TIGHT BINDING
RELIURE TROP RIGIDE

they know not what name is upon it and are as liable to vote for the man they do not want as for the one of their choice. It depends greatly upon who gets hold of them to the ballot-box.

One thing can be said relative to the conduct of the people of Gloucester during the excitement just ended, that is, the good order at the polling booths, no quarrelling or fighting to speak of, and comparatively few persons under the influence of strong drink, in fact this County with its large French population (among whom in other parts we generally find many addicted to this evil habit) is well deserving the name of a temperance Country. Several Divisions of the order of Sons of Temperance exist and are in a flourishing condition. The priests have done a good work among the Catholic population in teaching them the evils of intemperance and inducing them to forsake the habit so destructive to their best interests. The crops are looking well—the whole country has put on a beautiful garb and all nature speaks in anthems of praise to Him who so bountifully bestows and gives us a capacity to enjoy his blessings.

Yours truly,

TRAVELLER.

The news of the week is very uninteresting. No new battles have been fought, while correct reports show that the affair at Booonville was a very insignificant, and that the loss on both sides did not exceed eight. The two contending armies judiciously avoid a battles; meanwhile portions of the press in both sections are severely criticizing the management of the war by their respective governments. The Northerners so far as we can judge by their press religious and secular, are becoming better satisfied with the attitude of Great Britain. They assume that she has become terrified by the manifestations of Northern power and spirit, and though willing to aid the South yet dare not do so. One thing however according to the Herald is regarded of her.

We are gratified at these manifestations from England of a progressive reaction in favour of the integrity of this Union. But a perfectly satisfactory understanding with the British ministary will require something more. Her Majesty's proclamation of neutrality places our revolted and so-styled Confederate States, in the character of belligerents, on a footing of equality with the United States, which is insulting and extremely impertinent. With an equal show of fairness and good faith we could have recongnized in the Irish rebellion of 1848 a *de facto* government; or, most assuredly, we could have done this, and to some purpose, too, in the matter of the Canadian rebellion of 1837; but our government is ruled by higher dictates than those of a sordid selfishness and jealousy in its international relations. We are freely inclined to believe, too that England, where her greatest interests are at stake, has a soul above cotton; but to place herself in a proper attitude before the United States she must retract her recognition of the spurious government of our rebellious States as *de facto*, upon a footing of equality with the government at Washington.

The Boston Journal reports the capture of a foreign ship, laden with arms and ammunition.

A letter received at East Boston from Newport News, dated June 25, says that a prize valued at $600,000 had been captured and brought to Fortress Monroe a new clipper ship, with 40,000 stand of arms, a number of brass rifled cannon, and a large quantity of ammunition. She was captured by the Quaker City off Charleston harbour.

The above report is amply confirmed by an extract from a letter in the New Haven *Palladum*, from Lieut. Henry Benham of the Naval Brigade, dated Fortress Monroe, June 26, which states that there was a European ship captured and brought into that port for attempting to run the blockade at Charleston; also that she had 40.000 stand of arms, besides other freight which proved to be valuable.

The Government has been in expectation of the arrival of a large amount of war mateial destined for the Southern Confederacy, and it is very probable that the above prize in the same referred to by a writer from the Niagara, who says:

"We were detailed for the Northern Division of the blockading squadron at first, and it was only an absolute necessity of the Department that we were ordered away from Charleston for the purpose of systematizing the squadron in the Gulf, and to intercept the arms from Belgium for the Montgomery Government, which were to leave Bath about the 1st of May for Mobile or New Orleans. They have not yet arrived, but are now due ;50,000 stand are expected and looked for by the rebels. 'I would like to see them get 'em,' wouldn't you? We may be on our way North when the Mississippi arrives.

It was all wrong raising the blockade at Charleston, but imperatives orders *must* be obyed."

Marshal Kane has been arrested and a quantity of arms and ammunition have been discovered and seized by the authorities in Baltimore.

The vigorous search which has followed the arrest of Marshal Kane in Baltimore has resulted in the discovery of a large quantity of arms and ammunition in such places, and found to have been concealed under such circumstances, as to leave not the slightest doubt as to the treasonable intentions of the municipal officer whose career has been thus opportunely interrupted. The Baltimore American, from which we take the subjoined particulars, states that in an old back building, formerly occupied as the City Collector's office, arms and munitions of war were found to be concealed in great quantities, some of which were covered up under piles of coal, some under the floor, and others in localities where they were hidden from public inspection.

Up to the last account, the following were the articles discovered, which were being removed to Fort McHenry:

2 six-pound iron guns, 2 four-pound iron guns ½ ton assorted shont, ½ keg shot for steam gun 120 flint muskets, 2 Hall's carbines, 46 rifles, 3 double-barreled shot guns, 8 single-barreled shot guns, 9 horse pistols, 65 small pistols, 123 bullet moulds, 4 cwt. balls, 8 dirk knives, 5 swords, 8 kettle drums, 1 lot of screw drivers, 1 box musket cartridges, 33 gun coats, 4s copper flasks, 20 small flasks, 18 muskets, 117 canisters, 1 lot flannel bags, 12 old muskets, 15 Minie muskets, 44 Hall's carbines, 1 lot of slow matches, 48,000 percussion caps, 2 kegs ball cartridges, 100 rifle ball cartridges, 735 Hall's rifle cartridges 3162 round ball cartridges, 6520 long-ball Minie cartridges, 7 canister shot, 1 ball, twelve-pounder, labeled, "From Fort Sumter to Col. Kane."

In addition to the above arms, subsequent search disclosed the fact that twenty or thirty revolvers had been secreted between the ceiling and flooring of the second story, immediately in rear of the Detectives' room. The best of these arms, and some of the ammunition, have been recognized as part of those taken from the baggage car of the Matsachusetts regiment that was assaulted on Pratt street on the 19th of April.

UNIVERSITY APPOINTMENTS.—We understand that Professor Jack has been appointed by the Government, President of the University, and that the Senate have appointed Mr. G. M. Campbell, the Governor's private Secretary, to be Professor of Classics.

Weeting of Artists Agriculturalists &c.

The morning papers report an interesting meeting recently held in this city, with a view to make arrangements for making the approaching Exhibition in Sessex affective. Mr. Jardine acting as Chairman, and Mr. Barbour as Secretary, the following resolutions were adopted. We follow the report in the News.

Moved by D. S. Kerr, Esq., seconded by Mr. Milligan, and unanimously

Resolved, That for aiding the prosperity of Agriculture, enlarging the inducements for emigration, and advancing the welfare of the Province ingeneral, it is highly important to give every encouragement in our power, to such home manufactures and mechanical productions as are suited to the wants, capabilities, and conditions of the country.

Moved by J. D. M. Keator, Esq., and seconded by Mr. Betts, and unanimously

Resolved, That farmers, and all who feel an interest in the agricultural welfare of this Country, should employ their best efforts to make the Exhibition to be held in Sussex, as creditable as possible.

Moved by Mr. Archd. Rowan, seconded by Mr. Phillips, and unanimously

Resolved, That it is greatly for the interest, and should be the aim, of our mechanical operators to furnish at the Provincial Exhibition, to be held in Sussex in October next, productions of their skill and workmanship.

Moved by Mr. John Turnbull, seconded by Dr. Sharp, and unanimously

Resolved, That for developing the resources and promoting the prosperity of this rich and flourishing Province, and to bring its capabilities more prominently before the parent countries of Great Britain and Ireland, a vigoaous and united effort should be made to furnish, and forward to the Great Exhibition to be held in London in 1862, an extensive and well chosen selection of the natural and artificial, products of this country.

Moved by Mr. Warwick, seconded by Mr. Maher, and unanimously

Resolved, That for the more efficient carrying out of the preceding resolution, it is respectfully requested to all persons throughout the Province to bring to the early notice of the several local committees for each Country respectively, all productions within their knowledge and judgment, which may contribute to the object expressed in said resolution.

Moved by C. N. SKinner, Esq., second by D. S. Kerr, Esq., and unanimously.

Resolved, That the editors and proprietors of newspapers in the City of St. John and throughout the Province, are respectfully requested to noitce the resolutions, and proceedings of this meeting, and call public attention to the objects of it.

Mr. Stevens, Secretary to the Bord of Agriculture has sent a notice to American Mechanics that they are at liberty to send such articles as Farming implements, &c, to Sussex Vale for exhibition merely. Of course, these cannot take prizes, as only New Brunswick articles are qualified to do so.

We are pleased to observe that the Canada Steamship Company have permitted their steamers to carry any freight, in the shape of articles for the London Exhibition, at a reduced rate, and they promise to use every exertion to forward the same as rapidly as possible.—Col. Pres.

The Railway and our Visitors.

On Tuesday, there arrived by the "Eastern City," a number of gentlemen connected with the American Newspaper Press, and others, who were desirous of seeing for themselves, the inducements which this portion of the Continent can present to the travelling and pleasure seeking public. Among them were represented the Boston Journal, Advertiser, Traveller, the Portland Transcript, and Argus, Mr. Oglevie of the U. S. Coast Survey, Washington, Mr. Brown, the American paint &c. &c. The same evening, they were shown the sights about our City, and on Wednesday morning, accompanied by some of the members of the City Press, they took the Rail Cars for Shediac, some for Prince Edward's Island, and others for the North. At Rothsay, Hon. Joseph Howe joined the party, among whom were the Railway Commissioners, Capt. Coyle, Manager of the International Steamboat Co., the Railway Superintendent, &c. Our friends seemed delighted with the Railway—the country, and like the People they represent, they made many enquiries and copious notes, which when published, will, we think, place us in a better position before our neighbours of the States, and lead a portion of the travel, which never found its way here, to pass over our lines, benefitting us in our Steamboat, Hotel, and Railway interests to a large extent.

With no place were we more gladly surprised than with Shediac. It is many years since we were there, and the improvement caused by the Railway is very striking. Mills, stores, dwellings and Hotels, that would do credit to St. John are now there, and of the latter, we cannot allow

MR. WELDON'S HOTEL

to pass unnoticed. It is such a house as we had not expected to see there; large and airy—the table well provided—the attendance all that one could desire, presided over by Mrs. Weldon, one of the best managers in the Province—the Sea Bathing arrangements in connection so admirably adapted for health seekers—and all directly opposite the Station, We think that they are now on the high road to that fortune which their attention and industry must achieve.

To one worn out with the fatigue of City Life, its cares and harassing labours, we know few places presenting the advantages of Shediac, and few Hotels more admirably adapted to minister to their comfort than Weldon's.—[Albion.

The Election for the County of Restigouche was held on Monday last, but owing to the Telegraph wires being down, the result was not known until Thursday evening. The following is the state of the poll at its close:

McMillan,	365,
Montgomery,	269,
Phillips,	195,

This is the last county to be heard from, and let us hope that nothing will occur to render another general election necessary until the term of four years expires, as the excitement consequent upon such an event, is neither desirable nor profitable. We must say however that the quiet and good order which has prevailed throughout speaks well for our Province Progress is now the watchword, and that our province may enjoy a large measure of prosperity for the next four years. is our earnest wish.—[Albion.

COLLEGIATE SCHOOL.—The Head Quarters says the mid-summer Examination of this Institution took place on Wednesday in presence of his Honor the Master of the Rolls, the Rev. Dr. Brooke. Dr. Jack, Professor D'Avray, George M. Campbell. Esq., a large number of the relations of the pupils and other ladies and gentlemen of this city. The attendance was large, and the several classes underwent a very searching examination in the various branches of study, and acquitted themselves in the usual satisfactory manner.

THE REFORMER.—We understand the Divisions of the Sons of Temperance in Carleton County have passed resolutions expressing want of confidence in the *Reformer*, which will be laid before the Grand Division at its next session.—Other Divisions in the Province have pursued a similar course.—[Albion.

NEW PAPER.—We have received the first number of the "Temperance Banner," published by J. R & J. C. McCready. It makes a very good appearance, and if well conducted may claim the support of the Temperance community. We wish the publishers success.

....Kidder's Liniment is the best Remedy for Rheumatism, Gout, Strains, Sprains, Bruises, or any complaints where an external application is required.

Sold by all Druggists and Medicine dealers. 1y.

MARRIED.

On Tuesday, 4th June, at the Parish Church, Ulverston, Lancashire, (Eng.) by the Rev. W. Cockett, incumbent of St. John's Church, Upperby, near Carlisle, assisted by the Rev. T. Carter, M. A., curate, JOHN COWANS, Esq., Woodbank, near Carlisle, to JEANNIE C. STEVEN, daughter of the late SAMUEL STEVEN, Esq, St. John. New Brunswick, and niece of Thomas Roper, Esq., of Newland House, near Ulverston.

On Tuesday, the 25th ult., at Trinity Church, by the Rev. I. W. D. Gray, D. D., Rector of St. John, HENRY WILLIAM FRITH, Esq., Barrister at Law, to JANE LETITIA, only daughter of the Hon. W. B. KINNEAR.

On the 26th June, by the Rev. Mr. NcGhee, Rector of Sussex, Mr. WILLIAM D. AITKEN, of St. John, N. B., to SUSAN E., second daughter of J. H. LITTLEHALE, Esq., formerly of Carleton, N. B.

On the 1st inst, by the Rev. Samuel Robinson, Mr. John R. Cowan to Miss Elisa Ellen eldest daughter of Mr. H. O. D Phillips, all of this city.

DIED.

On the 23d ult., Mary Ann, the wife of James Gifford, of Mount Hope, Elgin, County Albert, deeply regretted by a large circle of friends. She was a sincere follower of the Saviour, an affectionate wife and mother, and a true and judicious friend.

ATTENTION FARMERS.
GREAT improvements in Mowing and Reaping Machines. Walter A. Wood's new Patent improved Mower, 1 and 2 Horse Machines, Walter A. Woods new Patent Mower and Reaper combined with self-Raking attachment Manny's new improved combined Reaper and Mower, with Woods improvement, allowing the whole Reaping apparatus to be taken off when used as a Mower. Also, Manny's old Patent combined Machine, ditto Mowing, like those sold here last season—at still lower prices—W. W. Hillman's new Patent Self-feeding Straw and Hay Cutting Machine, cheap, simple, and tight, and no danger of cutting fingers off. Archie Booth general Agent for the sale of Walter A. Woods' new Machines, Manufactured at Hoorick Falls, N. Y, is now in this Province, and would respectfully request the Farmers in St. John and its vicinity, to call and examine the Machines for themselves, as he fully believes they will be satisfied that we have made a decided improvement in the Machines for Mowing and Reaping, they being much tighter and securer. D. Manny having taken the highest premiums both in England, France, and the United States.
Wm. Golden & J. G. & W. Allen, of Fredericton, Isaac Burpee, of Sheffield, Messrs. E. & F. Williams of Gagetown. J. F. Masters, (Custom House Buildings,) St. John, George M. Fairweather, Sussex Vale, John Read, Moncton, are also acting as Agents, and when at their places of business, the above Machines can be examined. The Machines are warranted to perform all that is claimed for them.
ASAHEL BOOTH, General Agent
for W. A. WOOD.
St. John, N. B., June 12, 1861.

For sale by
may 22 HALL & FAIRWEATHER.

CELEBRATED PATENT DOUBLE ACTION FLEXURE SKIRTS.
BY the use of Joints in the hoops of a Skirt, a heavier and better quality of Steel can be used, giving to, and retaining in the Skirt, a more graceful and elegant form; while the flexibility of the joints prevent the bending and breaking of the Hoops under pressure, and brings them back to their original form when pressure is removed, also permits the Skirt to assume an easy position when the wearer is seated.
The quality of braid and the peculiar construction of the Skirt, adding so greatly to its durability, particularly commend it to the favor of those who desire to unite in their purchase Elegance, Convenience and Economy.
