Wheat Gradually Sags Lower Under Profit-Taking Selling

Chicago Market Turns Easier After the Three Days' Advance—Corn and Oats Show Small Declines.

CHICAGO, Oct. 14.—Prospects of another big increase of the visible supply made the wheat market to-day turn weak. The close was 1-8c to 1-4c and 3-8c under last night. Corn declined 3-8c to 1-2c and 1-2c net, and oats 1-8c to 1-4c. The end of the day left provisions varying from unchanged figures to 5c advance.

Receipts of wheat were large, not only in the United States but also across the Canadian lines. Arrivals for the week at primary points reached more than 3,000,000 bushels in excess of the total a year ago. Furthermore, it was shown that the European crop had proven to be the third largest on record, and not a great way below the bumper yield of 1909. Under such conditions the importance of the shortage in Russia was minimized to an extent that only a short time before would have seemed out of the question.

Bulls Discouraged.

The bulls were still more discouraged by learning that cash sales here had not amounted to nearly as generous an aggregate as most traders believed, and that the transactions were not chiefly in the soft winter grade. In consequence the market at no time developed any sign of being elastic and the close was at almost the lowest level of the day. December, during the session, fluctuated from 98 7-8c to 99 1-8c and 99 1-4c, with last sales 98 7-8c, a net loss of 3-8c.

Official predictions of fair weather led many longs to reduce their holdings of corn. Weakness ensued as there was but little short interest to absorb the offerings. December ranged from 64 1-8c to 64 3-4c, closing 1-2c net lower at 64 1-8c and 64 1-4c. Cash grades were only in fair demand.

Oats Steadier.

Oats ruled a trifle steadier than other grain. The reason appeared to be firmness in the cash market. Top and bottom figures for December were 47 7-8c and 48c, and 47 5-8c, with the close 1-4c off at 47 5-8c.

Provisions trailed up with hogs. At the close prices were 2 1-2c to 5c dearer, and the remainder of the list either unchanged or at an advance of not to exceed a nickel.

Northwest Receipts.

Receipts of wheat in cars at primary centres were as follows:

	To-day.	Week ago.	Year ago.
Chicago	..	45	..
Duluth	220	461	90
Minneapolis	185	364	367
Winnipeg	779	541	890

European Markets.

The Liverpool market closed to-day ⅛d higher to ¼d lower than yesterday on wheat, and ⅛d to ¼d lower on corn. Berlin wheat closed ⅝c higher, Budapest ⅝c lower.

Winnipeg Inspection.

Winnipeg receipts of wheat to-day graded as follows: No. 1 northern, 82 cars; No. 2 northern, 151; No. 3 northern, 210; No. 4 northern, 135; No. 5 northern, 51; No. 6 northern, 41; feed, 15; rejected, 29; no grade, 81; winter wheat, 18. Oats receipts were 71 cars; barley, 28; flax, 43.

Liverpool Wheat Market.

LIVERPOOL, Oct. 14.—There was a steady undertone at opening, and values were barely ⅛d higher, and, following the opening, there was a decline of ⅛d to ¼d, with selling to realize. The firmness in Winnipeg at the close yesterday, and the firmness of Australian and Plate offerings, together with expected lighter American shipments this week, as shown by Bradstreet's, were offset here by a forecast of liberal shipments to the United Kingdom and a quiet demand for spot, and less demand for both cargoes and parcels. Advices from Argentine are favorable, with the weather warmer, and this was reflected in the comparative heaviness in the distant months here. At the close the market was dull, ⅛d higher to ¼d lower than yesterday.

European Wheat Crop.

Wheat.—The department of agriculture makes Europe's wheat crop this year the third largest on record, with a total of 1,716,905,000 bushels, against 1,747,597,000 last year, and 1,763,309,000 bushels in 1909, which was the bumper year.

ST. LAWRENCE MARKET.

Receipts of farm produce were 500 bushels of grain, 12 loads of hay, very many loads of mixed produce in the north building, with a plentiful supply of butter and poultry, but only a moderate supply of eggs, on the basket market. Trade was brisk for good quality in all lines of produce, but not as good for poor quality stuff.

Wheat—Two hundred bushels sold at 87c to 88c per bushel.

Barley—Two hundred bushels sold at 80c to 90c per bushel.

Oats—One hundred bushels sold at 48c to 50c.

Hay—Ten loads sold at $18 to $21 per ton.

Potatoes—Prices ranged from $1 to $1.25 per bag, delivered.

Apples—A plentiful supply sold at $1.50 to $2.50 per barrel, and 20c to 30c per basket. Choice shows are worth $4 per barrel.

Poultry—A plentiful supply of poultry, but generally of poor quality. Farmers will find it to their advantage to finish and feed their poultry better. Some few choice chickens sold at 17c to 18c, but the bulk went at 14c to 15c per lb.; ducks, choice, brought 18c, but were scarce, the bulk going at 14c to 16c per lb.; geese sold at 13c to 15c, but only choice quality, of which there were only about half a dozen, brought the latter price; turkeys, young and of choice quality, sold at 25c per lb., but there were few of them, and more would have sold.

Butter—Prices for good butter were firm at 28c to 32c, the bulk going at 30c per lb.

Eggs—A fair supply of so-called new-laid eggs sold at firm prices, ranging from 35c to 40c; few, however, brought the latter price, 35c being the ruling figure. Probably 10 dozen on the whole market got 40c per dozen, and they were bought for invalid purposes, by special customers.

There are many lots of mixed eggs being sold on the market as strictly new-laid, but very few fresh and many old and stale are in the make-up.

We were told by those who know, that Davies' case eggs, that cost 26c per dozen, were being sold by so-called farmers at 35c per dozen.

Market Notes.

Brown Bros. bought some choice turkeys, geese, ducks and chickens and would have bought more could they have got them.

Messrs. A. Thompson, John Barron, J. M. Paterson and J. Tomalin were all looking for choice quality fowl of all kinds, but could not get enough of the right kind.

CHURCH SHOULD HELP METHODIST EMIGRANTS

Sir Robert Perks Deplores Lack of Agency to Secure Work For Members of Flock.

Sir Robert Perks, who preached in the Metropolitan Church last night on "Methodist Brotherhood," was of the opinion that the church of John Wesley, tho it had accomplished much in the past, had still vast undeveloped fields which demanded the united efforts of Methodism, and if the church was to cope with present day problems it must have at its command modern and adequate machinery.

The preacher pointed to the vast forces which Methodism had for regenerating society. In the past the church had accomplished great things; it had dealt with and solved great industrial and social problems before governments were able to grasp the situations. No political organization had such forces, and all that was needed was concentrated effort which could and would come with a more organic federation of Methodism.

The baronet showed that one of the greatest problems which demanded the church's attention was emigration. Emigrants were pouring into this country, many of whom were identified with the Methodist church at home, but no adequate organization was available to introduce them into the churches here. Since coming here, he had learned of many Methodist employers who would be willing to have efficient workmen of their own church, but no agency existed which could supply these workmen. The emigration problem, he believed, was a problem of the church, which, if successfully solved, would be a benefit to Methodism as well as to the emigrant and to the country.

Such a great organization as the Methodist church could, he believed, create a treasury from which loans might be made to needy members and emigrants. This was a practical problem, and the Methodist church was a practical church, so the idea was a feasible one. John Wesley had created such an enterprise which had worked out successfully, and there was no reason why the plan could not be worked to-day.

In conclusion, the pastor told the congregation that Methodism must solve the present day problems as they had solved the problems of the past. In earlier times the church was to be thanked for its work in securing many social and economical reforms, but to-day new conditions demanded new avenues of activities, and Methodism must not be found lacking in enterprise.

THEIR BAPTISM OF FIRE

Italian Troops Behaved Like Veterans in First Engagement.

ROME, via the Frontier, Oct. 15.—News of the attack of the Turkish infantry upon the Italian outposts at Tripoli yesterday has been received with great interest because it was the Italian soldiers' baptism of fire after fifteen years of peace. Official advices say that the young soldiers behaved like veterans and that they were with difficulty prevented from pursuing the enemy. The officers, however, feared a trap in the darkness and would permit no pursuit. They captured a field gun and a large amount of ammunition and lost no men.

Wounded Turks, who are now being cared for in the Italian hospital tents, say that conditions under Munhir Pasha are the cause of much dissatisfaction. The Turkish supplies are short and there are about 200 wounded soldiers in the Turkish encampment.

It is expected that the last twenty transports with the expeditionary force aboard will arrive at Tripoli late to-night. This expedition includes 15,000 men, members of the general staff, 200 carabineers to reinforce the gendarmerie, seven aeroplanes, chaplains' automobile vans, constructed for work in the desert, and a large sum of money. A hospital ship is with the transports. It is capable of accommodating 250 patients, and is under the charge of Prince Colonna, ex-mayor of Rome.

Blaze in House.

While William T. Fork and his wife, 131 Argyle-street, were at church last evening their residence caught fire and had it not been for William Smith, 123 Dovercourt-road, noticing the reflection on the ceiling of the second storey and ringing in an alarm, considerable damage would probably have been the result. As it was a hundred dollars will replace the burned furniture and repair the house.

Waldensian Aid Society.

The following officers were elected at a meeting in St. James-square Presbyterian Church, to serve for one year on the Waldensian Aid Society: Hon. president, Ven. Archdeacon Cody; president, Rev. George Fasken, St. Paul's Presbyterian Church; first vice-president, Miss Knox, Havergal College; second vice-president, Rev. James Faulds, St. James-square Presbyterian Church; secretary, Mrs. D. Abbott; treasurer, John C. Bost, Imperial Life Insurance Co. On the board of advisors are: Rev. Dr. Gilray, Dr. Harley Smith, Italian consul; F. W. Moffatt, Weston, Ont.; Rev. James Pedley, Rev. McKetrel, Mr. Basso.

The society has undertaken the support of the second Waldensian Church of Florence. There was a good attendance.

Hotelman Was Honored.

A pleasant event took place Saturday evening in the parlors of the Vendome Hotel, when the employes took the opportunity of expressing to Mr. I. C. and Mrs. Brady, who are retiring, their good wishes towards themselves and family, by presenting to Mr. Brady a handsome golden oak desk, to Mrs. Brady a bouquet of flowers. Miss Wood also presented Mrs. Brady with a statue. Bright speeches and good music, followed by an auto ride thru the city, added to the evening's pleasure.

At the British Welcome League.

A large number of emigrants listened to a talk at the British Welcome League last night by Rev. E. E. Beecroft of Auckland, New Zealand, one of the delegates at the Ecumenical Conference. The newcomers were told of the difficulties they would have to encounter and given some excellent advice as to how they should solve their problems.

Mrs. Walter Johnston of London, Eng., told of her work in the slums of London, and her many experiences were novel and interesting.

CYCLONE IN INDIANA.

INDIANAPOLIS, Ind., Oct. 15.—A cyclone which struck Ben Davis, a village near here, to-night, wrecked 13 homes and stores, injured four persons, one probably fatally, and caused damage estimated at $50,000. Residents had noticed the approach of the funnel-shaped cloud and most of them sought refuge in cellars. Houses were blown from their foundations and one residence was picked up, carried nearly 200 feet and hurled into the side of a brick building. Nearly every building in the town was damaged. Pearl Roberts, 15 years old, who was caught under the debris, was injured internally and probably will die.
