Liverpool in Parliament, opened this view to the British Senate, and pronounced on it the warmest eulogies. It is indeed the picture of the old Colonial system, under which England rose to such stupendous eminence and grandeur. We know that this beautiful, but apparently departing system, is still cherished by many colonists, who would gladly return to it; and if its return brought with it a still more intimate connexion with the parent state, such as a representation in Parliament—the affection of colonies so favoured would be warm, binding, and perpetual.—*New York Albion.*

IMPORTANT FROM MEXICO.

Augusta, Geo., April 17, 1848.

The overland express has arrived, bringing New Orleans dates to the 13th instant. The ship Christiana had arrived with advices from Vera Cruz to the 4th inst., and the steamer Washington, which left Vera Cruz on the 3d with dates from the Capital to the 30th ult.

This brings us four days further proceedings of the Court Martial, which are, however, too voluminous to report.

Gen. Scott has been impeached, and the testimony of paymaster Burrows was being heard for the defence.

It was the general opinion among Mexicans of the better class, that Congress would not dare ratify the treaty.

Lieut. John Smith, of White's company of mounted men, deserted at Vera Cruz on the 30th, taking several men along with him, belonging to his Company. He offered their services to Zonobia, the Guerilla Chief, who kept them prisoners, and sent word to Col. Wilson, who sent after them. They arrived at Vera Cruz well secured. The Free American was quite indignant.

Since the Mexican authorities have been restored to power, Paredes attempted a revolution, and was reported to have been arrested by order of the government.

Intelligence has been received, confirming the rumour of Santa Anna intending to leave Mexico, and adding that he had refused the steamer offered by Governor Wilson for his conveyance.

New York, April 19.

A destructive fire broke out in a cabinet maker's shop, at 118 Wooster street, in this city, last night. The loss of property is immense—estimated at $150,000—insured for $75,000. It is said to be the largest fire that has occurred here since the great conflagration of 1845.

The Telegraph.—The important work of stretching the wire across the St. Lawrence, at a point near the Chute of the Lachine Rapid, for the Troy and Montreal Telegraph, is now fast progressing towards completion. From the east shore to Alsopp's Island is 3200 feet, and from this island to the west or Montreal shore, 3180. A pier will be built on a small island, now submerged in water, between Alsopp's Island and the east or Laprairie shore, on which a strong and high scaffold will be erected, supporting a mast projecting from the top to 150 feet from the ground. Two other masts, one on the east shore, and one on the east side of Alsopp's Island, will be of the same height, and that on the west shore, 120 feet including piers, &c. The most difficult work, and that requiring the utmost skill, will be to stretch the wire across the current, where the rapids exceed, in dangers and difficulties, any other part of the St. Lawrence.—*Montreal Gazette.*

Two very extensive fires have occurred at Albany: the first commencing at about 3 o'clock on Monday afternoon last, and consumed 30 buildings; the second broke out at 9 o'clock and burned 25 houses. Loss of course is very large.

Shocking Accident.—We learn from Lowell, that a most shocking and fatal accident occurred in that city last night, about 6 o'clock. A runaway horse with the fore wheels of a waggon attached, knocked down a young lady who was crossing the street at the time, and her clothes becoming entangled in the wheels, she was dragged some thirty or forty rods to the stable, her head and shoulders upon the ground, and most shockingly mangled.—She breathed but a few seconds after. We learn that she was about 21 years of age, and of a most estimable character.—*Boston Journal.*

Extensive Nest of Counterfeiters broken up.—In Barniston, Canada, on Tuesday of last week, a posse of citizens, under the head of High Constable Clark, arrested seven men for counterfeiting, whose names are Samuel Davis, and his son Thomas, Oliver Hanks, Elijah Hanson, Sheldon Durkee, and Harry Hollisteer. Another named Chapman, escaped.

About $20,000 in bills, 120 Mexican dollars, 120 half dollars, and 160 American quarter eagles, with a lot of half eagles made of copper for galvanizing, were secured. The bills were principally counterfeits upon New England banks. There was also secured about two reams bill paper, 10 or 12 pounds of printing ink, a quantity of arsenic, three printing presses, &c., sufficient to show that the business has been carried on upon an extensive scale. A large number of dies for making Mexican dollars, American half dollars, &c, were likewise found.

The first City Elections took place in Fredericton on Monday last. The town is divided by Charter into five Wards, each sending two members to the City Council; and the following gentlemen were chosen: Wm. H. Odell and Geo Lee, Jr.; John Simpson and John S. Coy; A. T. Coburn and Harvey Garcelon; F. W. Hatheway and Spafford Barker; Charles Fisher and Doctor Robb.

Robbery.—About two o'clock this morning, the Captain of the Watch, while walking through Cross Street, perceived through the chink of the shutters, a light in the Book Store of Mr. Reynolds and on peeping through, could see but the hand of a person deliberately rummaging through the drawers in the counter. Having assembled his men and placed them so as to defeat every visible means of escape, the Captain entered the door. The burglar immediately fled to the rear, and jumped from a window eighteen feet high into an alley but two feet wide, making his escape by a subterraneous passage.—*Herald.*

☞ We have accounts from Halifax by the steamer *Saxe Gotha*, from Windsor, up to 10 o'clock on Wednesday morning, at which time the new mail steamer *America* had not arrived—being nearly 11 days out. A report was in circulation that she was signalized, which we are unable to trace to any certainty.

☞ Halifax Mail due at 1½ o'clock, has not come in at the time of our going to press. 3½.

A VOICE FROM VERMONT.

Cambridge, Orange Co., Vt., Nov. 25, 1845.

Mr. Seth W. Fowle;

Dear Sir—I hereby certify that one year ago last June, I was violently attacked with a cold and cough, with a lame side and stomach, and was not free from a cough during that summer. In December following my cough increased to an alarming extent, so that during that winter I lost about thirty five pounds of flesh, and physicians with whom I advised, could give me no relief. It was thought by all that I should never recover. As my good fortune would have it, in March following after suffering exceedingly through the winter, I heard of the beneficial effects of Wistar's Balsam of Wild Cherry, by way of a friend who had received the greatest benefit by the use of the article, and was induced by him to make a trial of it myself, and no words can express my obligations to that friend for thus recommending this article to me, and at the critical moment, he did, for I had not taken up one bottle when I was completely cured, and from that day to this I have never been troubled with a cough. I can cheerfully recommend it to all, as being a remedy of great value, hoping others may be induced to try it, and thus become convinced of its merits, and perhaps saved from the fatal grasp of consumption.

Dr. Halsey's Gold and Silver Pills.—Are founded upon, the principle that nearly all diseases arise from the same causes, or that a morbid condition of the *liver, stomach, and bowels*, predisposes the system to every class of disease. When these important function become obstructed with superabundance of bile and viscid matter, Nature ceases to fulfil her proper office. It is then that the *blood* becomes impure, because the secretive organs of the liver, whose office it is to seperate the worn-out principle of this vital fluid, are no longer fit for their office, and the wasted parts of the blood continues therefore in its circulation and become diffused throughout the whole system. Thus filled with infectious humours the body is made liable to sickness. If, by chance, it is exposed to a sudden change in the weather, a bad cold, or consumption, would be the result—if in the vicinity of contagious disorders, it would imbibe the infection.

Dr. Halsey's Gold and Silver Pills, although pleasant to take and innocent in operation, is the most excellent medicine in the world, to remove the bile and viscid matter from the system, and to restore the liver, stomach, and bowels, to the performance of their proper functions thereby rendering the blood pure, and divesting the system from all morbid and infectious humours, which we finally remove every disease, however long standing, and endow the system with health, strength, and vigour.

A circular giving a full explanation of the twofold action of the *Gold and Silver Pills*, can be had of the agent gratis.

For sale at the Proprietors general Depot, No 2, Courtland street, New York, and by his appointed Agents in the Cities & Towns in the United states, and at the store of the subscriber, 5, brick building, North Market wharf. Price 1s. 3d. per box with liberal allowance to wholesale Dealers.
