Glad He Tried The Tonic Treatment

Through Its Use Strength and Vigor Were Restored.

To be tired after exertion is natural. Rest and food restore the body to normal after such fatigue. But to be tired all the time is a symptom of an anaemic condition that will not be corrected until the blood is built up.

Such an anaemic condition is so gradual in its approach and generally so lacking in acute pains that it is often difficult to persuade the sufferer to do anything for it. But it is not a condition that corrects itself. If the blood is not enriched the trouble will increase. The nerves will be undernourished and neuralgic pains will follow. Digestive disturbances often result from thin blood, sleep is disturbed and a general breakdown may occur.

Mr. Wilson Johnson, Nineveh, N. S., says: "A few years ago my system was in a badly run down condition. My nerves seemed always on edge, and I found myself so weak that I could hardly do any work. I suffered from headaches and from pains in the back and under the shoulders, and was often so sleepless at night that when morning came I felt as tired as when I went to bed. I was taking medicine all the time, but it was doing me no good. Then I read the testimonial of a man whose condition had been similar to mine, and who strongly recommended Dr. Williams' Pink Pills. I decided to give this medicine a fair trial, and when I had taken six boxes I felt much better. I continued taking the pills until I had taken six more boxes, and I can only say I am glad I did so, as I am now enjoying the best of health, and I advise all men who feel run down to give these pills a good trial."

Dr. Williams' Pink Pills can be obtained from any dealer in medicine, or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

Unknown Steamer Is In Distress

New York, March 25—An unknown vessel in distress, of which no trace could be found after a several hour search, was reported here today by radio from the steamship West Chatala en route from Bremen to Baltimore.

According to the radio message, early yesterday morning, three rockets fired at short intervals were observed from the bridge of the West Chatala when it was approximately 295 miles southeast of Halifax. The steamer put about and for a number of hours made a careful search of the ocean for the origin of the signal, but without results. Words of observing the rockets was flashed by wireless to all other ships in that vicinity.
