MC 2035

BRIEF SESSION OF LEGISLATURE

Fredericton, N.B., March 24.—After a short meeting of the legislature this afternoon the sittings were adjourned for the Easter vacation. Business is to be resumed on Tuesday when the committee on municipalities is to meet at 8 o'clock and the legislature at 8.30 p.m.

In committee this afternoon several amendments to the act governing the construction of roads under federal aid were agreed to.

A bill to increase the fees paid for persons from New Brunswick, attending the Halifax School for the Blind also passed the committee stage.

Hon. C. W. Robinson introduced a bill for the consolidation of the game laws for approval. He suggested that a game refuge might be established in the Caanan section, as well as in the northern part of the province.

R. T. Hayes of St. John, occupied the chair while the house was in committee.

The public accounts committee was given the privilege of sitting while the house is in session.

Several notices of enquiry were made returnable on Wednesday.

Federal Aid.

The house went into committee with Mr. Hayes in the chair, and agreed to a bill respecting the education of the blind, and also to a bill in amendment of the act providing for the construction of highways under federal aid.

Hon. Mr. Veniot explained that the purpose of the latter bill was merely to change the manner of procedure with respect to the borrowing of money for highway improvement. Under the old act it was set forth that money should be borrowed before July 1, and some had taken the ground that loans could not be made after that date. Under the amendment the borrowing power would date from and include the year 1919. It would not be necessary to borrow the whole $350,000 in one year, but if that sum was not all borrowed it could be procured the following year, if necessary, to meet federal aid conditions. The amendment gave no additional borrowing power.

U. S. NOT TO TRADE WITH RUSSIA YET

Washington, March 25—The United States government notified the Soviet authorities in Russia today that resumption of trade between Russia and the United States could not be considered until fundamental changes had been made in the economic situation underlying the Soviet regime.

Safety of human life, guarantee of property rights, free labor and observance of the sancity of contracts were among the requirements laid down in a brief note by Secretary of State Hughes as essential if the doors of commerce between the two countries are once more to be opened.

The note was in reply to the appeal recently addressed by the Soviet regime to President Harding and congress, asking that trade relations be restored.

Commercial Traveler—"My love for you, my dear Louisa, exceeds anything that can be offered in that particular line!"—Strix, Stockholf.

To make larger loaves from the same quantity of flour, and more loaves per barrel, use Purity Flour, the flour with the full strength of Western Canada Wheat.

Just as good for cakes and pastry as it is for bread.

GEN. JOHN J. PERSHING.

Fourteen thousand people jammed Madison Square Garden, New York, and cheered General Pershing's denunciations of propagandists whose aim is to breed dissensions between the United States and her allies in the great war.

DON'T BE AFRAID.

The greatest enemy of the human race is Fear.

If we could banish Fear in all its forms, it would mean more to civilization than any previous step in evolution. Health would be immeaursably improved, efficiency would be greatly increased, and success would be the rule. With the removal of Fair, would come real human brotherhood. True democracy would begin.

If you are not as well, as happy, as efficient or as successful as you would like to be, you may find the why in your Fears.

"As a man thinketh in his heart, so is he,"—physically, in disposition, and in circumstances. Fear-thought is toxic, destructive and harmful. Some forms of Fear-thought are worry, hatred, jealousy, despair, anger, melancholy, discouragement, depression, confusion, negativeness, nervousness, fretfulness, self-consciousness, lack of self-confidence and foreboding.

Faith is the antidote. Faith opposes fear through such forms of thinking as love, optimism, peace, harmony, poise, courage, determination, self-confidence, strength and wholesomeness. Faith is harmonizing, revivifying and healing.

Fear of failure is also caused by not thinking well enough of one's self. To banish this and all other forms of fear, one needs another kind of thinking. Replace Fear-thoughts with Faith-thoughts, and systematically cultivate the new line of thinking until it gets to be a habit.

Take a mental inventory today! Seek out your hidden mental weaknesses, and expose them to the light of fearless analysis. Get to work upon your Fears and run them out. Flood your whole mental region with Faith.

Repeat daily and the results will amaze you.—C. Fillmore Leavitt, M. D., in Forbes Magazine (N. Y.)

Several new members were initiated at the regular meeting of the Civic Employes' Union, No. 16576, held in the Trades and Labor Council hall in Union street, Thursday night. The meeting was largely attended and after the routine business was disposed of an open session was held at which Messrs. Varley, Thomas, Tighe and Campbell addressed the members. James McCarthy president of the union, was in the chair

"Contains more flesh forming matter than beef."

Baker's Cocoa is for robust men

and all who must have a great deal of tissue building material to repair the waste caused by physical and mental labor. It is delicious, pure and wholesome, and is made by a perfect mechanical process, without the use of chemicals, so preserving the exquisite flavor, aroma and color of the high grade cocoa beans.

Don't throw away leaky Pots and Pans

A pot or kettle isn't done when it springs a leak. Right in your own kitchen, with no tools but your own fingers, you can remedy that leak and give a new lease of life to the utensil.

Less than a cent's worth of *Vol-Peek* is sufficient to make a thorough, lasting repair to any kitchen utensil—granite, enamel, tin, brass, copper, iron or aluminum ware.

The size of the hole makes no difference—*Vol-Peek* is soft and plastic as putty. Heated for two minutes, it becomes as hard as iron. Have a package always in the house in case of emergencies.

In packets at your dealer's for 25c, or direct from us.
