GUESSING AS TO THE SLATE

Who Will be Chairmen of the Various Committees of the Council?

Carscallen Will Probably Be the Civic Finance Minister—Board of Works Chairmanship Sought by Several—Other Posts Allotted in Gossip—Final Meeting of the Board of Health—Hamilton News Generally.

Hamilton, Jan. 5.—(Special.)—The clubs, and wherever two aldermen are seen together to-night, are busy discussing the slate for the chairmen of the various committees. The following will likely go through: Ald. Carscallen, by reason of his special gift for figures, will be chairman of finance. The Board of Works chairmanship, the most delicate post of all, and whose last victim was Ald. Doran, is sought hotfooted by Ald.-elect Pettigrew, but as he is a new man the caucus will likely give him the "go by." Ald. Macleod and Dunn, two firstrate men, are spoken of for the place, but the latter will likely get it on account of having most time upon his hands. This committee's most successful chairman, it is understood, was ex-Ald. Morden, who, though no orator, got through all his business on account of the loyal support of his own committee and outsiders in the Council.

Ald. Hannaford is said to have the best chance for the Fire and Water Committee. He has made this branch a hobby, and was, it is said, unjustly deprived of the honor last year.

Other posts practically arranged are: Markets, Ald. McAndrew; sewers, Ald. Teneyck; parks, Ald. Donald.

The Workingmen's Club.

The fifty members of the Eight Hour Labor Day League, in connection with the Eastend Workingmen's Club, met to-night and elected Rev. C. E. Whitcombe president and H. Vernon secretary-treasurer. Good labor addresses were made by Messrs. E. Williams and T. Allen. It was decided to ask the new Council to make an immediate appropriation to provide work for unemployed citizens. The Council will be pressed to do so before the frost gets into the ground, and the lines suggested and opening up streets and building sewers.

Happy Railroaders.

After a period of depression, the directors of the projected Hamilton, Chedoke and Ancaster Electric Railway are rejoiced over the collection in three days of $6000 for their enterprise.

Chicken Pecked Him in the Eye.

The many friends of Ald. Ross will be glad to learn that there is now no danger of the accident to his eyesight terminating in blindness. The cause of the trouble was rather unique. The alderman, who is a connoisseur in fancy chickens, had one of them perched on his shoulder and as he turned his head around to look at it, the bird pecked him in the eye.

Miss Hall is Improving.

Miss Amelia Hall, the young lady injured in the iceboat accident on the bay yesterday, is resting easier to-night. Dr. Smith, who is her attendant, is very hopeful of pulling her through. She is taking light nourishment, and though the lungs are still inflamed the bleeding has ceased.

The Final Meeting.

The Board of Health of '97 held its final meeting this evening. Alderman Kirkpatrick presented a report showing a surplus of $478. The report was somewhat surprising, as the Board's appropriation was cut down to $9500 this year. Votes of thanks to the officers and the chairman were passed, and the sum of $25 was voted to S. H. Kent, the secretary. The members discussed the advisability of having a semi-weekly scavenger service in the heart of the city, but no action was taken.

LIBEL CASE POSTPONED.

On the Request of Counsel for Magistrate Jelfs it Goes Over for a Week.

Hamilton, Jan. 5.—(Special.)—When the libel suit of Magistrate Jelfs against Mrs. John Billings and The Herald newspaper came up before Justices W. H. Judd and W. P. Moore, Lawyer G. Lynch Staunton, acting for the plaintiff, asked for an enlargement of one week. It was satisfactory to both sides and was granted.

Hamilton Law Association.

The Hamilton Law Association has elected as officers for 1898: E. Martin, Q.C., president; F. Mackelcan, Q.C., vice-president; W. F. Burton, treasurer; W.H. Evans, secretary. These, with Messrs. P. Crerar, Staunton, Lazier, Bell and Furlong, will be the Trustee Board for the year.

Minor Notes of Interest.

This morning a good overcoat was stolen from the office of H. H. Robertson, barrister, and this afternoon a man named John Holleran, a North Ender, was arrested on suspicion of stealing it.

A caucus meeting of the aldermen has been called for to-morrow night to draw up the slate of committees for the year.

A mass meeting of South Wentworth Conservatives will be held at 2 o'clock to-morrow afternoon at the Mountain View Hotel. The speakers will include J. W. St. John, M.L.A., and perhaps Col. Matheson.

Mrs. Chibbenden, wife of G.T.R. Employe Henry Chibbenden, died this morning during her husband's absence at his work.

The Retail Grocers' Association last night elected the following officers for the year: J. C. Bolligan, president; F. R. Close, first vice-president; C. Duff, second vice-president; C. Bremner, treasurer; W. R. Harvey, secretary. Executive Committee: A. Ballentine, J. Ronan, W. Smye, J. O. Carpenter, C. H. Peebles; auditors, G. Powell, C. Holt.

THE LAW'S DELAY.

Remainder of Cases on the Sessions' List Traversed Until the March Sittings of the Court.

Judge McDougall wound up the Sessions in Chambers yesterday, when the following cases were traversed to the March Sessions:

Rev. W. Bates, Thornhill, charged with shoplifting at T. Eaton & Company's; Michael McGarry, alleged theft of cheque from pensioner; James Shields, grocer Queen-street west, alleged theft of $400 overpaid by cashier; William Leather and W. W. Carman, alleged theft of bicycle parts; Sergt.-Instructor Holmes, alleged bigamy; J. Percy Lawless, barrister, forgery.

The charges against the Mimico and Toronto Street Railway Company and the Metropolitan Street Railway Company, of violating the Lord's Day Act, were postponed until March. In the meantime the companies have agreed not to run the cars.

Margaret Clark of Orangeville, convicted of kidnapping Florrie Burkhardt, was brought up for sentence and remanded until Judge McDougall has consulted the authorities. His Honor said he was not quite clear as to his jurisdiction.

Robert Harrison, convicted of theft, will be brought up for sentence at the same time.

Judge McDougall quashed the conviction of William Tremerth, baker, of 88 Dundas-street, fined $20 by the police magistrate for making his three employes work over 60 hours per week.

Lawyer Du Vernet contended that the information was bad, as it charged Trenwith with the three cases in the one information. A separate information should have been had in each case.

Judge McDougall upheld the contention.

MISHAPS YESTERDAY.

A Woman Falls in a Fit on Simcoe-street —James Karverry is Suffering From a Broken Jaw.

A young woman named Mary Brown, who lives at 25 Nelson-street, was attacked with an epileptic fit on Simcoe-street, just north of Queen at half past 8 last night. She was carried into the house of Dr. Russell and her condition was so serious that the police ambulance was summoned and she was removed to St. Michael's Hospital.

A Broken Jaw.

James Karverry, 434 Wellesley-street, who is about 20 years of age, was admitted to the General Hospital yesterday, suffering from a broken jaw. He sustained his injury while sleigh-riding on Rosedale Hill Tuesday night.

THE SWEEPERS KNOCKED OUT.

Equipment for the Street Car That Clears the Grooved Rail.

The large increase in Street Railway profits is due, not only to an additional amount of passenger traffic, but also to the efficiency of the "Power digger," with which all the cars are now equipped. This digger does away almost entirely with the use of the immense snow sweepers which splash everybody and everything and scare horses. It, therefore, saves the great expense occasioned heretofore by the necessity of running the sweepers. The digger is a contrivance that attaches to the machinery of the car and, by pressure from the motorman, digs down into the groove of the rail and cleans out the snow. It is the invention of Foreman Power of the Toronto Railway Company's car building shops. Roadmasters Nix and Wallace say it has solved the problem of cleaning the snow from the grooved rail and that, excepting in outlying districts, where the cars run far apart, the old sweeper is now practically out of the business.

Evangelist Charged With Theft.

Saginaw, Mich., Jan. 5.—Rev. E. L. Waldorp, the evangelist at whose home considerable alleged stolen property was found, pleaded not guilty to the charge of larceny of an overcoat from Albert Klees, and his bail was set at $200, which was not furnished. GOING DOWN

Is the story of a business run in a slip-shod way. It always pays to keep at the head of the profession. Our new methods and low prices for dental work have given us a patronage we are proud of. We have devoted the most of our time to learning how to serve our patients. It has taken time and laying awake at night, but our success assures us that we have succeeded. Our latest achievement is vitalized air or gas for painless extraction, at half price, 50c. Try it. Very pleasant and perfectly safe.

MRS. BOOTH-TUCKER HERE

On a Visit to Her Sister, Commissioner Eva Booth.

To The World the Famous Salvationist Talks of the Success of the Army in the United States—Particulars of the Forthcoming Visit of General Booth to Canada—Will Spend a Week in Toronto.

Mrs. Booth-Tucker, of Salvation Army fame, whose headquarters are in New York, is in Toronto on a flying visit to her sister, Miss Eva Booth, the Canadian Commandant, whom she has not seen for some years. Her husband, Commander Booth-Tucker, had gone to California to settle up the business attendant on the old social form there, and to complete the arrangements for the new form in Souldad, Colorado, and Mrs. Booth-Tucker came to Toronto for a few days' rest.

Talked to The World.

The World was granted a short interview last evening through the kindness of Brigadier Margetts. Mrs. Booth-Tucker had just come in from the Salvation Army social form, a subject in which she is deeply interested.

In reply to a question regarding the trouble with Ballington Booth in New York some time ago, she said that no animosity existed between the Army and his volunteers. She did not know how Ballington was progressing with his movement, but she did know the Army was growing in power and numbers, as the following facts would show:

Figures That Speak.

During the past year the number of officers had increased from 2000 to 2450; the number of corps from 600 to 735; rescue houses for fallen women,

MRS. BOOTH-TUCKER.

similar to the Shelter on Wilton-avenue, from 5 to 11; men's social institutions from 28 to 81. Over a million homeless ones had received shelter during the year. On Christmas 60,200 free dinners were given the poor.

There was no friction between the Army and the volunteer movement, but strong efforts were being made by Col. Booth-Tucker to bring about an interview with Ballington and his father when the latter comes to America this month, and in some way to effect a reconciliation. Very few of the salvationists joined Ballington, but the work was the same, and there should be no discussion. The father felt the break very keenly.

The General's Visit.

Mrs. Booth-Tucker's father, General Booth, said farewell to his friends in Albert Hall, London, yesterday. He sails on the 8th, and will arrive in New York on the 15th inst. On the 17th he begins his Canadian tour in St. John, N.B., and will remain there till the 20th. From there his tour will be: Halifax, 20 to 23; Montreal, 25 to 26; Ottawa, 27; Peterboro, 28; Kingston, 29, 30; Hamilton, 31; Galt and Brantford, Feb. 1, and London, Feb. 2. He will then come to Toronto and remain till the 8th, when he leaves to begin his tour in the New England States.

Mrs. Booth-Tucker returns to New York to-day.

THE PUGNACIOUS ITALIAN

Who is Wanted in Niagara Falls, N. Y., on a Very Serious Charge Will Fight Extradition.

Grovanni Gifrino, the young Italian who was arrested here because he is wanted in Niagara Falls on a charge of wounding Jenetta Pamellio, a woman with whom he lived, is loth to go back to the land of the free, and will fight extradition. A county warrant was issued for him, and he appeared before Judge McDougall yesterday afternoon. The proceedings were adjourned till next Tuesday.

DROPPED DEAD.

Hugh McKinnon, a Well-Known Old Man, Succumbed to Heart Failure Yesterday Afternoon.

The already long list of sudden deaths from heart failure during the past month was added to yesterday afternoon, when Hugh McKinnon, an old rag gatherer, who lived with his family at 121 George-street, dropped dead at about 4 o'clock in a lane at the rear of his home. McKinnon was about 60 years of age, and was a well-known character in the city. He was apparently in fairly good health when he left his home a few minutes before his death to go to the hotel at Sherbourne and Duchess-streets for a pint of beer. He was returning home with the beer in a can, when he dropped dead. Dr. Greig was summoned and decided that death was due to heart failure, so there will be no inquest. The old man has been suffering from a heart ailment for some time and has been in poor health. He leaves five children, the youngest about 12 years of age.

SMELTER FOR TORONTO.

Proposition to Start a Big Nickel Refining Industry in This City—What the Promoter Asks For.

Assessment Commissioner Fleming has under consideration another conditional proposition for the establishment of an enormous industry in Toronto. This time it is a nickel refinery and smelter, and the promoter is Mr. R. J. Tough, well known as the owner of valuable and extensive nickel properties near Sudbury. In company with Mr. George Faulkner of this city, Mr. Tough had an audience with Mr. Fleming yesterday morning. He bespoke great faith in the adaptability of Toronto for the location of the works he has in view. Its proximity to the American coal region and its railway distributing facilities left but three essential things to be desired in order that British capital might be procured to carry it out. They were, direct railway communication with Sudbury and Lake Wabnapitae, the assistance of the Toronto City Council, and either the imposition of an export duty on nickel or else a bonus on the part of the Federal Government.

Assured of this assistance, Mr. Tough anticipates no trouble in floating a company with millions of British capital at its back. For, said he, it is now becoming recognized that Ontario nickel is the finest in the world for steel plate and other purposes, and, in fact, that this Province has almost a monipoly of the output.

A $500,000 Smelter.

His plan would then comprehend the erection at the outset of a $500,000 nickel refinery. In the course of time this would form the nucleus of establishments for the treatment of lead, copper and silver ores at a probable cost of an additional $2,000,000, the whole rivalling the great Vivian Company of Swansea, Wales, where they employ some 5000 men. Here the finished product in nickel and copper alone is worth $4,000,000 annually.

The Assessment Commissioner, though recognizing that there are many difficulties in the way, feels that Toronto should make every justifiable sacrifice to secure the industry.

OTTAWA UNIVERSITY SCORCHED.

The Eastern Wing and the Beautiful Chapel Badly Damaged by Fire Yesterday Morning.

Ottawa, Jan. 5.—(Special.)—A serious fire occurred at Ottawa University this morning, as a result of which the eastern wing was badly gutted, and the beautiful chapel greatly damaged. The total loss is in the vicinity of $40,000, which is covered by insurance. The fire brigade handled the conflagration well. Rev. Father Fallon says the fire will not affect the re-opening of the college, which will take place next Friday.

The university was deserted for the Christmas holidays, only 35 ecclesiastical students being in attendance.

The insurance is as follows: Quebec Fire Ins. Co., $20,000; Agricultural Ins. Co., $5000; Phoenix Co. of London, $5000; North British & Mercantile, $15,000; Connecticut Fire Ins. Co., $5000; Scottish Union and National, $30,000; Insurance Co. of North America, $20,000; Phoenix Ins. Co. of Hartford, $10,000; London Assurance, $20,000; Alliance Assurance, $20,000; Northern Assurance, $20,000; Guardian Assurance, $20,000.

TWO ARRESTS MADE

In Connection With the Robbery of Market Gardener Stevens Three Weeks Ago—Other Arrests Will Follow.

About three weeks ago a market gardener named John Stevens, who lives at Leeavenue and Queen-street, was driving home late at night with the proceeds of his day's sales in his pockets. He is a cripple, but is a good-natured man, and when at DeGrassi-street railway crossing three men asked him to "give them a lift," he consented. The men boarded the wagon, and a couple of minutes afterwards attacked Stevens and robbed him of $17. Then they decamped. Stevens reported the matter to the police.

Yesterday J. Campbell, 453 King-street east, was arrested and charged with being concerned in the robbery. He denied any knowledge of it, but another arrest followed last night. Thomas Hays of 195 Duchess-street was taken into custody by Detective Duncan. Another man will likely be arrested to-day in connection with the affair.

A GHASTLY FIND.

Hals a Human Skull Found in a Refuse Barrel—Probably the Work of Medical Students.

Thomas Hamilton, who lives near Bracondale, was emptying a refuse barrel yesterday, when he discovered half of a human skull among its contents. He reported the find to the officers at No. 5 Police Station, and they notified Coroner Johnson, who will investigate the matter. The barrel in which the skull was found was collected from a place on Marlborough-avenue. The skull was apparently that of a young person, and had evidently been pickled. There was a quantity of hair on it, and all of the teeth were intact. It had seemingly been cut in two with a saw, and the supposition is that it was placed in the barrel by a medical student.
