United States.

WASHINGTON, Dec. 15.—The Senate has referred to the Committee on Finance President Johnson's Repudiation proposition in his annual message. The House on the same subject adopted the following resolutian with six dissenting votes:—

Resolved. That all forms and degrees of Repudiation of the national indebtedness are odious to the American people, and that under no circumstances will the representatives consent to offer the public creditor as a full compensation a less amount of money than that which the Government contracted to pay.

The weather is extremely cold at the West. The Illinoise river is reported frozen over its entire length, and the Missouri is supposed to be gorged a few miles above its mouth. The weather the past few days was colder than has been known at St. Louis in December for 32 years. The thermomster sank 14 below zero yesterday, and ranged trom 5 to 9 below last night.

The New York *Herald* says that the following is a list of public offices in that city, at present filled by Irishmen:

Sheriff, Register, Comptroller, City Chamberlain, Corporation Council, Police Commissioner, President of the Croton Board, Acting Mayor and President of the Board of Alderman, President of the Board of Councilmen, Clerk of the Common Council, Clerk of the Board of Councilmen, President of the Board of Supervisors, five Justices of the Courts of Record, all the Civil Justices, all but two of the Police Justices, all the Police Court Clerks, three out of four Coroners, two members of Congress, three of five State Senators, eighteen out of twenty-one members of Assembly, fourteen-nineteenths of the Common Council, and eight-tenths of the Supervisors."

THE HANGING OF RENO AND ANDERSON.—The United States Government had guaranteed the protection and safe return to Canada of Reno and Anderson, the men charged with Express robberies, *provided* that they were not convicted after a fair trial. It was on this condition they were surrendered. Now they have been hung by a mob. A Washington telegram of Sunday, the 13th, to a Boston paper, says:

"After returning from Church to-day Mr. Seward paid his respects to Mr. Thornton and explained the violent character of the proceedings in Indianana, and gave the British Ambassador every assurance that the Government of the United States would do its whole duty in the premises. Mr. Thornton bluntly replied that he could not exactly perceive what was to be done since the parties whose protection had been guaranteed by the United States had already been hung in violation of this pledge given. Mr. Seward has evidently another nice diplomatic question to settle before he retires from the Department of State."

The emperor of Russia has sent two civil engineers to study the plans and workings of the Pacific Railroad. He contemplates building a railroad from China across Asia; to the capital of Russia, his purpose being to prevent the United States, with its railroads and steamships from monopolizing the whole China trade.

European.

LONDON, Dec. 17.—Mr. Bright has accepted a position in the Cabinet, as President of the Board of Trade, and Mr. Laird had been appointed Commissioner of Public Works.

The *Times* says that Mr. Reverdy Johnson's assurance that the Alabama negotiations are closed, must be accepted, though with much surprise, seeing that he increased his demands after Lord Stanley had surrendered all that could be abandoned honorably. It regrets that so much has been made public about the negotiations.—The *Telegraph* thinks that Mr. Johnson would have fared better, had he been less zealous for peace. The *Standard* asks, if the Radical zeal for American interests will continue in the Government, now that Lord Clarendon is Foreign Secretary.

A despatch from Berlin, states that Prussian interests being strongly in favor of the peace of Europe, the Government has endeavored to induce Greece to comply with the demands of Turkey, so far as the demands are founded on international law. The probabilities of war between Turkey and Greece daily assume strength.

LONDON, Dec. 18.—The *Times* in an article on the impending war in the East holds that Greece is the aggressive party, because she ordered her vessels to fire upon all Turkich men of war, who might attempt to overhaul them. The *Times* thinks the powers will bring such pressure to bear upon the Greek Government that peace will be speedily restored.

The *Standard* and *Star* both attribute the outbreak in the East to the obstinacy of the European Powers in maintaining the statu quo of the Ottoman Empire.

The *Times* in an article on the recent proceedings in the American Congress, concerning the National credit, fears the ambiguity of purpose apparent in the resolutions against Repudiation, and argues that if the world was certain that the United States would surely pay the interest on the National debt in gold, as England and France do, the annual burden of the country might be reduced one half, for England pays no more interest in the aggregate than the United States, although the debt is twice as large.

The *Standard* exults in the completion of the Postal Treaty between England and the United States, as a triumph of the Tory party, and declares that the benefits conferred upon mankind by the convention are immeasurable.

QUEENSTOWN, Dec. 18.—Barque Advance, from Antwerp for St. John, N. B. was abandoned at sea; the crew were saved and landed at this port to-day.

LONDON, Dec. 18.—The Paris *Moniteur* regrets the breaking out of hostilities between Turkey and Greece, and hopes common action on the part of the Great Powers will shorten the duration and circumscribe the consequences of the rupture.

LONDON, Dec. 19.—It is officially announced that the Sultan has resolved to enforce his demand on Greece. Late advices from Athens state that the government has called out the military reserves of the country, and the mobilization of the national militia has been ordered. A battalion of students is forming at Athens, and ten battalions, composed of Greek subjects of the Sultan, are to be enrolled. It is said a command has been offered to Garibaldi. The instant invasion of Epirus is loudly urged. Great bitterness of feeling was shown against the admiral of the French fleet in the Pireus, who was extremely unpopular on account of the energetic demands he had made on the Greek government to preserve peace. The Greek government has despatched two men-of-war to Syria, to demand of Hobart Pasha that he shall not obstruct the free entrance of the harbor. Three foreign war vessels are at Syria, belonging respectfully to the French, the British, and the Russian navies.

The despatch from Paris last evening announces that the rumored sinking of the Greek steamer *Erosis* at Syria by Hobart Pasha, the Turish Admiral, is not officially confirmed. The latest despatch from Constantinople dated yesterday mentions that Hobart Pasha, at the request of the French Admiral in the Archipelago, would await orders from the Turkish Government before using coercion with the *Erosis*.

BRONCHITIS, COUGHS, ASTHMA,

and all disorders of the *Throat* and *Lungs*, are relieved by using 'Brown's Bronchial Troches.

"I have been afflicted with Bronchities during the past winter, and found no relief till I found your 'Bronchial Troches.'

H. GARDNER,
Principal of Roger's Female Institute.

"Almost instant relief in the distressing labour of breatuing peculiar to Asthma."

REV. A. C. EGGLESTON, New York.

"It gives me great pleasure to certify to the efficacy of your Bronchial Troches in an affection of the throat and voice, induced by public singing. They have suited my case exactly, relieving my Throat and clearing the voice so that I could sing with ease.

T. DUCHARME,
Chorister French Parish Church, Montreal.

"When somewhat hoarse from cold or over-exertion in public speaking, I have uniformly found Brown's Troches afford Relief.

Our next Volume.

We hope we need say nothing very urgent, in reminding our friends throughout the Provinces, that we greatly need a very considerable addition to our list of Subscribers for 1869. A large increase is required to make up for the many defaulters struck from our list during the past year; and then it will be borne in mind that in addition thereto, we ought to have at once several hundred new Subscribers, to make our Paper a good paying business.

The *Wesleyan* will be sent from date of order to the first of January next gratis, and postage paid, to all new subscribers paying in advance for 1869. The sooner we receive the names of new Subscribers, the better for all concerned.

☞ POSTAGE—TIMELY NOTICE. ☜

In prepaying the postage on the *Wesleyan* we have dealt with our Subscribers much more generously than could have been expected. But by order of Conference we are restricted from assuming this burden any further, except to those whose subscriptions are paid strictly in advance. This matter is not optional with us. We shall be obliged to adhere strictly to the regulations laid down. We therefore give notice to the ministers and agents, as well as to all our subscribers, that after the 31st of December we shall not in any case pay the postage on the *Wesleyan*, except for those whose advance payment has been received.

Baldness, not hereditary, is often produced by sickness or humors of the scalp, which dry up the hair producing glands or follicles and the hair falls out with what is generally called a "hair eater" at the end. The root is alive but dormant. To awake it to new energy and life some cooling or stimulating property is needed Ring's Vegetable Ambrosia is the preparation more universalle successful than any article in the market for this purpose.

SEASONABLE FESTIVITIES.

Whether attending, in solemn duty, to religious service, at the lecture, the concert, or at social gathering, we find at this period coughs and colds are very prevalent: unpleasant alike to those who suffer as well as to those who have aural demonstration of the fact. Many an impressive discourse, many a choice selection of music, has been marred by a din of coughing that seems at times contagious. To remedy this, our readers should use and recommend *Wistar's Balsam of Wild Cherry*, one of the best medicines in the world for Coughs, Colds, Bronchitis, and all throat and chest affections.—*Montreal Transcript.*

Prospectus for 1869

OF THE

Publications of John Dougall & Son,

MONTREAL.

THE phrase "GET THE BEST" has passed into a proverb, and all will agree that the best Family Paper is one that has something interesting and profitable for every member of the family, not excluding the children, and which includes within its scope all the best interests of humanity, temporal and eternal. Such a paper the MONTREAL WITNESS has aimed to be from its commencement, 23 years ago; and that the country was prepared for such an enterprise is shown by its success. The WITNESS in its three editions—'Daily,' 'Semi-Weekly,' and 'Weekly'—issues about 16 000 copies; and, consequently, reaches probably Eighty Thousand readers; but what are they out of a population of four millions, all of whom we desire to reach?

Our publications are as follows, and we respectfully call attention to their cheapness as well as quality, and ask all the friends of interesting and wholesome literature everywhere to aid us in extending their circulation. Nor will their circulation interfere with that of local papers, which are a necessity in their respective localities, and which are generally speaking, very meritorous:—

1.—The DAILY WITNESS contains as much reading matter as the ordinary Dailies, and of a choice quality, at about half the price, viz., $3 per annum. Besides being a first-class Family Paper, it is especially valuable to business men on account of its abundant commercial intelligence, prices current, &c.

2.—The MONTREAL WITNESS, Eight Pages, Semi-Weekly, $2 per annum, contains all that appears in the Daily, except part of the purely city matter and advertisements.

3.—The WEEKLY WITNESS, Eight Pages, $1 per annum, contains the greater part of the News, Contemporary Press, and Editorials of the SEMI-WEEKLY, with a portion of the Family-Reading and Prices Current.

4.—The CANADIAN MESSENGER, containing Eight Pages, is published twice a month, at the very low price of 37½c. per annum Postage paid; or Seven Copies for $2 to one address. It contains Religious, Temperance, Agricultural, Scientific, Educational matter, Stories for Children, &c., &c. This paper is recommended to the public generally, and it is hoped that its adaptation for circulation through Schools will greatly extend its usefulness. It has at present upwards of 20 000 subscribers, representing, probably, 100,000 readers, but at the very low price (namely, 25 cents per annum, Post-paid, if 100 copies are sent to one address), it is hoped that its circulation will greatly increase.

5.—The NEW DOMINION MONTHLY is a handsome Monthly Magazine, containing a rich selection of original and copied articles every month, together with one or more choice pieces of music, and pictorial illustrations. Price $1 per annum, Post-paid. This Magazine has been favorably noticed by nearly the entire Press of the Dominion.

The terms of all these publications are necessarily CASH IN ADVANCE, and *the periodicals are unvariably discontinued when the subscription expires.*

Any one who will kindly make up a club for the above publications to the value of $8, and remit the same Post-paid, in Bankable funds, will receive, if asked for at the time, the WEEKLY WITNESS or the NEW DOMINION MONTHLY gratis, and One Dollar's worth of our Publications for every additional Eight Dollars remitted for them in P. O. Money Order or Canadian Bills.

N B—Postmasters are authorized and requested to receive individual subscriptions in Silver (but not Club-Subscriptions), and convert the same into Bankable funds at our expense.

RAYMOND'S IMPROVED FAMILY SEWING MACHINE.

Price of Machine, with one set of needles, assorted sizes, clamp to fasten machine into table, hammer and screw driver, tucking guage, and full printed directions, by which any one can learn to use the machine without verbal instructions in one hour

$15.

Six years ago, Mr. Raymond, employed about seven or eight men in a small shop, and the average number of Machines made was about five or six per dieum. He now has two large manufactories, employs about sixty hands and turns out over forty machines daily, or more than twelve thousand per year.

They use only one reel, making the elastic chain stitch, which is considered by those who have used them to be the best for family use. This machine is equally adapted to all kinds of familiy sewing, fine or coarse; they will sew from one thickness of cambric, to four of heavy pilot cloth or overcoating; they use all kinds of thread, cotton, or silk, equally well, and for fine stitching they cannot be excelled. They can be attached to any table, and removed at pleasure.

Every Machine has the name—*Chas. Raymond, Patented, July* 30, 1861—stamped on the steel plate through which the needle works; and is warranted to give satisfaction; all machines kept in running order for one year free of cost, at the agency, by the undersigned, who has been employed in their manufacture nearly six years, thereby avoiding the expense of sending to the manufactory and back.

Duplicates prices of all parts of the machine kept on hand.

Beautiful iron stands or tables, to turn by foot, with varnished walnut top, and with fly wheel, treadle, belt, and drawer, can be had either with or without the machine—Price $7 00.

Needles constantly on hand at six cents each.

Mailed to any address on receipt of postage stamps.

Agents wanted, local and travelling, terms made known on application.

Any person having one of these Machines, broken, injured, or not giving satisfaction, purchased from any previous agent, can have it repaired, and put in good working order, by sending it to the office.

FORBES' PATENT ACME SKATES.

The only reliable and really self-fastening SKATE ever invented.

No cold Fingers, lost time, or cramped and lamed feet, but perfect comfort and unmitigated enjoyment of that delightful Winter Sport.

The Starr Manufacturing Company

have much pleasure in notifying the Skaters of N. Scotia and the Dominion generally, that having during the year entered upon the manufacture on a large scale of the above already widely celebrated and increasingly popular SKATES, they are prepared to supply them in any quantity.

It is needless to say anything in recommendation of this exceedingly excellent and ingenious invention. All who have used them are unanimous in their approval of them as an absolutely perfect article, leaving positively nothing to desire. Manufactured under the immediate supervision and management of the inventor, every Skate is subjected to very severe tests, and the public may rest satisfied that the quality and temper is in every case superior.

On account of the extensive facilities and efficiency of the machinery employed in their manufacture, the Company are enabled to place them on retail at the very low price of

$4.00 Per Pair,

from which a liberal and handsome discount will be made to dealers and in proportion to the extent of order.

As large shipments are being constantly made to Europe and other parts, early orders are solicited, which will receive prompt attention
