CAMP OF INSTRUCTION.—Not desiring to prevent the public discussion of any subject that may be reasonably thought to require ventilation, we publish the letter of "Private" in another column. We think the volunteers should consider that those camps were intended, and are in some degree not badly calculated, to prepare and educate them for the exigencies of actual warfare, and that they should not be too ready to find fault. The grievances insisted on by "Private" may at the same time have existed. The bread discovered, on the breaking up of camp, within the lines of some battalions, (not the 33rd we believe) sometimes to the extent of a dozen loaves in a tent, indicated plainly that if some companies were short, members of others had helped themselves to more than their share. We certainly think the government allowance might be judiciously altered in some of its ingredients, without increasing the cost. One thing is certain, Canada cannot support a standing army and there is no doubt if the active militia cannot be maintained by voluntary patriotism, the Swiss or Prussian system will have to be adopted, when every male citizen will have to put in his term of drill.

HORTICULTURAL.—The Regular monthly meeting of the Goderich Horticultural Society will be held in the Grand Jury Room, in the Court House, on Tuesday, 4th July at 7.30 p. m.

FREEMAN'S MINSTRELS and Female Brass Band will perform in Crabb's Hall on the evening of Saturday 1st July, for one night only. Give them a crowd.

HALF-YEARLY SCHOOL REPORTS.—Mr. J. R. Miller requests us to inform teachers that half-yearly School Reports now require, by law, to be sent in to the County Inspectors, by whom they are forwarded to the Department.

EARLY ROSE.—Mr. Cassady showed us a far-advanced specimen of the Early Rose Potato—a dozen well-grown tubers, the product of one seed.

THE COLORA POTATO BEETLE.—The wingless insect we last week mentioned having seen, as making such ravages in potato patches around here, is evidently the larva of the Colorado beetle. The devouring creature can be seen now in all stages of development in the gardens of Capt. James Thomson and of Mr. Simmons, Maitlandville. The winged specimen corresponds exactly with the *Globe's* description.

A gentleman who carried around the contribution box the other Sunday, carried it conspicuously in his hand a large bank bill as a decoy. When he got to his seat he returned it to his wallet.

USEFUL INFORMATION.—It is said that olive oil administered internally is an excellent remedy for the gout, and is also beneficial in paralysis and epilepsy; but for the cure of rheumatism, neuralgia, colds and colic, and the removal of pain generally, there is nothing like the "Canadian Pain Destroyer," it is the most reliable remedy. For sale by Druggists and country dealers. Price 25 cents per bottle.

The blood owes its red color to minute globules which float in that fluid, and contain, in a healthy person, a large amount of Iron, which gives vitality to the blood. The Peruvian Syrup supplies the blood with this vital element, and gives strength and vigor to the whole system.

UNFAILING EYE PRESERVERS.

Lazarus, Morris & Co.

Celebrated Perfected Spectacles and Eye Glasses.

THE CELEBRATED PERFECTED SPECTACLES were introduced to the public of the Dominion of Canada since the 24th March, 1867, during which period they have met with a success unequalled by any other Spectacle since the discovery of the use of Lenses; not only do we imagine that this famous Spectacle will be adopted by every person on the Continent of America needing Optical aid but that they will no doubt find their way to the remotest corners of the Globe, and this is due solely to their merit which no other Spectacles possess, and like all good useful inventions, will have to contend with unscrupulous imitators pretending to have similar goods for sale. It is admitted that a well fitting pair of Spectacles is one of the greatest boons which can be conferred upon those requiring them. How to select the most perfect should be used, as by that means the fatigue which the wearers of ordinary Spectacles experience is avoided.

We have spared neither expense nor labor to produce these justly Celebrated Spectacles and Eye Glasses; having adopted all the improvements which science discovered, and art perfected; thus combining the acme of transparency with the greatest accuracy of Focus in the Lenses, being mounted in the most durable frames of Gold, Silver, Shell and Steel of the finest finish and form.

Oculists, Surgeons and the Medical profession can always procure our Agents, Cataract, Cylindrical and Prismatic Lenses both concave and convex, ground with scientific accuracy, and always correctly focused.

We take occasion to caution the public against those pretending to have our goods for sale, as we only supply authorized resident Agents. We have established the agency for the sale of our Celebrated Perfected Spectacles and Eye Glasses with

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys is derived from its extraordinary cures of those alarming maladies which are truly marvellous. Prominent among these are cases of scrofulous disease, some of the worst cases, where the system seemed entirely rotten with corruption, have been purified and cured by this medicine, which has proved itself a potent remedy for scrofula in all its forms. Hundreds of cures, which are well known in this community, have been made by it, and many others, equally as decisive, are on record in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matter in the blood, yield quickly to it, as also *Liver Complaints, Dyspepsia or Indigestion* or *Inflammation of the Liver*, and *Jaundice*, when arising, as they often do, from the same cause, viz., the blood. This *SARSAPARILLA* is a great restorer for the strength of the system. Those who are *Languid, Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions* or *Fears*, will find in it a speedy cure of the affections symptomatic of *Weakness*, and immediate relief and convincing evidence of its restorative power upon trial.
