATOR
Will Pay for Itself Every Year.

First.—You can get all the cream out of the milk; which is not the case with other systems.

Second.—Separator cream sells for more than hand-skimmed cream, and butter from separator cream sells for more than from hand-skimmed.

Third.—The skim-milk, while fresh, warm and sweet, is worth three or four times as much to feed to your calves and pigs.

Fourth.—Time and labor is saved by not having to wash so many milk pans; which makes it much easier for the women of the house.

The U.S. SEPARATOR saves in actual cash results \$10.00 or more per cow per year, and makes dairy work a source of profit and satisfaction, instead of unending drudgery.
