The Weekly Monitor.

WEDNESDAY, FEBRUARY 8TH, 1882

ANNAPOLIS, SS.

In the Municipal Council Annual Meeting, 1882.

The Council met in the Court House, Annapolis, on Tuesday, Jan. 10th at 10 p m.

Present—The Warden, Councillors Spinney, Roach, Leonard, Vidito, Young, Thorne, Roop, Millner, Corbitt, Healy, Bent, Parker, Charlton, Ford, and Buckler.

The minutes of last Council were read and confirmed.

Upon motion the following Councillors were appointed to nominate the standing committees, viz.—Councillors Rosch, Corbitt and Leonard.

The committee retire, and after consultation submit the following report:

Your committee appointed to nominate standing committees for the ensuing year, beg to submit the following, viz:

Public Accounts and Finance.—Councillors Roop, Parker and Leonard.

Tenders and Public Property.—Councillors Vidito, Bent and Buckler.

License.—Councillors Corbitt, Spinney and Millner.

Roads and Bridges.—Councillors Spinney, Roach, Leonard, Vidito, Young, the Warden, Thorne, Roop, Millner, Corbitt, Healy, Bent, Parker, Charlton, Ford and Buckler.

Assessments.—Councillors Young, Roach and Thorne.

Insane.—Councillors Healy, Corbitt and Thorne, all of which is respectfully submitted.

(Signed) GEORGE ROACH,
A. W. CORBITT,
J. S. LEONARD.

Upon reading and considering the report of the committee appointed to purchase a farm for poor purposes, the same was on motion adopted. The following is the report of the committee:

To the Warden and Members in Council Convened,—

We the undersigned committee appointed to purchase a poor farm for the County, beg leave to report as follows:

We first examined the poor farm at Clements and decided it was not suitable for the purpose required.

We afterwards examined several properties in Granville, Wilmot and Annapolis, but in consequence of the locality of these properties referred to we considered them unsuitable.

We finally examined the property on the Church Road, known as the Poole property and unanimously decided to purchase the same at the price or sum of two thousand five hundred dollars. Mr. Poole in addition cut the hay and put the same in the barn. According to the terms of purchase and sale, Mr. Poole was allowed the crop he had planted and the fruit on the property purchased for the last season, all of which is respectfully submitted.

(Signed) STEPHEN E. BENT,
B. H. PARKER,
J. H. HEALY.

Upon reading and considering the report of the committee on Tenders and Public Property, in reference to the building of a Poor House and the furnishing of the same and the equipment of the poor farm, the same was on motion adopted.

The following is the report:

To the Warden and Members in Council convened,—

We, the undersigned committee on tenders and public property, beg leave to submit the following in reference to building and furnishing the County Poor House, and crave leave to refer to the papers hereto annexed.

Shortly after the purchase of the poor farm by the committee for that purpose appointed, the undersigned committee caused advertisements to be published and posted by hand bills calling for tenders for the building of a poor house for the county, which said tenders were to be sent to the Clerk's office not later than noon of Saturday, August 13th, A. D., 1881, a copy of which said notice is annexed to this report marked "A." That the lowest tenders received by your committee at the time advertised for the receipt of tenders, was $3750, in brick, and $3275 wood, and your committee extended the time for receiving tenders until Saturday, the 20th day of August last, past, and that all the tenders received up to that date are annexed hereto, marked respectively B. C. and D.

That afterwards, to wit, on the 27th day of August last past, your committee received an offer for the erection of the poor house aforesaid according to the plans and specifications contained in the annexed exhibits marked "E," from Mr. John Buckler, of Saw Mill Creek, in the county of Annapolis, for building the said poor house in brick for the price or sum of $3250, the said sum being less than the lowest tender in brick by $500, and less than the lowest tender in wood by $25.

Your committee accepted Mr. John Buckler's tender, who at once executed and filed a bond with satisfactory sureties to your committee, and subsequently executed a contract with specifications annexed. The bond and contract are on file in the Clerk's office. Under the terms and conditions of said bond and agreement, your committee nominated and appointed Oldham Whitman, of Bridgetown, in the county of Annapolis, inspector of brick work, and Thomas Shaw, of the same place, inspector of wood work, the reports of which said inspectors are hereto annexed, marked respectively F. and G.

The building was duly completed according to contract with the exception of an extension of time granted to the contractor, by which he was allowed to extend the time for the completion of said building until the 31st of December, A. D. 1881.

Previous to the completion of the said poor house, your committee instructed the Clerk to mail and register postal cards to the various overseers of the poor for the county, notifying them that the poor house would be ready to receive inmates on and after the second day of January inst.

There are at present between 30 and 40 paupers living at the poor house, with a prospect of quite an increase in the number.

Your committee acting further in compliance with the powers conferred upon them by the Council, proceeded to negotiate for a keeper of the poor house and a worker of the farm, which resulted in the employment by them of Mr. Edmund Clarke, for the price and sum of $450 per year, which said agreement is on file in the Clerk's office.

Your committee caused tenders to be issued for the furnishing of supplies for said poor house for the support of the poor, legally chargeable to said county, for a term not less than one month, nor to exceed two months, the contract for which said supplies was awarded to Mr. John Lockett, of Bridgetown.

Your committee used every diligence in their power to procure the cheapest and best furniture for the poor house, and were convinced after mature consideration and consultation with reliable parties that the interests of the county would be best promoted by not putting the furnishing of said poor house up to tender and contract, and acting under that conviction we consulted responsible parties with whom we afterwards contracted for the furnishing of said poor house. The bills for the same are on file in the Clerk's office.

The accounts and vouchers for expenditures in relation to the building, furnishing and equipping of said poor house and farm are duly on file with the Clerk, and will be duly presented for consideration.

Up to the present date we have on the farm one horse, two cows, one pair bob sleds and one set single harness, it will be necessary for the proper equipment of said farm to have one yoke oxen, two more cows, swine and the necessary farming implements.

Our contract with the keeper of the poor farm only commencing on the 2nd day of January instant, we have been unable to procure the balance of stock necessary for the poor farm, and provide farming implements necessary for said farm up to the present date, but we have after paying all bills against us on this account, a balance to our credit for that purpose amounting to $160.31. All of which is respectfully submitted.

(Signed,) ALFRED VIDITO,
STEPHEN E. BENT,
JOSEPH BUCKLER.

A.

TENDERS.

Sealed tenders will be received at the office of the Clerk of the Municipality of Annapolis, up to noon on Saturday, Aug. 13th, for the erection and repairs of suitable building as a Poor House, said building to be built either of wood or brick. Parties tendering must specify the amount for which they tender in either wood or brick, and no tender will be received unless it specifies the amount for which the tendering party will build in either or both of said materials.

It is to be further understood that the party whose tender is accepted is to enter into a good and sufficient bond to the satisfaction of the undersigned, for the due performance of his contract, subject to inspection, said inspection to be chosen by the undersigned.

Cash will be paid monthly, less twenty per cent., as the work progresses to completion, subject to the report of the inspectors.

The plans and specifications can be seen at the office of the Clerk at any time after noon on Friday, the 29th July, inst.

The committee do not bind themselves to accept the lowest or any tender. Work to be completed on or before the 15th day of December, A. D., 1881.

ALFRED VIDITO.
STEPHEN E. BENT.
JOSEPH BUCKLER.

Committee on tenders and public property.
Bridgetown, July 27th, 1881.

B.

To the Committee on Public Reports.

I will build the Poor House according to plans and specifications in wood for the $3,558.00. I will also agree to build in brick for $3,998.00.

Yours very truly,
(Signed) ROBERT EWING.
Centreville, Aug. 12th, 1881.

C.

We the undersigned hereby agree to build and complete the building intended for the Poor House, in the County of Annapolis, according to plans and specifications as follows: In brick, $3,750.00, in wood, $3,275.00.

(Signed), WM. L. DODGE.
JOHN HARLOW.
JOHN B. REED.

D.

We the undersigned, will agree to build and furnish according to plans and specifications drawn and seen by us at the Clerk's office, for the sum of $4,895.00 to be constructed of wood.

(Signed), J. C. THOMAS.
J. A VROOM.

F.

Annapolis S. S.,

In the Municipal Council, Annual Meeting, January, 1882.

To the Warden and Members of Council in Annual Session convened:

The report of Oldham Whitman, an inspector of brick work on the poor house, *Humbly Sheweth*,

That the undersigned was appointed an inspector of brick work on said poor house, and in pursuance of said appointment, inspected said poor house from the commencement of the building until the completion. The said building in so far as the brick work is concerned has been constructed in a thorough and complete manner, and I have much pleasure in approving of the same as having been executed in a thorough and complete manner.

The plastering of said building has also been done subject to my inspection and in thorough and workman-like manner.

(Signed), OLDHAM WHITMAN.
Bridgetown, Aug. 12th, 1881.

G.

To the Honorable Councillors of the County of Annapolis.

Respected Sirs,—Having been appointed by a committee of your Honorable body to oversee and inspect the woodwork of the Alms House, lately built for the said county, near Bridgetown, I beg leave to report as follows:

That I have attended to your instructions by answering questions, giving instruction and making frequent visits during the time it was being constructed.

The material is of good quality, and the work is done in a neat and substantial tial manner. The specifications in some few instances have been departed from where improvements could be made, which have been done.

I would beg leave to add that taking into consideration the time of year and the mony difficulties that have been met the contractor, Mr. Buckler, deserves much credit for the square and honorable manner that he has filled his contract.

All of which is submitted by your humble servent. (Signed).
THOMAS SHAW.

Bridgetown, Jan. 11th, 1882.

We are compelled to hold over the remainder of the "Proceedings," as the copy did not arrive in time to enable us to make arrangements for inserting it all.—ED. MON.]

— There will be a dance in Victoria Hall, on Friday night, 10th inst.

FROZEN TO DEATH.—An old man, named King Cling, an umbrella mender, was frozen to death one cold night last week in Granville. He was somewhat of a curiosity in his way, and had become a familiar object in this County.

ENGINE DISABLED.—On Friday last, as the night freight train was running between Berwick and Aylesford, one of the connecting rods of the engine broke. The momentum of the train carried it some distance, and each revolution of the engine's wheels threw the broken connecting rod around with fearful force, smashing the cab and foot board running around the engine. The latter in breaking away loosened a number of the bolts in the boiler and permitted the steam to escape, seriously endangering the lives of the engineer and fireman. They, however, jumped off and escaped injury. The broken rod also acted as a lever, and as it struck the road-bed or sleepers would lift the engine several inches, and then let it down suddenly, breaking the rails at each stroke, though this fact was not discovered until some time later. The engine finally stopped some thirty rods from the place where the accident happened. A message was then immediately sent to Kentville for another engine to take the train through. Before this engine arrived, a section man discovered a broken rail in that portion of the track over which the train passed after the accident, and on making an examination, upwards of thirty rails were found to be broken. On discovering this, Conducductor Edwards started back to signal the expected train to stop; but it commenced snowing, and darkness set in, consequently those on board the train could not see the signal and were passing by, when Mr. Edwards placed his fingers in his mouth and whistled shrilly, which was fortunately heard, and the engine brought to a standstill. Another message was then sent to Kentville for rails, tools and men necessary to repair the track, which were sent out—the track relaid and the thoroughly disabled engine pushed into the siding. The train then continued on its interrupted journey, arriving at this station a few moments after midnight.

— A very pleasant surprise party assembled at the Episcopal Rectory on Thursday evening last, when a number of the parishioners of St. James, and others, came together to pay their respect to Mr. and Mrs Wilkins, and to convey to them some substantial tokens of their good will. The party commenced to arrive about 7 o'clock, and after spending several pleasant hours in social conversation, games and music, were called to order by Phineas Chesley, Esq., Church Warden, who, in a few well chosen words, in behalf of the parishioners, presented the Rector with the offerings of those who attended, amounting in all to something over $40.00, assuring him that it was given as a token of their respect for, and hearty good will towards him; and with the hope that it would not only be found materially useful, but prove an encouragement in his labors among them. In accepting the gift and tendering his cordial thanks for the same, Mr. Wilkins assured his parishioners that it gave him the most sincere pleasure, not only to receive their handsome present, but even more so, when received in the light so dear to the heart of every minister, as the tokens of the kindly feeling existing towards him personally on the part of his people, and that, manifesting itself now in the ninth year of his ministry among them, it afforded him much greater satisfaction than it would have done in the first years of his incumbency. Thomas Crosskill, Esq., Church Warden, then moved a vote of thanks to the ladies with whom the party originated, which being put, was cordially and unanimously passed. After more social conversation and music, the party broke up, all expressing themselves well pleased with their first surprise party. Mr. and Mrs. Wilkins have since received several handsome donations from parties at Belleisle, who were unable to be present on account of the roads, and also kind letters and contributions from several of the congregation who were unavoidably absent.

— The Jews are suffering the most atrocious persecutions at the hands of a lawless Russian Soldiery. The blame must be the Government, for in no other country pretending to any degree of civization would such dreadful deeds be permitted to take place more than once. The London *Times* has a long article, though confessedly meagre, which contains details that should make the blood of christendom boil. The barbarism and ignorance of the Middle Ages to some extent might excuse the persecutions that the Jews endured at that time; but nineteenth century ideas can scarcely credit the reports that come from Russia. Regular riots are organized against the Jews, shops and houses with their contents are burned and destroyed, men are murdered, infants brains are beaten out and women are brutally outraged by the soldiery—death ensuing in some cases. Homes by the thousand have been desolated, and thousand of families reduced to destitution. 10,000 men, women, and children are said to be ruined, and 1400 buildings destroyed. This in *Christian* Russia, who waged a *holy* war against *impious* Turkey.

— The Gates Brothers of Melvern Square lately organized a company to be styled the Gates Organ and Piano Company, with $60,000 capital in $50 shares, and have sold about $10,000 of the stock to thirty of the leading men of Truro, and in consideration thereof they are shortly to move their establishment to that town. The new company have purchased the boot and shoe premises which embrace two buildings, one 51x65 feet, five floors, and the other 36x36 feet, two floors, together with all the machinery and plant of the establishment. The town exempts them from taxes and furnishes the water supply free.

— We have received a letter from a subscriber in reference to the turkey supper held at Margaretville on the 25th ult., but as it was received too late for last issue, it is somewhat out of date for this, therefore we will not publish. Our Margaretville friends have reasons to be proud of the way in which they have supported the two new churches lately erected in their pretty village.

— Our correspondent "R" sends us another letter on the Railway Consolidation Bill; but we are compelled to omit it on account of having to give space to the report of Proceedings of Council and matters of specially local interest. Should the Legislature postpone their decision on the Bill another week, we will give "R's" letter insertion.

— New York is said to be fairly overcrowded with people out of employment. A writer says that 50,000 vacancies could be filled at a day's notice, and that many of the situations advertised in the papers are bogus.

— In France a new Cabinet has been formed with DeFreycinet at the head, an acknowledged powerful leader Gambetta was defeated by an overwhelming majority.

— Truro has asked the Central Board of Agriculture to locate the next Provincial Agricultural and Industrial Exhibition in that town. A prize list of $6000 is offered.

Guilty of Wrong.

Some people have a fashion of confusing excellent remedies with the large mass of "patent medicines," and in this they are guilty of wrong. There are some advertised remedies fully worth all that is asked for them, and one of least we know of—Hop Bitters. The writer has had occasion to use the Bitters in just such a climate as we have most of the year in Bay City, and has always found them to be first-class and reliable, doing all that is claimed for them.—*Tribune.*

— The United States decreased its public debt nearly $13,000,000 during the month of January.

— An exchange says:—"94,159 immigrants went from Canada to the United States in 1881." How many of these went on visits, how many for temporary work, and how many returned without obtaining any work at all? Why not give the whole story or none at all? We detest this business of unduly belittling our country.

ENGINE MEETING.—Every fireman in this town is requested to take notice that a meeting will be held at the Engine House to-morrow evening, at 7 o'clock sharp. Business of importance is to be transacted, and no excuses for non-attendance will be allowed save sickness and absence from town. By order of the Captain and Fire Wardens.

— Mr. F. H. Mitchell under date of 2nd Feb. sends us the following:—

I have this day received a Cable Message from Green & Whineray, Liverpool, G. B., as follows,—

Liverpool, Wednesday:—Baldwins 23s., (Canada). Red, 28s.; Golden Russets 30s.

Almost young Again.

My mother was afflicted a long time with Neuralgia and a dull, heavy inactive condition of the whole system; headache, nervous prostration, and was almost helpless. No physicians or medicines did her any good. Three months ago she began to use Hop Bitters, with such good effect that she seems and feels young again, although over 70 years old. We think there is no other medicine fit to use in the family." A lady in Providence, R. I.—*Journal.*

A visit to my store, full of life, crowded with customers, surrounded with pyramids of goods, will convince you of the fact that now is the time and this is the place to buy your goods.

FLOUR AND MEAL.

A STILL FURTHER REDUCTION from my last week's quotations. Car loads always on hand! Car loads constantly arriving! One car load FLOUR and one car load MEAL to arrive in a few days. All orders promptly attended to, and delivered free of charge within five miles.

GROCERIES. It is not my purpose to enumerate largely, for as long as I do business I shall keep for sale a full assortment of of goods in this line, and buyers may always be sure of finding me ready to fill their orders. It will also be found that I keep the quality of my goods above any other consideration, and the most unreserved criticisms of my claim is always more than welcome. Neither do I consider unwelcome a comparison of prices, taking into consideration the freshness, purity and quality of my goods.

J. W. Beckwith.
