HIGH SCHOOL CADET CORPS.

How the Government Proposes to Encourage the Patriotism of Collegiate Pupils.

The Education Department has entered into partnership with the Department of Militia and Defence and proposes to bonus High Schools and Collegiate Institutes that will establish a class in soldiering. The idea is to form a high school cadet corps, and to this end regulations have been issued offering a grant of $30 to any High School or Collegiate that will keep up and pass inspections a drill class of not less than 25 boys over 16 years of age. Rifles and bayonets will be supplied by the Department upon the trustee boards becoming sureties for them, and providing armouries. A forage cap would be the only essential uniform. If full uniform be adopted it must not be of a pattern worn by cadets or soldiers in foreign countries.

The drill, which would be rudimentary, must be taught by a regular meeting of the teaching staff. A special course of inspection will be provided for teachers.

LIST, YE LANDSMEN!

Objects of the Navy League—Proceedings at the Annual Meeting—Pacific Coast Defences.

Judging by the various reports and endorsations presented at the annual meeting of the Toronto branch of the Navy League, great things may be expected of this in future.

The work of the league has been heartily endorsed in all parts of Great Britain, by Rear Admiral Lord Charles Beresford, and Sir John Hopkins, Admiral-in-Chief of the Mediterranean Fleet.

After the secretary's and financial report had been adopted, general business was transacted, the league agreeing that their annual fee should be $2, as associate members of the home league.

Its Objects.

There will also be presented leaflets setting forth the objects of the Navy League in Canada, which are:

1. To bring home to Canadians a sense of dependence and interest in the naval strength of the Empire.

2. To press upon public attention the need for Canadian naval defence forces.

3. To show how Canada can best help the Royal Navy in time of war.

4. As "knowledge is power," so a want of it is a weakness; this league seeks to remedy prevailing lack of information on naval matters by distributing literature on subjects through members and the public press and by permitting the teaching of naval history in the schools.

The secretary stated that at an informal meeting in the Canadian Military Institute, a discussion was held as to the advisability of forming two branches of artillery, and a strong committee on this had been formed to obtain necessary information.

It was unanimously agreed to continue with the same officers as last year.

A committee was formed, with power to add to its numbers, composed of Messrs. Kingsmill, Hamilton, Capts. Law and McLean.

The secretary expects a large increase of membership including a number from the R. C. Y. C., who will add strength to the branch.

To Encourage Enrolment.

The secretary presented the following resolution, designed to remove a restriction preventing Canadian seamen from enrolling in the Imperial Navy Reserve, which in part, was: That the sailors and fishermen of the Dominion of Canada form excellent material from which to recruit men for the Royal Navy Reserve, that the old law restricting enrolment should be amended to permit of the enlistment of the above, and that for the purpose of enrolling and drilling Canadians for the Royal Navy Reserve, at least two modern, sea-going cruisers should be permanently stationed on the Pacific coasts of the Dominion, upon payment to the Home authorities from the Dominion of a certain sum.

It was resolved to forward copies of this to all the Ministers.

At the conclusion of the business a very hearty vote of thanks was extended to the hon. secretary, H. J. Wickham, for his arduous work in the face of great difficulties. Mr. Wickham made a suitable reply.

Death of Col. Dyer.

London, March 21.—Col. Dyer, who was a representative of the employers during the recent engineers' strike, a member of the Armstrong-Whitworth firm, is dead.

WORD FROM THE WEST.

West Toronto Solid for Doan's Kidney Pills,

Mr. Chas. Browning, 18 Clinton-Street, Says They Cured Him of Backache and Urinary Troubles.

There never was such a tribute of praise accorded any remedy in any city as is being given Doan's Kidney Pills in the Queen City at the present time.

From all quarters the testimony comes. Not long ago Maxwell Johnston, the printer, 14 Adelaide-street west, told under oath how Doan's Kidney Pills saved him from death after the best city doctors pronounced his case a hopeless one!

Mr. B. Cates, of Cates & Son, decorators, 392 Wilton-avenue, told how he was cured of Gravel with 3 boxes of Doan's Kidney Pills. Mr. Richard Slee, 762 Yonge-street, was cured two years ago of Rheumatism of 20 years standing, and has not had a twinge of pain since. Hundreds of others have been cured by these conquerors of kidney ills, and are coming forward and gladly giving their testimony.

Mr. Chas. Browning, who lives at 18 Clinton-street, is one of these. For more than a year he had been troubled with terrible pains in his back. When he stooped down he found it hard to rise up again. His urine was a dirty, brick color, and scalded when voiding.

"One box of Doan's Kidney Pills completely cured me of my urinary troubles," said he, "and gave me relief from the pain in my back. Doan's Kidney Pills have proved themselves to be a splendid medicine for me, and I must give credit where credit is due."

Doan's Kidney Pills never fail in the worst cases of Bright's Disease, Diabetes, Dropsy, Backache, Rheumatism, Lumbago, Gravel, Sediment in the Urine or Scalding, or any disorder of the kidneys, bladder or urinary organs. Sold by all druggists, or sent by mail on receipt of price, 50c a box, or 3 for $1.25. The Doan Kidney Pill Co., Toronto, Ont.

Remember the name, Doan's, and refuse all others.

TORONTO'S INDUSTRIAL FAIR

French Manufacturers Want Large Amount of Space and Extended Time for Their Special Exhibits.

M. Ravul Soulay, 13 Boulevard Exelmaus, Paris, France, introduced to Mayor Shaw by Manager H. J. Hill of the Exhibition, applied on behalf of a number of French manufacturers for a floor space of 4000 square feet in which to show exhibits of the finer French manufactures. He proposed to fill this space providing the city make it worth his while by allowing him to continue to occupy the space and charge a nominal admittance fee for some six or eight weeks after the close of the Exhibition. M. Soulay is commissioned to urge that the usual two weeks' exhibition would not repay his countrymen for expenses of transportation and customs. The Exhibition management favor granting the petition.

BETTER CAR SERVICE.

Toronto Railway Company, in Compliance With Civic Request, Gives an Improved Schedule.

Some days ago His Worship Mayor Shaw, Controller Burns, City Solicitor Caswell and the City Engineer conferred with respect to some requisition to enforce the Street Railway Company to put on better accommodation during the hours of congested traffic. The following recommendation was hatched from the conference:

That the Toronto Railway Company be directed to increase their service on the undermentioned routes according to the following schedule: Yonge-street, going north between 5.30 and 6.30 p.m., cars to run at intervals of not more than 2½ minutes.

Belt Line, up Spadina, from 5.30 to 6.30, at intervals of not more than 4 minutes.

Bathurst-street, from 6 to 6.30, at intervals of not more than 6 minutes.

Carlton and College, going west, 5.30 to 6.30, at intervals of not more than 8 minutes.

Winchester-street, 5.45 to 6.30, at intervals of not more than 6 minutes.

Queen and Dundas and Queen-street, from 5.30 to 6.30, at intervals of not more than 6 minutes.

In addition, trailers to be attached to all motors, except the double-truck cars on Yonge-street.

For the remainder of the day the cars on the above routes to be run as set forth in the time-table prepared by the Toronto Railway Company, dated February, 1898.

AT THE POLICE COURT.

The eight Italian tile layers who worked in the new building at King and Yonge-streets, last Sunday, were each fined $2 for breach of the Lord's Day Act.

Frank Gamble, William Lemon, William Laughlin and Edward Smith, caught trespassing on a Grand Trunk Railway car, were each fined $1 and costs or three days.

Henry Lemon was acquitted of a charge of stealing a picture from Anderson & Lemon.

For disorderly conduct on King-street east early on Saturday morning, John Baldon was fined $2 and costs or 5 days.

The charge of criminal assault against W. J. Laughlin was withdrawn.

Nellie Burke, the St. Nicholas-street woman who is alleged to have fraudulently obtained money from several citizens for a charitable cause, was remanded till Friday.

CITY HALL NOTES.

Manager Hill of the Industrial Exhibition Association is now asking the Mayor to have the $30,000 overdraft guaranteed the Imperial Bank by the city recognized as an encumbrance on the association's property, in order that it may be re-leased free of all encumbrance.

Mayor Shaw will leave for Niagara today. It is understood that his visit has some connection with an important industry which he is striving to get for the city.

Ald. Score will in all probability be re-elected to the chair of Parks and Exhibitions to-day.

Presbyterian Church Funds.

The fiscal year of the Presbyterian Church in Canada now terminates on March 31. Heretofore the year has run from May 1 to April 30, but by action of the last General Assembly in Winnipeg the change was made, so that it now runs from April 1 to March 31. Only eleven months, therefore, are included in the present year. At the Presbyterian offices in Toronto vigorous efforts are being made with a view, if possible, to secure the twelve months revenue in these eleven months, more especially because of the fact that full twelve months expenditure will be included in the year in connection with the work of nearly every mission. The receipts thus far have been most encouraging, and if the congregations that have not yet reported forward their contributions before the end of the month, the revenue will probably be the largest in the history of the church. The action of the Home Mission Committee, in being the first to send in missionaries to the new Yukon Territory, has been highly appreciated, and already nearly $5000 has been specially contributed for the purpose of carrying on the work there. The debt on the Foreign Mission Fund reported to last Assembly has been very greatly reduced, and will, in all probability, be nearly wiped out within the next ten days. Some anxiety is felt regarding the Fund for Augmentation of Ministers' Stipends, as well as some of the other funds. It is hoped, however, that before the 31st inst. the contributions received may go far toward putting these in a satisfactory position. The books of the treasurer, the Rev. Dr. Robert H. Warden, Toronto, close promptly on the evening of that day.

Action for Slander.

The suit of James Jackson against P. Boylon for unstated damages for slander was commenced yesterday afternoon at the Assizes. The trouble arises out of the disappearance from the Russell House, Weston, of a horse and rig, loaded with beef, and the subsequent issuing of a search warrant. Mr. T. J. Lee appears for the plaintiff, and H. E. Irwin for the defendant. The case was not finished when the court rose.

All for Want of a Quorum.

At the meeting of the Public School Board, held on Thursday evening last, the board adjourned for want of a quorum, and the supply committee's report had to be left over. The report includes several small accounts for carpenter work done in a number of schools, and these men will now have to wait till after the next meeting on March 7 for their money. The tenders for supplies are also in this report.

Dyspepsia and Indigestion—C. W. Snow & Co., Syracuse, N. Y., writes: "Please send us ten gross of Pills. We are selling more of Parmalee's Pills than any other pill we keep. They have a great reputation for the cure of Dyspepsia and Liver Complaint." Mr. Charles A. Smith, Lindsay, writes: "Parmalee's Pills are an excellent medicine. My sister has been troubled with severe headache, but these pills have cured her." ed

NEWS FROM THE KOOTENAY

Representation of the District in the Provincial Legislature.

John Kirkup Promoted—Health Measures in Mining Camps—Spokane Smelter—Silver Lead Properties Sold—More Discoveries of Gold in the Yukon Region.

Easterners interested in the West Kootenay mining country will be glad to learn that that section of British Columbia is to have five representatives in the Provincial Legislature. It is understood that the Government, in its plan of re-distribution, will divide West Kootenay into the following divisions: (1) The Trail Creek electoral district to consist of the towns of Rossland and Trail, and the Trail and Kettle River mining divisions. (2) The Nelson electoral district to include the Nelson and Goat River mining divisions. (3) The Kaslo electoral district to include the city of Kaslo, the towns of Ainsworth and Pilot Bay and the Ainsworth mining division. (4) The Slocan electoral district to include the Slocan mining division. (5) The Revelstoke electoral district to include what is now comprised in the Revelstoke, Illecillewaet and Trout Lake electoral divisions.

Mining Camp Sewerage.

As a result of visits to Victoria by deputations from different parts of the province, the Government has decided to appoint a sanitary engineer on the Provincial Board of Health, who will visit the different mining localities and report on and aid in the introduction of systems of sewerage that will meet the requirements of the different municipalities and camps. The purifying tank system which has been experimented satisfactorily with at Victoria, is favored by the Government. Rossland is likely shortly to take advantage of the assistance that the Government engineer so appointed may furnish.

John Kirkup Promoted.

Mr. John Kirkup, who for so long as keeper of the peace in Rossland Camp caused that settlement to be famed far and wide for its orderliness, and who has been provincial police officer and recorder for the Trail Creek division since 1895, is to be promoted to the position of gold commissioner for Trail Creek. Mr. Kirkup is an old Ontario boy, having been born near Ottawa in 1855. The Provincial Government, it is said, will appoint Mr. Thomas Reed of Lillooet mining recorder for the district of Bridge River.

Smelter for Spokane.

According to The Spokane Chronicle, an Eastern syndicate, consisting chiefly of Boston capitalists, is making an investigation with the view of erecting a new smelter at that town. The promoters expect to get considerable custom from the Trail Creek, Nelson, Ainsworth and Slocan mining districts of British Columbia.

Slocan Mines Sold.

It is stated that Capt. N. D. Moore of Spokane and his associates have sold the Idaho, Alamo and Cumberland mines, and the concentrator at Three Forks on Carpenter Creek, between New Denver and Sandon to the Scottish Colonial Gold Fields Company.

ANOTHER KLONDIKE.

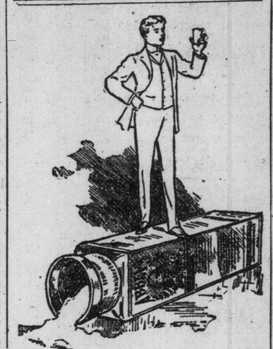
Rosebud Creek, a Tributary to the Yukon River, Also Full of Gold.

F. Nichols of Maple Creek, N.W.T., has arrived at Vancouver, B.C., from Dawson City, and gives The Times an account of the discovery of fresh gold deposits in the Yukon.

He brings news of an exceedingly rich strike on Rosebud Creek, a newly discovered gold producer, and tells of the enormous stampede from all directions to that creek. Rosebud is a tributary of the Yukon, joining that river about four miles above Sixty Mile, and about 53 miles this side of Dawson. It is on the same side of the river as the Klondike, and from all reports promises to be equally as rich as that now famous river and its tributaries. Rosebud Creek was discovered by some prospectors who were bound out on Jan. 5 last. They were passing down the Yukon banks trying the dirt in places, and at length their tests showed color. On burning some gravel at the mouth of the Rosebud they found gold going from $4 to $10 to the pan, and on exploring the creek found that it was richly gilded all the way up. The news was brought to Dawson towards the end of January, and soon the trail down was alive with men night and day. It is estimated that over 500 Dawsonians joined in the stampede. Mr. Nichols being one of those. He, however, is not a miner—he took in cattle last summer—and not caring to change his vocation, came right out, intending to go in again as soon as possible with 200 head of cattle. Rosebud Creek, at its mouth, is now covered with tents, and soon a new city will spring into existence there, for many of the miners, having faith in the richness of that creek, are preparing to erect cabins.

Rainy Lake Herald.

Mr. J. A. Osborne, late city editor of The Miner, and formerly of The News, has purchased The Rainy Lake Herald, now located at Rainy Lake City, Minn., of Fred. J. Bowman, editor of The Miner, and will take possession about April 1. It is possible that Mr. Osborne may move the paper and plant to Koochiching, provided he receives proper encouragement. Mr. Osborne is also interested in immigration to the Rainy River farm lands, and his new property will put him in a position to help populate the region all the faster. Koochiching is in Minnesota, across the river from Fort Frances.



THE FOUNDATION OF HEALTH.

Without health life is not worth the living.

Health is so easy to lose, and so hard to regain, that its preservation should be the first consideration of all.

Neglect of the many disorders of the system often leads to the loss of health. They who lose health lose their usefulness in this world of work.

Abbey's Effervescent Salt

is the retainer—the regainer—the foundation of health. It helps nature to build up the system that neglect has broken down.

Abbey's Effervescent Salt is a well know and much appreciated medicine in England. It is new to Canadians but is rapidly gaining converts here.

Many prominent physicians in England testify to its preventative and curative qualities in cases of Sleeplessness, Spleen Affections, Loss of Appetite, Nervous Depression, Biliousness, Indigestion, Sick Headache, Sea Sickness, Constipation, Flatulency, Fever, Rheumatism, La Grippe, Neuralgia, Gout, Skin and Kidney complaints.

All druggists sell this great English preparation.

Price 2/6 or 60 cts. a bottle.

THE ABBEY EFFERVESCENT CALT CO., LIMITED, MONTREAL, CANADA.

THE DERELICT LITHOPHONE.

Drifted for Eight Days on Lake Ontario—In Dilapidated Plight Brought Back.

The Lithophone, which broke away from her moorings at Port Credit on March 13, and which, for eight days, has been drifting about Lake Ontario, was sighted on Monday off Port Dalhousie, and brought back to the Credit by the fishing tug Nellie Bly. The Lithophone had fared badly in the storm of the 13th. Her bulwarks were torn off, the upper cabin deck was washed away and the stern was delved in. The usual varying winds of the past week can alone account for the ship not drifting ashore.

Y.M.C.A. Conversat.

One of the many interesting features of the Y.M.C.A. conversazione to-morrow night will be a picture lecture by Frank Yeigh, on the "Gold Fields of Ontario, British Columbia and the Yukon," illustrated with scores of fine scenic views. The big exhibit in the gymnasium of '98 wheels by all the local dealers will also attract many.

Prize Poster Competition.

The designs for the prize poster competition of the Military Tournament and Horse Show are commencing to be sent in to the manager, Mr. Stewart Houston, and the artists are taking great interest in the contest. The combination of the two events, military and equine, affords wide scope for artistic ideas. The attention of artists is drawn to the fact that designs in three or four colors will be preferred. Friday next is the last day for sending in designes.

NEW MANHOOD

To you, my friend, young or old, if suffering the results of youthful folly, such as DRAINS, NIGHT LOSSES, IMPOTENCY, LAME BACK, VARICOCELE, etc., take the advice of my 30 years' experience.

DON'T USE DRUGS

when you can get nature's own simple remedy, the very essence of life itself—ELECTRICITY. The DR. SANDEN ELECTRIC BELT for weak men is known the world over. I am the inventor. With it last year I restored manly vigor to 5000 sufferers. Little book, explaining all, sent sealed free upon request, or drop in and consult me free of charge.

DR. C. T. SANDEN,

140 YONGE STREET, TORONTO.

Broker, London.

Dundee - - - - 1500

Very Special.

Mr. Charles Parkes, M.E., reports that there is a great deal of activity in the vicinity of Ymir. The Dundee property is looking exceptionally well. The shaft is now down a distance of 260 feet, and in its bottom is a 10-foot sump. At the 250-foot level a drift has been started, which is in about 20 feet. They will run this drift 100 feet, when stoping will be started. The ore encountered is of high grade shipping.

PARKER & CO.,
61 Victoria Street, Toronto.
