Local and other Matters.

—The Manitoba Legislature will meet on the 30th inst.

—Washington has 500 professional gamblers and only 140 clergymen.

—The Brooklyn theatre is to be rebuilt of iron, and on the old site.

—There have been several commercial failures in Montreal of late.

—The imports of Montreal for December are one million and sixty-three odd thousand dollars.

PICTOU BANK.—The Pictou Bank has declared a dividend of three per cent. for the half year.

—The Local Legislature is summoned to meet for the "despatch of business" on the 15th of February.

—A humane society has been formed in Halifax, to abate the practice of "cruelty to animals."

—The aspects of the difficulty in the United States, arising out of the Presidental election, are unchanged.

—Quebec papers strongly urge the claims of Mr. Pelletier, M. P. for Kamouraska, to the vacant seat in the Cabinet.

—Application will be made next session of Parliament for power to construct a bridge over the St. Lawrence at Quebec.

—A London despatch says:—"The prevailing opinion in the city is that there will not be war even if the Conference breaks up."

BRANCH BANK.—We are informed that a branch of the Bank of Nova Scotia is to be established here shortly, T. D. Ruggles, Esq., is to be the agent.

—The Montreal "Star" publishes the particulars of the winding up of an insolvent estate. Twenty per cent. went to the creditors and eighty per cent. to costs.

—Mr. Marshall lately elected to the New Brunswick Assembly by the electors of St. John, rather than face a petition against his return, chooses to resign, and offer himself for re election.

THE SENATORSHIP.—Mr. Patrick Power, M. P., has positively declined the Senatorship vacated by Sir Edward Kenny.—*Chronicle.*

Perhaps the vacancy may be filled from this County.—ED. MON.

—Barber, the Montreal Bank embezzler, pleaded guilty, at Toronto, and was sentenced to five years in the penitentiary. It is rumored that parties implicated with him gave him $100,000 to plead guilty.

—At the opening of the New Year, the "Christian Visitor" appeared in a quarto form. Its typographical appearance is certainly improved. Our cotemporary has our best wishes for success in his endeavors to make his paper increasingly useful.

—Glass, late manager of Bradstreet's Mercantile Agency, has published a card, in which he declares that the manner in which the mercantile men of the Maritime Provinces have been reported is tantamount to a fraud practiced upon the subscriber.

—The foreign powers are getting disgusted with Turkey. Prince Bismarck is said to have forbidden his representatives to disguss any further concessions. Impatience is visible in other quarters, and unless the Turks suddenly change their tone, the rupture may come any day.

—The Halifax newspapers are crowing exultingly over the completion of an Academy of Music. Whether this new structure or the fact that Halifax is recognised as the "Winter Port" has caused most joy in our provincial metropolis, it would be difficult to determine.

—The Quebec "Chronicle" does not approve of the action of the Halifax Chamber of Commerce in voting for the repeal of the Insolvent Act. While admitting that the law is imperfect in many of its provisions, that paper says the idea of repealing it without seeking to improve it, is "preposterous."—*Citizen.*

—A despatch from St. John, N. B., say:—"At a meeting of Mr. Everitt's supporters, this evening, he communicated to them his intention of not offering again at the present election. Mr. Willis proposed to the meeting to appoint a committee to nominate a candidate to oppose Mr. Marshall, but the meeting broke up without taking action.

JUDICIAL SQUABBLE.—Last week there was quite a scene in the Halifax Court House. Judge Johnson, in the County Court, was judicially engaged, when the judge in Equity ascended the Bench, and claimed a prior right to the use of the Court House. After quite an unseemly war of words between the two judges had ensued, to the delectation of spectators, Judge Johnston adjourned his Court *sine die*, and magnanimously withdrew.

—Alexander James, Esq., Q. C. has been elevated to the seat of the bench of the Supreme Court, which was vacated by the late demise of Judge Mc Cully. The school boy days of Judge James were passed in this Town. We believe his recent promotion gives general satisfaction to the public. In this community he has many friends, who are pleased tolearn that his merits have been recognised by the Dominion Government.

OBITUARY.—We are sorry to learn that Mr. Henry Currell, son of John Currell, Esq., died at his sister's residence, Canning, Kings Co., on Monday morning last. The deceased was well-known in our midst as an upright, consistent christian, and will be much missed as a useful member of the Methodist body of this town.

READINGS.—C. Edgar DeWolfe, Esq., intends giving a Reading in the Court House, in this town, on Saturday evening next. The selections are taken from the best poetical and prose authors. Mr. DeWolfe is well known in this Country, as a temperance lecturer, and we have no hesitation in bespeaking for him a successful career in his present undertaking.

—A remarkable symptoms of the popular current of political feeling in England is furnished by the recent election at Rrome. It is a Conservative Constituency and has been counted on by the Government. The late member, Mr. Lopes, has been raised to the judicial bench, and fearing a contest, the Conservatives brought out their best man in the person of Sir James Ferguson. He was defeated by a majority of 93 and this result is one of the straws which show the direction in which the political wind blows.

—The instrumental and vocal Concert given by the Port William's Band and a choir under the superintendance of Mr. Thos. Hall, came off in the Court House, Bridgetown, on Saturday evening. We did not expect that a Band which has been under training so short a time and which has had to encounter numerous difficulties would have performed so creditably. Of course there were defects to be observed in the playing; but they were not so numerous as might naturally have been expected. The Band gave abundant evidence of being possessed of sufficient musical ability and stamina to become exceedingly efficient with continued practice. The performance on Saturday evening evidenced both by the performers, and the attendance of the public that spread of musical taste in Annapolis County, which is also seen in other parts of the Province. One of the pieces "Jerusalem my Glorious Home," given by the choir, would have done credit to any choir in the country. We congratulate the members of the band, and hope to see them repeat the performance during the winter. The sum realised was not over large, but was very fair for the state of the roads and weather.

☞ Wealthy ladies now have models of their figures by French artists, and leave them with their dressmakers.

☞ The English engineer officers who have lately examined the plans of proposed defences marked out, about 18 miles west of Constantinople, have pronounced as their opinion that the city can be made impregnable against all comers in six weeks' time, if necessary.

☞ A woman in Chicago has been the wife of four brothers. She began with the oldest ten years ago, when she was seventeen years old, and he died. She soon married the next younger, and after three years got a divorce from him; and the third was divorced from her after about the same period of wedded life. She is now the wife of the fourth, and they seem to live contentedly, possibly because there is no fifth brother for her to capture.

☞ The New York *Herald* gives an account of the landing in that city of the crew of the schooner *Scotia*, a small schr. which left St. John's, Newfoundland, on the 15th ult. for Castalia, 62 miles distant, was driven off the coast, and at the mercy of the waves for 15 days, until rescued by an Anchor steamer. A portion of their experience was—

Day by day a thicker coat of ice formed on the sides and deck of the schooner, growing upon the masts also, till the vessel was literally covered to the height of twenty feet from the deck. At this the chill of the cold wind and the icy water in which they were compelled to stand became so intolerable that the helm was lashed to windward and the deck was deserted, except for the few hours when it was absolutely necessary to take a turn at the pumps. Once the captain was swept overboard, but he caught by chance at the bulwark as he was borne along, and held on despite the terrible strain on his arms, till he could be pulled in by his friends. Another man was washed off in like manner, but he also was saved by the same fortune which befriended the captain.

THE FORCE OF TURKEY.

It is estimated that Turkey could raise 694 battalions of 1,004 men each, and 872 Krupp guns; together with 70,000 Zaptiehs and 20,000 Circassians. The *Cologne Gazette* devotes a long article to a discussion of Russian chances of success in event of a war with Turkey. After recapitulating the history of previous wars between the two Powers, and pointing to the altered circumstances of the present day and the preparations made by the Porte, the writer comes to the conclusion that the struggle would in any case be severe and prolonged. Such a war concludes the *Gazette*, could not possibly lead to a solution of the Eastern Question.

Special Dispatches to the Morning Chronicle.

EUROPE.

PARIS, Jan. 12.—At the beginning of the week Prince Bismarck sent Baron von Werther a curt despatch, criticistng the extreme slowness of the Conference, declaring the plenipotentiaries had gone too far in concessions fo the Porte, and that such concessions and modifications, in face of Turkey's delay and resistance, were contrary to the dignity of Enrope and impaired the force of its collective system. A copy of Bismarck's note was communicated to Earl Derby.

BELGRALE, Jan. 12.—The Turks attacked Raistz on Tuesday; 210 men were killed and wounded. They attacked Negotin, but were repulsed. The Tuaks also have burned two villages in the Marne Valley.

LONDON, Jan. 12.—The *Pall Mall Gazette* expresses the belief that Germany's action is a fresh indication of Bismarck's desire to see Russia at war and the Russian Empire shaken or destroyed.

LONDON, Jan. 9.—The "Times" in an editorial on Indian affairs says: "The government of India admits that it has a task before it exceeding in many respects that in Bengal in 1874. The area of the present famine district is greater. It spreads into two presidences and crosses the Deccan. The population affected is far greater. There are doubtless mitigating circumstances which must not be overlooked. If the population is greater, it is not collected in such dense masses as the famine-stricken people of 1874, and we may still hope that there is not near such absolnte dearth of food as then. Upon this point the evidence is still imperfect, but a small fraction of the harvest must have been saved; unless the reports of the locul officers are too favorable. It is something also to know that the experience of 1874 is not forgotten, and will guide the Indian government in the present situation."

CONSTANTINOPLE, Jan. 12.—The European plenipotentiaries, at a meeting held at the Russian embassy, decided to make their last communication to the Ottomar delegates on Monday, and demand a cetegorical reply. The Conference will meet again on Thursday to receive the reply. If the Turks persist in their refusal, all the members of the Conference will quit Constantinople on Friday. It is said the Sultan has resolved, if no agreement is reached, to recommence hostilities against Servia and Montenegro, March, 1st.

LONDON, Jan. 13.—All the correspondents of the London papers consider the failure of the Conference probable. The attitude of the Turks is unyielding.

UNITED STATES.

NEW YORK, Jan. 13.—The frigate "Svetlana," flagship, of the Russian squadron, arrived at Hampton Roads on Friday, having on board the Grand Duke Alexis and Admiral Bentajofl. The remaining ships of the squadron are expected to-day.

NEW YORK, Jan. 14.—James Gordon Bennett, who has been concealed on board the *Herald* steam yacht during the past few days, boarded the Steamer *City of Richmond*, bound for Liverpool, off Sandy Hook, yesterday.

The Steamer *Montezuma* has been burned on the Honduras coast by her Cuban captors, who escaped. The Spaniards on board were saved by a Spanish man-of-war which was in pursuit.

At St. Catherine,s, Ont., the Welland Vale Manufacturing Company's works were burned; loss $120,000.

CANADA.

WINNIPEG, Man., Jan. 8.—The Legislature meets on the 30th inst.

The Dominion Government has declined accepting the services of the recently enrolled volunteer compahies, giving as a reason the want of funds.

Small-pox is moving steadily southward; there is eot a single uninfected house in Gimile. It has also broken out at Big-Island, where 150 Icelanders and Indians live. The three surveying parties are quarantined.

☞ The New York *Times* gives the reasons why Vanderbilt cut off some daughters with a mere life interest in the bequests. He had lent to a son of Mrs. Allen $100,000 which the latter never paid, consequently Mrs. Allen only gets the life interest of $400,000. Cornelius J. Vanderbilt's receiving only a life interest is explained on tne gtound that the legatee had already anticipated his partimony.

WANTED.

WE WANT reliable, energetic canvasing agents in every town in the Dominion for the new "Illustrated History of the Dominion of Canada." This work is truly magnificent, containing over 2,000 double column quarto pages, and over 300 superb full page engravings. The work is published in Parts, on a plan which insures its welcome to every English reading family. To energetic young men or ladies, who are willing to work, we will guarantee a permanent position for two years, and GOOD PAY! Don't fail to write for our private terms, sample pages, etc. This is a grand opportunity for school teachers to make more than double their salaries without interfering with their professional duties. The work is being manufactured at a cost of over $20,000 for the literary, artistic and mechanical work of producing the plates, by the old well-known, reliable Lovell Printing and Publishing Co., of Montreal. All letters from agents must be addressed to the Publishers general agents as follows:—

☞ Few persons are aware that veritable Egyptian mummies are ground up into paint. But in this country and in Europe mummies are used for this purpose—the asphaltum with which they are impregnated being of a quality superior to that which can elsewhere be obtained, and producing a peculiar brownish tint when made into paint, which is prized by distinguished artists both of this and other countries. The ancient Egyptians, when they put away their dead, wrapped in clothes saturated with asphaltum, builded, as it were, better than they knew, and could never have realized the fact that ages after they had been laid in the tombs and pyramids along the Nile, their dust would be used in painting pictures in a world then undiscovered, and by artists whose languages were then unknown.
