The American Watch Company at Waltham employs four hundred and fifty workmen.

Heber Kimball, the second President of the Mormon Church, died at Salt Lake on Tuesday.

The Pacific Railroad has contracted to bring 40,000 Texas cattle to St. Louis during the next two months.

A shingling machine has been invented by a Massachusetts man, by which two laborers can cut forty thousand shingles per day.

More than 20,000 applications have been made for cards of admission to the U. States Democratic National Convention.

One of the Southern republican papers praises Mr. Colfax, and says he controls the House with as much ease and grace "as Gottschalk would thread the keys of a piano in a dreamy maze of faultless, quivering melody."

ENGLAND gives Longfellow a reception no less enthusiastic that that with which America lately greeted Charles Dickens.

The tree planted by the Prince of Wales in Central Park, New York, long supposed to be dead, is sprouting vigorously, and has evidently taken a new lease of life.

They have just received in Portland, Me., the largest sweet potatoe ever raised on the Island of Cuba. This monster weighs 40 lbs., is 24 inches in diameter, and 29 in circumference.

The manufacture of buttons from vegetable ivory is carried on extensively at the present time in Springfield, Mass.—There are four factories manufacturing them, and they employ about two hundred persons.

The Mississippi river is depositing a sand bar in front of the Northern part of St. Louis, which threatens to make that city inaccessible for considerable vessels, the channel tending more and more towards the Illinois side of the river.

HUNGRY CUSTOMER.—"Here, waiter, bring me another knife, I can't cutanything with this." Honest waiter—"Beg pardon, sir, but we never sharpen the knives for the sixpenny plates."

THE FENIANS.—The *Minerve* (Government organ) of Montreal, says that the Government has private information that the Fenians are really preparing to invade Canada at an early day; that a movement is to take place simultaneously on the whole border; that several cannons have passed Burlington, going towards Rouse's Point, and that the Fenians are arriving at every point in small bands.

Almost every farmer in Kansas is planting sweet potatoes this season.

The States' excise tax on whiskey is to be reduced to fifty cents per gallon.

THE REBELLION IN MEXICO.

HAVANA, June 26.—A battle had taken place between the Mexican national forces and the revolutionists under Aurelieus Rivera. The commander of the Government forces was lassoed an'l killed during the engagement, but the Juaristaclaim the victory. A band of revolutionists, commanded by Guillotes, gainedn success over the forces sent out against them in Guarajuato. Therevoltionary movement at Serra Gorda was increasing, the leader had offered the command of the forces to Gen. Escobado. The official journal of Jaliscoges, in the condemnation of the Government of that State, by the National Congress, makes an attack upon State sovereignty which threatens the existence of republican institutions. A revolution was expected to break out in the State in consequence of this treatment.

EGYPT.—Special telegrams, dated Alexandria, Egypt, announce that Major-Gen. Sir Robert Napier had arrived in that city from the scene of his late war operations in Abyssinia. Gen. HUNGARY.—Prince Napoleon, who arrived at Pesth from Vienna last week, after a brief stay, left for Constantinople. It is believed that a visit to the Sultan is the object of his present tour.

"GENERAL O'NALE" STILL AT LARGE It appears that the telegram from Buffalo stating that O'Neil had decamped with the Fenian funds, turns out to be untrue. A few days since he was found holding a State convention in Vermont, where, one report says, there was a very slim attendance, and but little enthusiasm, while another reports it as large and enthusiastic. O'Neil said in his speech that was the last time he would speak in public.—"The time had now come for work."

If a person faints place him instantly flat on the floor, or bed on his back, and let him lie quietly for ten minutes or so, it is simply a fainting fit, and the blood flowing on a level will speedily equalize itself through the system. TWO QUESTIONS EASLY ANSWERED.—Why should men wear beards? Because they are a great protection to the throat and lungs, and add much to their personal appearance.

Why should we use "Bryan's Pulmonic Wafers?" Because when used for coughs, colds, tickling in the throat, Hoarseness, &c., they set like a charm. Ministers and Lawyers use them, physicians recommend them, and singers and public speakers say they are the very best medicine in existence for the cure of such complaints. Sold by all medicine dealers, at 25 cts per box.

JULY.

THAT'S about it. When we are constantly receiving information concerning any thing our attention is naturally attracted to that point, and if an article is genuine its praise will loudly echo, this accounts for the enormous sales of the Great Shoshonees Remedy. It is recommended for diseases of the Throat, Lungs, Liver, Stomach, Kidneys, &c., and being surpassingly genuine it cures them, consequently its praise is sounded.

Perry Davis' Pain Killer.

We clip the following from the *Providence General Advertiser:*

"At this season of the year when cholera, cholera morbus, dystentery, and other kindred complaints are sure to prevail, everybody should be liberally supplied with Perry Davis' Vegetable Pain Killer. Persons leaving home, whether it be for a days excursion or a trip to Europe, should be in a position to place their hands on it in a moment's warning. Many diseases in incident to the summer months, which will prove fatal if not immediately checked, can be promptly cured by one or two doses of the Pain Killer. On more than one occasion have we been relieved of intense suffering by the timely use of the above named preparation."

MOTHERS, READ THIS!—HOLLOWAY'S WORM LOZENGES are a certain and safe remedy for Worms in Children and Adults.—As it is a well-known and melancholy fact that one great cause of death among children is from Worms alone, it cannot be too deeply impressed upon the minds of parents the necessity of closely watching their children. By so doing, and understanding the symptoms and true cause of the disease, thousands of children might be saved from early graves. SYMPTOMS OF WORMS:—The following are a few of the very numerous symptoms of diseases which are caused by Worms: Deranged appetite, emaciated extremities, offensive breath, frequent picking at the nose, grinding of the teeth during sleep, hardness of the belly, with frequent slimy stools, and sometimes convulsive fits; pain in the head and stomach, unquiet sleep, faintings, trembling, doughs, indigestion, low spirits, frightful dreams, and a gradual wasting away of flesh.

They are palatable and self-administered to the child—drive out the worms thoroughly without pain and completely cleanse the stomach—thereby doing away with the necessity of administering Castor Oil or other unpleasant cathartics—as in the use of other Worm Medicines.

☞ Each box contains the fac-simile signature of NORTHROP & LYMAN, Newcastle Ontario, who are the sole proprietors.
