PEARIN—DONAGHY.

At the family residence of Mr. A. Donaghy, Wilson avenue, West London, Wednesday, the marriage of his eldest daughter, Miss Hattie A., to Mr. Fred. Pearin, of this city, was solemnized. The bride was supported by Miss Lizzie Jackson, of this city, and the groom by Mr. F. Harp, of Wallaceburg. Miss Vera Donaghy was maid of honor, and Master Leonard Wilkins was page. The ceremony was performed by Rev. G. B. Sage, of St. George's Church. The young couple left for Brampton and other eastern points, followed by the best wishes of many friends.

A USEFUL LESSON.

Catholic Record: The many friends in London of Mr. Wm. Mullins will be glad to hear of his success. He has lately been appointed superintendent of the Central Vermont Railway. Mr. Mullins was born in Stratford, but came to London with the other members of the family when quite young. He was employed in the dispatchers' office in this city and rapidly rose from one position to another until he became private secretary for Mr. Fitzhugh, superintendent of the western division of the Grand Trunk. He went with that gentleman to Toronto, filling the same position, afterwards going with him to Vermont. We are not surprised at the rapid promotion of our old friend, Mr. Mullins, and we wish him still greater distinction. It is but a recognition of rare merit, and his advancement will, we hope, prove a most useful lesson for many a young man who lacks ambition, who is expecting friends to come to his assistance, and is always waiting for "something to turn up."

Gold Strike in Vermont.

Glens Falls, N. Y., July 11. — Mining experts say that the greatest gold strike ever made in the east is that in the town of Seaburg, Bennington county, Vt., where, it is said, untold riches have been discovered. About two months ago John K. Bachelor, of Manchester, a leader of the Vermont bar, began opening a mine on the Rice farm in Seaburg. Several heavy blasts were put in yesterday, and the last one uncovered a lode of gold-bearing quartz. It is estimated that there are now 10,000 tons of gold-bearing ore in sight.

It is a misdemeanor to permit artesian well water to run to waste in Riverside county, California.

SIFTON APPLICATION GOES AGAIN TO CITY COUNCIL

Terms of Recommendation Are Same as Before.

THE CITY SOLICITOR'S OPINION

Board of Works Holds Two-Hour Session and Considers Various Important Matters.

The most important matter before No. 2 committee at its regular session last night was the application of Mr. E. I. Sifton for permission to string electric wires. The matter took up very little of the board's time, however, for as soon as City Solicitor Meredith's letter on the subject had been read, Ald. Jolly moved that the matter be again sent to council with a recommendation that the application be granted on the same terms as outlined in the mover's resolution of two weeks ago. This motion carried. Others matters considered by the committee included the feasibility of passing an anti-spitting bylaw, the nonfulfillment of contracts by gravel contractors, the settling of a couple of claims for damages.

THE SIFTON APPLICATION.

The consideration of the Sifton matter was brought up in connection with the submitting by the city solicitor of his finding on the three questions propounded by counsel for Mr. Sifton. The questions were as follows:

1. Are the London Electric Company bound by their existing agreement to supply electricity to any individual in the city?

2. Are the London Electric Company bound by their existing agreement to supply electricity at any fixed rate to any persons, or may they fix rates at their discretion?

3. Does such existing agreement apply to supplying electricity for power?

THE SOLICITOR'S OPINION.

City Solicitor Meredith's answer to the questions submitted were to the following effect: If the wires of the company were extended throughout the area and locality mentioned in section 2 of the agreement with the company, the ratepayers in any block within that area could require the service to be extended to them, provided the block were within 1,400 feet of any wire of the company, and that the ratepayers so applying agreed to become consumers of electric light, at the current rates for the period of one year. If a right were granted in the same language to Mr. Sifton, he would not be under the same obligation because it is admitted he has no wires extending throughout the area described in section 2a, of the agreement, and would only be bound to extend his service to a block which was within 1,400 feet of some wire of his. The right of persons to require the service of the company to be extended to them is limited. The company are not bound by their agreement to supply electricity at any fixed rate. The agreement between the company and the city does not relate to the supplying of electricity for power purposes.

SENT TO THE COUNCIL.

Ald. Jolly said he considered the matter had been thoroughly discussed. He accordingly moved the same resolution as was moved by him at the board meeting on Thursday, June 26, it being to the following effect:

"That with the object of giving competition in electric light and power to the citizens, this committee recommend that E. I. Sifton be granted the privilege of stringing wires across or over the streets on condition that he will within six months extend power and light wires throughout the following area: Ontario and Rectory streets on the east, Hamilton road and Horton street on the south, Wharncliffe road on the west and Oxford street on the north, and also in that portion of South London bounded by the Wharncliffe road on the west and Elmwood avenue on the south, and shall supply current to all citizens within the said areas, desiring the same; that the rates be the same for all portions of the city."

The motion carried, Ald. Jolly and Dreaney voting for it. Ald. Gerry entered a protest against this method of dealing with the application, but his protest was unheeded.

THE ENGINEER OVERRULED.

The engineer reported that he had canceled the gravel-supplying contract of P. M. Fox, who has refused to fulfill it properly. In view of the scarcity of gravel, the poor quality supplied and the unsatisfactory way in which contractors are fulfilling their contracts, the engineer recommended that no gravel be advertised for, but that only broken stone be used on the streets.

Mr. Fox addressed the committee and pointed out the difficulty he had had in the securing of the proper quality of gravel, owing partly to the height of water in the river, and partly owing to the continued rains.

Engineer Graydon said that Ald. Dreaney had said that the gravel supplied on Adelaide street was half sand.

Ald. Dreaney forcibly denied having made the statement attributed to him by the engineer.

Engineer Graydon said that Mr. Fox was not the only contractor who was not fulfilling his contract. A couple of other contracts should be canceled.

Ald. Dreaney moved that Mr. Fox be allowed to complete his contract.

The motion carried.

Ald. Jolly moved in amendment that Engineer Graydon's canceling of the contract be recommended to the council for confirmation.

The amendment lost, and the motion carried.

CLAIMS FOR DAMAGES.

John Fleming, 20 Dundas street, asked for remuneration for damages caused to the walls of his house by street water running against his house.

Engineer Graydon recommended that no action be taken. The house was built in a hollow, and it would be difficult to prevent the street water running against it. A new walk should have been put down, but it was petitioned against.

Action was deferred to allow the committee to view the damage done to the house.

Mrs. Catharine Norris asked for remuneration of $30 and payment of her doctor's bill for injuries received in a fall on the sidewalk on Grey street, between Wellington and Clarence streets. She broke her fingers and was unable to work.

Engineer Graydon reported that the sidewalk had been repaired since Mrs. Norris' accident. He recommended that she be granted $10 or $15 and have her doctor's bill paid.

On motion of Ald. Jolly, Mrs. Norris will be offered $25, she to pay her own bill for medical attendance.

WOULD FURNISH CANS FREE.

Wm. Y. Yeomans showed the committee a model of a waste paper and rubbish receptacle. He offered to place 100 of them on the street corners, empty them regularly, and keep them neatly painted and in repair. He asked no remuneration from the city, but would get his returns from utilizing the spaces on the boxes for advertising purposes. He asked that he be given a 20-year contract for exclusively supplying such boxes. The boxes would be 4 feet 6 inches high, 22 inches wide and 26 inches long.

Mr. Yeomans said he would not accept a 10-year contract unless the city would agree to buy all the boxes from him at the end of that time.

On Ald. Dreaney's motion, Mr. Yeomans' offer was recommended to the council for acceptance.

MAY PASS "NO SPITTING" BYLAW.

A memorandum was received from City Clerk Kingston re the erection of more "don't spit" signs on the street corners, street cars, and other public places.

On motion of Ald. Dreaney, the solicitor, will be consulted to see if the city has power to pass a bylaw prohibiting spitting on the sidewalk and in other public places.

BENCHES IN THE PARK.

Engineer Graydon recommended that the Victoria Park benches be repaired and given two coats of paint. The engineer was instructed to present an estimate of the cost.

Tenders for the supplying of 100 benches for Victoria Park were received as follows: No. 1, 6-foot bench, $5; 4-foot, $4; No. 2, 6-foot, $5; 4-foot, $4; No. 3, 4-foot, $3 82; No. 4, 6-foot, $4 15; No. 5, 6-foot, $3; No. 6, 6-foot, $4 90.

The tenders were laid over to see what funds are at the committee's disposal for the purpose of purchasing them.

MINOR ITEMS.

Engineer Graydon recommended that a cement sidewalk be laid on the west side of Wellington street, from Sydenham to St. James. The mayor, who owns the property, has petitioned for the walk, and the present one is in a dangerous condition. The walk will be built.

Wm. Gray et al. petitioned for a bituminous macadam pavement, with cement curb and gutter, on King street, from William to Maitland street. The petition was referred to the assessment commissioner for report.

F. Barnet, London East, was granted permission to erect an illuminated sign over the sidewalk in front of his store, subject to the engineer's approval.

The pay sheet amounted to $363 86.

The members present were: Chairman Cooper, Ald. Dreaney, Jolly, and Gerry, Engineer Graydon and Secretary Bell.

WAS MARRIED IN GLASGOW

Nuptials of Mr. G. H. Bennet and Miss Mary Usherwood.

Groom Is Son of Ex-Ald. Robert Bennet, of This City.

The Glasgow Herald of June 20 contains an announcement of the marriage of Mr. George Herbert Bennet, elder son of ex-Ald. Robert Bennet, of this city, to Miss Mary Burrell Usherwood, elder daughter of Mr. John Usherwood, of No. 6 Strathallan Terrace, Dowanhill. The wedding was performed on June 19 at the Grand Hotel, Glasgow, by Rev. William Dickie, M.A., of the Dowanhill United Free Church. The groom's mother and brother Charles, of this city, and his old country relatives, were at the wedding, his father being the only one absent from it. The groom has been away from London for eight years, and now holds an important position as draughtsman and traveler for the Scottish branch of the Bennet Furnishing Company.

Sore Feet

Chafed, Blistered, Burning, Swollen Feet Soothed, Healed and Cured by

Dr. Chase's Ointment.

You may know of the exceptional merit of Dr. Chase's Ointment, and still not think of using it for sore feet. It is remarkably effective for this trouble, which is so annoying to many people during the warm weather.

Mrs. J. Brunton, Allandale, Ont., states: "I can recommend Dr. Chase's Ointment as a sure cure for sore feet. I stand a great deal on my feet, and have been troubled for some time with chafing and blisters. My toes were often raw and painful.

"I had tried nearly everything recommended for sore feet, but Dr. Chase's Ointment is the only remedy that did me any real good. It soothed the burning and stinging, and thoroughly healed and cured the sores."
